c. Two sets of the new light weight utilities per man were put on order from MAG-16 Marine Corps Supply.

20. Aircraft Maintenance.

a. Availability for month of August averaged 76%. This would have been much better, but with having 4 aircraft damaged by rocket and artillery fire at Dong Ha the 28th, and having 5 aircraft damaged here at Phu Bai on the 30th by mortar rounds, the availability went down considerably.

b. The vast majority of the aircraft maintenance is still performed outdoors because our maintenance hangar has nine panels missing. These are the panels that were ruined by a direct hit by mortar attack when HMM-163 had the hangar previously. We are entertaining hopes of having the panels replaced by the time the rainy season gets here.

21. Avionics

a. The 3M system appears to be functioning somewhat better this month than last. Some of the supply problems seem to have cleared up. The documentation is improving and should be within tolerances in the coming month.
