DECLASSIFIED

9. Mission Assigned. 1st Bn, 1st Marines conducts aggressive patrolling and ambushing within its TAOR, to locate, fix, and destroy enemy forces and material in the area; and conducts unilateral and/or combined operations with US and/or RVN forces beyond the boundaries of the TAOR. Concurrently, the battalion conducts operations in a manner to strengthen support of the civilian population for Marine and GVN efforts.

10. Background.

a. On 1 March, the battalion (-) was placed in 3d Marine Division reserve. Its area of routine operation was limited to that immediately surrounding DA NANG (MARBLE MOUNTAIN) cantonment area which housed it, with the anticipation that the battalion would be maintained in a high state of readiness for rapid employment as directed by the Commanding General, 3d Marine Division. One rifle company was detached and placed under OPCON of the Commanding Officer, 3d Marines, for employment in a similar fashion.

b. Within four hours of its assumption of this status, deployment of the battalion began. Within two days, elements of the battalion were committed in both the HUE-PAU BAI and CHU LAI enclaves.

c. By mid-month, the battalion (still minus the rifle company OPCON 3d Marines) had reassembled at PHU BAI, and commenced daily operations within an assigned TAOR. Since the battalion was not directly involved in the defense of a vital installation, its units were called upon, on several occasions during the remainder of the month, to demonstrate readiness for rapid employment outside of the assigned TAOR. Only one rifle company was actually committed to a combat operation outside the TAOR during this period, although two rifle companies and a battalion command group, on another occasion, moved to the PHU BAI airfield to stand by for airlift to CHU LAI.

d. For approximately ten days, while Co K, 3d Bn, 3d Marines was placed under OPCON of the battalion, the TAOR was divided into four company-sized areas of responsibility. It was re-divided into three AOR's when Co K was returned to its parent organization in the DA NANG enclave. All "semi-permanent" facilities were maintained in the vicinity of the battalion command post,

SECRET
DECLASSIFIED

to permit maximum freedom of movement for each company within its assigned area. Companies were rotated within the TAOR periodically, to increase overall familiarity with the terrain and to equalize use of the facilities located at the battalion command post.

1. PERSONNEL

a. Replacements. During this reporting period, the battalion received the following personnel as replacements.

- (1) Officers 0
- (2) Enlisted 57

b. Rotation. The following number of personnel were rotated to CONUS.

- (1) Officers 0
- (2) Enlisted 27
- (3) USN Enlisted 2

c. Personnel lost through attrition other than rotation.

- (1) WIA 7
- (2) WIAVE 2
- (3) KIA 1
- (4) Died Non Battle 1
- (5) USMC Non Battle Casualty 5
- (6) USN Non Battle Casualty 3
- (7) Unsuitability Discharge 1
- (8) Inter Division Transfer 8

d. R&R. The following number of personnel were assigned R&R quotas to the locations indicated.

- (1) Hong Kong 3
- (2) Saigon 4
- (3) Tokyo 2

e. Special Services. The following items were received from Division Special Services.

- (1) Popcorn popper 1
- (2) Game kits 18
- (3) Decks of playing cards 250
- (4) Dart Games 10
- (5) Football games 7
- (6) Scent Socks (pair) 30
- (7) Softballs (doz) 4

2. ADMINISTRATION.

a. Personnel Accounting. Orders on personnel rotating to CONUS are not being received. Of a total of 84 personnel rotating to CONUS in April only 4 sets of orders have been received as of this date.

b. Awards.

(1) The following awards were processed and forwarded to higher headquarters for action.

(a) Silver Star	4
(b) Bronze Star	4
(c) Navy Commendation Medal	3

(2) 47 Purple Heart Awards were received by this command, and presented/forwarded to the personnel concerned.

(3) 1 Bronze Star Medal and 4 Navy Commendation Medals were presented.

(4) Nine persons were awarded meritorious mast.

c. Promotions. During this reporting period, the following promotions were effected.

(1) To Captain	1
(2) To Sergeant	17

3. Intelligence.

a. Enemy situation at the beginning of the period. Upon arrival at the PHU BAI enclave, the 2d Battalion, 1st Marines was engaged with the 810th Viet Cong Battalion in the PHU THU District, northeast of the PHU BAI perimeter. The action resulted in 122 confirmed VC KIA and over seventy (70) individual and crew-served weapons captured. Periodic reports were received by G-2, 1st ARVN Division, indicating that VC Main Force units were deploying to the edge of the jungle area adjacent to the rice growing lowlands. Such a move indicates that the VC are preparing to conduct operations in the lowland area to procure a major part of the forthcoming rice harvest. A rallier report received during early March related that the 95th Regiment of the 325th North Vietnamese Division participated in the attack on ASHAU Special Forces Camp (Y0494834). The presence of the 95th Regiment of the 325th Division in the 11th DTA has not been confirmed. The possible presence of the 95th Regiment increases the number of regimental units to three. Listed below is the reported organization of the regimental units operating in THUA THIEN and QUANG TRI Provinces:

95th NVA Regiment (Probable)

4th Battalion
5th Battalion
6th Battalion

1st Provisional Viet Cong Regiment (Confirmed)

802d Battalion
804th Battalion
(1) Unidentified NVA Battalion

6th Provisional Viet Cong Regiment (Probable)

800th Battalion
806th Battalion
808th Battalion
812th Battalion (Unconfirmed)

b. Enemy initiated incidents during the period.

(1) Incidents reported during March are listed below and compared with February.

	<u>MARCH</u>	<u>FEBRUARY</u>
Engagements	6	4
Mine Incidents	22	41
Harassing Fire	5	33
Sniper Fire	1	2
Mortar Fire	1	
Ground Fire	2	

DECLASSIFIED
ENCLOSURE (1)
SECRET

DECLASSIFIED

SECRET

(2) Enemy activity within the TAOR centered on the VI DA - VO XA Hamlet area located in GS's (YD7811) and (YD7810). These hamlets have long been known to be way-station areas for troops and supplies passing between the jungle area of NAI HOA District and the rice lands of HUONG THUY and PHU THU Districts to the northeast. The VC warning system in the village has enabled them to avoid contact with friendly forces operating in the area. Viet Cong suspects apprehended in the village have given extensive information concerning VC activity but to date this information has been of little use because of limited contact. In an attempt to discourage friendly troops from operating in the VI DA - VO XA area, the VC have utilized mines and booby traps. The VC in this area have not shown the sophistication in this type warfare that was common to VC forces in the DANANG enclave. This fact has enabled friendly forces to detect a greater number of mines/booby traps than in previous months. The following table compares mining incidents of February and March:

	<u>February</u>	<u>March</u>
Total Mining Incidents	41	22
% of Mines Detected	50%	68%
No. of Casualties	40	8

(3) 2 March 1966, ARVN and Marine forces engaged the 810th VC Battalion in PHU THU District, northeast of the PHU BAI Critical area. This action resulted in over 120 VC KIA and in excess of 70 individual and crew-served weapons captured. After sustaining heavy casualties the 810th Battalion withdrew southeast to the vicinity of BACH MA Mountain (ZC619250)

(4) 9 March 1966, 1st ARVN Division reports that ASHAU Special Forces Camp (YC494834) was under mortar and ground attack by an estimated (2) VC Battalions. (2) North Vietnamese soldiers who rallied to the camp several days prior to the attack stated that the participating VC forces were elements of the 325th NVA Division, specifically the 95th Regiment. This report is unconfirmed. After three days of continual attack the camp was abandoned. The Viet Cong employed extensive anti-aircraft weapons along all approaches to the area in preparation to engage airborne reinforcements.

(5) 122003H, A Company ambush vicinity (YD790103) fired on (2) armed VC resulting in (1) possible WIA. During a search of the killing zone fire was exchanged with (3) additional VC with negative results. When the ambush pursued the fleeing VC, (1) VC was sighted and taken under fire on a foot bridge vicinity (YD791105). The search of the area continued and 4-5 VC were engaged in a hut vicinity (YD791105). The VC

ENCLOSURE (1)

DECLASSIFIED

DECLASSIFIED
SECRET

fled when fired on, leaving a M16-36 rifle, (4) ChiCom grenades, (1) M-26 grenade, ammunition and clothing behind. A search of the area revealed blood indicating 3-4 VC WIA.

(6) 131630H, a mine sweep team discovered (1) AT mine with a booster charge of 10 pounds of TNT at (YD815169). During the next two days (2) additional AT mines were found in the same area.

(7) 151915H, C Company observed (3) rounds incoming 60mm mortar fire at (YD794113). Charlie-6 believes the rounds came from the West and were directed at Charlie Company's old CP site.

(8) 211005H, a Marine 6X6 truck detonated an AT mine at (YD807-106) causing extensive damage to the right front of the vehicle. No casualties resulted from the incident.

(9) 22 March, 1st ARVN Division reports (1) VC Battalion dispersed at the following coordinates: (YD756068), (YD754064) and (YD753068). (C-3 rating).

(10) 231915H, Charlie - 2 ambush patrol received 8-10 rounds automatic carbine fire from (YD790099). Fire was returned with negative results.

(11) 282330H, Charlie - 3 patrol returning to its patrol base at (YD793107) surprised an estimated 15-20 VC. The patrol sighted the VC when it gave a prearranged signal to enter the base area. The VC reacted by throwing TNT charges at the Marines. The Marines returned fire and pursued the VC into a heavily vegetated area south of the base camp prior to losing contact. One USMC KIA and one WIA resulted. Blood and bandages found in the area of the incident revealed that the VC suffered an estimated one KIA and four WIA. The following equipment and weapons were captured: (1) M16-49 SMG; (3) 30 round magazines; (2) ChiCom grenades; (13) 1 pound blocks of TNT with fuzes; (1) ChiCom mine and 87 rounds of 9mm ammunition.

c. Summary of enemy casualties, captured, and equipment captured during the period.

(1) Viet Cong Losses (Personnel)

(a) KIA - 3 (probable)

(b) WIA - 9

WIA - 2 (possible)

(c) VCC - 0

(2) Viet Cong Losses (Weapons)

(a) One M1S-36 rifle

(b) One MAT-49 SMG

(3) Viet Cong Losses (Miscellaneous)

(a) Seventeen Man Traps

(b) Seventeen Kaylayan Whips

(c) Seventy-seven Rounds 7.62 Ammunition

(d) Twelve Panjii Traps

(e) Seventeen AP Mine/Booby Traps

(f) Six AT Mines

(g) Seven ChiCom Grenades

(h) Two Cartridge Belts

(i) Twenty Pounds TNT

(j) Two K-50 Magazines

(k) One Set Binoculars

(l) Five Fifty Foot Ropes

(m) One Fifty Foot Rope Ladder

(n) Eighty-seven Rounds 9mm Ammunition

(o) Thirteen One Pound TNT Charges With Fuzes

(p) One Tunnel

d. Significant trends noted during the period. Reports of enemy movements indicated that the Main Force VC units have deployed to the eastern edge of the jungle area. This move was anticipated because of the forthcoming rice harvest and the VC need for an abundance of rice to support present forces. The effectiveness of the VO XL - VI DA area as a way-station has been lost due to the continual operation of friendly forces in the area. To avoid contact with friendly forces the VC have withdrawn across the SONG T. TR. CH River to the DINH MON area GS (YD7811).

DECLASSIFIED
SECRET

e. Enemy situation at the end of the period. During the latter part of the month VC forces avoided significant contact with friendly forces within the TAO. The VC have relied on harassing fire and the employment of explosive devices to inflict casualties on friendly units. Contact was made with a VC Battalion in HUONG DIEN District of THUA THIEN Province on 20 March. Interrogation of VCC revealed the VC unit to be the K-500 Battalion (unconfirmed) and the K-105 Company (confirmed Main Force). Another report stated that a VC Company had entered PHU THU District of THUA THIEN Province to recover weapons hidden by the 810th Battalion after it was engaged by ARVN and USMC units in early March. This is highly probable as few large caliber weapons, 81mm mortars and 57 recoilless rifles, were captured by friendly forces. Analysis of the present deployment of VC forces and reports indicate that Main Force VC units will enter the rice growing lowlands of THUA THIEN and QUANG TRI to procure rice.

DECLASSIFIED
SECRET
SECURITY (1)

SECRET

4. Training. A combination of factors--the great amount of "field time" logged in by rifle companies within their respective AOR's and the unusually large amount of time spent by the battalion in deploying units or preparing for their deployment outside the TAOR--precluded formal training during the month. While they were in an "alert" status, rifle companies conducted informal classes in the general military subjects, with emphasis on map reading, compass work, and subjects most applicable to the current situation. Companies conducted "fam-firing" exercises for organic weapons within their AOR's when conditions permitted. Newly joined personnel continued to receive thorough indoctrination in those matters pertinent to combat in Vietnam--as they were processed through their respective company administrative echelons prior to joining their units in the field.

DECLASSIFIED

DECLASSIFIED

Attachments and Detachments.

(1) Attachments. The following units were placed under operational control of 1st Bn, 1st Marines for the periods indicated:

Co E 2d Bn, 1st Marines	2-3 March	(Operation TROY)
Co F 2d Bn, 9th Marines	2-3 March	(Operation TROY)
Co K 3d Bn, 3d Marines	3-24 March	

(2) Detachments.

(a) Co D remained under OPCON 3d Marines during the entire reporting period.

(b) A 40-man detachment from H&S Co remained under OPCON 3d Bn, 9th Marines from 11 March through the end of the reporting period, to assist in security of the DA NANG (MARBLE MOUNTAIN) containment area.

d. Control.

(1) On two occasions during the reporting period, the battalion formed command groups A and B, in anticipation of operational commitments. Command group B was not committed outside of either battalion command post area.

(2) During operations within its TAOR, the battalion was controlled from a command bunker within the battalion command post area. Wire and radio were the means of communication must used.

e. Problem Areas. It was determined that additional support, in the form of artillery liaison personnel and air liaison personnel--with appropriate communications equipment--would be required if command groups A and B were to be deployed simultaneously.

DECLASSIFIED

DECLASSIFIED

8. Communication-Electronics.

a. Wire. The battalion established its C. P. in the HUE/PHU BAI area on 12 March 1966. Wire communications were installed to all staff sections and key offices. Task Group Foxtrot installed two metallic trunk lines to the 1st Battalion 1st Marines.

b. Radio. On establishing the C. P., radio communications were established with Task Group Foxtrot on both HF and Fm. Fourth Marines assumed net control at 280800 March.

c. Radio Relay. None

d. Message Center/Teletype. From the time this was established until 28 March the message center operated without a transmitting and receiving section. All messages were delivered by courier to Task Group Foxtrot. On 28 March a covered circuit was established with the Fourth Marines. This circuit is superimposed over land line.

e. Maintenance and Supply. Normal operations.

f. Problems Encountered. None

b. Significant Events

(1) 1 March - At 1100H, the battalion closed its command post at (AT 953723) and reverted to 3d Marine Division Reserve. Simultaneously, Co D was chopped to 3d Marines for employment in the 1st Bn, 3d Marines area. 2d Bn, 3d Marines assumed responsibility for the TAOR formally belonging to 1st Bn, 1st Marines. 1st Bn, 1st Marines reopened its command post at 1525H at (BT 068712). At 1730H, Co A (Rein) commenced an airlift to PHU BAI, chopping to 3d Marines upon arrival. During this period, in conjunction with perimeter security of its new command post site, the battalion manned one roadblock and three 24-hour observation/listening posts.

(2) 2 March - At 0700H, Co C and battalion command group A departed for airlift to PHU BAI and participation in Operation TROY (See After-Action Report-Operation TROY; Part III-Supporting Documents). Co B and H&S Co (-) continued to man one roadblock and three 24-hour observation/listening posts in conjunction with perimeter security of the command post site.

(3) 3 March - At 1900H, Operation TROY was secured. Co A, Co C, and battalion command group A, together with Co K 3d Bn, 3d Marines, remained under OPCON of Task Group FOXTROT at PHU BAI. At the DA NANG command post site, Co B commenced squad-sized security patrols (one day and one night) outside the perimeter, in addition to the roadblock and observation posts already manned by Co B and H&S Co (-).

ENCLOSURE (1)
SECRET

SECRET
DECLASSIFIED

(4) 4 March - No change in situation.

(5) 5 March - At 0830H, Co B (Rein) departed the DA NANG command post site for airlift to CHU LAI. Co C and Co K each provided four rifle squads for duty with the Combined Action Company, 2d Bn, 1st Marines within the PHU BAI TAOR. H&S Co (-) continued to man the roadblock and observation/listening posts at the DA NANG command post site.

(6) 6 March - No change in situation.

(7) 7 March - At 1330H, Co C was placed under OPCON of 2d Bn, 1st Marines, assuming responsibility for a portion of the 2d Bn, 1st Marines perimeter at PHU BAI. H&S Co (-) conducted squad-sized security patrols (day and night) outside the DA NANG command post perimeter, in addition to manning the roadblock and observation/listening posts previously established.

(8) 8 March - At 1030H, Co B was airlifted from CHU LAI, and returned to OPCON of 1st Bn, 1st Marines. Co K, 3d Bn, 3d Marines, was chopped to OPCON 2d Bn, 1st Marines effective 2000H. H&S Co (-) maintained its schedule of security patrols, roadblock, and observation/listening posts in securing the DA NANG command post perimeter.

(9) 9 March - Co C, returned to OPCON of 1st Bn, 1st Marines, moved to establish a patrol base vicinity (YD 808161); commenced patrolling and ambushing in the area. Co A commenced a move to vicinity (YD 790113) in preparation for a daylight search and destroy operation on 10 March. Co K, 3d Bn, 3d Marines was returned to OPCON of 1st Bn, 1st Marines. H&S Co (-) continued its scheduled security patrols, roadblocks, and observation/listening posts in defense of the DA NANG command post perimeter.

(10) 10 March - At 1130H, Co A completed its search and destroy operation in the village vicinity (YD 790105). Results: Spotted two VC in green uniforms and took them under fire. VC ran toward the river vicinity (YD 790104). Co A swept the immediate area and found numerous caves (In one cave found a sack with one green uniform, one "black pajama" type uniform, and documents). The company also found 15 man traps, 10 panji traps, and numerous panji stakes, which were destroyed in place.

SECRET
DECLASSIFIED

The only villagers found in the area were two old men, seven women, and three children. They were questioned, but had no information of value. Co C continued patrolling and ambushing in its area. Co B assumed responsibility for a portion of the 2d Bn, 1st Marines perimeter. During this period, the battalion conducted a total of: three platoon-sized search and destroy operations; three squad-sized daylight patrols; four squad-sized night patrols; and four squad-sized ambushes.

(11) 11 March - H&S Co (-) closed the DA NANG command post at 0330H and moved by motor convoy to PHU BAI (YD 808165); commenced preparation for displacement of the 1st Bn, 1st Marines command group to that site the following day. A 40 man security detail from H&S Co, augmented by the 3d Bn, 9th Marines, was left behind to guard the DA NANG command post cantonment area. Co A conducted another search and destroy operation, which was completed at 1545H. Results: approximately one thousand pounds of rice husks found in an old abandoned house vicinity (YD 795097); one sniper platform, one 60mm mortar case, five 50-foot ropes, one rope ladder, and 60 rounds of 7.62 ammunition--found vicinity (YD 797098); in the same area, the company located and destroyed one tunnel approximately 25 feet long and three one-man fighting holes. During the sweep, one dud M16 (Bouncing Betty) mine (U.S. manufacture) was tripped at (YD 790104). The mine was new and appeared to have been recently emplaced. Nine VCS were apprehended and forwarded to ITT for questioning. At 1835H, a squad-sized patrol from Co A located one U.S.-manufactured AT mine (M141), with eight pounds of TNT booster charge on a trail vicinity (YD 798108). In same location, one CHICOM AP mine (with trip wire previously broken) was found. Engineers removed the mines and forwarded them through intelligence channels for study. During this period, elements of the battalion conducted a total of five day patrols; five night patrols; and seven squad-sized ambushes.

(12) 12 March - At 1500H, the 1st Bn, 1st Marines command post opened at (YD 870156). At 0830H, a squad-sized patrol from Co A apprehended one VCS vicinity (YD 792099). The VCS, who was found sleeping in an otherwise abandoned hut, was sent to ITT for questioning. At 1650H, a squad-sized patrol from Co A found and destroyed two grenade-type booby traps vicinity (YD 787118). At 1710H, the same patrol tripped a CHICOM grenade rigged with trip wire. Three Marines were wounded by fragments from the explosion and evacuated from the scene by helicopter. At 2003H, a squad-sized patrol ambushed two VC vicinity (YD 790103).

DECLASSIFIED

One VC was believed hit, although this could not be verified in the darkness. As the squad searched the killing zone, they exchanged fire with an estimated three additional VC, armed with carbines, in the same area. No friendly casualties. Enemy casualties unknown. The VC broke contact, and the Marines were unable to regain it. During this period, elements of the battalion conducted four day patrols; three night patrols; and four squad-sized ambushes.

(13) 13 March - At 0100H, a squad-sized patrol from Co A fired on one VC near a foot bridge at (YD 791108). The VC fled south, dropping a K-50 magazine and a CHICOM grenade on the trail. The patrol continued pursuit, and surrounded a hut vicinity (YD 791105)--opening fire on an estimated four to five VC who ran from the hut. A subsequent search of the area revealed blood inside and outside the hut and abandoned weapons and equipment, indicating that the VC inside had been hit by Marine fire. Found were: one MAS-36 rifle; four CHICOM grenades; one M26 grenade; 17 rounds of 7.62 ammunition; eight sets of black pajamas; one khaki uniform; one set of utilites; four pairs of sandals; one pair of binoculars; one bag of medical supplies; two cartridge belts; 100 pounds of rice and assorted grains; flashlight batteries; toilet articles; and one plastic rain cape. It is probable that three to four VC were wounded in the encounter. At 1630H, a road sweeping team found an anti-vehicular mine (U.S. manufacture--WWII type) in a shallow hole (the top of the mine was approximately $\frac{1}{2}$ inch below the surface of the road) at (YD 815169). The mine contained approximately six pounds of TNT. The firing pin was cocked but a small percussion cap was missing from the firing mechanism--preventing the mine from being armed. The mine was removed and forwarded to Co A, 3d Engineer Bn, for study. During this period, the battalion conducted five day patrols; 10 squad-sized night patrols; and eight squad-sized ambushes.

(14) 14 March - In a three-way switch of rifle company areas of responsibility (See Frag Order -66; Part III-Supporting Documents) Co A opened its command post vicinity (YD 810156); Co C opened its command post vicinity (YD 794119); and Co K opened its command post vicinity (YD 849085). The Co B command post remained in position vicinity (YD 811060). At 1550H, a road sweeping detail found an anti-vehicular mine (U. S. manufacture--WWII type) at (YD 815169). A three-pound booster charge (TNT) had been in place for a long time. The dirt which covered the mine was loose, however--indicating that someone had checked recently to verify the placement of the mine. The mine

DECLASSIFIED
SECRET

was recovered and forward to Co A, 3d Engineer Battalion, for study. During this period, the battalion conducted two platoon-sized daylight search and destroy operations, nine squad-sized night patrols, and six squad-sized ambushes.

(15) 15 March - At 1950H, Co C received three to five incoming 60mm mortar rounds at (YD 794113). No casualties. The fire appeared to have come from west of the SONG TA TRACH river, but the source could not be pinpointed. Artillery H&I fire in the area of the suspected mortar position was increased. During this period, the battalion conducted one platoon-sized daylight search and destroy operation; nine squad-sized daylight patrols, nine squad-sized night patrols; and ten squad-sized ambushes.

(16) 16 March - At 1330H, a squad-sized patrol from Co C found 200 panji stakes (in two traps), 15 Malayan Whips, one Bouncing Betty mine, and two CHICOM grenades booby trapped with trip wire vicinity (YD 789119). The traps were destroyed in place by an engineer team. At 1340H, another patrol (squad-sized) from Co C tripped a booby trapped grenade vicinity (YD 792104). Two Marines wounded by the explosion were evacuated by helicopter from the scene. During the MEDEVAC, the patrol received 30 to 50 rounds of small arms fire from the west. The patrol returned fire with 50-60 rounds of small arms fire and swept the east bank of the SONG TA TRACH river with negative results. One Marine was wounded in the exchange of fire and subsequently evacuated by helicopter. At 2220H, a squad-sized patrol from Co C fired on a VC wearing a helmet, vicinity (YD 784134). The VC appeared to be hit as he attempted to run, for he fell to the ground and began to crawl toward a hut in the area. When the patrol arrived at the hut, they apprehended a 40 year-old male, who was breathing heavily, as though he had been running. The VCS, who was not believed to be the man originally taken under fire, was sent to ITT for interrogation. During this period, the battalion conducted 11 squad-sized daylight patrols, nine squad-sized night patrols, and 14 squad-sized ambushes.

(17) 17 March - In a two-company switch of areas of responsibility, (See Frag Order 2-66), the Co A command post opened at (YD 811060) and the Co B command post opened at (YD 810156). At 0840H, a platoon from Co C, engaged in a search and destroy operation, tripped one CHICOM grenade rigged with trip wire vicinity (YD 790104).

ENCLOSURE (1)
SECRET

SECRET

DECLASSIFIED

The grenade was hidden in brush. One Marine was wounded by fragments, but not seriously enough to require evacuation. At 1115H, the same platoon discovered and disarmed one booby trap during the search and destroy operation at (YD 791112). The trap was bowl shaped, three inches in diameter, and buried four inches deep. The trap had a pressure-type firing device. No casualties. During this period, the battalion conducted three platoon-sized daylight search and destroy operations; five squad-sized daylight patrols; 11 squad sized night patrols; eight squad-sized ambushes; and one continuous (day and night) squad-sized reconnaissance patrol.

(18) 18 March - During this period, the battalion conducted 11 squad-sized daylight patrols; eight squad-sized night patrols; 13 squad-sized ambushes; and one continuous (day and night) squad-sized reconnaissance patrol, with negative contact.

(19) 19 March - At 0230H, a squad-sized patrol from Co C tripped a grenade-sized booby trap at (YD 909117). The device detonated approximately 25 meters to the rear of the last man in the patrol. The delay was believed to be caused by a slow burning fuze. No casualties. During this period, the battalion conducted 10 squad-sized daylight patrols; 11 squad-sized night patrols; seven squad-sized ambushes; and established four fire team-sized listening posts.

(20) 20 March - At 1205H, a Co C observation post spotted a Vietnamese wearing a khaki uniform, with a green "Ike" jacket (no headgear) vicinity (YD 790102). The man fired two rounds of small arms fire at the observation post from a range of 100 meters. The Marines returned fire and searched the area. Fresh blood and a homemade, friction type mine (cast iron cylinder with fuze on top) were found. The VC was apparently in the process of planting the mine when he was discovered. No friendly casualties. One VC WIA (probable). During this period the battalion conducted 10 squad-sized daylight patrols; 11 squad-sized night patrols; 11 squad-sized ambushes; and seven fire team sized observation/listening posts.

DECLASSIFIED

(21) 21 March - At 1005H, a USMC 2½ ton (6x6) truck, moving south vicinity (YD 807160), moved to the right side of the road in order to allow another vehicle to pass. The right front wheel of the truck detonated an anti-vehicular mine. The crater was three feet in diameter and 1½ feet deep. Two Vietnamese females were spotted running from the scene, and were apprehended and sent to ITT for interrogation. A search of the area produced a fuzing device, approximately 25 meters of wire running north from the scene of the explosion, and four BA-30 batteries, with a metal plate on top—about 50 meters away from the crater. The right front of the truck was damaged, but no personnel casualties resulted. During this period, the battalion conducted nine squad-sized daylight patrols; 11 squad-sized night patrols; six squad-sized ambushes; and established three fire team-sized listening posts. Co C returned to the battalion command post from its area of operations, in response to an increased alert condition.

(22) 22 March - At 1100H, Co C and battalion command group A departed the battalion command post for the PHU BAI airfield, in response to a one-hour alert condition. Co K was helilifted from its area of operations to the airfield. Two platoons from Co B, 3d Reconnaissance Bn, reported to battalion command group B to conduct patrols and establish observation posts within the 1st Bn, 1st Marines area of responsibility. The alert status was relaxed and Co C, Co K, and command group A returned to the battalion area at 1500H. During this period, the battalion conducted seven daylight squad-sized patrols; twelve squad-sized night patrols; nine squad-sized ambushes; and established three fire team-sized listening posts.

(23) 23 March - At 1915H, a squad from Co C, enroute to an ambush site, received eight to ten rounds of automatic carbine fire vicinity (YD 793098). The squad returned fire with small arms and two M79 rounds. The area was searched with negative results. No casualties. During this period, the battalion conducted five squad-sized daylight patrols; six squad-sized night patrols; two platoon-sized daylight reconnaissance patrols, which established a total of five observation posts during the day; and five squad-sized night ambushes.

ENCLOSURE (1)
SECRET

SECRET
DECLASSIFIED

(24) 24 March - At 1400H, Co K, 3d Bn, 3d Marines departed the 1st Bn, 1st Marines area to revert eventually to OPCON of its parent organization. At 1215H, a squad-sized patrol from Co C found one CHICOM grenade, rigged with trip wire, on a trail vicinity (YD 793097). A marker, consisting of three pieces of bamboo formed into a triangle, was discovered by the patrol approximately 100 meters before it found the trap. The grenade was disarmed without incident. During this period, the battalion conducted nine squad-sized daylight patrols; nine squad-sized night patrols; and six squad-sized ambushes.

(25) 25 March - At 0415H, A squad-sized patrol from Co B was returning from an ambush site when the patrol leader heard a tapping noise in some brush. A searching fire team briefly glimpsed a fleeing figure at a distance of 20 yards. Two grenades were thrown by the patrol. The area was checked with negative results. During this period, the battalion conducted eight squad-sized daylight patrols; 17 squad-sized night patrols; 22 squad-sized ambushes; and established seven fire team-sized observation/listening posts.

(26) 26 March - During this period, the battalion conducted eight squad-sized daylight patrols; nine squad-sized night patrols; 19 squad-sized ambushes; and established seven fire team-sized observation/listening posts with negative enemy contact.

(27) 27 March - Co A and Co B exchanged areas of responsibility with a series of helilifts commencing at 1400H. During this period, the battalion conducted three squad-sized daylight patrols; 13 squad-sized night patrols; one squad-sized night reconnaissance patrol; 20 squad-sized ambushes; and established seven fire team-sized observation/listening posts with negative enemy contact.

(28) 28 March - At 2330H, a squad-sized patrol from Co C was hit with 12 explosions, initially thought to be mortar fire, but later determined to be one-pound TNT charges at (YD 793107). Patrol opened fire on VC revealed by the light of the initial explosions. The VC withdrew under fire, without returning fire. An estimated 15-20 VC was involved. Contact was not regained. The explosions caused one USMC KIA; one USMC WIA. A search of the area revealed pieces of human flesh, trails of blood leading from the area, and bloody bandages.

ENCLOSURE (1)
SECRET
DECLASSIFIED

SECRET
DECLASSIFIED

Estimated one VC KIA, four VC WIA. Captured material included one French MAT-49 SMG; one MAT-49 magazine; two K-50 magazines; 13 one-pound blocks of TNT with fuzes; two CHICOM grenades; one CHICOM mine; and 87 rounds of 9mm ammunition. During this period the battalion conducted six daylight squad-sized patrols; 17 squad-sized night security patrols; one squad-sized night reconnaissance patrol; three squad-sized daylight ambushes; and 24 squad-sized night ambushes. In addition, the battalion established 10 fire team-sized listening posts.

(29) 29 March - At 0730H, a reconnaissance patrol from the battalion S-2 section (OPCON Co B) sighted two VC on an OP vicinity (YD 809043). An artillery fire mission was called with good effect on target. Estimated two VC KIA. During this period, the battalion conducted five squad-sized daylight patrols; 11 squad-sized night security patrols; one squad-sized reconnaissance patrol; 16 squad-sized ambushes; and established 10 fire team-sized listening posts. In addition, Co A provided a two-platoon blocking force for a sweep operation conducted by an ARVN training battalion within the 1st Bn, 1st Marines TADR.

(30) 30 March - During this period, the battalion conducted six squad-sized daylight patrols; 15 squad-sized night security patrols; one squad-sized reconnaissance patrol; 23 squad-sized ambushes; and established 10 fire team-sized listening posts, with negative enemy contact.

(31) 31 March - At 1607H, a squad-sized patrol from Co C found one homemade booby trap on a trail at (YD 798098). The trap had a TNT filler in a light metal container, with a fuze device which appeared similar to a blasting cap. The device was rigged with a trip wire, stretched across the trail. The booby trap was destroyed in place by the patrol, with negative casualties. During this period, the battalion conducted six squad-sized daylight patrols; 13 squad-sized night security patrols; one squad-sized reconnaissance patrol; 19 squad-sized ambushes; and established 10 fire team-sized listening posts.

FO. FIRE SUPPORT AND FIRE SUPPORT COORDINATION

a. On 16 March 1966, a liaison team and three FO teams from "C" Battery, 1st Battalion, 12th Marines relieved the present teams assigned to 1st Battalion, 1st Marines. There have been no difficulties in meeting operational requirements of the battalion.

(1) 81mm Mortar Platoon fired 387 harrassing and interdiction missions.

(2) Artillery fired a total of 719 harrassing and interdiction missions.

(3) During the month, 3 illumination missions were fired by artillery.

(4) One HE mission was fired during the month by artillery in support of battalion operations.

DECLASSIFIED
ENCLOSURE (1)
SECRET

DECLASSIFIED

SECRET

11. LOGISTICS

a. Supply

(1) Large scale HST operations have been accomplished throughout the month with all companies dependent upon helicopter resupply.

(2) A tent repair contact team evaluated and repaired two GP tents invoiced to this unit by 3d Battalion, 9th Marines. The team Coded X 32 GP tents.

(3) An office machine repair contact team made on the spot repairs to those typewriters requiring maintenance.

(4) All of the Battalion's 81mm Mortar mounts have been retightened this month. Ordnance equipment in general has required little maintenance with the exception of the M-79 grenade launcher. Eight grenade launchers have been evacuated to third echelon repair facilities within the reporting period. Two M-79 grenade launchers have been returned.

(5) Four hundred sets of tropical utilities have been received during the month of March, but requirements still exist for eight hundred sets. Jungle boots have been received in sufficient quantity to outfit over 90% of the Battalion.

(6) Ration Supplement Sundry Packs have also been issued to units qualifying under the established criteria.

b. Maintenance

(1) M-274 (Mechanical Mule) D/L Rate 6% (2 of 30)

(2) M-422 (Mighty Mite) D/L Rate 0% (0 of 20)*

* This unit received 14 new M-422A1's this month as replacements for the M-422 Mighty Mite.

c. Food Service

(1) At present, this unit operates one battalion mess.

(2) Ration supplements such as dehydrated soups, coffee, sugar, bread, etc. are supplied to the companies in the field.

d. Cantonment and Camp Facilities. At present this unit has no cantonment. Cantonment requirements are being prepared for submission to Division.

DECLASSIFIED

e. Transportation. Fifteen, 6X6 trucks from "A" Company, 3d Motor Transport Battalion were allocated to this unit upon arrival at Hue/Phu Bai. To date an average of six trucks per day have been utilized for logistic support of this unit, with the remaining trucks being utilized for support of other units in the Hue/Phu Bai area.

f. Water. The 3d Engineer Battalion established a water point within the new battalion CP, providing 6000 gallons of potable water per day. A shower point was also established.

g. CP Displacement. The month of March was one of two displacements for this unit.

(1) The first move began the morning of 27 February 1966 and was completed on 2 March. Problems encountered were:

(a) The bridge between DaNang and DaNang East was closed for repair requiring use of the ferry.

(b) 3/9 occupied the new 1/1 CP location until 1 March 1966 requiring all equipment to be staged outdoors.

(c) Condition of the cantonment vacated by 3/9 was as follows:

1. Screening ripped and missing from several strongbacks.
2. Electrical wiring missing.
3. Police of the area was very poor.
4. Numerous strongbacks were in a poor state of maintenance.

(2) On 9 March 1966, the battalion received orders to move to the Hue/Phu Bai area. Division directed that all CP tents would be taken off the strongbacks. Forty-One trucks were provided by Division Motor Transport for displacement. Hampered by darkness and rainfall, loading commenced at approximately 2000, on 10 March 1966 and was completed at 0130, 11 March 1966. The convoy staged on Highway 1 in the 1st Battalion, 3d Marines area and departed for Hue/Phu Bai at 0630 on 11 March 1966 arriving at its destination at 1330, 11 March 1966.

(3) Upon arrival at Hue/Phu Bai the battalion immediately moved into position and set up CP tents for H&S Billeting, storage and operating spaces for Battalion Staff and support sections. The CP was completely set up within four hours after arrival at the new location.

13. COMBAT AIR SUPPORT

a. During the month of March the battalion was extensively supported by the 1st Marine Aircraft Wing. The battalion (-) was air lifted by both fixed wing and helicopter from the DA NANG complex to the PHU BAI complex. Upon arrival in the PHU BAI TAOR the battalion participated in operation TROY. Two companies were helilifted into the operational area (See After Action Report 4-66). Other support during the operation consisted of medevacs and resupply along with area reconnaissance missions since the battalion has been assigned to its present TAOR.

b. Marine aviation has supported the battalion with six medevacs, 35 resupply, four troop lifts, and three unit commander missions. Helicopters proved to be the only efficient means to move troops deep into the TAOR. Nearly all resupply to the companies operating within their assigned AOR's has been accomplished by helicopters due to the lack of roads, and the distance involved.

c. Army aviation supported the battalion with four E.E. missions during the reporting period.

14 Medical and Dental Support(Surgical)

a. Names of Surgeons:

Battalion Surgeon: J.E. BOCKER LT MC USN
Assistant Surgeon: R.E. REID LT MC USNR

- b. Significant Events: The BAS was established and routine sick call commenced on 1 March 66 at the new CP site at Marble Mountain, Da Nang. Advance party left CP for Phu Bai on 2 March and the BAS and rear echelon followed on 11 March. The BAS was established at the new CP site on 11 March and has functioned well for the remainder of the month.
- c. Medical Trends: There has been no specific trend in the area of infectious disease. Several cases of amebic dysentery were encountered this month, a disease not seen before in the battalion. The number of cases of venereal disease was 23
- d. Number of Combat Casualties Treated: The number of minor combat casualties treated at the BAS was 4. The majority of the casualties were evacuated by helicopters to medical companies of the 3rd Medical Battalion. The total number of combat casualties for the month of March was 10 WIA'S and 2 KIA'S.
- e. Number of Non-Battle Casualties Treated: 744 treatments were administered to the men of this battalion for minor injuries and illnesses during the month of March.
- f. Preventative Medicine and Sanitation: Malaria prophylaxis was obtained by the administration of one (1) Chloroquine-Primaquine tablet per man per week. Sanitation inspection was held weekly and action on discrepancies was avidly urged.
- g. Civil Action Medical Support Rendered: Due to the nobility of the battalion this month and the absence of friendly villages in our present TACR only 3 Vietnamese civilians were treated. A program is underway to establish a dispensary in a nearby village.
- h. Schooling Conducted: Eight (8) one hour lectures on venereal disease were presented with total attendance of approximately 140 men.
- i. Problem Area: The only problems encountered this month are the fact that approximately 40% of the medical supplies have not been received as of 31 March since our move to Phu Bai. Supplies for field sanitation are still lacking and the normal logistic support channels in this area are not adequate.

6. Supporting Forces.

- a. Artillery - 4th Bn, 12th Marines: general support.
- b. Air - HMM-163. Provided:
 - (1) Helilift for two rifle companies (Rein).
 - (2) Resupply/reconnaissance missions.

7. Intelligence.

a. Operation TROY was initiated to locate and destroy elements of the 810th VC Battalion, which had exfiltrated from PHU THU District subsequent to engagement by USMC and ARVN forces on 1-2 March 1966. Elements of the Combined Action Company (2d Bn, 1st Marines) engaged an unknown number of VC during the early hours of 2 March in the vicinity of YD 9407, indicative of possible exfiltration attempts by elements of the 810th Battalion.

b. Since no contact was made with VC forces during Operation TROY, it is believed that any remnants from the 810th Battalion which had moved through the area had made good their escape into the jungled highlands to the north.

c. Because of the fast movement of the sweep forces and the short duration of the operation, no Civil Affairs/Psy War operations were planned or conducted. Although the inhabitants of the area exhibited fear of VC units which have operated in their vicinity, their attitude toward Marines was helpful and friendly in many respects.

8. Mission. 1st Battalion, 1st Marines conducts search and destroy operations within assigned area to capture and/or destroy enemy personnel, equipment, and fortifications.

9. Concept of Operation. (See enclosure (1) (Operation Overlay)). Companies A and E (-), designated initially as sweep companies, were helilifted into position to commence the operation. Co F, designated initially as the blocking force, was moved by truck to positions along the road leading northwest from TROY BRIDGE (YD 967062). One platoon from Co E, located at TROY BRIDGE at the commencement of the operation, continued its previously assigned mission of providing bridge security. On the second day of operations, Co A continued to sweep the western portion of the assigned area; Co F assumed the sweep mission in the eastern portion; and Co E reverted to Battalion reserve, occupying positions in the vicinity of (YD 960062).

10. Execution.

a. See enclosure (2) (Sequence of Events).

b. A verbal operation order was received at 021100H. The operation commenced at 021230H with the helilift of two rifle companies.

c. There were no contacts with enemy forces during this operation.

11. Results.

a. Negative friendly or enemy casualties.

b. Negative materiel losses.

12. Administrative Matters.

a. Because of the brief planning phase, no administrative plan or order was published.

b. At the beginning of the operation, each Marine carried a basic load of ammunition and two meals, combat, individual. Resupply was accomplished by helicopter.

c. Motor transportation was provided by FLSU 2. One rifle company and H&S Company (-) were positioned by truck convoy at the beginning of the operation. All units were returned to PHU BAI by truck at the close of the operation.

DECLASSIFIED

13. Special Equipment and Techniques. None.

14. Commander's Analysis. Because of the brief planning phase of the operation, all orders were issued verbally. An uncomplicated scheme of maneuver and adherence to standard procedures compensated for the lack of time to brief unit commanders. No significant difficulties were encountered.

15. Recommendations. None.

LOGSUM #14

PERIOD: 18 Feb 66 to 2 Mar 66

1. Unit Designation. 1st Battalion 1st Marines
2. Logistics Increments. N/A
3. Location. (069714) Maps: INDOCHINA: 1:50,000, Sheet 6695 II, Series L701.
4. Date of Arrival. 29 August 11965
5. Logistics Units Enroute from FOE. None
6. Supply and Distribution
 - a. General Status. Support is adequate for the accomplishment of the commands assigned mission.
 - b. Problem Areas.

(1) The Battalion's initial issue of tropical utilities was not sufficient to outfit each Marine with two sets as authorized. Many sets have become unserviceable and replacements have not been received to refurbish the dwindling stock. Twelve hundred sets are necessary to satisfy existing demands.

(2) Operating stocks of consumable office supplies and stationary are at a low level. Replenishment has not been sufficient to satisfy demands. Requisitions have been submitted for all shortages.

(3) Messhall cleaning supplies have not been received in sufficient quantity to ensure proper sanitation. Requisitions submitted are as follows:

<u>ITEM</u>	<u>QTY</u>	<u>DDD</u>	<u>DOCNO.</u>	<u>PRI</u>
Brooms	6	5274	61671	17
	23	5284	62075	17
Scouring Powder	145	5262	61392	17
	72	5274	61661	17
	127	5285	62079	17
GI Cans	20(30 gal)	5269	61599	17
	24(24 gal)	5269	61598	17

(4) Upper Torso Body Armor Status

- (a) 1195-T/E
- (b) 1122-On hand serviceable*
- (c) 72-Short
- (d) 92-Evacuated to R&D in past 20 days
- (e) 126-Total received in past six months

*An estimated 10% of the body armor on hand will become unserviceable in the next 20 days. Replacements are on requisition.

(2) Tropical Jungle Boots are being received in small amounts each month. At this time approximately 80 Marines of this battalion do not have Jungle Boots.

5. Logistics Units Enroute from POE. None

6. Supply and Distribution.

a. General Status. Support is adequate for the accomplishment of the Command's assigned mission.

b. Problem Areas

(1) Demands for individual equipment continue to overwhelm supply availability. Specific problem items include canteen cups, canteen covers, field mess gear, tent pins, and prenade pouches. Requisitions for shortages in these areas have been submitted on priority O2.

(2) Upper Torso Body Armor has deteriorated in quantity. Replacement stocks have not been received in sufficient quantity to satisfy requirements.

(3) This unit inherited an initial issue of jungle utilities from another battalion upon deployment. The quantity received was not sufficient to completely outfit this battalion, and after six months in the Republic of Viet Nam a large number of utilities have become unserviceable. At this time, eight hundred sets are required to furnish two sets per man in the battalion. Four hundred sets were received during the month of March.

(4) Operating stocks of consumable office supplies and stationary are at a low level, and replenishment has not been sufficient to satisfy demands. Requisitions have been submitted for all shortages.

INTELLIGENCE SUMMARY FOR PERIOD 091800H TO 101800H MARCH 1966

1. ENEMY SITUATION

Agent rpts 092100H: (1) VC Co located in village vicinity coordinates (YD790-113) and (YD790103). Report non-rated.

Task Group Foxtrot rpts 092110H: The following information concerns enemy units possibly present in the ASHAU Valley area: the 95th VC Regt was located in SW QUANG TRI Prov/LAOS in October 1965. The 302d Bn is subordinate to the 101st VC Regt. In October 1965 the 6th Bn, 95th Regt was redesignated the 810th Bn.

Task Group Foxtrot rpts 092145H: 3d MarDiv G-2 states the following report was received from 2 NVA deserters; from 2d Co, 6th Bn, 325th Div; the 6th Bn trained with the 95th Regt and that training was completed in December 1965. In February 1966 the battalion along with the 5th and 8th Bn's moved to THUA THIEN Prov. The 95th Regt Hq is located vic GS (YC5388) as well as the 6th Bn. The attack on ASHAU had been rehearsed since December 1965 and was planned to take place on 11 March 1966. Each battalion has a strength of 600 men and the Regt has a strength of 2000.

Task Group Foxtrot rpts 100034H: ASHAU Special Forces camp under heavy attack.

Task Group Foxtrot rpts 100205H: ASHAU receiving heavy mortar fire and the VC are trenching to within 100 meters of the fort. Requested airstrike and reinforcements at first light.

Task Group Foxtrot rpts 100335H: ASHAU under full scale attack; weather overcast.

Task Group Foxtrot rpts 100425H: ASHAU radio operator believes that he is the only one alive. He requested a TAC AN run. Request denied by Saigon at 1005-00H but later approved at 100510H. Camp still receiving mortar fire and small arms fire.

AO rpts 100900H: AO received automatic weapons fire from (YD783106). Arty mission called with good effect on target.

AO rpts 100945H: AO sighted 2-VC vic (YD790103).

Task Group Foxtrot rpts 101245H: ASHAU reported that north wall holding out, the rest of camp overrun. VC were withdrawing north to old bunkers. Possibly Main Force of VC still south of camp. Were still asking for reinforcements. Could not land in or around the camp. Bn size attack was made from the south. Airstrikes were renewed on the south end of the camp.

INTELLIGENCE SUMMARY FOR PERIOD 121800H TO 131800H MARCH 1966

1. ENEMY SITUATION

Rurger # rpts 122020H: Sgt. BAU, PF platoon sergeant, reported that on March 13 or 14, the VC will attempt to employ 2 mines along the road to 1-1 CP. Road concerned is the dirt road left from Hwy #1. The number of VC concerned and the time of their activity is unknown. Information came from a very reliable source.

Agent rpts 122124H: (1) VC Bn located vicinity GIA LONG Tomb area (YD-780115). The battalion is believed to be the 804th Main Force Bn.

2. ENEMY ACTIVITY

UNIT:	DTG:	COORDS:	ACTIVITY:
Alfa	122003H	YD790103	A-3 sprung an ambush on 2-VC armed with carbines. Possibly wounded 1-VC. During the search of the killing zone, the ambush exchanged fire with 3 additional VC in the same area. The VC broke contact and area was searched with negative results. No friendly casualties.
Alfa	130100H	YD791105	A-3 fired on 1-VC near a foot bridge at (YD791108). The VC fled south, dropping (1) K-50 magazine and (1) ChiCom grenade on trail. A-3 continued pursuit, surrounded a hut at (YD791105); opened fire on an estimated 4-5 VC who came from the hut. Subsequent search of the area revealed blood inside and outside the hut and abandoned weapons and equipment, indicating that the VC inside had been hit by Marine fire. Found were (1) MAS-36 rifle, (4) ChiCom grenades, (1) M-26 grenade, 17 rds 7.62 ammo, 8 sets black pajamas, 1 set of khaki, 1 set utilities, 4 pair sandals, 1 set of binoculars, 1 bag of medical supplies, 2 cartridge belts, 100 pounds of rice and assorted grains, flashlight batteries, toilet articles and 1 plastic rain cape. Probable 3-4 VC WIA.

UNIT: DTG: CO. RDS: ACTIVITY:

Axhandle 4-1 131630H YD815169 Sweeping team discovered (1) anti-vehicular mine (U. S. manufactured; WWII type) in a shallow hole (mine was approximately 1/2 inch below the surface of the road) at (YD815169). Mine contained approximately 6 pounds of TNT. The firing pin was cocked but a small percussion cap was missing from the firing mechanism preventing the mine from being armed. The mine was taken to Axhandle CP for study purposes.

Alfa 131750H YD789103 At approximately 131630H found cloth packs with straps either sewn or tied on; contained clothing in good condition and other miscellaneous articles of no intelligence value. Also found approximately 6 pounds of rice and a wallet containing pictures and a notebook with songs as the contents. Will destroy all except the wallet and the notebook which will be forwarded.

3. ENEMY LOSSES. 5-VC WIA (probable), 1 K-50 magazine, 5 ChiCom grenades, 1 MAS-36 rifle, 1 M-26 grenade, 17 rds 7.62 ammo, assorted uniforms and miscellaneous gear, 1 set binoculars, 1 bag of medical supplies, 2 cartridge belts, 106 pounds of rice, 1 anti-vehicular mine, 1 cloth pack, 1 wallet with pictures and 1 notebook.

INTELLIGENCE SUMMARY FOR PERIOD 141800H TO 151800H MARCH 1966

1. ENEMY SITUATION

HUONG THUY District Chief rpts 150830H: Report an unknown number of VC were present vicinity (YD824201) on the night of 14 March. The VC told the people to move from the area because of an impending attack on USMC positions. The presence of the VC was confirmed by Sgt BAD a PF in the area. (C-3 rating by Bound 2).

Task Group Foxtrot rpts 151140H: Non-rated, DTG 13-14 March. On the night of 13 March, an unknown number of VC held a propaganda lecture at (YD829175). The following information came from HUONG THUY Village Police Chief: Reported vic French bunker (YD826169), 1 estimated platoon of VC set an ambush on the trail leading NW from that position between 2300H and 2320H. There was sporadic automatic weapons fire heard at the bunker. Believed to be a diversionary action to protect the propaganda lecture as well as an attempt to draw a unit into the ambush. Hamlet Chief of HUONG THUY believes there are extensive tunnels around schools in vicinity of French bunkers. Believed to be 4-VC living around bunkers armed with K-50's and wear white shirts and black shorts.

2. ENEMY ACTIVITY

UNIT: DTG: COORDS: ACTIVITY:

Bravo 151500H YD7907 B-1 patrol operating in grid squares (YD7907), (YD8006) and (YD8005) found extensive defensive works of battalion size. The trench works were old but usable. (See B-1 patrol report).

UNIT: DTG: COORDS: ACTIVITY:

Charlie 161330H YD789119 C-1 patrol found 200 panji stakes in 2 panji traps, 15 Malayan Whips, 1 Bouncing Betty mine and 2 ChiCom grenades booby trapped with trip wire vicinity (YD789-119). Engineers to destroy same.

Charlie 161340H YD792104 C-2 patrol tripped a grenade booby trapped with trip wire causing 2 USMC WIA; evacuated same. During the med evac, 30-50 rds of small arms fire was received from the west. Believe fire came from both sides of the river. The patrol returned with 50-60 rds of small arms fire and swept the east bank of the river with negative results. One USMC WIA resulting from the small arms fire received; evacuated same.

Charlie 162220H YD784134 C-1 patrol vicinity (YD784134) sighted an individual on the right flank of the patrol on the high ground. Patrol leader challenged the VCS and the VCS fled. The VCS was fired on and believe hit for the VCS fell to the ground and began to crawl towards a hut in the area. The patrol pursued and upon arrival at the hut apprehended a male approximately 40 yrs old. The man had apparently been running as he was out of breath. The patrol leader does not believe that the man apprehended is the man that was fired on for the man apprehended was bare-headed and the man fired on appeared to have been wearing a helmet. A search of the house revealed 3 pr of Ho Chi Minh sandals. While searching the house the patrol members heard movement to the rear of the house but a search of the area revealed no additional personnel. VCS apprehended was taken to IPT. (1) probable VC WIA by the actions of the individual when fired on.

3. Summary of Enemy Activity

UNIT: DTG: COORDS: ACTIVITY:

Charlie 171230H YD790102 C-2 patrol found 1 mine vicinity (YD790-102). The mine consisted of 2 pieces of tin shaped to form a bowl shape. 3-4 inches in diameter inside the bowl was a powder charge. The complete mine was buried 4 inches in the ground. The mine was rigged with a pressure type firing device. Mine was destroyed.

Kilo 171845H YD854072 Pilsner 2 Alfa Scout (recon) patrol found 2 believed booby trapped 81mm mortar rds at (YD854072). The rds were in old craters which appeared to have been filled in with fresh dirt. The primers were still intact so it is probable that the rds are not duds. No trip wires were present. The rds had been placed to appear as duds. Left in place; Engineers to destroy same.

Kilo 181002H YD853073 Pilsner 2 Alfa Scout (recon) patrol found an OP at (YD853073). OP was constructed of sticks lashed in the crotch of a tree. A 105mm crater was 15 meters from the OP. Ten feet from the OP was a camouflaged hole, several strips of civilian clothing, 2 pieces of plastic (one of which had blood on it) and 3 casings for 30 cal. ammunition several weeks old.

Kilo 181020H YD851068 Pilsner 2 Alfa Scout (recon) patrol located a series of positions at (YD851068); over 50 in number. Found 5 old shelters, 3 cooking areas, broken bowls, a 2-3 man sleeping area and an OP in a tree. The camp has not been used in several months. Canopy and undergrowth blocks the view of the camp from sky observation.

UNIT: DTG: COORDS: ACTIVITY:

Charlie 201205H YD790102 OP vicinity (YD790102) observed a man wearing a khaki uniform, a green like jacket and no cover approximately 100 meters south of his position. The man fired on the OP with 2 rds of small arms fire. The OP returned fire and searched the area. Upon arrival at the position where the man was spotted, fresh blood and a homemade, friction type mine made of a cast iron cylinder with a fuze on top was found. The man was in the process of implanting the mine when he was taken under fire. The mine to be forwarded.

Charlie 202115H YD788108 C-1 reported hearing what appeared to be wood cutters vicinity (YD788108). C-1 continued to observe the area with negative results.

Bound 34 211005H YD807160 A Marine Corps 6X6 truck heading south moved to the right side of the road in order to allow another vehicle to pass. The right front wheel of the 6X6 truck detonated what was believed to be an AT mine. Crater was 3 ft in diameter and 1 1/2 ft in depth. A fuze device was recovered. The right front of the truck was damaged but negative casualties. Two Vietnamese females were observed running from scene and apprehended same. Presently being interrogated. Search of area produced approximately 25 meters of wire and 4 BA-30 batteries with plate on top. Batteries were found on curve approximately 50 meters from the crater. Wire was lying in a north direction.

- 3a. The following information is from CG, 3d Marine Division:

The Viet Cong have introduced a new type of hand grenade into the field. The grenade is said to detonate when the spoon is pressed or disturbed. It can be of any type grenade and could be painted red, green or olive drab. Air Force and Army Staff LOD personnel are exerting every effort to obtain technical data on the grenades. As a safety precaution - disturb all.

Mercury switches were recovered when the Viet Cong ammunition plant and storage area was over run in South Vietnam. This is a good indication that mercury switches are being used in RVN. Take mercury switch precautions on any suspected item of ordnance.

Movement of ordnance employing mercury switches causes an electrical contact and in turn will detonate the ordnance. Items of ordnance suspected of having mercury switches will be detonated in place.

INTELLIGENCE SUMMARY

1. 1st Battalion, 1st Marines
2. 241200H to 251200H March 1966
3. Summary of Enemy Activity

UNIT: DFG: COORDS: ACTIVITY:

Charlie 241215H YD793097 C-2 patrol found (1) ChiCom grenade with a short string acting as a pin and booby trapped with trip wire laid across a trail at (YD793097). Disarmed same. Approximately 100 meters in front of the grenade on the side of the trail was a mine marker made of three pieces of bamboo forming a triangle.

Bravo 250415H YD805155 B-1-1 squad was returning to friendly lines from ambush when the patrol leader heard a tapping noise. Movement was heard in some brush. A fireteam was sent back to investigate. A man fled from the brush approximately 20 yds from the fireteam. The fireteam leader only had a glimpse of the man. One grenade was thrown into the brush from which the man fled. The fireteam moved in to check the area and heard movement through the brush again. The fireteam threw another grenade and checked the area with negative results. The area was again checked at first light with negative results.

INTELLIGENCE SUMMARY

- 1. 1st Battalion, 1st Marines
- 2. 281200H to 291200H March 1966
- 3. Summary of Enemy Activity

UNIT: DTG: COORDS: ACTIVITY:

Charlie 282330H YD793107 At 282330H (12) explosions occurred in the vicinity of C-3 patrol base. C-4 patrol returning to the base area had several explosive devices detonated on the flanks of and within the patrol causing (1) USMC KIA and (1) USMC WIA. The explosions were initially reported to be mortar fire but lack of fragments deny this conclusion. In the flash of the initial explosion the two point men of the patrol saw 6-8 VC whom they fired on before being knocked down by subsequent explosions. The VC withdrew without returning fire. A search of the area revealed pieces of human flesh, trails of blood leading away from the area and also found bloody bandages. Estimated (1) VC KIA and (1) VC WIA. Also found (1) French M16-49 SMG; (1) M16-49, 30 rd magazine; (2) K-50 magazines; (13) 1 lb. blocks of TNT w/fuzes; (2) ChiCom grenades; (1) ChiCom mine; and 87 rds of 9mm ammunition. It is believed that the VC force numbered 15-20 men. All material found will be forwarded.

Bravo 290730H YD809043 Sighted (2) VC on an OP, vicinity (YD809043). A fire mission was called with good effect on the target. Estimate (2) VC KIA (probable).

1. 1st Battalion, 1st Marines
2. 311200H March to 011200H April 1966
3. Summary of Enemy Activity

UNIT: DTG: COORDS: ACTIVITY:

Charlie 311605H YD798098 C-3 patrol found a homemade booby trap on a trail at (YD798098). Trap had a TNT filler in a light metal container; fuze device appeared to be similar to a blasting cap. Device was rigged with a trip wire across trail. Device was blown in place. No casualties.

Bravo 011100H YD824069 An eight man detail was descending a hill when one man slipped and grabbed crossed vines which triggered two explosions, one in front and one behind the man. Devices believed to be above ground; a small crater was the result of one of the explosions. Explosions produced white smoke and a no delay type fuze was employed. Explosions sounded louder than M-26 grenades. Bushes along path channelized movement. Multiple fragmentary wounds caused (1) USMC KIA.

4. Personnel and Equipment Losses.

- a. Personnel: N/A

Afterglow 2 rpts 010845H: AO reports that in GS's (YD9813), (YD9913) and (YD9013) spotted 150-200 men harvesting rice. There has not been that many people in the area before. Believe men to be VC taking rice. (Follow-up report: Checked the above GS's, people appear to be women and approximately 100 men). AO also reports that in GS's (YD8123) to (YD8423) to (YD8421) to (YD8121) there are approximately 200 males in scattered groups of 10-20-30 harvesting rice. The men are wearing black and green clothing. There are no women or children in the fields; believe men to be VC taking rice.

Afterglow 2 rpts 010956H: HUE - 24 reports that a large demonstration is currently in progress in HUE headed toward a railway bridge at (YD749-212).
