NARRATIVE SUMMARY

This reporting period saw 2d CAG continuing its combat mission, providing supply and administrative support for such operations, and continuing to deactivate subordinate units.

Enemy contact was generally light, occurring predominantly in Dien Ban District as a result of the first phase of the enemy K-850 Campaign which opened in the last days of March. Final actions for this highpoint of enemy activity included two indirect fire attacks on Dien Ban District Headquarters and probing attacks designed to find and fix locations of friendly units. In the final days of the reporting period the enemy appeared to be regrouping and resupplying for the next phase of the campaign.

On 13 April, Combined Action Company 2-1 in Hieu Duc District and Combined Action Company 2-2 in Dai Loc District were deactivated with appropriate ceremonies. Their equipment was redistributed and excesses turned in through CAG S-4 channels. Final reports were prepared and consolidated. Troops were billeted at 2d CAG Headquarters while being processed to leave Vietnam.

In accordance with the redeployment of Marines from the Republic of Vietnam, 2d CAG came under the command of 3d Marine Amphibious Brigade with the redeployment of III Marine Amphibious Force.

NARRATIVE SUMMARY

2d CAG continued to conduct operations in its TAOC's during this reporting period. Three remaining Combined Action Companies continued to provide training for PF's, protection for villages, and support of the pacification efforts of the GVN. Though contact was generally light, small scale rocket, mortar and limited probing incidents combined with mining of Highway #1 to mark a highpoint in the enemy K-850 Campaign. Occurring on the 25th and 26th of April, these attacks were directed generally from Dien Ban District with 122mm rockets fired toward the Danang Air Field and toward the ROK Artillery Battalion near Hoi An.

CAG Headquarters continued to provide administrative and logistic support to operating units. Personnel from previously deactivated units were processed and redeployed; equipment from these units was redistributed or turned in through supply channels. Preparations were made to support further deactivations scheduled for May.

During this period Brigadier General E.H. SIMMONS, Assistant Brigade Commander, 3d Marine Amphibious Brigade, twice visited 2d CAG.
