NARRATIVE SUMMARY

1. During the reporting period the 1st Combined Action Group continued to conduct operations that enhanced the accomplishment of its assigned mission of village and hamlet security and the goals of the GVN Accelerated Pacification Program (APP).

2. Enemy activity showed a significant increase over the preceding month. The Group experienced more contacts and accounted for more enemy kills, POW's and Hoi Chanh, with the most noticeable increase occurring in the number of enemy POW's and Hoi Chanh, the latter more than doubling the previous months total.

3. The Americal Division, USA continued to experience moderate contact throughout its TAOR, with the 196th Infantry Brigade (Operation Frederick Hill) again accounting for the bulk of the enemy contacts and kills. The infantry companies assigned to the Combined Unit Pacification Program continued to operate in their respective areas with no significant changes. The 196th and 198th Infantry Brigades continued to provide logistical and tactical support as required by the CAP's in their TAOR's.

4. A report was submitted to the CO, Combined Action Force concerning the high degree of pacification reached in the CAP areas in Quang Tin Province and it was recommended that consideration be given to relocating the CAP's in that Province.

11. Intelligence

a. The reluctance of the enemy to fight, coupled with the southward movement of the 409th Sappers of the Front Four Section, were the major reasons for the lack of contact in the Tam Ky area for the month. There was no reported contact with the elements of the 1st Inf. Bn. (NVA) which was reported in the Tam Ky area last month. The lack of rifles, uniforms, and equipment on the kills in the early part of the month helped identify them as elements of the LF guerrillas which still inhabit the outlying areas of Tam Ky. Of note was the terrorist activity in the Tam Ky area where an ammunition truck was destroyed in the city.

b. The second company in the Ly Tin area experienced limited contact during the month but was able to ambush 3 NVA and capture 3 individual weapons. The NVA were possibly from the 78th MF Rocket Bn., which has been posing a threat in the area just Southwest of CAP 1-2-7, or elements of the 409th Sapper Bn. which was last located in the Southwest of CAP 1-2-5's TAOC. Americal OB reports have placed the 74th LF Co. in the same general area. A possible threat to the 2nd Company CAP's is the appearance of the Chu Lai Front of the 402nd MF Sapper Bn. The 402nd at this time, however, is located too far west to pose an immediate threat.

c. Binh Son, the home of the Third Company was comparatively active during the month. The elusive 48th MF Bn. was reported in the Son Tinh area, but for a portion of the month, agent reports, as well as contact, placed the 48th Bn. or elements of it in the no man's land just Southwest of the 3rd Co's coastal CAP's. Reports indicate that one squad of the 107th Mortar Bn. is presently attached to the 48th Bn. The K-51st Weapons Co. is presumed to be the enemy element that mortared Binh Son District Headquarters late in the month.

d. The efforts of the 4th Company Marines in Son Tinh District did not go unrewarded as they produced more KIA's than any other company for the month; although there was the same reluctance on the part of the major enemy forces in this area to engage in any large contact, there were numerous contacts with the LF and MF guerrillas. The major noticeable change in the 4th Company's TAOC, is the presence of the 506A and 506B Sapper Co's just Northwest of Quang Ngai. Of note during the month, was the large increase of Hoi Chanhs received by the 4th Company. The Hoi Chanhs list the majority of their jobs as being subordinate to the 48th Bn. and give the large ARVN operation in their area as the reason they rallied.

e. Enemy units in the 1st CAG TAOR remain vulnerable to interdiction by artillery and aerial bombardment directed by the CAP's. Enemy morale remains vulnerable to psychological exploitation by propaganda concentration on NVA/VC defeats in combat; fear of death, battle hardships and GVN ability to support the needs and aspiration of the people.

12. Communications

a. No significant problems occurred in communications..

b. MAG-13 and LSU-B continue to provide maintenance support and they are making every effort to reduce the down time of the Group's radios.

13. Fire Support

a. Fire support during the period was provided by Division Artillery, Americal Division (1/14th and 1/82nd Bn's) and ARVN artillery, on occasions in the Tam Ky area. The artillery support has been quite timely and effective, with very few exceptions.

14. Air Support

a. Tactical air support was used frequently during the month; this included fixed wing strikes, helicopter gunship strikes and visual reconnaissance missions. No major problems were encountered with close air support and the CAP's continue to utilize the Air Force FAC's to support their daylight operations. The FAC's not only observe for the CAP's but also call artillery missions and control air strikes.

b. Air support is not limited to tactical requests, as logistical resupply of outlying CAP's requires daily attention. The time for these missions is allotted by the proximate battalion on a daily basis. These missions are neither requested nor controlled by the CAG. At times the availability of aircraft was reduced by the requirement for helicopters to support Combat Assaults (CA's) in the Americal Division.

15. Activations, Deactivations, Redesignations, Relocations of CAP's

a. Two CAP's were withdrawn during the period; CAP's 1-1-2 and 1-2-7 to await formal authorization to deactivate.

19. Psychological Operations

a. Friendly operations

(1) The Group distributed 3,585,000 leaflets by aircraft and 28,000 by hand for a total of 3,613,000.

(2) Aerial broadcasts were used for a total of 6 hours and 55 minutes. The "Early Word" aerial broadcast was utilized several times during the month.

(3) The Combat Speaker Team, of the 198th Infantry Brigade was used by CAP 1-3-9 to exploit a rallier from that area.

20. Volunteer Informant Program

a. During the month of March the Group paid 35,850\$VN to Vietnamese nationals for ordnance under the VIP. CACO 1-1 in Tam Ky continues to lead the group in the number of pieces of ordnance received under the program.
