NARRATIVE SUMMARY

During September the 3d Shore Party Battalion supported the 3d Marine Division throughout its area of operations. In addition, support was provided to the 26th Marines in the Danang/Cao Dai area.

Logistic Support Areas were operated in support of tactical operations in the Kentucky, Scotland II, and Lancaster II areas of operation.

A total of 12,546,351 lbs of all classes of supply; 9,458 passengers and 335 medevacs were moved by helicopter for the LSAs and LZs.

In addition, the Battalion provided to supported units, Helicopter Support Teams, often down to the infantry company and artillery battery level. The HSTs facilitated landing and movement of helicopterborne troops, equipment, and supplies, and evacuation of casualties.

In addition, Shore Party officers and staff non-commissioned officers were frequently deployed with special rigging teams to supervise the movement of artillery and engineer equipment. This new procedure helped assure the success of helicopter relocation of fire support base weapons and engineer equipment such as the 105mm and 155mm howitzers, and a variety of tractors and dozers.

Important secondary missions were accomplished within the Dong Ha and Quang Tri Combat Base areas and included security for vital sectors of both defense systems and engineer equipment assistance.
