PART II
NARRATIVE SUMMARY

During this period the Battalion supported the 1st, 5th, 7th, and 26th Marines; ROK Marine Corps and Task Force Yankee. Technique of employment consisted of two platoons (+) to ROK Marine Corps, one platoon each to 2/1, 5th Marines, 1/7 and 3/7; one platoon (-) to 1/26; and a section (-) to Task Force Yankee.

During the second half of the month, a significant increase in Viet Cong activity occurred in the Chinstrap Mountain complex. This increased Viet Cong activity prompted our Battalion to meet with the various Vietnamese Religious and Military authorities to solicit their recommendations on how to halt the Viet Cong's infiltration of these mountain/cave complexes. A variety of proposals and counter proposals were offered. Finally, by mutual consent it was determined that the villagers from Nui Kim Sen, utilizing American furnished materials, would close the caves by constructing brick walls at their entrances. Similar cave denial operations are planned for the adjacent mountains and will be implemented as time and materials become available.

The Battalion had an average of fifty-three vehicles committed daily in direct support of the 1st Marine Division. The mission and frequency of specific tasks were:

Security - 94
Recovery - 44
MedEvacs - 15
Resupply - 112
Convoy Escort - 50
Blocking Force - 43
Reaction Force - 81
Administration - 51
Troop Movement - 81
Search and Destroy - 37
Patrols and Mine Sweeps - 37
Water Denial and River Patrol - 1

Vehicle utilization averaged seven hours per day carrying an average of four persons and 330 pounds of cargo per day. In addition, the LVTE-1's fired nine line charges.

Downgraded to UNCLASSIFIED on 15 January 1970

5-69

PART III
SEQUENTIAL LISTING OF SIGNIFICANT EVENTS1. TOPICS:a. Personnel and Administration

(1) Our personnel readiness category remains as C-2. We do not anticipate a change in this readiness category unless a significant increase or decrease in replacements occurs.

(2) Two Marine officers and forty-nine Marine enlisted rotated to CONUS. One Marine officer, forty-nine Marine enlisted and three Navy enlisted were received as replacements.

(3) Reenlistment rate for the month was 43%. This was based on three reenlistments.

(4) Casualties were two USMC KIA and six USMC WIA.

(5) There were seven extensions of overseas tours.

(6) Five new USAFI and eleven MCI enrollments were received this month.

(7) Awards. Six Purple Hearts were awarded.

(8) Forty-five personnel went on R&R. This program is well received and a great morale booster.

(9) Our Savings Bond participation was 81%.

(10) The Exchange Services were adequate.

b. Enemy

(1) There were nineteen enemy contacts as follows:

- (a) Three LVTs mined
- (b) Seven boobytraps, all rigged with trip wires
- (c) Four enemy sightings totaling ten Viet Cong
- (d) Three attacks by fire resulting in three Viet Cong KIA's
- (e) One sniper incident
- (f) One enemy cache consisting of 100 pounds of rice and one

(1) M-33 hand grenade

Downgraded to UNCLASSIFIED on 15 January 1970

~~CONFIDENTIAL~~
ENCLOSURE (1)~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

05750

15 Jan 1969

5-69

(2) During the month there were three detainees. All were classified as innocent civilians and released.

(3) A total of one hundred and five patrols were conducted of which forty-five were during the hours of darkness.

c. Training

(1) Formal training and OJT were conducted in conjunction with operational commitments. The following classes were presented:

- (a) First Aid
- (b) Leadership
- (c) Weapons Safety
- (d) Combat Patrols
- (e) Quick Fire/Kill
- (f) Tactical Trends
- (g) Moral Leadership
- (h) Landmine Warfare
- (i) Personal Response
- (j) LVT Driving School
- (k) FAM Firing of Weapons
- (l) VC Mines and Booby Traps
- (m) Professional Terminology

(2) One officer and one enlisted Marine attended the Division Leadership School.

d. Logistics

(1) Supply Situation

(a) Minor LVT suspension parts continue to be a problem. The D.X. program is improving and has become more responsive to our needs. Adequate quality control checks appear to be absent as some of the LVTF5A1 starters were found to be inoperative once installed in the vehicle.

(b) One LVTE1 has been deadlined since 3 September 1968 awaiting a pallet lift cylinder. This vehicle is incapable of firing line charges until the defective cylinder is replaced. The ICP at Philadelphia is the present holder of this requisition.

Downgraded to UNCLASSIFIED on 15 January 1970

~~CONFIDENTIAL~~~~CONFIDENTIAL~~

05750

15 Jan 1969

5-69

(c) T/E replacement vehicles are badly needed to maintain a C-1 status of equipment/supplies on hand. Combat losses through enemy mine activity and the recent submergence of one LVTP5A1 has brought the Battalion to the brink of entering into a C-2 status for equipment/supplies on hand.

(d) The shortages of typewriters remains critical, of the 18 typewriters authorized 13 are on hand.

(e) The LVTR-1s are essential vehicles within an Amphibian Tractor Battalion as they provide a recovery and maintenance capability for each of the Companies. As a result of the unavailability of boom chains, "A" Company has been unable to fully utilize their LVTR-1.

(2) Maintenance

(a) There were two vehicles destroyed by enemy mine action; one has been dropped as a Code H loss; the other is pending as a Code H loss.

(b) One T/E deficiency was received. The LVTP5A1 submerged on 17 November 1968 has been located and liaison effected with salvage personnel. A formal request for salvage assistance has been forwarded.

(c) The average Battalion daily deadline rate was six vehicles with an average vehicle deadline of two LVTR-1s and four LVTP5A1s.

(d) A maintenance area which is quickly developing into a problem is antenna matching units (MX6707). Presently there are sixteen of the subject units in the D,X. program at 1st FSR. The units have not been repaired nor have code letters been received; consequently, we are unable to order replacements and are short sixteen antenna matching units.

(3) Motor Transport

(a) The daily deadline rate for wheeled vehicles was 6%.

(b) The Battalion Motor Transport logged 28,665 vehicle miles with one minor accident. A total of 1,748 passengers were carried and 490.8 short tons of cargo were transported.

(c) Our vehicles participated in five Rough Rider convoys to An Hoa to resupply the 4th Platoon, "A" Company.

(4) Services. Contact teams have been working on previously approved work requests.

(5) Medical

(a) The following statistical information is provided concerning medical activities:

Total patients seen at MedCaps	453
Total Battalion patients (Non-MedCap)	441
Total Venereal Disease cases (new)	3
Total Inneculations	310

e. Civil Affairs/Civic Action

(1) 453 Vietnamese were treated in MedCaps in addition to thirty-two Vietnamese dental patients.

(2) The following commodities were distributed to the villagers of HOA LONG: 140 pounds of rice, 230 individual rations, 230 packs of cigarettes, twenty pounds of candy, 200 pencils and writing tablets.

(3) The Battalion Commanding Officer and the S-5 officer presented ten General WALT Scholarship awards to the children of HOA-VANG Elementary School.

(4) A Battalion sponsored Christmas party for the Orphanage donated \$120.00 in cash, a refrigerator and various toys to the children.

(5) Two selatium payments were made.

(6) Building materials were purchased from AIK funds to construct a toilet for the HOA-VANG Elementary School.

f. Communications

(1) Personnel. The overall personnel status remains adequate. Two personnel were joined this month, one a radio operator, the other a teletype operator. Ten Communications personnel were transferred from this unit; the majority of these Marines were in OF28 which has been in excess of the M/L.

Downgraded to UNCLASSIFIED on 15 January 1970

(2) Equipment. Six LVTP-5 (GMD) tractors remain to be modified with single sideband equipment. The needed parts are on priority O2 requisition. Both AN/MRC 83s have been sent to 1st FSR. One of these is awaiting radio parts while the other is having the vehicle replaced.

(3) Maintenance. We have expended the remainder of the dux seal on hand to pack 70% of the tractor antenna bases. More dux seal has been placed on order.

(4) Operations. 738 messages were received and 57 were transmitted by this unit.
