1ST BN, 4TH MARINES SITREP NUMBER 271 AS OF 011600H FEBRUARY 1966

1. Unit Action With Contact:

a. At 311707H, two squads of Company D positioned at the base of Hill 69 (BT 465073) received orders from the Battalion CP to move out to the area (BT 450089) in response to information of a VC roadblock on Highway #1. Tanks were standing by also, and a combined armor/infantry force moved to the scene. Six VCS were apprehended at the scene of the roadblock and were returned to the Battalion CP forward (BT 465073).

b. At 312100H, D-1 Red, a squad size ambush of Company D, detected movement at (BT 467064). Illumination was requested and received from the Howtars on Hill 69. D-1 received two incoming grenades one of which was a dud. These two were followed almost immediately by a third grenade which exploded in the same area. The estimated origin of these grenades was (BT 467064). Automatic weapons fire was directed into the suspected enemy area. Four people were observed to be moving away from the immediate area. The D-1 squad leader fired their claymore and no more movement was seen. Immediately following the action approximately 20-25 rounds were received in the ambush area from the same vicinity as the grenades. Approximately eight to ten grenades were exchanged between the enemy and friendly forces; however only two went off. D-1 returned a heavy volume of automatic and semi-automatic weapons fire. Approximately 1450 rounds were expended. The VC broke contact but were still able to fire 6-8 rounds of small arms fire as D-1 withdrew from their compromised ambush site. D-1 returned to the Company CP and two squads reinforced with one machine gun section and a section of 3.5 rocket launchers was dispatched to the area to search for VC bodies and swept with the hope of reengaging the enemy. No further action was reported.

c. Company D conducted a company (-) sweep commencing at 010700H and returned at approximately 011500H. The first contact came at 1023H when the sweeping force at (BT 430084) received sporadic small arms fire from (BT 428088). No fire was returned. At 1033H 2-4 rounds of S/A fire were received from the same coordinates; two M-79 and 4-5 small arms rounds were returned. Again at 1045H 6-7 S/A rounds were received. Return fire directed at (BT 424090) consisted of one 3.5 round, 20 rounds of S/A and 3 M-79 rounds. When fired upon again at 1050H from the same coordinates, the sweeping force returned one 3.5 round, four rounds of 60mm mortar fire and 4-5 rounds of small arms. At 1100H one VC in the open, possibly a sentinal for a VC ambush, was spotted at (BT 416091). The Company D FO contacted IVAN 8" Battery which fired for effect at 1126H. Surveillance indicated one VC KIA (3 rounds landed on top of VC sentinels hiding place).

1. Unit Action With Contact.

a. At 020130H, a Company B squad patrol apprehended two curfew violators at (BT 515155). The two curfew violators were turned over to the Village Chief for disposition the following morning.

b. At 020915H, a Company A platoon patrol in the vicinity of (BT 445025) received approximately eight rounds of S/A's fire from (BT 438024). Five to ten VC were observed running west from THANH MY TRUNG (1) Hamlet. S/A fire was returned by the patrol but no casualties were observed.

c. At 021000H, a Company A platoon patrol in conjunction with a PF squad apprehended a VCS at (BT 438023). The VCS was turned over to Chu Lai Collection Point.

d. At 021115H, a Company D platoon patrol located at (BT 456080) received one S/A round from (BT 445082). The patrol returned 10 S/A rounds and advanced toward the origin of the firing where the patrol picked up one VCS. The VCS was turned over to Chu Lai Collection Point.

2. Miscellaneous.

a. PF Training. The only PF training conducted during this period was combined PF/USMC patrols and ambushes. The one problem encountered was the language barrier. This did not appreciably detract from the overall cooperation and progress of the PF platoon which was considered good.

1. Unit Action with Contact.

a. At 0[illegible]15H, a fire team listening post from Company B vicinity ([illegible]00130) apprehended 13 curfew violators. At 030205H four curfew violators and at 030250H two more curfew violators were apprehended. All curfew violators were turned over to the Village Chief for disposition.

b. At 030203H, Company A in their defensive positions received two incoming hand grenades, vicinity (BT 514063). Area was illuminated, however, nothing was observed. Area was searched with negative results.

c. At 030330H, a fire team patrol from Company C activated a booby trap consisting of two M-26 hand grenades placed on each side of the trail with a trip wire connecting the two. When the wire was tripped only one of the grenades was activated which was a dud. The wire broke and the pin from the second grenade was not pulled. EOD team was dispatched and destroyed the grenades the next morning.

d. At 031115H, a platoon from Company D vicinity (BT 444055) received S/A fire from vicinity (BT 4[illegible]053). Fire was returned and VC broke contact and fled the area before the platoon could close and destroy.

2. Plans.

a. On 5 February a two Company search and destroy operation will be conducted on KY KHUONG Peninsula vicinity (BT 4410). The duration of the operation will be for one day.

1. Unit Action With Contact.

a. At 080956H a Company A squad sized USMC/PF patrol vicinity (BT 451053) observed an undetermined number of VC vicinity (BT 445046). The squad leader stated the VC (identified by the PF's) were running away from them when observed. There were rice paddies with civilians between the USMC/PF patrol and the VC. The presence of civilians and the distance from the USMC/PF patrol to the VC, precluded taking the VC under fire or physical pursuit.

1. Unit Action With Contact.

a. At 082330H a three man Company B outpost vicinity (BT 517118) received four rounds incoming small arms fire from vicinity (BT 514119), one Marine WIA. The Marine that was hit returned fire with two rounds. The WIA was evacuated to B Med. A squad from Company B was dispatched to sweep the area from vicinity (BT 508112-BT 513119) in a northerly direction. At 090045H patrol heard one round fired from vicinity (BT 511126). Sweep of area produced negative contact.

b. At 090927H a squad sized patrol from Company A vicinity (BT 441043) found what appeared to be a mine field. One mine was found and destroyed in place. It was a glass bottle with TNT inside and a pressure fuze. Two craters were found in the same area. The craters were four feet deep and three inches in diameter. In same vicinity found bamboo gate across trail that may have been booby trapped to trigger one of the mines. Gate was destroyed with bangalore torpedo. Mined area was marked on south side with a rock lying on a piece of paper with a vine curled one end to form an arrow pointing north on the trail. No further contact.

c. At 091330H a Company C outpost heard four to five rounds of small arms fire, possibly carbine, vicinity (BT 515091). A search was made of the area with negative results.

2. Miscellaneous.

a. PF training. PF training conducted during this period was combined PF/USMC patrols and ambushes. The one problem encountered was the language barrier, but this did not have an adverse effect on the PF platoons progress which was considered good.

1ST [illegible], [illegible] MA[illegible] SI[illegible]P NUMBER 296 AS OF 2616[illegible]EBRUARY 1966

1. Unit Action With Contact.

a. At 260245H, a platoon from Company A located at Ky Phu (2) vicinity (BT 478051) received heavy S/A's, grenades and 60mm Mortars from an estimated company of VC. Mortar illumination was immediately requested and received from the 81mm Mortar Section on Hill 69 vicinity (BT 463071). The Regimental Reserve Platoon at 260300H from Company C was alerted for deployment to reinforce Company A vicinity (BT 476049). By 260310H the platoon from Company A received approximately 100-150 rounds of S/A fire, 4-10 rounds of 60mm Mortar fire and an undetermined number of hand grenades, sustaining three USMC WIA's and one PF KIA. By 260345H, the platoon reported they had four wounded Marines and a possibility of 10 VC KIA in the wire to the front of their position. At 260357H, the platoon reported an increase in the volumn of fire from the VC. The VC had layed down a base of fire from the NW and SE of the Marine positions, vicinity (BT 476049), with the main attack coming from the SW. During the lull, the Marines and PF's consolidated their positions, redistributed their ammunition and prepared for the next VC attack. At 260400H, the Regimental Reserve Platoon from Company C arrived by motor convoy at Company A CP, located at the An Tan Bridge vicinity (BT 497068), and moved in a tactical column to reinforce the Marine unit under attack at Ky Phu (2) vicinity (BT 476049). At 260405H, a flare ship arrived on station and provided continuous illumination until 260650H. At 260405H, platoon reported that between flares VC increased firing during that period of time when the area was not illuminated. During this time it was believed the VC took the opportunity to remove the dead and wounded. At 260454H, the platoon still reported receiving sporadic S/A fire. At 260505H the Regimental Reserve Platoon arrived at the Company A's platoon position. At 260507H, the Company A platoon reported one Marine KIA. At 260515H, the platoon reported Marine WIA's were not serious and could wait for first light to be evacuated. Company A reported the VC had initially penetrated the wire but had been repulsed by the Marine and PF forces in vicious, close-in fighting. At 260610H, all firing stopped and contact with VC was broken. At 260600H, two platoons from Company I were dispatched by motor convoy from their positions on Ky Ha Peninsula to An Tan Bridge vicinity (BT 497067) then by tactical foot march to Ky Phu (2) vicinity (BT 478051). At 260800H, Company I with a platoon from Company C conducted a company size S/D operation from Company A's position vicinity (BT 478051) to search the valleys leading into the mountains (BT 4204, BT 4203, BT 4102, BT 4103, BT 4104, BT 4105, BT 4205) for any VC KIA or VC WIA that may have been carried away. An additional 11 VC KIA's were discovered during this search. As of 261400H, today, the casualty count ran as follows: Marine: KIA-1, WIA-5; PF: KIA-4, WIA-4, VC: KIA-23, WIA-1 (Taken initially to B-Med). The Marines received a total of 25-30 rounds of 60mm mortar, approximately 100 grenades, 9-10 57mm recoilless rifle rounds, and an undetermined amount of S/A fire into their position. Material captured included 49 grenades, ChiCom and homemade, 1 .45 caliber pistol and two magazines, 1 Czech AR and 4 magazines, 3 Czech SMG and 12 magazines, 1 U.S. carbine and 4

magazines, and 1 Thompson MG, and 4 magazines. Also recovered were 16 cartridge belts and pouches, 3 rice bags, 3 blocks of TNT (½ lb. blocks) assorted medical supplies, quantities of S/A ammunition and a number of documents. It was estimated by the local PF platoon commander that an additional 30 VC were killed and 20 wounded. due to the appearances of the areas around the Marine/PF positions and from where the VC launched their attack. These areas were covered with pools of blood, torn clothing, and equipment. There were also many heel marks made by bodies dragged from the scene of the battle.

b. At 261335H, Company I vicinity (BT 419021) apprehended 13 VCS. The VCS are being taken to the 1/4 CP forward vicinity (BT 468068).

1. Unit Action With Contact.

a. At 271300H, a squad sized patrol from Company A apprehended a wounded VC vicinity, (BT 467053). The VC was moving west toward the mountains but was unable to travel further because of his wounds. The local PF Platoon Commander states there were 8-10 VC in the area vicinity, (BT 4704) the night of 26 February 1966 looking for a VC who had been wounded during the attack on Ky Phu (2) the morning of 26 February 1966. VC was taken to Battalion CP Hill 69 (BT 468000).

2. Psychological Warfare.

a. On 23 February 1966, 2,000 leaflets from 3d Division G-2 offering rewards for mines or infortion leading Marines to mines and booby-traps, were distributed during a Battalion (-) Operation on Hoa [illegible] Island (BT 4215). Effectiveness of the leaflets have not yet been evaluated.

3. Miscellaneous.

a. Training during this period was primarily on-the-job. Emphasis was placed on the area applicable to the assigned mission according to MOS. In addition the following number of Marines attended the below listed classes:

Amplification Report of the Ky Phu Action

During the attack on Ky Phu (2) on 26 February and the subsequent investigation of the area in which the action took place the following observations were noted:

(1) There was evidence many of the VC were treated for wounds and returned to the fight. Many had fresh bandages and field dressings on their wounds. For the number of estimated wounded they sustained, the VC apparently had a large force with medical units outside the wire to render medical assistance and evacuation. They seemed to be a concentrated effort by the VC to extract their dead and wounded. Dead bodies were found with leather harnesses strapped across their chests, under their arms and up the back of their necks, used to pull them off the scene of the battle. Two dead VC were found, one had been pulling the other with one of the harnesses when he was killed. Many of the seriously wounded VC kept fighting until they were killed. One VC that had his arm blown off in front of the wire, had a tourneque and packed mud on the stump and yet crossed the wire and continued to throw grenades until he was killed. A possiblity exists that the VC were doped for the attack.

(2) The dead VC appeared well-fed, muscular, in good health and larger than the Vietnamese normally seen in this area. Many of the dead were about 5' 5" and 165-180 lbs.

(3) The VC crawled under the wire to get inside the perimeter. There were scratches on their bodies and pieces of cloth on the wire. All dead VC were barefooted.

(4) Once the VC were in the CP area, they seem to be more interested in obtaining weapons and equipment than killing PF's or Marines. One Marine Sergeant reported seeing three VC come out of his tent with his pistol, some 782 gear and clothing, and were trying to escape through the wire when they were killed.

(5) During the sweep made by Company I on the afternoon of the 26th of February villagers in Thanh My Trung (1)(BT 445023) and Thanh My Trung (2)(BT 455033) reported VC had passed through that morning with many dead and wounded. Villagers were unable to give exact numbers but stated there were many dead andwounded and they had buried their dead in the vicinity (BT 465037). This area was searched thoroughly but Company I was unable to find any graves. The villagers were reluctant to give any accurate information as this area is VC controlled.
