a. Enemy activity during the month of May stayed at the same general level as in preceding months. There was a slight increase around 19 May, Ho Chi Minh's birthday, but no large scale activities materialized as was expected. There was, however, a great deal of non-VC activity during the month, involving conflict between Saigon based Rangers and Vietnamese Marines, and the so-called Struggle Forces of the I Corps Area. This activity began when the Saigon troops landed at the Danang airstrip on 15 May and culminated with the disintegration of the Danang Area Struggle Forces on 23 May.

b. During the period 11-19 May, The Regiment conducted Operation Cormorant 3-1, a company sized reconnaissance in force, in the hilly region to the west of 1stBn, 3dMar TAOR. This operation was in response to reports of the presence of a cultivated area (nicknamed "The Garden of Eden") and the possible operating area of the VC 51st MF Battalion. The operation resulted in 6 VC KIA, the capture of one US carbine, assorted personal items and documents, 5000 rounds of small arms ammunition, and the destruction of several acres of dry crops.

The three remaining LZ's were rated satisfactory with discrepancies. Measures have been taken to alleviate the existing discrepancies.

CONFIDENTIALCIVIL AFFAIRS

a. General. During the month of May the 3rd Marines Civic Action program continued to function smoothly and efficiently. The political unrest in Da Nang during the month had no significant effect on the Civic Action program. The rural population appeared to have knowledge of the situation in Da Nang, but it in no way influenced their activities. During the month, battalions began a review of their Civic Action programs. A survey was taken as to projects completed, in progress and planned for each hamlet within their area. Steps are now being taken to establish a long range Civic Action program to consolidate the various projects and assist each hamlet as a whole rather than just accomplishing isolated projects within the hamlet. Plans presently being formed will include assistance in all areas of Civil Affairs and will stress assisting the people in such a manner that they will be able to carry on with the project should the Marines leave the area. Company Corpsmen and battalion MEDCAP Teams continued giving medical assistance throughout the area. A total of 17,695 medical treatments were given during the month. Commodities were also distributed as required. A total of 15,637 pounds of food, 890 pounds of clothing, 6517 bars of soap in addition to such things as school kits, carpenter kits, sewing kits and cement were distributed. The Civic Action program is being well accepted by the people throughout the TAOR. No significant problems were encountered.

Textbooks have been ordered and until they are received, the classes will continue with the mimeographed sheets. The classes are being conducted by the Regimental CAO and one of the Regimental interpreters.

1. SITUATION.

- a. Enemy forces. See current INTSUMS and special intelligence reports as issued.
- b. Friendly forces. No change.

2. MISSION. 3d Marines conduct operations to protect Vietnamese Nationals and the rice crop during the main harvest seasons to deny the VC valuable food stuffs, stifle his control over the local populace and aggravate the VC logistical problem.

3. EXECUTION.

- a. Concept of Operations. The most effective echelon to coordinate rice harvesting procedures is at the Infantry Battalion/Village Chief, and Infantry Company/Hamlet Chief levels thereby proving to the local populace that the Marine forces are available to protect them against VC encroachment. Battalions in conjunction with local district chiefs, village chiefs, ARVN, RF and PF forces will coordinate the protection of the rice harvesting in their respective areas. No set harvesting pattern is applicable to all rice growing areas, however the methods, tactics, and procedures prescribed in reference (a), paragraph 3.a., will guide commanders in the execution of these operations.
- b. Infantry Battalions. Conduct operations for harvest protection in assigned tactical area of responsibility during the period that regional rice harvesting is in progress.
- c. Coordinating Instructions. In accordance with the provisions established in reference (a).

4. ADMINISTRATION AND LOGISTICS. In accordance with reference (b).

OPERATION COUNTY FAIR

1. INCREASING INTEREST IN COUNTY FAIR OPERATIONS AT ALL LEVELS OF COMMAND SUGGESTS THE NEED FOR A COMMAND POSITION THAT IS UNDERSTOOD BY ALL WHO MAY HAVE OCCASION TO ADDRESS THEMSELVES TO THESE ACTIVITIES.
2. AS CONCEIVED AND EXECUTED BY THE 3D MARINE DIVISION "COUNTY FAIR" IS A SPECIFIC TYPE OF **SEARCH** AND CLEAR OPERATION CONDUCTED IN COORDINATION WITH ARVN, RF AND MF UNITS. REMOVAL OF ALL HAMLET INHABITANTS TO A SEGREGATION AREA PROVIDES THE OPPORTUNITY TO

PAGE TWO RUMMF 1452D **C O N F I D E N T I A L**

CAREFULLY SEARCH THE HAMLET FOR VIET CONG WHO ARE USING THE VILLAGE AS A BASE OF OPERATION OR HIDING PLACE AND TO KILL OR CAPTURE THEM. WHILE THIS ACTION IS TAKING PLACE THE PERSONS WHO HAVE BEEN REMOVED FROM THE VILLAGE ARE PROCESSED BY LOCAL OFFICIALS. A CENSUS IS TAKEN, INDIVIDUALS ARE GIVEN MEDICAL AND DENTAL TREATMENT, FOOD IS PROVIDED, GOVERNMENT PROPAGANDA IS DISSEMINATED, AND OCCASIONALLY ENTERTAINMENT IS PROVIDED. WHILE SOME OF THE ACTIVITY IS OF A CIVIC ACTION CHARACTER, THE COUNTY FAIR IS NOT A CIVIC ACTION PROGRAM.

3. AS THE NUMBER OF COUNTY FAIRS AND THE INTEREST IN THEM INCREASES, MORE PEOPLE WANT TO VISIT THESE OPERATIONS. VISITORS ARE NAUTALLY WELCOME PROVIDED THEY HAVE A LEGITIMATE INTEREST IN THE OPERATION AND THE VISIT IS CLEARED IN ADVANCE.
4. IN ORDER TO CARRY ON THE COUNTY FAIR OPERATION IN A MORE ORDERLY FASHION, IT IS REQUESTED THAT ANYONE DESIRING TO VISIT THESE OPERATIONS

MAKE ADVANCE ARRANGEMENTS WITH CG, 3D MARINE DIVISION (AC/S, G-3).

a. Item. Scout-Sniper Teams, employment of

Discussion. During Operation Orange, Scout-Sniper Teams were extremely effective against VC at ranges up to one hundred meters. By occupying firing positions in trees, on vantage points, and elevated dykes, snipers were able to kill VC before friendly troops moved to within small arms range of the VC.

Recommendation: That the proven capabilities of Scout-Snipers be exploited to the maximum in all future search and destroy operations. By being positioned on a vantage point outside of a village, Scout-Snipers can kill those VC that try to escape during the search of the village. In addition, that Scout-Snipers occupy positions overlooking known areas that small groups of VC frequent (Examples: Areas that mines and booby traps have been emplaced previously, locations where communication wire has been cut, etc). The precision fire brought to bear on these areas by Scout-Snipers will enhance our posture.

County Fair 3-2 was conducted at TUY LOAN (2) (AT 934700) by 2d Battalion, 3d Marines on 9 May 1966 in accordance with reference (c).

COUNTY FAIR 3-1

AP XUAN THIEU was selected as the operational site due mainly to reports that the VC had used it as an ingress/egress route the night of 17-18 April 1966, when Btry "A", 1/11 was attacked.

Company B, 1/3, and HOA VANG District forces (two (2) PF platoons, numbering sixty (60) men) combined to conduct the operation. Company B, 1/3 established a cordon around the hamlet at 040300H and maintained that position until 051305H, when County Fair 3-1 secured. HOA VANG District forces commenced the initial sweep of the hamlet at 040645H. All residents were assembled at the Collection Point, which was established about six-hundred (600) meters to the West of the hamlet.

National Police and district officials checked ID cards, conducted a registration and census. One-hundred fifty-four (154) adults were registered; one (1) ARVN deserter and seven (7) VCS were removed to HOA VANG District Headquarters for further processing.

Five-hundred thirty-two (532) treatments were administered by medical personnel from 1/3. One (1) Vietnamese was admitted to the 1/3 Pediatric Ward. The medical facility remained in operation throughout the morning of 4 May.

Three (3) large meals of rice and soup were served to the hamlet residents during the twenty-seven (27) hour period while they were at the Collection Point.

The Army Psychological Warfare Team presented lectures and conducted question-and-answer discussions with the adults during the afternoon of 4 May. Pamphlets and magazines were distributed during the evening meal and movies were shown after dark. The people generally expressed approval of and support for the aims, policies, and operations of the USMC/District forces.

The HOA VANG District forces occupied the hamlet during the night, the residents remained at the Collection Point and Company B, 1/3, maintained its cordon around the perimeter. After a final sweep through the hamlet on the morning of 5 May, the residents were allowed to return to their homes and the operation was secured at 051305H.

County Fair 3-1 primarily strengthened the position of the HOA VANG District officials in the politically - troubled AP XUAN THIEU area.

It also provided extensive medical aid to the people, indicated that the hamlet was free of VC influence, and presented another opportunity for coordinated operations between USMC and Vietnamese forces.

Enclosure (1)

COUNTY FAIR 3-2

TUY LOAN (2) was selected as the operational site for several reasons: (1) A recent VC booby trap incident killing or wounding four (4) children in the immediate area; (2) the concern of the NIEU DUC District Chief for the security of the New Life Hamlet which is being constructed adjacent to TUY LOAN (2); (3) the need to re-establish government influence in the area at the hamlet, village and district levels; and (4) the requirement for an accurate census.

Company H, 2/3, established a cordon around TUY LOAN (2) at 090500H. At 090800H, NIEU DUC District forces, numbering about one hundred (100) RF and PF troops, and reinforced with elements of the Combined Action Company and Engineer Demolition teams, commenced the initial sweep of the hamlet. Six-hundred thirty-five (635) residents of the hamlet were assembled at the Collection Point.

National Police, district officials, and ITT personnel checked ID cards and conducted a registration and census. A "Census Form" which was developed and printed in quantity by 2/3, was utilized and each adult filled out a copy. Three-hundred eighty-seven (387) adults were screened. Three (3) VCS were temporarily detained but later released. This phase of the operation continued throughout the morning.

A medical facility was established as the second checkpoint in the Fair. Two hundred (200) children under (18), two-hundred (200) women over 18, and fifty (50) men over (18) were treated for a variety of ailments. Bars of soap were passed out as the people were processed through the medical facility. One (1) child with meningitis and one (1) woman in labor were evacuated by helicopter.

Rice, chicken soup, and tea were made available to the people throughout the day. Approximately seventeen-hundred (1700) meals were served.

The 3d Marine Division Band presented a one-hour concert during the early part of the afternoon, which was enthusiastically received. Volleyball and soccer games were continually in progress.

The Army Psychological Warfare Team furnished Vietnamese music during most of the day. The team also distributed leaflets and pamphlets and conducted question-and-answer discussion sessions. All of these activities were aimed at ensuring that the people understood the mission and aims of County Fair.

The Hamlet, Village, and District Chiefs, each spoke at length to the people during the afternoon. This enabled the district and local officials to personally re-establish and strengthen the government structure in TUY LOAN (2).

Enclosure (2)

County Fair 3-2 was secured at 091800H due to a severe rainstorm. It achieved its military aim in that no evidence of VC activity was found in TUY LOAN (2) and thus the security of the New Life Hamlet seems assured. An accurate census was compiled and the governmental establishment was strengthened. Gains in the area of Civic Action were the high point of the day. The operation received an enthusiastic response from the people and was a fine coordinated effort by USMC and Vietnamese forces.

REMARKS :

2d Battalion, 3d Marines has programmed for Hieu Duc District a District Newspaper. It is designed to be written by the USMC personnel for the district chief. As the newspaper develops it is planned that more and more activities conducted by the district with the assistance of USMC forces will be publicized, de-emphasizing USMC activities and highlighting the district organizational activities. It is further planned that all material assistance obtained by Hieu Duc District Chief from all US sources will be published. This will not mention the source of this material but rather emphasize the manner in which it is equally distributed. This will serve as an inducement for those hamlets and villages to reduce enemy activity within their area. It will also help to organize the political structure and keep the people informed.
