PART II
SECTION B

Enemy Weather and Terrain

(1) Weather. The weather remained warm and humid with the average maximum temperature at 96 degrees. The average minimum temperature was 77 degrees, and the humidity averaged 75 percent. Visibility was good but the last fifteen days of the month had occasional late afternoon showers. Winds were predominately from the southwest with an average velocity of 8 knots and gusts up to 17 knots.

(2) Terrain. Trafficability on primary and secondary routes of communications remained good and extensive engineer efforts on all roads continues to improve their serviceability. The Tu Cau Bridge (BT 03647) was officially opened on 15 July and the access road from the bridge to the Third Battalion CP was fifty percent complete at the end of the month. Cross country movement remained excellent for foot troops and good for tracked vehicles. The Northwest and north central portion of the TAOR are flooded for rice planting which prevents vehicular movements in these areas.

(3) Enemy.

(a) Enemy activity was characterized by an increased number of incidents and a significant increase in the mining incidents. The mining incidents were the highest since the Regiment was assigned its present TAOR in June 1966. Agent and rallier reports place enemy forces at the following general locations.

V-25 MF Battalion (BT 1953)

R-20 MF Battalion (AT B241)

Q-12 IF Company (BT 1954)

Q-15 IF Company (BT 0354)

(b) The enemy conducted two major attacks during July against GVN forces. On 7 July, elements of the V-25th Battalion attacked an RD team located at (BT 0755). They captured 27 Vietnamese civilians. Seven were later released. The same unit on 14 July mortared Hoi An, the Province Capital, and simultaneously attacked the Hoi An Rehabilitation Center. They released 1196 prisoners. 206 prisoners were later recaptured.

(c) Enemy forces continued to avoid major contacts with USMC forces although numerous agent and rallier reports indicate their intentions to attack major patrol bases and bridges.

PART II
SECTION C
OPERATIONS

1. MISSION

The mission of the 1st Marines (Rein in the DA NANG Combat base is to establish and maintain a reconnaissance screen throughout the assigned TAOR, and in Operating Area (OA) when assigned; conduct unilateral offensive operations within the assigned TAOR and in OA as directed; conduct unilateral and/or coordinated offensive operations through the CTZ as directed occupy and defend the assigned TAOR sector coordinating the resources of all tenant activities therein; be prepared to deploy anywhere in the RVN by the most expeditious means; within indicated time from first warning order. (a) one reinforced rifle company within four (4) hours. (b) one reinforced infantry battalion (less above company) within twelve (12) hours, one regimental Command Group within twelve (12) hours; prepared to establish and operate a Task Force Headquarters by providing organic personnel and equipment augmented by Division Headquarters.

2. OPERATIONS

The First Marines continues to accomplish its assigned mission within the TAOR, resulting in 104 VC KIA (Conf), 43 VC KIA (Prob), 250 Vietnamese Civilians Detained for processing, 7 POW's captured. A total of 8,158 fire team and squad size patrols and ambushes; 89 platoon and 42 company size and one battalion size operation were conducted during the month. First Marines participated in one Regimental operation from 5 to 6 July 1967 (Operation ELLIOT). Second and Third Battalions continue aggressive density patrolling and observation of the critical Rocket/Mortar Belt and security of vital bridges and installations.

3. AIR SUPPORT AND DEFENSE

A. GENERAL. Air support requirements declined slightly as small unit operations were able to handle VC elements encountered.

- (1) Helicopters. Availability was good for the first 2/3 of July. Large operations by other units plus squadron rotations reduced this towards the end of July. Direct support aircraft averaged 4.7 hours of support per day. A total of 845 persons and 125,330 pounds of cargo was hauled in July.

(1) On 10 July, Mortar Battery and Battery "B" fired 140 rounds Counter-Mortar fire following the mortar attack in the 1st Tank's TAOR.

(2) On 15 July, the 1st Battalion, 11th Marines fired 555 rounds of Counter-Rocket fire during the rocket attack on the DA NANG Air Field.

B. Fire Support for the CAP's within the 1st Marines TAOR received considerable attention during July as the Artillery Liaison Officers with each battalion conducted observer training with each CAP under their cognizance. Preplanned defensive targets were reviewed, updated and shot-in where possible. Observer Training and a review of defensive targets will be continued each month by the Battalion Artillery Liaison Officers.

C. Operation ELLIOT. Battery "B" supported Operation ELLIOT from their primary cantonment position.

D. NAVAL GUNFIRE. The USS AULT supported the 1st Marines on 1-2 July shooting unobserved missions. The USS WALKER was on station during the period 16-17 July supporting the Second Battalion operating in the Supplementary Area of Operations. A NGF Liaison Team and Spot Team were deployed with the Second Battalion, 1st Marines.

DECLASSIFIED

PART II

SECTION D

TRAINING

A. Quotas for formal schools were filled from within the First Marines. Each Battalion and Headquarters Company conducted their own GMS Training within their command.

1. Three attended Basic Ammo Tech, OKINAWA.
2. Three attended Basic Infantry Weapons Repair, OKINAWA.
3. One attended N.C.O. Leadership, OKINAWA.
4. Four attended III MAF Vietnamese Language School.
5. Four attended Vietnamese Language, OKINAWA.
6. Five attended PsyOps Orientation Course, DA NANG, RVN.

DECLASSIFIED

PART II

SECTION E

COMBINED ACTION PROGRAM

There were no increases or decreases in the number of CAP's in the 1st Marines TAOR during the past month. The majority of the CAP activity conducted during the month was in support of the RD program and concentrated on pacification efforts.

On 8 August 1967, the command of the CAP's within the 1st Marines TAOR passed to the Combined Action Group Headquarters. The monthly reports normally submitted by the 1st Marines were submitted by the respective CAF Company Commanders, so a report of casualties and contacts is not included in the 1st Marines Command Chronology.

DECLASSIFIED

~~SECRET~~

PART II
SECTION F
LOGISTICS

1. Logistics Situation. Logistics support for the Regiment has been adequate for the support of combat operations.

2. Supply.

a. The stock level is at 64% operating stocks.

b. Sandbags arrived in country the 4th week of July, all units within this Regiment have an adequate supply on hand.

c. Handsets HL38 for AN/PRC-25 Radio Sets remain in short supply, the impact during combat operations is critical. A program has been instituted utilizing H-33 handsets from AN/PRC-10 Radio Sets as a field expedient.

3. Maintenance. Maintenance support has been adequate except for the M-274A1 Mechanical Mule. The M274A2 will be arriving in country in the very near future as predicted by Division.

4. Services.

a. Motor Transport support has been adequate for the month of July, when required, additional trucks provided by Division have been furnished to supplement the five housekeeping trucks assigned daily to each battalion. The availability of 12-Ton stake beds was a predominant factor during the month to transport necessary supplies.

b. 7th Engineer Battalion has completed the Bridge in the Tu Cau area, work continues on the road leading to the 3rd Battalion CP.

c. MCB 133 and MCB 4 have been tasked to construct 50 foot observation towers to be positioned within the 1st Marines TAOR. Four of these towers have been set up on required sites. The remaining towers should be completed and positioned during the month of August.

DECLASSIFIED

PART II

SECTION G

CIVIL AFFAIRS/CIVIC ACTION

1. The major GVN pacification effort within the 1st Marines TAOR continues to be the eighteen RD Teams currently present. During this past month the insertion of RD Teams QNA/20, 23, 26, and 27 produced the total of eighteen. The progress of the teams remains at a comparatively slow pace, primarily due to a general lack of extreme discipline, dedication, and a strong revolutionary fervor on the part of individual members and a few team leaders. However, tangible progress is evident in the areas of hamlet facility construction, construction and organization of hamlet defenses, and hamlet sanitation. The teams have censured the villagers and organized the inter-family groups, and are now becoming more and more instrumental in assisting to bring various GVN programs to the local villagers. Specific training classes for certain RD workers have been held in HOI AN in the areas of intelligence, construction, agriculture, public health, and militia. In addition, village and hamlet level administration classes are being conducted by Province for newly elected low-level GVN officials. The QUANG NAM RD Teams, due to heavy membership in the local VNQDD (both AMI and QUANG factions), are still expected to become involved in party politics during the coming weeks with regard to Presidential Elections early in September. Generally, RD Team pacification progress is moving forward, slowly accomplishing the goals set forth. The programmed time schedule will not be able to be adhered to in detail, but this is felt to be unnecessary so long as what is accomplished is done well and in a meaningful manner. In HIEU NHON District, the recent return of the wounded District Chief has been beneficially felt with regard to the HIEU NHON RD Program. Lt. SINH has eagerly stepped back onto the scene and reinstated his cognizance over the RD Teams' efforts/problems as he had done prior to the 12 March VC attack on the District Headquarters. The program, having seriously lapsed during his absence is again achieving a degree of momentum.

2. The ARVN HUNG QUANG I (Phase 2) Resettlement Campaign shifted on 6 July from the 1st portion area to the 2nd portion area, east of the SONG VINH DIEM (HOA LAN and HOA PHUNG Villages). One Battalion was left in the 1st portion area to complete construction and provide security for the two Peace Hamlets in the 1st Marines TAOR, YEN NE and LE SON. These two hamlets, constructed from the ground up, have been slowly but steadily progressing. Approximately 80 houses are completed and 80 families (419 persons) settled in LE SON, while 131 homes are completed and 131 families (715 persons) settled in YEN NE. Home construction continues as well as work on hamlet perimeters, market place and administrative buildings. Since the shift of the campaign to the 2nd portion area, it is anticipated that future definite attempts will be made by VC to infiltrate the area and harass and propagandize LE SON and YEN NE villagers and negate achievements thus far made in this 1st portion area. In the 2nd portion area two ARVN Battalions are currently sweeping the campaign area for VC, assessing the people and area, and commencing work on the Peace Hamlet sites of BINH KY and NUI KIE SON. HOA VANG District has been relatively slow to respond to the HUNG QUANG I (Phase 2) Campaign in preparing to aggressively take up normal governmental responsibilities upon departure of the 51st ARVN Regiment. It is believed that if HOA VANG District will enthusiastically complete the 1st and 2nd portion areas upon completion of the HUNG QUANG I (Phase 2).

effort, a definite, meaningful contribution will have been made to realize the final pacification and development of the northern one-third of the TACR.

3. 1st Marines contribution to the QUANG NAM RD Program continues in the form of extensive MedCap/DentCap, support of the liaison with 18 RD Teams, initiation of self-help projects, support and assistance rendered GVN officials, and continual provision of TACR security. (Estimated completion time for the KA THIAM Dam project (affecting approximately 18,000 persons and 1000 hectares of crop-land) has been given as the end of August as opposed to the end of July submitted earlier.) Other 1st Marines-sponsored self-help projects range from schools, culverts, and wells, to the rebuilding of pagodas, bridges, a District detainee center, and a dispensary. Continual psy war efforts in the form of leaflets, speaker broadcasts, and films shown in hamlets directly support RD efforts. Newly initiated 1st Marines self-help projects include building of a hamlet pagoda, repair of a VC-damaged school and Village Headquarters, repair of a dilapidated bridge, construction of school desks, repair of a school floor, and enlargement/improvement of the DLEN BAN District Detainee Center.

4. The COOPER BRIDGE just north of the east end of AMD RSN TRAIL and crossing the SONG VINH DIEN is now open, and the road being constructed from there easterly through THAMH THUY Village to the 3rd Battalion's CP should be completed by August. This is considered to be of primary importance in the establishment of a lateral military road net, and additionally will prove of major significance in coming months in opening one of the most remote areas of the TACR (THAMH THUY and THAMH LINH Villages). Efforts are being made to urge/encourage GVN into this area in order to make contact with people heretofore segregated from any form of government influence, excluding VC infrastructure/shadow government. The use of this bridge and road by local villagers will definitely promote local communications and pave the way for future RD activities, particularly with the culmination of the HUNG QUANG I (Phase 2) Campaign in the 2nd portion area to the immediate north (HOA LAM Village).

5. Politically within QUANG NAM Province the past 30 days have seen very little open political fighting. There have been no significant incidents. However, the Buddhist element is reportedly increasing pressure politically to generally oppose the military combination of Generals THIEN and KY in the National Election effort for September. VNQDD factional infighting continues to be kept down to a minimum in this TACR; however, VNQDD-DAI VIET competition is on the upswing. This is more of a power play struggle as opposed to strong idealistic differences, and is immediately being stirred by recent insertion of DAI VIETS in key Provincial positions by the QUANG NAM hierarchy. Some of these areas of contest are those of the police and revolutionary development, heretofore dominated by the VNQDD. It is anticipated that this type of inter-party squabbling will increase and become more open/overt in the month ahead in order to achieve gains prior to the national elections. On the VC side, efforts are being stepped up to recruit and train cadre (specifically women cadre) for use with the QUANG NAM Provincial Committee in a priority attempt to counter the GVN pacification program, exploit incidents, intensify struggle movement opportunities, and widen the gap between GVN/NLF and the local people.

6. The following commodities were distributed during July:

To 2nd Battalion. 1500 pounds of rice, 100 pounds of rice, and 250
 kits.

- b. To hamlet chief and villagers of QUANG SON (2). One truck-load of dunnage, 15 cubic meters of sand, 2 cubic meters of gravel, 150 bags of cement, and 40 sheets of tin.
- c. To QUANG NAM COMDS Agricultural Representative, 16 semi-circular 18" culvert sections with connecting bolts.
- d. To QUANG NAM RD Advisors, 18 Volleyball kits.
- e. To LVS workers at HOI AN, 50 pounds of nails, and one small roll of wire screening.

7. MedCap activity for the 1st Marine Regiment rendered treatments to 14,950 civilians, while no DentCap treatments were rendered due to a one month lack of a dental officer on the Regimental Staff. This is compared to 13,417 and 113 respectively for June. In addition, emergency medical evacuations and treatments were arranged for 21 civilians.

PART II

SECTION H

PSYCHOLOGICAL OPERATIONS

1. During the month of July 1967, the 1st Marines PsyWar Team briefed 49 officers on psychological warfare.

2. During the month there were 76 3/4 hours of loudspeaker broadcasts. The 1st Marines accounted for 18 1/2 hours of broadcasting. Personnel of the 244th PsyOps Company, using 1st Marines equipment, accounted for 55 1/2 hours of broadcasting. The 9th ACS presented 3 3/4 hours of broadcasts. The topics of the broadcasts were Chieu Hoi Appeals, MedCaps, VC atrocities, VC taxation, Rewards program, Music & News, and operational warnings and notices to the populace. Also during this month 18 1/2 hours of film were shown.

3. During the month there were 1,552,913 pieces of PsyOps material distributed. Of these, 282,913 pieces were distributed by hand, 920,000 pieces were distributed by 1st Marines by air, and 350,000 pieces were dropped by the 9th ACS.

a. By Air (9th ACS)

Chieu Hoi	300,000
Mine Reward	50,000

b. By Air (1st Marines)

Safe Conduct Passes	30,000
Mine Rewards	120,000
Chieu Hoi	140,000
GVN gives better life	30,000

- (2) Intelligence reports also state approximately 200 escapees from the HOI AN Prison are being trained in guerrilla tactics within the objective area.

b. Friendly Forces

- (1) First MAW continues to provide fixed and rotary wing support.
- (2) First Battalion, Eleventh Marines (-) (Rein) continues direct support for First Marines.
- (3) Company B, Third Antrac Battalion continue DS.
- (4) Company A, First Engineer Battalion continue DS.
- (5) Company A (-), First Shore Party Battalion continue DS.
- (6) Platoon (-), 29th CA Company U.S.A. continue DS.
- (7) Second and Third Battalions, First Marines each provides one company to First Battalion for duration of operation.
- (8) CTU 70.8.9 Unit provides NGF support as required.
- (9) Coastal Defense Group (CTG 115.1) intercepts and searches coastal traffic east of area of operation.
- (10) YNN Junk Fleet 14 provides surveillance on SONG CAU DAI and evacuation of refugees.

c. Attachments and Detachments. Company A, First Battalion, Seventh Marines OpCon First Battalion, First Marines for duration of operation. Attachments effective 312000H July 1967.

2. MISSION

Commencing H-Hour on D-Day First Marines conducts search and destroy operations in the area of operations to capture and destroy enemy forces encountered. Area of operations bounded on the north by the SONG THU BON, on the east by the South CHINA SEA, on the south by E-W grid line 40 and on the west by the SONG LY LY.

3. EXECUTION

a. Concept of Operations: By H-1 $\frac{1}{2}$, Third Battalion, Fifth Marines (-) (Rein) occupies blocking positions west of the TRUONG GIANG. At H-Hour on D-Day First Battalion, First Marines (-) (Rein) crosses the SONG CAU DAI near the northeast corner of the objective area and conducts search and destroy operations to the south and southeast within the area of operations. First Battalion, First Marines provides forces to occupy blocking position in southern portion of operating area.

b. First Battalion, First Marines (-) (Rein)

- (1) From assembly area, vicinity TRIEM TRUNG (2) move with three infantry companies to the north of the SONG CAU DAI. At H-Hour cross the SONG CAU DAI, vicinity PHUOC TRACH (1) and conduct operations in operation area to destroy or capture enemy personnel and equipment. Simultaneously position rifle platoon on objective A in the southern portion of objective area. See Annex A (Operation Overlay).
- (2) Position one rifle company by H-1 $\frac{1}{2}$ on SONG THANH Island (BT 1754) to block withdrawal of enemy forces to the northwest. Be prepared to move this company south to conduct search and destroy operations.
- (3) Be prepared to provide one company from TAOR for Regimental Reserve.

c. Third Battalion, Fifth Marines (-) (Rein). With three infantry companies move to blocking positions west of the TRUONG GIANG. Occupy blocking positions by H-1 $\frac{1}{2}$ on D-Day (See Operations Overlay). Be prepared to reposition forces to the southeast of initial blocking positions to block possible enemy withdrawal routes to the southwest.

d. Company A, First Battalion, Seventh Marines. OpCon to First Battalion, First Marines for missions in TAOR.

e. Coordinating Instructions

- (1) Code Name: PIKE
- (2) Observe Rules of Engagement
- (3) Tentative D-Day, H-Hour: 010600H August 1967
- (4) Reports:
 - (a) Position reports every two hours commencing H-2; Third Battalion, Fifth Marines initial report when in position.
 - (b) Spot reports as required.
 - (c) Report positions of captured rice.
- (5) Reference Points:

SHARK	BT 1949
TURTLE	BT 2355
WHALE	BT 2153

3 DECLASSIFIED

- (6) Reference Time: 0700H
- (7) Estimated duration of operation: Four days.
- (8) Password: See references a, b and c.
- (9) Fire Support:
- (a) FGL (See Operation Overlay). Change to be published by this headquarters as required.
 - (b) Sav-A-Plane will be transmitted from firing batteries to FSCC.
 - (c) Direct liaison authorized for clearance within 500 meters of adjacent units.
 - (d) Naval Gunfire: (See Annex B).
- (10) Air Support:
- (a) Illumination, AO's, Close Air Support on request on TAR Net (M-898) or Regimental Tac overload (M-347). CAS controlled on TAD Net assigned by DASC.
 - (b) Planned helo availability:
Resupply
2 UH-34: 0700H - 1800H daily at LSA
2 UH-46: 1200H - 1800H; available thereafter as required.
MedEvac
2 UH-34; 0700H - 1800H at command post (rear) First Battalion, First Marines. Requests on HST Log Net (M-89). Conduct missions on Button Vermillion (M-85).
 - (c) FAC's insure UHF capability.
 - (d) Emergency phrase to cease air strikes:
GO HIGH AND DRY
- (11) Emphasize employment of sound basic tactics (See references d, e) and proper employment LVTH-6 in direct fire role (See reference f).

4. ADMINISTRATION AND LOGISTICS

a. Prescribed Loads

- (1) First Battalion, First Marines - 3 DOS in LVT's.
- (2) Third Battalion, Fifth Marines - minimum of 1 DOS with Halavone Tablets for 3 days.

b. Unit distribution by helicopter.

c. Battalions submit request for resupply to LSA on HST (M-89) Log Net by 1700H on preceding day missions conducted on FM HD Net TBA.

d. LSA located at Hill 63.

e. Insure all personnel wear Dog Tags.

f. Insure all casualties are tagged properly utilizing Field Medical Tags (DD 1380). Preparation of this tag in the case of deceased is mandatory.

g. Refugees in the eastern zone of operation area (east of TRUONG GIANG) will be directed to beach area for movement to collection point #1. Refugees in western zone to be delivered, as required, to collection point #2.

5. COMMAND AND COMMUNICATIONS

a. First Marines forward Command Post (BT 103582), rear Command Post (AT 992676). Commanding Officer, First Marines will enter objective area with Command Group, First Battalion, First Marines.

b. Report Battalion Command Posts locations when established.

c. Radio Nets and Frequencies: Frequency Mike Designator

Regimental TAC 54.00 MC M-274
(Infantry Battalions - continuous guard. Third Battalion, Fifth Marines enter net 312200H). Regimental TAC Overload/
Admin 58.25 MC (M-347). (Infantry Battalions - guard as directed or as necessary. NCS maintains continuous guard).

6. Supporting Forces:

a. Artillery

(1) Batteries "A" and "B" and a Command Group from 1st Battalion, 11th Marines displaced on 24 June to the DIX XUYEN area to support the operation during the initial phase. When the maneuver battalions reoriented the direction of attack and moved toward the sea on 29 June, the 1st Battalion, 11th Marines Command Group and Battery "B" displaced to BT 092554.

(2) <u>Rounds Expended:</u>	<u>HE</u>	<u>HC SMK</u>	<u>WF</u>	<u>ILL</u>	<u>TOTAL</u>	<u>MSMS</u>
105MM	1451	102	150	47	1750	115
155MM	72					15

b. Naval Gunfire. USS ST PAUL (CA 73) reported on station at 260730H June 67 and departed 291645H June and fired 273 rounds in support of the ground forces.

c. Air Support

(1) General. Due to the proximity of the operating area to the Regimental TAOR and the lack of large unit enemy contact, air support for Operation CALHOUN consisted primarily of helicopters on resupply and medical, and aerial observation missions.

2 DECLASSIFIED

(2) Helicopters. Helos lifted 65,000 pounds of supplies and equipment and 35 MedVacs involving 71 casualties in support of the First Marines.

(a) Scheduling. A helo package was requested each day, 2 resupply A/C, 2 MedVac A/C and 2 Command and Control A/C (C&C). It was the Commanding Officer's desire to have at least one UH-1 type A/C for C&C, but 1st M&W availability precluded this.

(b) The individual helicopter crews performed in a professional manner continually throughout the operation; always with a "Can Do" attitude.

(c) Helicopters arrived on station an average of 37 minutes after scheduled arrival/relief times, not including "No Shows". Although many delays were unavoidable, it is believed some improvement can be made in the response time.

(d) The procedure of requesting MedVacs via the HST Log Net proved rapid and efficient. The average time from call to completion for all MedVacs was 33 minutes. Helos originally assigned as C&C did not have corpsmen aboard when switched to MedVacs. Volunteers from the medical collection point ably performed this function.

(3) Fixed Wing. A single CAS Mission requested resulted in friendly casualties caused by mistaken identification of Marines as VC by an AO.

d. Company A (-), 1st Engineer Battalion. Combat Engineer squads were provided to the infantry companies for the express purpose of destroying enemy fortifications, mines, D&D ordnance. Five (5) pound D&D bombs and (7) caves were destroyed during the operation.

e. Company L (-), 1st Anti-Tank Battalion. Company "L" provided a platoon of Ontos to act as security for the forward artillery positions located at DOY XDYEN area. In the second phase of the operation the Ontos supported the 1st Battalion in its Zone of Action.

f. 1st Reconnaissance Battalion (-). Provided recon team inserts into the high ground in Division Objective #1 to provide surveillance of First Marines Zone of Action.

g. ARVN Forces. In Phase II ARVN Forces in conjunction with the 1st Marines, 4/51st Regiment ARVN, crossed the SONG HOI at 300800H June 1967 and conducted Search and Destroy in Objective "E". The 2/4 LFC with one company from 1st Battalion, 1st Marines seized Objective "D" and "F". (See overlay).

7. Intelligence:

a. Enemy Forces Anticipated in Objective Area. One month prior to the commencement of Operation CAHOUN, the 1st Marine Regiment began a systematic process of evaluating aerial observation sightings, agent reports, aerial photography readouts and reconnaissance patrol reports, and concluded that a force no larger than a company plus with guerrillas would be encountered in the objective area. Although sketchy lowlevel agent reports located the 3rd Battalion, 3rd NVA Regiment and elements of the QUANG DA Central Committee around the periphery of the objective area, no large enemy force was anticipated within the objective area. In the Phase II area, elements of the V-25th Battalion and/or Q-12th District Force Company was anticipated as operating in the area.

b. Enemy Forces Actually Encountered. During the first phase of Operation CAHOUN, no significant size enemy force was encountered, although Company "G", 2nd Battalion, 1st Marines during the closing phase met slight resistance from guerrilla units utilizing mines and sniping tactics from forces estimated no larger than a squad. Phase II met with the same opposition with no large contact reported.

(1) Mines and Booby Traps: A total of (3) mines rigged as booby traps were detonated by the 1st Marine sweep forces.

(2) Caves and Tunnels. A total of (7) man-made fortifications were discovered and destroyed during Phase I. During Phase II no caves or tunnels were discovered.

c. Terrain.

(1) Cover and Concealment. During both phases of the operation, hedgerows bordering rice paddies and cultivated areas afforded good concealment. Limited cover was offered by topographical variations and civilian dwellings interspersed throughout the area.

(2) Observation and Fields of Fire. Observation and Fields of Fire during both phases were generally good due to the flat cultivated areas, marked only by intermittent civilian dwellings. The outstanding obstacle was the undergrowth of 6-8 feet underbrush near the periphery of Phase Area 116.

(3) Obstacles. Man-made obstacles were almost non-existent during the opening phase of the operation. In Phase II during the sweep northeastward, the only obstacles encountered were the CAU CHUIM and BA BIN rivers.

(4) Avenues of Approach. The most likely avenue of approach utilized by the enemy during Phase I was Inter-Province Route # 537, running east to west and bordering the northern portion of Base Area 116. National Highway #1 also provided for further infiltration into Base Area 116. In the Phase II area, the connecting river of the CAU LAN and the THU BON provided the main avenue of approach. Inter-Province Route #537 bordering the southern portion of the Phase II area and running from west to east also served as an excellent route of approach within the area.

8. MISSION. Commencing H-Hour, D-Day, First Marines (-) (Rein) conducts Search and Destroy operations in Zone of Action, vicinity Division Objective #1, to destroy or capture enemy forces, supplies and equipment.

9. Concept of Operations. First Marines (-) (Rein) with two battalions abreast crosses the LOD at H-Hour on D-Day, and attacks in Zone of Action to search out valleys, draws and trail networks for enemy forces, supplies and equipment in the vicinity of Division Objective #1. First Marines (-) (Rein) attacks to the east to National Route #1 and conduct Search and Destroy operations in the island complexes south of HOI (see overly).

a. First Battalion, First Marines. Commencing H-Hour on D-Day or as the LOD (027512 along railroad to 058481) and attacks in ZOA. Establish company patrol bases and conduct extensive search and destroy operations in ZOA.

b. Second Battalion, First Marines. Commencing H-Hour on D-Day cross the LOD (MP 958500 along railroad to 027512) and attacks in ZOA. Establish company patrol bases and conduct extensive search and destroy operations in ZOA.

PHASE II

a. First Battalion, First Marines.

(1) On order crosses the LOD and conduct Search and Destroy Operations in ZOA at 300500H June 67 cross Phase Line RLD and seize Objective "3".

(2) One company rendezvous with the 2/4 MC's at north end of BA REN Bridge and seize Objective "D" and "E", to block escape of enemy to the south.

b. Second Battalion, First Marines. On order cross LOD and attack east in ZOA. At 300500H June 67, continue east and seize Objective "A" and "B" and block the escape of the enemy from Objective "C".

DECLASSIFIED
DECLASSIFIED

10. Execution.

24 June 1967

- (1) Received First Marine Division Frag Order 75-67 giving concept of operation and mission to First Marines for Operation CALHOUN.
- (2) First Marines issued Frag Order 50-67 for Operation CALHOUN.
- (3) First Marines Command Post opened at BT 104584, 241800H June 67.
- (4) All attachments effective 242400H June 67.

25 June 1967

- (1) 0100H E-2-1 in the approach march to the LOD, vicinity AT 950524, received 5 rounds S/A fire from one VC who ran out of a house. Column opened fire with 20 rounds S/A resulting in (1) VC KIA (Conf), capturing (1) cartridge belt and (2) ChiCom grenades.
- (2) 0130H, 2nd Battalion, 1st Marines Command Group in the approach march to the LOD, vicinity AT 967521, received 20 rounds S/A from unknown number of VC. Unit returned 50 rounds S/A, searched area and found 1 VC KIA (Conf).
- (3) 0535H, 2nd Battalion, 1st Marines Command Group reports enemy contact in the vicinity of the LOD.
- (4) At 0600H, lead elements of 1st Battalion, 1st Marines crossed the LOD and conducted search and destroy operations towards phase line PHOENIX.
- (5) At 0600H, E-2-1, Platoon sweep force received heavy automatic weapons fire, vicinity BT 067517, resulting in (1) USMC KIA and (2) USMC WIA (MedEvac). Unit returned 100 rds S/A, 150 rounds M-60 and 10 M-79 rounds. Searched area and found no evidence of VC casualties.
- (6) At 0620H, 2nd Battalion, 1st Marines crossed the LOD after being held up in the vicinity of the LOD by enemy activity.
- (7) At 0720H, G-2-1, vicinity AT 998514, patrol member stepped on punji pit stakes, resulting in (1) USMC WIA (MedEvac).
- (8) At 0730H, 1st Reconnaissance Battalion inserted teams into Division Objective #1 to offer surveillance for 1st Marines.
- (9) At 0835H, E-2-7 crossed the LOD.
- (10) At 0930H, E-2-1 received 15 rounds S/A fire, vicinity BT 027509, resulting in (1) USMC WIA (MedEvac). Unit returned 30 rounds S/A fire. Searched area and found no evidence of VC casualties.

(11) At 0930H, E-2-1 platoon sweep force spotted one VC running from house, vicinity BT 022543. Unit opened fire with 10 rounds S/A resulting in (1) VC KIA (Conf).

(12) At 1030H, A-1-1 L-3-1 crossed the LOD.

(13) At 1345H, 1st Recon Bn insert found (2) fragmentation bomblots rigged as mines. Destroyed with M-26 grenades.

(14) At 1425H, E-2-1 platoon sweep, vicinity BT 015512, received 5 rounds S/A from estimated 3 VC, resulting in (1) USMC WIA (MedEvac). Unit returned 30 rounds S/A fire, observing one VC to fall and being dragged away by the other VC. Enemy broke contact and could not be regained, 1 VC KIA (Prob).

(15) At 1630H, 1st Recon insert "Anti-Freeze" vicinity AT 998462, found (1) M-26 grenade rigged as a mine. Destroyed with G-4.

(16) At 1710H, G-1-1 squad sweep force, vicinity BT 040470, Marine detonated M-26 grenade rigged as mine, resulting in (1) USMC WIA (MedEvac).

(17) At 1730H, E-2-1 platoon with engineers, vicinity AT 985500, found (5) 250 round bombs. Bombs destroyed by engineers, resulting in (1) USMC WIA (NonEvac) from fragmentation.

(18) At 1850H, E-2-1 platoon security patrol, vicinity AT 992503, found (1) pack with assorted clothing and documents. All forwarded to battalion command post.

(19) At 2310H, 1st Battalion, 11th Marines Command Group, vicinity BT 081519, received 8 to 10 rounds sniper fire from vicinity BT 077518. Unit returned 20 rounds S/A. No evidence of VC casualties.

26 June 1967

(1) At 0025H, 1st Battalion Scouts in the night defensive position heard movement in the brush 30 meters to their front. Fired 5 rounds S/A and received (1) incoming grenade, resulting in (1) USMC WIA. Enemy broke contact. Area was searched with no evidence of VC casualties.

(2) At 1042H, 1st Recon Bn team "Classmate Bravo," vicinity BT 007445, observed 3 VC moving in brush. (1) VC wearing a pack. Called arty mission of 33 rounds H/E. Rounds were on target, estimate 3 VC KIA (Prob).

(3) At 1130H, 1st Recon Bn, insert "Classmate," vicinity BT 042452, observed (1) VC with weapon and cartridge belt. Called artillery mission, VC was observed to be hit. 1 VC KIA (Prob).

DECLASSIFIED

(4) At 1130H, explosion occurred with the 1st Platoon, "G" Company, 2nd Battalion, 1st Marines Command Group vicinity AT 971479, resulting in (3) USMC KIA and (3) USMC WIA. A M-26 hand grenade on the belt of the 1st Platoon leader exploded while on his person resulting in the above casualties.

(5) At 1200H, I-3-1 platoon on search and destroy observed (1) VC hiding in a cave. Utilized smoke with CS but VC failed to come out. Threw in (1) M-26 grenade resulting in (1) slightly wounded POW who was forwarded to POW compound.

(6) At 1300H, G-2-1, Platoon on sweep, vicinity AT 987469, searched house and found (5) 5.56MM rounds, (170) rounds K-50 ammo, (75) rounds K-44 ammo and (30) rounds carbine ammo. All forwarded to Bn CI.

(7) At 1330H, G-2-1, Platoon sweep force found (1) cave '15'X30'X6', AT 987466, cave destroyed with G-4.

(8) At 1700H, USS ST. PAUL (CA73) fired mission, vicinity BT 001528 consisting of 87 rounds 8"/55 H/E-Q resulting in 4 VC KIA (1 Prob), 12 structures damaged, 20 meters tunnel collapsed and 50 meters trench collapsed.

27 June 1967

(1) At 0915H, G-2-1, Platoon sweep force found (1) cave '6'X7'X8'. Inside found sleeping pallets for approximately 20 persons. Cave destroyed with C-4.

(2) At 1300H, C-1-1, in company sweep at AT 0147 found many small natural caves containing the following items, 100 rounds 3/A, 55 rounds 20MM, 5 ChiCom grenades, note books, dairy and clothing. All articles forwarded to Bn CI and caves destroyed with C-4.

(3) At 2326H, E-2-1, Platoon in night defensive position vicinity AT 993489, Marine was bitten on the leg by poisonous type snake. Marine was MedEvac.

28 June 1967

(1) At 0800H, First Marines formulated plans for continuation of Operation CALHOUN, decided to change the axis of advance and commence Search and Destroy Operations to the east toward Route #1. Frag Order 54-67 was issued by First Marines.

(2) At 0945H, 1-1 Bn scouts, vicinity BT 001480, found 1 ChiCom grenade buried under a family bunker. Grenade was destroyed with C-4.

(3) At 1000H, L-3-1, platoon sweep, vicinity BT 021470, found (1) VC hiding in a cave. VC threw out (1) grenade resulting in (1) USMC WIA (NonEvac). Unit returned (1) M-26 grenade, resulting in (1) VC KIA (conf). Found (1) cartridge belt, first aid pouch and (1) poncho. All gear was forwarded to Battalion CI.

(4) At 1800H, 1st Recon Bn teams returned Operational Control to parent unit, however will remain in place in Division Objective #1.

29 June 1967

(1) At 0400H, 2nd Battalion, 1st Marines crossed the LOD and conducted detailed Search and Destroy operation in ZVA towards Phase Line BLUE.

(2) At 0700H, G-2-1, Platoon sweep, vicinity BT 029518, apprehended 2 female Vietnamese carrying documents and medical supplies. Detainees forwarded to Battalion CI.

(3) At 0705H, G-2-1, platoon sweep force vicinity BT 024515, received 50 rounds S/A and A/W fire from vicinity BT 024515, resulting in (1) USMC WIA (NonEvac). Returned 200 rounds S/A, enemy broke contact and unit continued search through area.

(4) At 0715H, G-2-1, Platoon sweep force, vicinity BT 020527, member tripped a M-26 grenade rigged as a mine, located in the brush 6 feet from the ground, resulting in (5) USMC WIA (MedEvac). Unit was in column moving through heavy brush approximately 10 meters apart.

(5) At 0730H, G-2-1, squad sweep, vicinity BT 025523, observed 6-7 VC, unit opened fire with 100 rounds S/A, searched area found (1) VC KIA (Conf), (1) WIA (NOW), Captured (1) Thompson Machine Gun, (1) ChiCom Machine Gun, (5) magazines with ammunition and 3 fragmentation grenades. Apprehended (1) Detainee, forwarded gear and Detainees to Battalion CI.

(6) At 0938H, 1st Bn, 1st Marines commenced crossing LOD. Conducted search and destroy operation to phase line Blue.

(7) At 0955H, L-3-1, platoon sweep force observed (1) VC fleeing from sweep force, vicinity BT 056502, challenged but continued to run, fired 6 rounds S/A, 1 VC KIA (Conf) without ID card.

(8) At 0955H, L-1-1, platoon sweep, vicinity BT 056502, observed 1 VC, vicinity BT 056503, running from sweep force. Platoon fired 6 rounds S/A, searched area, found 1 VC KIA (Conf).

(9) At 1000H, G-2-1, squad sweep force, vicinity BT 030520, received 15 rounds S/A from unknown number of VC, vicinity BT 025525, resulting in 1 USMC WIA (MedEvac). Returned 60 rounds S/A, searched area with no evidence of VC casualties.

(10) At 1010H, L-1-1, squad sweep, vicinity BT 065483, apprehended 1 detainee, approximately 15 years old without ID card.

(11) At 1015H, G-2-1, platoon sweep, vicinity BT 030520, received 15 rounds S/A from vicinity BT 025525, resulting in 1 USMC WIA (MedEvac); platoon returned 60 rounds S/A, searched area, found no evidence of VC casualties.

DECLASSIFIED

(12) At 1105H, G-2-1, platoon sweep force, vicinity BT 031520, received 10 rounds S/A, resulting in 1 USMC WIA (MedEvac). Returned 20 rounds S/A, enemy broke contact, area searched with no evidence of VC casualties.

(13) At 1130H, G-2-1, platoon sweep force, vicinity BT 031524, received 20 rounds S/A resulting in 1 USMC WIA (MedEvac). Returned 200 rounds S/A. Enemy broke contact, platoon swept area finding no evidence of VC casualties.

(14) At 1500H, D-1-1, sweep force, vicinity BT 088477, received 20 rounds S/A from vicinity BT 090477, resulting in 1 USMC WIA (MedEvac). Returned 15 rounds M-79, maneuvered into area, enemy broke contact, no evidence of VC casualties.

(15) At 1700H, C-1-1, platoon sweep, vicinity BT 098496, received heavy S/A fire, resulting in 1 USMC WIA (MedEvac). Unit returned 100 rounds S/A and 10 rounds M-79, enemy broke contact, no evidence of VC casualties.

(16) At 1700H, Blackout A/O in support of C-1-1, sighted two people with weapons at BT 090472, near friendly unit the vicinity BT 088477. Due to error, marking round was fired into friendly troops, before cancellation of mission, one aircraft dropped its ordnance on friendly troops, resulting in 1 USMC KIA and 4 USMC WIA (MedEvac).

30 June 1967

(1) At 0900H, L-3-1, platoon sweep force, vicinity BT 113524, apprehended 2 Detainees with ID cards. Detainees were pointed out as VC by Local Villagers, Detainees forwarded to Battalion CI.

(2) At 1000H, G-2-1, platoon sweep force, vicinity BT 115548, while maneuvering across open area to objective A, received approximately 5 rounds S/A from vicinity BT 117548, returned 400 rounds S/A, 5 rounds M-79, 18 rounds 60MM mortars. Maneuvered into area but found no evidence of VC casualties.

(3) At 1000H, A-1-1, platoon on sweep observed 3 Vietnamese, vicinity BT 128514, dressed in black running across field, vicinity BT 131514, group was challenged but failed to halt, taken under fire with 50 rounds S/A and 6 rounds M-79, resulting in 3 VC KIA (Conf); no identification cards, ages between 22 and 35.

(4) At 1020H, A-1-1, sweep force, vicinity BT 130513, apprehended 1 VC hiding in house. Forwarded to Battalion CI.

(5) At 1100H, C-1-1, platoon sweep, vicinity BT 147525, observed 2 VC with weapons at BT 142527, snipers opened fire with 6 rounds S/A, 2 VC observed to fall. L-3-1 searched area but found no evidence of VC casualties. 2 VC KIA (Prob).

DECLASSIFIED

(6) At 1215H, A-1-1, platoon search force, vicinity BT 157533, observed 1 VC dressed in black running in trench line, challenged but failed to halt, fired 2 rounds S/A, resulting in 1 VC KIA (Conf).

01 July 1967

(1) At 0245H, G-2-1, squad in the night defensive position, vicinity BT 167548, received one incoming round, returned 20 rounds S/A and 7 M-79 rounds. Searched area with no evidence of VC casualties.

(2) At 1115H, 1st Marines CI closed BT 103583, opened AT 992676.

(3) At 1200H, Operation CALHOUN terminated.

11. Results:

a. USMC KIA - 5

b. USMC WIA - 29

c. USMC MIA - 0

d. NBC - 1

e. VC KIA (Conf) - 10

f. VC KIA (prob) - 14

g. POW - 3

h. DTNE - 6

(5) Rounds M-56

(170) Rounds K-50

(75) Rounds K-44

(3) Rounds Carbine

DECLASSIFIED

12. Administrative Matters:

a. During Operation CALHOUN, there were no friendly weapons/equipment losses.

b. Supply support for the field elements was provided from the LSA operated by the Supply Battalion, 1st FSB. Supply was adequate in all respects and where any items/equipment were not on location, direct contact was effected by the Supply Battalion representatives at the LSA to the Supply Battalion and the item/equipment was delivered to the LSA.

c. Maintenance Battalion, 1st FSB supported the Regiment, furnishing an Ordnance Maintenance Contact Team and a Communication/Electronics Contact Team to the LSA.

d. Evacuation and Hospitalization: All casualties were evacuated from the field by helicopters which were stationed at the 1st Battalion Landing Zone from 0800H to 1800H each day of the operation, and at MAG 16 between 1800H and 0800H. All helicopters during daylight hours carried hospital corpsmen who, on pick up of the casualties, directed the pilot either to division-level medical facilities or back to 1st Battalion. The destination of the casualties was determined on the basis of severity of the injury. Those casualties and non-battle casualties, returned to 1st Battalion were treated in the BAS facilities and then returned by vehicle to their respective battalions. This method of casualty evacuation proved most effective for this particular operation, and it is suggested that in future operations in the same general area the same method be employed.

e. Transportation: Troop movement to the operating area and adjacent areas was accomplished by truck convoys furnished by Division Motor Transport. Necessary transportation was readily available to support pre and post operational movement.

f. Communication: Operation CALHOUN again proved the value of co-locating the Regimental Forward Command Post with a Battalion Rear Command Post. This practice affords economy in equipment and manpower plus the advantages of using existing telephone and teletype communications. In this case, co-location with 1st Battalion Rear Command Post provided an ideal location for radio communications to battalions in the field as well as to higher headquarters and the Regimental Rear Command Post. No significant communication problems were encountered during Operation CALHOUN. All circuitry proved very reliable. Based on lessons learned during Operation UNK I when extreme difficulty was encountered with all participating units plus other units in the T&R using the same FM frequency to talk to resupply helos, action was taken to procure a separate frequency for the regiment for CALHOUN. This proved to be the answer to the problem and helo control was greatly facilitated by the use of a separate, relatively uncrowded frequency.

g4 Civil Affairs.

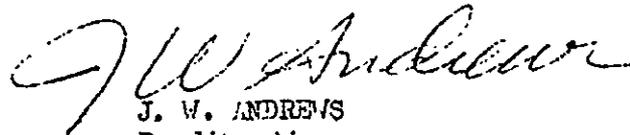

(1) On 26 June eleven refugees were processed through the 1st Marines LSA at DIEM BAN to the QUANG NAM refugee service for final disposition. The 29th CA Company refugee team from HOI AN handled the refugees.

(2) A total of 26,000 pounds of captured rice, 100 pounds of peanuts, and 200 pounds of sugar were processed through the 1st Marines LSA, and turned over to the DIEM BAN District Chief and QUANG NAM Provincial Officials.

(3) All refugees and captured commodities were transported by helicopter from PAGODA Valley in the SLE (2/3) Zone of Action.

13. Special Equipment and Techniques. None.

14. Commanders Analysis. During Operation CALHOUN, no significant size enemy force was encountered, and in terms of loss inflicted on the enemy in personnel and equipment, the operation was of no significant success. However it did dispel many low-level agent reports that the objective area of the 1st Marines had been used frequently as a staging/training area for large elements of Main Force/NVA units. There was no evidence of enemy fortifications, facilities or staging areas discovered during the thorough search of the objective area, and the apparent lack of water sources within the 1st Marines portion of Base Area 116, makes it evident that the area was not and is not a major VC staging area for attacks on the DA NANG TAOR. In addition the operation again demonstrated the Regiment's capability to swiftly move large forces out of the TAOR to destroy enemy units attempting to infiltrate. This demonstration serves as a definite deterrent to future movements through the periphery of the 1st Marines TAOR.

Company E, 2nd Battalion

Company H, 2nd Battalion

1st Battalion, 7th Marines Lieutenant Colonel ROWLEY

Det H&S Company

Company A, 1st Battalion

Company D, 1st Battalion

6. Supporting Forces:

a. Marine Helicopters (1st Marine Aircraft Wing)

(1) Helicopter requirements were kept at a minimum, and no assault forces were landed by air. The bulk of helicopter requirements were for the resupply of units in the field.

(2) The lack of helicopters was overcome by close liaison with the Division TACP and the Division "Working Birds" were used to fill the gaps in the 1st Marines requirements.

b. Marine Fixed Wing Support:

(1) There were no requests for fixed wing aircraft and none were employed.

(2) Observer aircraft were employed during the operation to make visual reconnaissance of suspected enemy assembly areas.

c. Artillery:

(1) 1st Battalion, 11th Marines was in direct support of 1st Marines. There were a total of 14 artillery missions fired in support of Operation ELLIOT. A breakdown of ammunition expended is as follows:

	HE	WP	ILLUM	SMOKE
105MM	138	35	1	6

(2) "A" and "B" Batteries supported Operation ELLIOT from their primary positions within the TAOR. Two LVT H-6's were attached to the 1st Battalion, 7th Marines for direct fire support.

d. Naval Gunfire: There was no naval gunfire used during Operation

UNCLASSIFIED

o. Company A (-), 1st Shore Party Battalion: Provided one HST per Company and for each Battalion Command Group and was prepared to provide additional support as required.

f. Company A (-), 1st Engineers Battalion: Provided engineer support teams to accompany each Company and Battalion Command Group and was prepared to provide additional support as required.

7. Intelligence:

a. Enemy Forces Anticipated In Objective Area: Based on sightings and contacts by Marine Units prior to the operation, it was estimated that the objective area contained approximately 30-50 guerillas. There were also numerous low-level intelligence reports of units up to company size within the objective area.

b. Enemy Forces Actually Encountered In The Objective Area:

(1) Sporadic small contacts confirmed that no companies or large size units operated within the objective area and that the agent reports were grossly exaggerated. The absence of enemy forces could be attributed to the defection of VO NGOC AN on the 3rd of July, two days prior to the commencement of Operation ELLIOT. VO NGOC AN partially confirmed the estimate of VC forces when he stated he was a member of a 12 man squad that normally operated in the area covered by Operation ELLIOT. VO NGOC AN also stated that the TAOR boundary between 1st Marines and 7th Marines was a commonly used infiltration route into the DA NANG TAOR.

(2) Mines and Booby Traps. During Operation ELLIOT 28 mines were discovered and destroyed by friendly forces. Seven mines were detonated resulting in 7 USMC WIA's.

(3) Caves and Tunnels. Four man-made caves and one bunker were discovered and destroyed by friendly forces. None of the caves contained any personnel or equipment but did indicate signs of recent occupancy.

c. Terrain:

(1) Cover and Concealment. During Operation ELLIOT built up areas, hedgerows and cultivated areas offered good concealment. Limited cover was provided by topographical variations and built up areas.

(2) Critical Terrain Features. None.

(3) Observation and Fields of Fire. Fields of fire were good and were only restricted by hedgerows and built-up areas.

(4) Obstacles. Natural obstacles were non-existent in the operation area, however, hamlets tended to channelize troop movements.

UNCLASSIFIED

(5) Avenues of Approach. The main avenue of approach into the objective area was along the western side of the TAOR boundary between 1st and 7th Marines, this was confirmed as a commonly used infiltration route for both guerrillas and Main Force units by the rallier, VO NGOC AN.

8. Mission: 1st Marines (-) (Rein) conduct search and destroy operation in area bounded on North by E-W GL 62, on East by a line from BT 028620 to BT 028617 South along the SUOI CO CA to BT 012568, on the South by Route 14 and on the West by N-S GL 97, to capture and destroy enemy forces, supplies and facilities in the area of operation and to interdict enemy routes of communications.

9. Concept of Operations: 1st Marines at H-Hour D-Day 1st Marines (-) (Rein) conducts S&D Operations with three Battalion (-). One Battalion attacks from the West and establishes blocking positions on the 1st Marines-7th Marines common boundary. Simultaneously two Battalions cross the LOD on Eastern flank of the Area of Operation and attack Westward to the Railroad Tracks. A systematic S&D of the Area of Operation is then conducted.

a. 1st Battalion, 1st Marines (-) (Rein): At H-Hour cross Route 14 and sweeps Northwest conducting a Search and Destroy operation in its ZOA, bounded on the South by Route 14, the SUOI CO CA on the East and existing Battalion Boundaries on North and West.

b. 2nd Battalion, 1st Marines (-) (Rein): At H-Hour cross N-S GL 017 and E-W GL 62 and sweep west in a Search and Destroy operation in its ZOA bounded on the East by a line from BT 028620 to BT 028617 on the North by the E-W GL 62 and on the South and West by existing Battalion boundaries.

c. 1st Battalion, 7th Marines (-) (Rein): At H-Hour enter DUC KY peninsula from the North and sweep East to the 1st Marines-7th Marines common boundary and establish contact with 2nd Battalion. Simultaneously enter the area of operation from the vicinity of CAM VAN (3) AT 973587 and sweep East toward the 1st Marines-7th Marines common boundary and establish contact with 1st Battalion, 1st Marines.

10. Execution:

a. 03 July 1645H Concept of Operations for Operation ELLIOT was submitted to 1st Marine Division for approval.

b. 04 July 1967

(1) 0947H, Received approval from 1st Marine Division on the Concept of Operations for Operation ELLIOT.

(2) 1100H, Briefing held at 1st Marines CP with all units on the proposed Concept of Operations.

UNCLASSIFIED

c. 05 July 1967

(1) 400H, Upon 1st Battalion, 7th Marines passed to 1st Marines.

(2) 0600H, All units crossed LOD to commence Operation ELLIOT.

(3) 0715H, Company E-2-1, vicinity AT 995617, found 1 Zulu-10 type mine and 1 unknown type mine. Both mines disarmed and forwarded to the Battalion CP.

(4) 0805H, Company A-1-7, vicinity AT 978606, apprehended 1 VN male with ID card. Kit Carson Scout identified Detainee as a member of a local VC platoon. Detainee forwarded to Battalion CP.

(5) 1025H, Company A-1-7, vicinity AT 977796, Marine detonated unknown type mine resulting in 1 USMC WIA MedEvac.

(6) 1115H, Company A-1-1, vicinity BT 007595, found reinforced bunker 2'X6'X5'. Bunker constructed with false floor and reinforced with bamboo. Also discovered a tunnel leading to another exit approximately 8 meters from the bunker. Searched bunker and found 1 poncho, 1 flashlight, 1 first aid kit and 1 cooking stove. Gear forwarded to Battalion CP and bunker destroyed with C-4.

(7) 1440H, Company H-2-1, vicinity AT 989600, patrol member detonated 2 81MM rounds rigged as a mine resulting in 4 USMC WIA MedEvacs.

(8) 1500H, Company D-1-7, vicinity AT 987609, patrol found one cave approximately 3'X3'X12' with bamboo and brush concealment. Destroyed cave with C-4.

(9) 1545H, Company H-2-1, vicinity AT 993598, patrol member detonated an M-26 grenade rigged as a mine resulting in 1 USMC WIA MedEvac.

(10) 1640H, Company G-1-1, vicinity AT 989588, patrol member detonated an M-26 grenade rigged as a mine resulting in 1 USMC WIA MedEvac. Area searched and found another M-26 grenade rigged as a mine. Mine blown by engineers.

(11) 2025H, Company A-1-1, vicinity AT 999579, while moving to PPB spotted a light in a house and observed 3 VC near house. Unit received 10 rounds small arms fire. Patrol opened fire with small arms fire and M-79s. Searched area found 2 M-26 grenades and a first aid kit.

(12) 2145H, Company A-1-1, vicinity BT 006585, while moving into PPB received approximately 100 rounds small arms fire from an estimated 4 VC resulting in 1 USMC KIA. Returned small arms and 81MM mortars. Searched area but found no evidence of VC casualties.

UNCLASSIFIED

d. 06 July 1967

(1) 1200H, 1st Battalion, 7th Marines returned operational control to 7th Marines.

(2) 1330H, Company H-2-1, vicinity LT 9859, 9959, 9860 with rallyer discovered 3 anti-personnel mines, 1 round 81MM, 1 M-79, 3 ChiCom grenades, 1 M-26 grenade and (1) 60MM mortar round, all rigged as mines. All mines destroyed with C-4.

11. Results:

- a. USMC KIA - 1
- b. KIT CALSON KIA - 0
- c. USMC WIA - 7
- d. USMC MIA - 0
- e. VC KIA (Conf) - 0
- f. VC KIA (Prob) - 0
- g. Detainee - 1
- h. POW - 0
- i. Friendly Equipment Losses. None.
- j. Captured Enemy Equipment.
 - (2) M-26 Grenades
 - (1) Bag Medical Supplies
 - (2) First Aid Kits
 - (1) Poncha
 - (1) Flashlight
 - Assorted Documents

12. Administrative Matters:

a. Supply: Supply support for the field elements was provided by parent organizations. Combat loads carried by the companies were sufficient to meet all requirements. Resupply in the field was accomplished by LVT's and Ottors, however, in instances where time or terrain was a limiting factor helicopters were utilized. Helicopter support Teams (HST's) were provided for each company. Resupply requests were transmitted via the HST logistics net to Battalion rear.

b. Maintenance: Due to the short duration of the operation, no maintenance problems were encountered.

UNCLASSIFIED

6 UNCLASSIFIED

c. Casualty Treatment and Medical Evacuation: All battle casualties were evacuated directly to division-level medical facilities. After treatment all troops with minor injuries were returned to their parent organization for further care.

d. Transportation: Due to the Operational Area being within the 1st Marines TAOR no transportation was required for the movement of troops.

e. Communications: Operation ELLIOT was controlled from the Regimental CP because of its close proximity to the Operations Area. All circuitry was reliable and no communications problems were encountered during the operations.

13. Psychological Warfare and Civil Affairs Support:

a. Psychological Warfare: There were no psychological warfare activities carried on during Operation ELLIOT but on 08 July the after action activities related to ELLIOT saw the use of a leaflet drop and both aerial and ground broadcasts in the Operation area. The tapes used for the broadcast were made by a rallier from the QUANG DUNG Hamlet, VO HUOC AN.

b. Civil Affairs: None.

14. Special Equipment and Techniques: A diver team from the 1st Reconnaissance Battalion was employed during the second day of operations.

15. Commanders Analysis: During Operation ELLIOT, no significant contact was made or casualties inflicted upon the enemy. Because of this, it was not a resounding success. It did confirm however, that the operations area, specifically the common boundary between 1st and 7th Marines, is a commonly used infiltration route into the DA NANG TAOR. It also confirmed that the area is heavily mined and booby trapped to hamper our efforts to patrol and block this Avenue of Approach.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages, and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as routing to cognizant unit staff officer(s), dissemination of pertinent information, and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "I", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal:

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality:

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common

symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled, "Incidents, Messages, Orders."

b. Closing: Journals are closed daily, or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common

symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information, and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

- (2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

- (1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

- (5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information; such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative actions taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would

c. TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common

symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

- b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

- (5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken:

This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Headings:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading: 14 550020H 1000 1100Z OF 14 155*

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal: Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal: Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date, time, group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M" - posted on situation map; "S" - circulated to unit staff; "T" - information disseminated to troops or subordinate units; "F" - filed in journal file.

3. Ending: 3 550020H 1000 1100Z OF 14 155*

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1.11.1 Headings:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

1.21 Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

1.310 d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered but should be supplemented or corrected by later entries when necessary.

1.320 (4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily, or at the end of periods, or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
- (2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

a. Unit or Section:

(1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.

(2) Enter designation of section if this is a section journal maintained by a general staff section.

b. Place: Enter coordinates or name of locality.

c. From: Enter date, time, and time zone that journal is opened.

d. To: Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

(1) Unit Journal. Enter time information is received within unit. In most instances this would be TOR at unit communication center.

(2) Section Journal. Enter time information is received within section.

b. Time Out:

(1) Unit Journal. Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.

(2) Section Journal. Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

(1) Important incidents, messages and orders are recorded as they are made known.

(2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.

(3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.

(4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.

(5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Ending:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

INSTRUCTIONS FOR KEEPING JOURNAL

1. Heading:

- a. Unit or Section:**
- (1) Enter designation of unit if this is a unit journal for regiment, air group, or smaller unit.
 - (2) Enter designation of section if this is a section journal maintained by a general staff section.
- b. Place:** Enter coordinates or name of locality.
- c. From:** Enter date, time, and time zone that journal is opened.
- d. To:** Enter date, time, and time zone that journal is closed.

2. Body:

a. Time In:

- (1) **Unit Journal:** Enter time information is received within unit. In most instances this would be TOR at unit communication center.
- (2) **Section Journal:** Enter time information is received within section.

b. Time Out:

- (1) **Unit Journal:** Enter time outgoing information is delivered to addressee. In most instances this would be TOD by unit communication center.
- (2) **Section Journal:** Enter time outgoing message is delivered to originator's communication center for transmittal, or time information is transmitted by releasing section.

c. Serial No.: Number each entry consecutively as information is received by keeper of journal.

d. DTG: Enter date/time group of radio message.

e. Incidents, Messages, Orders:

- (1) Important incidents, messages and orders are recorded as they are made known.
- (2) Although brief, entries must include all vital elements of information, such as what, where, when, how, and who.
- (3) Original entries should not be altered, but should be supplemented or corrected by later entries when necessary.
- (4) A synopsis of written or oral messages is entered in the journal, leaving the full account for the journal file and other supporting documents.
- (5) Oral messages are reduced to writing and processed like written messages.

f. Action Taken: This column is used to indicate administrative action taken, such as, routing to cognizant unit staff officer(s), dissemination of pertinent information and/or filing of message. Some of the more common symbols used to indicate action taken are: "M", posted on situation map; "S", circulated to unit staff; "T", information disseminated to troops or subordinate units; "F", filed in journal file.

3. Endings:

a. Summary: A brief summary of major activities, with reasons underlying decisions, is entered in the journal at the close of each day. This is written in narrative form under the column entitled "Incidents, Messages, Orders."

b. Closing: Journals are closed daily or at the end of periods or phases prescribed by higher authority.

4. Journal File:

Journal file is considered a part of the journal. It contains messages, orders, records of conversation, and other documents supporting journal entries.

Encl: (1) Proposed Citation

1. In accordance with the provisions of reference (a), it is recommended that Van Daley BELL, Jr., Lieutenant Colonel, O41563, United States Marine Corps, attached to and serving with the 1st Marine Regiment, 1st Marine Division be awarded a Legion of Merit for exceptional meritorious service.

2. While serving as Commanding Officer, 1st Battalion, 1st Marines from 29 January 1967 to 5 June 1967 and Regimental Executive Officer from 6 June 1967 to 5 July 1967, in the Republic of Vietnam, Lieutenant Colonel BELL exhibited the ultimate in professional skill and leadership. As a battalion commander, Lieutenant Colonel BELL led his battalion into combat with unqualified success during Operation STONE (12-22 February 1967), Operation CANYON (6-10 April 1967), and Operation UNION I (22 April to 5 May and 13-17 May 1967). In addition to major operations, Lieutenant Colonel BELL displayed sound judgment and initiative in dominating a fifty square mile area of responsibility. During the period from 29 January to 5 June 1967, Lieutenant Colonel BELL led the 1st Battalion in the destruction or capture of 1310 Viet Cong and North Vietnamese troops. Lieutenant Colonel BELL established a close working relationship with the local Republic of Vietnam Government officials and worked in close conjunction with the Popular Forces, Regional Forces, and Army of the Republic of Vietnam, which resulted in an increased effectiveness in the coordinated employment of Marine and Vietnamese forces in both military and revolutionary development operations within the Battalion Tactical Area of Responsibility. Under Lieutenant Colonel BELL's guidance and leadership, the 1st Battalion in cooperation with Vietnamese officials, was instrumental in releasing more than 1200 Vietnamese families from Viet Cong dominated territory and aiding in their relocation to areas of relative safety. Upon assuming duties as Regimental Executive Officer, Lieutenant Colonel BELL applied his professional knowledge and experience as a battalion commander to increasing the effectiveness of the Regiment. Throughout Lieutenant Colonel BELL's tour, his aggressive leadership, exceptional professional skill, and selfless devotion to duty served as an inspiration to all who observed him.

3. The facts contained in the proposed citation are personally known to me.

4. The award is for direct participation in combat operations and the Combat Distinguishing Device is recommended.

5. Lieutenant Colonel BELL has been awarded the following personal decorations:

Navy Cross
Silver Star w/1 Gold Star
Legion of Merit
Bronze Star w/Combat "V"
Purple Heart Medal w/4 Gold Stars
Vietnamese Cross of Gallantry w/Gold Star
Vietnamese Cross of Gallantry w/Palm

6. Lieutenant Colonel BELL has been recommended for but has not as yet been awarded the following decoration:

Navy Cross - CG, 1stMar Ltr 1/HPH/pab over 1650 dtd 1Apr67

7. Lieutenant Colonel BELL was detached from this organization on 5 July 1967 for further transfer to the 2nd Marine Division.

8. No foreign decorations have been recommended/awarded to Lieutenant Colonel BELL for these same actions.

9. No other recommendations are being submitted in connection with these same actions.

E. J. RADICE

In the name of the President of the United States, the Commanding General, Fleet Marine Force, Pacific takes pleasure in presenting the LEGION OF MERIT to

LIEUTENANT COLONEL VAN DALY BELL, JR.

UNITED STATES MARINE CORPS

for service as set forth in the following

PROPOSED CITATION:

"For exceptionally meritorious conduct in the performance of outstanding service as Commanding Officer, First Battalion, First Marines from 29 January 1967 to 5 June 1967 and as Executive Officer, 810th Marines from 6 June to 5 July 1967 in the Republic of Vietnam. Exhibiting great competency, resourcefulness and wisdom, Lieutenant Colonel BELL led his Battalion into combat during such major operations as STONE, CANYON, and Union with unqualified success. In addition to major operations, Lieutenant Colonel BELL consistently deployed his unit to exploit enemy contacts and effectively controlled an area of over 50 square miles. Under Lieutenant Colonel BELL's aggressive and inspiring leadership, the First Battalion, First Marines killed 911 Viet Cong and captured an additional 399. By his own bold actions, fierce fighting spirit, and inspiring leadership, Lieutenant Colonel BELL instilled in the Marines of his Battalion a high esprit de corps and an eagerness to close with the enemy. Lieutenant Colonel BELL established an excellent working relationship with local Republic of Vietnam Government Officials and significantly contributed to increasing the effectiveness in the employment of Republic of Vietnam Armed Forces within his Tactical Area of Responsibility by working closely with those forces in all aspects of operations. Lieutenant Colonel BELL's contributions to the Revolutionary Development Program and was instrumental in the program's rapid growth and expansion within his area of responsibility. Under Lieutenant Colonel BELL's outstanding leadership, the First Battalion freed more than 1200 Vietnamese families from Viet Cong dominated territory and during one operation relocated more than 1800 civilians to safe areas. As Regimental Executive Officer, Lieutenant Colonel BELL continued to exhibit a high degree of professionalism and his exceptional knowledge of operations, combined with experience gained from direct confrontation with the enemy, contributed immeasurably to the effectiveness of the Regiment. By his aggressive leadership, outstanding professional ability, and selfless devotion to duty, Lieutenant Colonel BELL upheld the highest tradition of the Marine Corps and the United States Naval Service."

Lieutenant Colonel BELL is authorized to wear the Combat "V".

Encl: (1) Proposed Citation
(2) Statements of Witnesses

1. In accordance with the provisions of reference (a), it is recommended that Major John Patrick MURPHY 059362/0302 United States Marine Corps Reserve attached to and serving with Headquarters Company, First Marines be awarded a Legion of Merit for meritorious achievement.

2. While serving as the Regimental S-2 Officer, First Marines during the period 10 August 1966 to 1 July 1967, Major MURPHY consistently displayed great enthusiasm and limitless energy in the collection and interpretation of information to determine location and intentions of the enemy. He developed First Marines' S-2 Section into a smoothly operating unit which consistently produced timely, accurate results. He has shown extraordinary ability to coordinate large intelligence collection efforts. He created an atmosphere of eager cooperation among the various agencies which are able to provide intelligence information to First Marines, including the civil and military agencies of the Government of Vietnam and the civilian agencies of the United States operating in the First Marines Tactical Area of Responsibility and adjacent areas. He inspired those around him with his prodigious and tireless efforts to keep ahead of the enemy situation. He repeatedly went to the scene of combat action to get first hand knowledge of the situation and to debrief field commanders. By his vigor and enthusiasm he has inculcated in Marines throughout the Regiment an awareness of the importance of intelligence in guerrilla warfare. Specific instances in which he was instrumental in pinpointing concentrations of the enemy include Operations UNION (36 confirmed kills); MANICAD II (32 confirmed kills); MANITA II (11 confirmed kills); TIGER (291 confirmed kills); LAPALTE (77 confirmed kills); CALYON (85 confirmed kills); he also participated in Operations UNION I and SLEIGH. Major MURPHY has traveled extensively throughout the Regimental Tactical Area of Responsibility by helicopter, wheeled vehicles, tank and IWT over roads and trails which were subject to enemy and sniper fire in order to obtain in-

formation on the enemy. Major MURTHA was responsible for construction of a demonstration course at Regiment which included training aids such as a booby trapped gate, punji pits, spider hole, and several examples of Viet Cong mines. This course was included as a part of the indoctrination booklet which all newly arrived soldiers and non-commissioned officers received at the Regimental level. Major MURTHA was also responsible for establishing a debriefing for all key personnel (Company Commanders, Platoon Leaders, and Platoon Sergeants) who were completing their tour of duty. Such debriefing was essential in the detection of obvious use by the Viet Cong and necessary to maintain the situation for dissemination. Major MURTHA designed a system for automating intelligence data which has saved his 2-2 Platoon untold hours in research. Major MURTHA's remarkable analytical capability and selfless dedication resulted in an uniquely important and active combat intelligence effort. His efforts and the results of those efforts added stature and prestige to the combat intelligence effort. Major MURTHA's counsel was sought by not only those in close association with him but by many from other commands as well.

3. The facts as contained in the proposed citation are personally known to me.

4. The award is for direct participation in combat operations and the Combat Distinguishing Device is recommended.

5. Major MURTHA was detached from this organization on 1 July 1967 for further transportation to Marine Corps Air Station El Toro for release from active duty.

6. Major MURTHA has been awarded the following personal decorations: Purple Heart with one star and the Vietnamese Cross of Gallantry with Bronze Star.

7. Major MURTHA has not been recommended for any awards previously which have not yet been awarded.

8. No additional recommendations are being submitted in connection with this case action.

E. J. RABICS

In the name of the President of the United States the Commanding General, Fleet Marine Force, Pacific takes pleasure in presenting the LEGION OF MERIT to:

MAJOR JOHN PARETICK MURTHA

UNITED STATES MARINE CORPS RESERVE

for service as set forth in the following

PROPOSED CITATION:

"For exceptionally meritorious conduct in the performance of outstanding service as Regimental Intelligence Officer, First Marine Regiment in the Republic of Vietnam from 18 August 1966 to 1 July 1967. Throughout this period, Major MURTHA displayed exceptional professional skill and tireless initiative in establishing, planning and executing an extensive intelligence collection and reporting system within the First Marine Regiment. Major MURTHA on a daily basis traveled throughout the Regimental Tactical Area of Responsibility into insecure areas by helicopter, wheeled vehicle, tank, and LVT in areas which were subject to mining and enemy sniper fire to debrief Company Commanders and Platoon Leaders and to obtain first hand intelligence information on the enemy. He has participated in Operations TETON, TRINIDAD II, BRANTA II, STONE, LAFAYETTE, CANYON, UNION I, and SAL* HORN. Major MURTHA was responsible for the construction of a demonstration course on punji pits, spider holes and several examples of enemy mining and booby traps to orient new arrivals to this Regiment. He was also responsible for establishing a comprehensive debriefing program within the First Marines for key personnel rotating back to the United States in order to obtain additional information on the Viet Cong tactics and techniques. Major MURTHA also instituted a program for automating intelligence data which saved the Intelligence Section needless hours of research and provided the command with a detailed summary of enemy activities in any portion of the Regimental Tactical Area of Responsibility. His initiative and professionalism contributed immeasurably to the successful accomplishment of the First Marines mission and inspired all those who observed him. By his exceptional professional skill, personal courage, exemplary leadership and uncommon initiative, Major MURTHA upheld the highest traditions of the Marine Corps and the United States Naval Service."

Major MURTHA is authorized to wear EDR Combat "V".

28 Jan 1967

From: Colonel Donald L. MALLORY O114721 USMC
To: Commanding Officer, 1st Marines

Subj: Meritorious service of Major John P. MURTHA O59862 USMC

1. This letter will call attention to the meritorious service of Major MURTHA as Regimental S-2 while under command of the undersigned from 18 August 1966, to 28 January 1967.

2. Major MURTHA has proved to be the most outstanding intelligence officer the undersigned has ever observed. He has consistently displayed great enthusiasm and limitless energy in the collection and interpretation of information to determine location and intentions of the enemy. He has developed 1st Marines' S-2 Section into a smoothly operating unit which consistently produces timely, accurate results. He has shown extraordinary ability to coordinate large intelligence collection efforts. He has created an atmosphere of eager cooperation among the various agencies which are able to provide intelligence information to 1st Marines, including Kit Carson Scouts and Census Grievance Personnel. He has inspired those around him with his prodigious, tireless efforts to keep ahead of the enemy situation. He has repeatedly gone on operations to get first-hand knowledge of the situation and to debrief field commanders. By his vigor and enthusiasm, he has inculcated in Marines throughout the Regiment an awareness of the importance of intelligence in guerrilla warfare. Specific instances in which he was instrumental in pinpointing concentrations of the enemy include Operations TETON (36 confirmed kills); TRINIDAD II (32 confirmed kills); SHASTA II (11 confirmed kills) and the heliborne raid on 14 January 1967 (61 confirmed kills). Significantly, by actual body count, over 1000 enemy have been killed or captured by 1st Marines in a four-month period.

3. It is recommended that Major MURTHA be considered for an award of the BRONZE STAR upon completion of his present tour.

D. L. MALLORY

STATEMENT of Major Roy G. CURRIE 070114 TAMC

During the period 12-22 February 1967, I personally observed the outstanding performance of Major John P. MATHIA in Operation SILENT. Working under the most difficult combat conditions, Major MATHIA as the Intelligence Officer of the 1st Marines made perhaps the greatest single contribution to this highly successful operation. It was through his persistent efforts in collecting, interpreting and distributing intelligence that Operation SILENT was born.

Throughout the Operation his aggressive and untiring performance continued to develop the information which enabled the 1st Marines to pursue the enemy and annihilate him in what he considered to be a safe area.

On several occasions Major MATHIA continuously exposed himself to hostile enemy fire in order to gather first hand information from the small unit leaders on the field of battle. His courageous and aggressive actions contributed materially to accomplishment of the mission of the 1st Marines during this highly successful operation.

Major MATHIA's tenacious and untiring efforts throughout the operation, without relief, and his outstanding display of presence of mind and his bold and courageous performance throughout this single highly successful operation is deserving of an appropriate personal commendation.

Roy G. Currie

1. In accordance with reference (a), it is recommended that Private First Class William Edwin GRIDER 2061169/2543 United States Marine Corps be awarded the Commanding General's Certificate of Commendation.

2. Private First Class GRIDER is to be transferred to Commanding General 2nd Marine Division, FIF on 8 July 1967.

E. J. RADICS

CERTIFICATE OF COMMENDATION

PRIVATE FIRST CLASS WILLIAM ERVIN CRIDER

UNITED STATES MARINE CORPS

For outstanding performance of duty while serving as a Communication Center Man and Watch Supervisor with Headquarters Company, First Marine Regiment, First Marine Division (Rein), 1st MAF in operations against insurgent communist (Viet Cong) forces in the Republic of Vietnam during the period 9 July 1966 to 8 July 1967.

Displaying exceptional initiative and professional skill in his conscientious devotion to duty and the Marine Corps, Private First Class CRIDER worked long hours under arduous monotonous conditions, never complaining and served as an example throughout to his co-workers. In addition to his normal watch hours, Private First Class CRIDER spent considerable off-watch time helping to work out specific problems which arose from time to time. His performance of duty plus his pleasant cheerful character and zeal to serve have gained him the reputation of a "can-do" worker and has significantly contributed to the effectiveness of the Regimental Communication Center.

Private First Class CRIDER's outstanding professional skill and dedication to duty reflect credit upon himself, his unit, and the United States Marine Corps.

1. In accordance with the provisions of reference (a), it is recommended that Staff Sergeant John A. HARRIS 1518077/5711 United States Marine Corps attached to and serving with Headquarters Company, First Marine Regiment be awarded the Navy Commendation Medal for meritorious service.

2. While serving as Noncommissioned officer in charge of the S-5/Civil Affairs Section, Headquarters Company, 1st Marines, during the period 7 March 1967 to 5 July 1967 in the vicinity of Danang, Republic of South Vietnam, Staff Sergeant HARRIS' performance rendered possible the continued maintenance of a highly effective Civic Action Program by this Regiment. Throughout this period, Staff Sergeant HARRIS displayed exceptional enthusiasm, initiative, and skill in supporting and providing for extensive Civic Action Projects and in assisting to establish compatible working relationships with local villagers, government officials, and United States military/civilian advisory personnel. He arranged for the timely procurement and delivery of building materials to the sites of a school construction project, ten well projects, and numerous other self-help projects requiring commodities. He worked diligently and diplomatically with United States advisory personnel and Vietnamese officials in coordination of projects and other matters concerning the critical relationship between United States Marines and local villagers. Additionally, Staff Sergeant HARRIS made specific and tactful efforts to promulgate the Civil Affairs/Civic Action philosophy to all Marines within his contact. In all of his dealings with the Vietnamese people, his highly professional manner, his ability to understand their problems, and his engaging, sincere personality enabled him to significantly contribute to the mutual understanding and appreciation between United States Marines and the Vietnamese people. Staff Sergeant HARRIS' tireless attention to duty, and his continual display of enthusiasm and understanding for the Marine Civic Action Program has inspired the respect and cooperation of those with whom he has served.

In the name of the President of the United States the Commanding General, Fleet Marine Force, Pacific takes pleasure in presenting the NAVY COMMENDATION MEDAL to

STAFF SERGEANT JOHN A. HARRIS

UNITED STATES MARINE CORPS

for service as set forth in the following

PROPOSED CITATION:

"For meritorious service while serving as Noncommissioned Officer in charge of the Civil Affairs Section, First Marines in connection with operations against insurgent communist (Viet Cong) forces in the Republic of Vietnam from 7 March 1967 to 5 July 1967. During this period, Staff Sergeant HARRIS performed his duties in an exemplary and highly professional manner. Staff Sergeant HARRIS has participated in Operations STONE, CANYON, UNION I, LAFAYETTE and CALHOUN. He has travelled many miles throughout the First Marines Tactical Area of Responsibility by vehicle and on foot over roads and trails which were subject to mining and enemy sniper fire and into Hamlets and Villages in connection with Civic Action Programs. On numerous occasions, he arranged for the timely procurement and delivery of building materials to the sites of self-help projects which required commodities. Through his initiative and enthusiasm Staff Sergeant HARRIS was responsible for the timely construction of a school, 10 well projects and several other small projects. He worked diligently and diplomatically with United States Advisory personnel and Vietnamese officials in coordination of projects and other matters concerning the critical relationship between United States Marines and local villagers. In all of his dealings with the Vietnamese people, his highly professional manner, his ability to understand their problems and his engaging and sincere personality enabled him to significantly contribute to the mutual understanding and appreciation between United States Marines and the Vietnamese people. Additionally, Staff Sergeant HARRIS made specific and tactful efforts to every Marine he came in contact with, to instill in them the Civic Action philosophy that he firmly believed in. His positive and dedicated efforts, recognized and deeply appreciated by the Vietnamese people, contributed immeasurably to the successful accomplishment of the First Marines Civic Action Programs and inspired all those who served with him. By his exceptional enthusiasm, initiative and skill, Staff Sergeant HARRIS upheld the highest traditions of the Marine Corps and of the United States Naval Service."

Staff Sergeant HARRIS is authorized to wear the Combat "V".

1. In accordance with reference (a), it is requested that Sergeant Major William Francis COOK 854182/9999 United States Marine Corps, attached to and serving with Headquarters Company, First Marines in the Republic of Vietnam be awarded the Navy Commendation Medal for meritorious service.

2. While serving as the Sergeant Major of the First Marines from 7 January 1967 to 1 July 1967, Sergeant Major COOK distinguished himself by exceptional meritorious service and unswerving devotion to duty. His ability to infuse his juniors and seniors alike with his spirit and devotion to the Corps contributed immeasurably to the high morale and esprit of the Regiment. Sergeant Major COOK was a member of the Regimental Awards Board which he devoted many hours in reviewing and rewriting proposed citations ensuring that each recommendation meet the criteria for the award. He was the Commanding Officers vital and instrumental advisor, on all matters and his professional knowledge and excellent judgement were always factors in the Regiments successful accomplishment of its mission. Sergeant Major COOK traveled extensively throughout the Regimental Tactical Area of Responsibility over roads and trails subject to mining and enemy sniper fire, visiting the Battalions and Companies to assist and advise them. He also displayed a keen interest in the lives and problems of the young Marines and he was never too busy to stop and talk to them or to counsel them. Sergeant Major COOK's leadership and devotion to duty were a constant inspiration to all who served with him.

3. The facts contained in the proposed citation are personally known to me.

4. The award is for direct participation in combat operations and the Combat Distinguishing Device is recommended.

5. Sergeant Major COOK has been awarded the following medals: Good Conduct Medal.

6. Sergeant Major COOK has not been recommended for any previous awards for service in Vietnam.

7. Sergeant Major COOK was detached from this organization on 1 July 1967 for transfer to Force Troop, Fleet Marine Force, Atlantic, Camp Lejeune, North Carolina.

8. Sergeant Major COOK has not been awarded or recommended for any foreign decorations in connection with these same actions.

(2) Statements of Witnesses

1. In accordance with the provisions of reference (a), it is recommended that Major John Waterbury ANDREWS O57629/0302 United States Marine Corps attached to and serving with Headquarters Company, First Marines be awarded a Legion of Merit for exceptionally meritorious service.

2. While serving as the Regimental S-4 Officer from 18 August 1966 to 11 November 1966, Major ANDREWS overcame a multitude of engineering and transportation problems to provide outstanding logistical support to combat units which were deployed in almost totally inaccessible areas. As Regimental S-3 Officer, Major ANDREWS was truly professional and versatile. He skillfully planned and coordinated combat operations of the Regiment with telling results against the enemy. Even under conditions of fatigue and excitement of contact with the enemy, Major ANDREWS was calm, deliberate, and keenly analytical. His initiative and imagination in reacting to intelligence resulted in numerous tactical successes by the Regiment. Specific instances include Operations TETON (36 confirmed kills); TRINIDAD II (32 confirmed kills); SHASTA II (11 confirmed kills); the heliborne raid on 11 January 1967 (61 confirmed kills); CANYON (85 confirmed kills); STONE (291 confirmed kills); LAFAYETTE (77 confirmed kills); he also participated in Operations UNION I, CALHOUN, and ELLIOT. Noteworthy, during the period 12-22 February 1967, on Operation STONE, were Major ANDREWS' determined and tenacious actions which contributed materially to the eventual success of the operation. As the operations officer of the First Marines Major ANDREWS developed the concept of the operation which enabled the Regiment to surprise, pursue and destroy a large enemy force in the shortest possible time. His continuing, untiring efforts, without relief, under hostile combat conditions in assisting the commander in the development and execution of operational plans provided the stability and guidance necessary for subordinate commanders to successfully accomplish their mission. His planning of major operations has been especially noteworthy. Specific examples

include realignment of the Regimental Tactical Area of Responsibility; convoy protection between Danang and Chu Lai; increased use of quick-reaction forces in vertical envelopments; and the movement of a reinforced rifle company to a remote outpost deep in enemy territory.

3. The facts as contained in the proposed citation are completely substantiated by the statements of eye-witnesses and are personally known to me.

4. The award is for direct participation in combat operations and the Combat Distinguishing Device is recommended.

5. Major ANDREWS will be detached from this organization on 14 July 1967 for transfer to Marine Barracks, Treasure Island for temporary duty pending retirement on 31 August 1967.

6. Major ANDREWS has been awarded the following personal decorations: Purple Heart, Good Conduct Medal and the Vietnamese Cross of Gallantry with Silver Star.

7. Major ANDREWS has not been recommended for any awards previously which have not as yet been awarded.

E. J. RADICS

In the name of the President of the United States the Commanding General, Fleet Marine Force, Pacific takes pleasure in presenting the LEGION OF MERIT to:

MAJOR JOHN WATERBURY ANDREWS

UNITED STATES MARINE CORPS

for service as set forth in the following

PROPOSED CITATION:

"For exceptionally meritorious conduct in the performance of outstanding service as Regimental Logistics Officer and Regimental Operations Officer, First Marine Regiment in the Republic of Vietnam from 18 August 1966 to 12 July 1967. Throughout this period, Major ANDREWS displayed exceptional professional skill and tireless initiative in establishing, planning and executing logistical support for the Regiment and many combat operations from Company to Regimental size. Major ANDREWS travelled extensively throughout the First Marines Tactical Area of Responsibility into insecure areas by helicopter, wheeled vehicle and tank in areas which were subject to mining and enemy sniper fire to coordinate the operations of the Regiment. His initiative and imagination in reacting to intelligence resulted in numerous tactical successes by the First Marines in combat against Communist insurgent (Viet Cong) forces. Specific instances include Operations TETON (36 confirmed kills); TRINIDAD II (32 confirmed kills); SHASTA II (11 confirmed kills); CANYON (65 confirmed kills); STONE (293 confirmed kills); LAFAYETTE (77 confirmed kills); the heliborne raid on 14 January 1967 (61 confirmed kills), he also participated in Operations UNION I, CALHOUN, and ELLIOT. During the period 12-22 February 1967, on Operation STONE, Major ANDREWS' determined and tenacious actions contributed materially to the most successful operation of the First Marines. As the Operations Officer, Major ANDREWS developed the concept of the operation which enabled the Regiment to surprise, pursue and destroy a large enemy force in the shortest possible time. His continuing, untiring efforts, without relief, under hostile combat conditions in assisting the commander in the development and execution of operational plans provided the stability and guidance necessary for subordinate commanders to successfully accomplish their mission. Other specific examples of Major ANDREWS' professionalism and versatility include realignment of the Regimental Tactical Area of Responsibility; control and protection of road convoy movement between Danang and Chu Lai; increased use of quick-reaction forces in vertical envelopments, employment of the Regimental Scout Sniper Platoon (121 confirmed kills), establishment and employment of eight Combined Action Platoons, successful joint operations with units of the Army of the Republic of Vietnam, and the movement and operational control of a reinforced rifle company to a remote outpost deep into enemy territory, which was located 35 miles south of DANANG and only accessible by helicopter. His outstanding initiative and

professionalism contributed immeasurably to the successful accomplishment of the First Marines mission and inspired all those who observed him. By his exceptional professional skill, personal courage, exemplary leadership and uncommon initiative, Major ANDREWS uphold the highest traditions of the Marine Corps and the United States Naval Service."

Major ANDREWS is authorized to wear the Combat "V"

Subj: Meritorious service of Major John W. ANDREWS O57629 USMC

1. This letter will call attention to the meritorious service of Major ANDREWS as Regimental S-4 and S-3 while under command of the undersigned from 18 August 1966, to 28 January 1967.

2. As the Regimental S-4 until 11 November 1966, Major ANDREWS overcame a multitude of engineering and transportation problems to provide outstanding logistical support to combat units which were deployed in almost totally inaccessible areas. As Regimental S-3, Major ANDREWS has been truly professional and versatile. He has skillfully planned and coordinated combat operations of the Regiment with telling results against the enemy. Even under conditions of fatigue and excitement of contact with the enemy, Major ANDREWS has been calm, deliberate, and keenly analytical. His initiative and imagination in reacting to intelligence have resulted in numerous tactical successes by the Regiment. Specific instances include Operations TETON (36 confirmed kills); TRINIDAD II (32 confirmed kills); SHASTA II (11 confirmed kills); and the heliborne raid on 14 January 1967 (61 confirmed kills). Significantly, by actual body count, over 1,000 enemy have been killed or captured by 1st Marines in a four-month period. His planning of major operations has been especially noteworthy. Specific examples include realignment of the Regimental TAOR; convoy protection between Danang and Chu Lai; increased use of quick-reaction forces in vertical envelopments; and movement of a reinforced rifle company to a remote mountain top deep in enemy territory. Major ANDREWS' untiring attention to duty and resolute determination to achieve outstanding results under all conditions have been in keeping with the highest traditions of the United States Marine Corps and the United States Naval Service.

3. It is recommended that Major ANDREWS be considered for an award of the BRONZE STAR upon completion of his present tour.

D. L. MALLORY

STATEMENT of Major Roy G. CORBETT 070314 USMC

During the period 12-22 February 1967, I personally observed the outstanding performance of Major John W. ANDREWS on Operation STORM. His determined and tenacious actions contributed materially to the eventual success of the operation. As the operations officer of the 1st Marines, Major ANDREWS developed the concept of the operation which enabled the Regiment to surprise, pursue and destroy a large enemy force in the shortest possible time. His continuing, untiring efforts, without relief, under hostile combat conditions in assisting the commander in the development and execution of operational plans provided the stability and guidance necessary for subordinate commanders to successfully accomplish their mission.

On numerous occasions Major ANDREWS subjected himself to hostile fire visiting units on the field of battle in order to better enable him to advise the commander concerning the progress of the battle against main force Viet Cong units.

Major ANDREWS by his outstanding display of presence of mind and by his courageous, bold and aggressive performance of his duties, made an outstanding contribution to this most highly successful Regimental combat operation and is highly deserving of an appropriate personal decoration.

Roy G. Corbett
ROY G. CORBETT

Statement of Major John P. MURTHA, 059862/0302, USMC

During the period 12-22 February 1967 during Operation "Stone", I personally observed the outstanding performance of duty of Major John W. ANDREWS, his outstanding professionalism and dedication to duty contributed to the success of Operation "Stone". He worked constantly 18 hours a day supervising, and directing the Regimental S-3 Section in the field and directing the operation of the Battalion during all phases of the highly complex operation. He constantly made physical liaison at the Battalion Command Posts with disregard to the sporadic sniper fire in the Helicopter Landing Zones. Although physically worn out from the constant strain he continued throughout the 10 Straight days of continuous combat to control and supervise the operation and the intricate coordination of the Infantry Battalions. His tremendous effort was an inspiration to all the Regimental Staff throughout the entire operation. His expert planning, continuous personal supervision coupled with his detailed coordination and maximum utilization of supporting weapons continually kept the Viet Cong off balance and was highly instrumental in the killing and capturing of Viet Cong during operation "Stone".

Ref: (a) FMFPacO P1650.1A

Encl: (1) Proposed Citation

1. In accordance with the provisions of reference (a), it is recommended that Lance Corporal Don Terrance POSTLEWAITE 2226363/2532 United States Marine Corps Reserve, attached to and serving with Headquarters Company, First Marines, First Marine Division (Rein), FMF be awarded the Navy Commendation Medal for meritorious service.

2. During the period of 9 July 1966 to 18 July 1967 Lance Corporal POSTLEWAITE, a radio relay operator, performed the duties of operating the generator that supplies power for the operation of the Regimental Command Post.

3. Under the severest of conditions Lance Corporal POSTLEWAITE performed his duties in a manner to most certainly set him apart from other Marines of his age, rank and experience. A person with less initiative and aggressive spirit would have weakened under the massive and many times fatiguing responsibilities that befell him. Not being formally trained in the operation and repair of this particular type of equipment he expanded his knowledge through self study and on his own initiative sought out information from others more familiar with the equipment than he.

4. During December 1966 Lance Corporal POSTLEWAITE replaced and installed new electrical wire in officer spaces, living quarters and other facilities in the First Marines Command Post. This work was accomplished in addition to his regular duties, much of it at night when the buildings were vacated. Although not a requirement of his Military Occupational Specialty the job was completed with the precision of a person well trained in this field. As a result of his exceptional ability and untiring devotion to duty the members of the regimental staff were able to accomplish their mission in an increased degree of comfort and the ever present hazard of electrical fire was removed.

5. On the night of 12 November 1966 he displayed his ability to perform the basic duty of all Marines by reverting to the roll of rifleman in a reaction force sent from the Regimental Command Post to reinforce a platoon from "I" Company, Third Battalion, First Marines at the Village of An Trach. Moving 3,000 meters in the darkness Lance Corporal POSTLEWAITE and the other members of the reaction force, set up a defense, cared for the casualties and reestablished communications with the Regimental Command Post.

6. While a member of this organization Lance Corporal POSTLEWAITE actively participated in Operations STONE, LAZYBONE, CANTON, UNION, CALICOU, and ELLIOT.

7. It is considered that the accumulation of facts set forth above indicate a pattern of exceptional initiative, resourcefulness, and professional skill and clearly substantiate the awarding of the Navy Commendation Medal.

8. The facts contained in the proposed citation are personally known to me.

9. The award is for direct participation in combat operations and the Combat Distinguishing Device is recommended.

10. Lance Corporal POSTLEWAITE has been awarded no personal decorations and/or awards.

11. Lance Corporal POSTLEWAITE was detached from this organization on 18 July 1967 for transfer to Commanding General, 2nd Marine Air Wing, Fleet Marine Force, Atlantic, Marine Corps Air Station, Cherry Point, North Carolina.

12. No foreign decorations have been recommended or awarded to Lance Corporal POSTLEWAITE for these same actions.

R. A. THOMAS

In the name of the Secretary of the Navy, the Commanding General, Fleet Marine Force, Pacific takes pleasure in presenting the NAVY COMMERCIATION MEDAL to

LANCE CORPORAL DON TERRANCE POSTLEWAITE

UNITED STATES MARINE CORPS RESERVE

for service as set forth in the following

PROPOSED CITATION:

"For meritorious service while serving with Headquarters Company, First Marines as Generator Operator for the First Marines Command Post in the Republic of Vietnam. From 9 July 1966 to 18 July 1967 Lance Corporal POSTLEWAITE, a radio relay operator, was assigned duties as Generator Operator and performed his duties with such a degree of professionalism as to readily place him in a category far above that of his contemporaries. His initiative and drive made it possible for him to conquer problems of enormous proportions. All endeavors attempted by Lance Corporal POSTLEWAITE were accomplished with an attitude of cheerfulness and his dedication to duty was inspiring to all who came in contact with him. Lance Corporal POSTLEWAITE's specific duty was the operation and maintenance of the generators producing electrical power for use in the First Marines Command Post. Although unfamiliar with the equipment he attacked the multitude of technical problems with determination and through his own initiative gained the knowledge to perform his duties with the professional skill expected only in those Marines formally trained in this field. During December 1966 the electrical wiring within the First Marines Command Post was in bad need of replacement and repair. Again Lance Corporal POSTLEWAITE undertook an unfamiliar job with his usual degree of resourcefulness. While performing his regular duties in the same outstanding manner he completely rewired all facilities within the Command Post, working mostly at night when office spaces were vacated. The skill he displayed resulted in a professional job that would be difficult to surpass. On the night of 12 November 1966 Lance Corporal POSTLEWAITE demonstrated his ability to assume the basic roll of all Marines by joining a reaction force as a rifleman in the reinforcement of a platoon from "I" Company, Third Battalion, First Marines at the village of An Trach. He and the rest of the force moved some 3,000 meters in the darkness, set up a defense, cared for casualties and reestablished communications with the Regimental Command Post. During his tour of duty in the Republic of Vietnam Lance Corporal POSTLEWAITE actively participated in Operations STONE, LAFAYETTE, CANYON, UNION, CALHOUN, and ELLIOT. By his exceptional professional ability, uncommon initiative and selfless devotion to duty, Lance Corporal POSTLEWAITE upheld the finest traditions of the Marine Corps and the United States Naval Service."

Lance Corporal POSTLEWAITE is authorized to wear the Combat "V".

STATEMENT BY COMMANDER

SERGEANT I. M. MCGUIRE

UNIT INSPECTOR, MARINE CORPS

For outstanding performance of duty while serving as Regimental Radio Chief with Landing Helicopter Company, First Marines in operations against insurgent communist (Viet Cong) forces in the Republic of Vietnam, for the period 25 March 1967 to 20 July 1967. Sergeant MCGUIRE demonstrated outstanding ability, skill, initiative, foresight, and devotion to duty. All of these attributes were demonstrated to the Commanding Officer only of an experienced flight commissioned officer. The activities were performed in the near perfect radio communications environment by Regimental Headquarters during operations MILES, CALVERT and FLICE. During each of these operations Sergeant MCGUIRE also displayed outstanding ability at handling troops while operating very long sleepless nights making sure all radio nets were operating properly and that continuous reliable radio communications were maintained. Sergeant MCGUIRE's outstanding professional skill and dedication to duty set an example for his fellow Marines and inspired them to a higher performance of duty. Sergeant MCGUIRE's leadership, during this entire period, reflects credit upon himself, and the United States Marine Corps.
