APPENDIX B⁶

3/RMR/tpf
10 Mar 1969

Unit Inspected: H&S Platoon, H&S Company
Date: 28 February 1969
Inspection Phase: Personnel, Clothing, and Troop Drill
Inspector: 1st Lt. W.G. TOMLINSON
Rating: Satisfactory with Minor Discrepancies

Topic: Personnel Inspection

Discussion: Overall appearance of personnel inspected was excellent. The appearance of most individuals was indicative of their time and effort in preparing for inspection. However, discrepancies were noted in fitting of clothing, mostly trousers either being too long, or too short. One Marine had no properly fitting tropical trousers. All three pairs of his tropicals were extremely tight. It was noted that individuals were not completely familiar with chain of command. This in most cases was noted in recently arrived personnel.

Recommendations: It is recommended that action be initiated to:

1. Insure that closer supervision by Platoon Sergeants and Company Staff NCO's is maintained in future inspections.
2. That upon arrival each new Marine receive a list of the chain of command and be required to study and know the incumbent in each link of the chain.
3. Those personnel cited as having ill fitting clothing be required to replace or have altered those items of apparel that do not fit properly.

Topic: Clothing and Equipment Displays

Discussion: Neatness of wall lockers and rack layouts showed evidence of the effort taken to prepare for this inspection. The clothing displayed in the wall lockers was neat and uniform in most instances. A few individuals displayed soiled belts and other apparel, but overall effort was very good.

Recommendations: As in the case of personnel inspection, this phase could have been improved by more attention to details and better supervision prior to inspection.

ENCLOSURE (1)

3/RNR/tpf
10 Mar 1969Topic: Troop Drill

Discussion: Conduct of Drill was excellent, NCO's assigned to drill the platoon showed a good knowledge and were well above average in Drill Proficiency. Platoon movements were executed with a minimum of discrepancies.

Recommendation: That continued emphasis is placed on the need for the young inexperienced NCO to acquire proficiency in conduct of drill.

Topic: Personnel Accompanying Inspecting Officer.

Discussion: This officer was accompanied by the platoon commander, platoon sergeant, and H&S Company Gunnery Sergeant. Their attitude on the whole was one of inattentiveness, with many discrepancies noted by the inspecting officer going unnoticed. During the clothing inspection it was necessary to call attention of troop conduct (talking during inspection) to the platoon sergeant and direct him to take necessary action on two occasions. In some cases the accompanying personnel seem to forget who was to conduct the inspection and appeared to be conducting their own inspection simultaneously.

Recommendation: That personnel assigned as platoon leaders, platoon sergeants, etc. are made aware of their duties during inspections and of the importance of their attitude and conduct to the success of any inspection.

Unit Inspected: Headquarters and Service Company

Date: 25 February 1969

Inspection Phase: Motor Transport and Technical Equipment: Inspected Operational/Maintenance Records, General Condition of Equipment; Limited Technical Inspection was Conducted on (8) pieces of Equipment; Inspected Facilities.

Inspector: 1st Lt. SMITH

Rating: Satisfactory with discrepancies

Topic: Directives

Discussion: A Battalion Motor Transport SOP was not held within the Motor Pool. An up to date T/E should be held within the Motor Pool in order that T/E deficiencies can be monitored by the Motor Transport Officer.

Recommendation: That the above directives be furnished for guidance to Motor Transport as soon as possible.

Topic: 1st/2nd Echelon Maintenance

Discussion: A limited technical inspection was conducted on eight various types of equipment. A total of eleven first echelon, thirty-four second echelon, and fourteen third echelon discrepancies were found. The third echelon discrepancies are primarily body/paint work on the older 2 1/2 ton gas vehicles being replaced by the Multifuel Vehicles.

Recommendation: Closer supervision is required over vehicles operators/mechanics when performing organizational maintenance. More emphasis on quality control is needed. Equipment should receive a through pre/final inspection when inducted for repair/preventive maintenance to insure discrepancies are corrected satisfactorily.

Topic: Operational Records:

Discussion: Operational Records were found to be in very good condition.

Recommendation: None

ENCLOSURE (4)

3/ENR/tpf
10 Mar 1969

Topic: Maintenance Records

Discussion: Records were in good condition with the exception of overdue P.M.'s on vehicles assigned to MTCO. Scheduling and posting for the organic vehicles assigned to MTCO, less shop sets, is accomplished by MTCO. As a P.M. inspection comes due, the necessary P.M. forms are forwarded to MTCO for completion. After said P.M. has been accomplished, the completed forms are returned to MTCO, for posting on the appropriate HH314 Card. Completed forms are placed in the vehicle packet (696SB). It appears that P.M. forms are not being returned on a timely basis. The following examples are cited: #5A3 Creeker #224684 due on 14 February 1969 for a quarterly P.M.; #151 #357069 due on 9 January 1969 for a quarterly P.M.; #37 #126265 due February 8 1969 for a quarterly P.M. No records are held that indicate the above P.M.'s have been completed.

Recommendation: That MTCO be assigned the responsibility for maintaining vehicle records on equipment under their control.

Topic: Facilities

Discussion: The dirt area on the North Side of Bldg. #1173 is utilized for parking of equipment and performance of operators maintenance. During inclement weather, the condition of this area hinders the satisfactory accomplishment of operators maintenance. The open drainage ditch parallel to the maintenance shop reduces the effective use of area adjacent to Bldg. #1173.

Recommendations: That a study be made concerning the feasibility of installing tile in the open drainage ditch and resurfacing the present parking area with asphalt or other suitable surfacing material. This would allow for better use of the maintenance and parking facilities.

Topic: Battalion Armory

Discussion: About 10% of the pistols and rifles in the armory were inspected for cleanliness and proper function. Three pistols were found to be dirty (carbon) and are with less than minimum trigger pull. Three rifles were tagged for repair but had not been turned into Ordnance Maintenance Company. The armory does not have an SOP.

Recommendations:

- a. That adequate inspection procedures be instituted to preclude weapons, especially pistols, from being accepted by the armory until properly cleaned after firing.
- b. That an SOP for the armory be published.

ISSUE XII

17 February 1969

Commanding Officer's Notes

What's more normal than to complain? You're out on Friday night having a fine time when you look at your watch and..... liberty is about to expire. You have to rush to make it back on time. Really upsets you. Tuesday and Wednesday last week you spent squaring away for a clothing inspection. Lost time? Really upsets you. Why all these rules and regs anyway?

The Marine Corps is a highly developed, quite complicated society; very simply, a group of people living and working together. If the Corps is to survive and function, two things must happen. First, each member of our society must make a contribution, in short, do his job. Second, no member can disrupt the work or well being of another. If both these things were just done as a matter of course by every Marine, we would need few, if any rules and regs. That still leaves us with the same question, why do we need them?

The first part of the answer you all know. Two questions: without that liberty limit, would you have been in shape for, or even in for, work on Saturday? and, without that inspection, would your clothes have been squared away? If the answer is no, you need the Corps' rules and regs. If the answer is yes, then you're the kind of man the Corps needs. The more responsible we each become, the more we enjoy freedom of action as long as we continue to obey the two basic rules.

The second part of the answer is equally important. We are members of a unique society. The goal of the Marine Corps has never been merely to survive, but always to excel. Often as individuals we are willing to settle for less, but the rules and regs of the Corps push us all toward excellence. Once again, when an individual strives for the outstanding, he finds more and more freedom within the system.

The answer then...show yourself to be responsible and self-reliant. Strive for excellence. Work at it and find you satisfaction within the system. If each Marine did this, rules and regs would begin to disappear or at least living within them would be easier.

INTRA-BATTALION SMALL BORE PISTOL COMPETITION

Well our Intra-Battalion Small-Bore Pistol Competition got underway for this quarter. The teams started dinging on the 24th of January at the Stilwell Field House Small-Bore Range. The scores were low to start but they are getting much better as they ding along. So far, Sgt C. J. BUFFINGTON from Engineer Maintenance Company has the high individual aggregate score with a 250 out of a possible 300. Keep up the good shooting Carl.

Motor Transport Maintenance Company has the high team aggregate score with a 907 out of a possible 1200. Let's go teams and give them a run for the trophy.

Editor's Note:

For those who are interested, the Battalion would like to organize a Rifle and Pistol Teams to compete Island wide. The Army has been taking most of the trophies so far. Let's give them a go. There are quite a few Distinguished Shooters within the Battalion. So let us hear from you. If you are interested, contact Lt. ROMAN at the Battalion S-3's Training Office phone 32209.

SERGEANT MIKE LOVES YA !

Just received a note from Mike explaining why we're all so near and dear to his grund heart. Lt me tell you what he had to say.

On a night in January, the combat base Mike calls home was probed by Charles. "Before they ever got near the wire, we knew they were coming," said Mike "Picked 'em up on a Topsy 21 your Electronics Maintenance Co. fixed in October, and called the Charlie Papa to let them know we had visitors. Used a PRC 25 that we got from you people last month. Things never got tense. The closer they came the more sierra we put on 'em -- supporting weapons fire courtesy of 05's just back from your Ordnance people. When they really got up close to the perimeter, the tigers and 106's behind the wire opened up with beehive and canister. Glad you've been pushing those things ythrough up there. It was all over but the crying for Charles. Never even got a chance to use my M-16. We really tore old Charles a CENSORED ** BN XO.... All the ammo used that night was loaded on flatbeds back in Da Nang by lifts just down from your Engineer Maintenance Company and hauled out here by trucks just back from your MTM Co. Y'all are really helping to keep us alive."

(What makes Mike really happy? Just

staying alive? Nope, but Mike is happy. You see, one of those trucks just sent South by MTM Co. made it's first run. It brought Mike his bear ration up from Da Nang).

ESPRIT DE CORPS

Dear Sir:

I have been disturbed of late over what I fear is the Corps' loss of "esprit de corps." Everywhere I seem to go, I see a lack of real pride. The lower echelon of troops appear to all have a "short-timer" attitude. A Marine may have as much as two years left on his present enlistment and you can overhear him saying, "I have only 730 days left."

If a man with an underdeveloped attitude toward the Corps arrives, it doesn't take long for the self-styled "short-timers" to help him form an unfavorable one.

If an NCO tries to instill some pride in individuals by tightening up, men with the "short-timers" attitude will either respect or resent that particular NCO. But, they either respect him as an individual or resent him as one of those "gung-ho lifers."

I would like to know if there is a committee of some kind checking into this loss of pride and spirit, or if it is all going to be remedied by individual effort.

If I receive a letter stating that the spirit is better than ever, I will assume that you are just sticking your head in the sand and ignoring the situation.

**There is a committee-- although not formally organized -- that not only checks what you call "loss of pride and spirit" daily in this Marine Corps, but almost always takes steps on the spot to remedy such situations. It is made up of every Officer, Staff Non-commissioned Officer and Non-commissioned Officer in the Marine Corps.

Some "committee members" are more active than others. ---- Ed.

JUST MARRIED - CONGRATULATIONS

On 11 Feb 1969 LCpl Terry CROUSE of Electronics Maintenance Co. married Cpl Gail KENAGA who is stationed at MCAF FUTEMA. The marriage took place at the American Consulate in Naha City. Best wishes from all in Maintenance Bn. to the newlyweds.

JUST MARRIED - CONGRATULATIONS

Also on 11 Feb, LCpl Terry CROUSE of Electronics Maintenance Co. married Cpl Gail KENAGA who is stationed at MCAF FUTEMA. This marriage took place in front of the Mayor of Naha.

TO BE MARRIED THIS AFTERNOON

LCpl Terry CROUSE of Electronics Maintenance Co. is taking the big step. This afternoon at the Full Gospel Church in Koza he exchanges vows with Cpl Gail KENAGA of MCAF Futema.

Notes on the above - Marrying on Okinawa can be an exceptionally complicated process as Terry and Gail discovered. Any couple with determination to wade thru the red tape involved is certainly on their way to a successful marriage. This third marriage today should convince any doubters that Terry and Gail are in fact Man and Wife. (Seems that Terry's father is a Full Gospel Lay Preacher and when he gets home with his new bride, you guessed it, wedding number four).

Three gold stars for the marriage license maybe?

QUOTABLE QUOTES

"No capable man who is conscientious, willing and industrious will remain unnoticed for long. The outstanding man is too precious a quantity to be disregarded."

Combat Skills School have graduated two classes this year. The two Honormen are from Maintenance Battalion. LCpl Jay L. SAINT from Engineer Maintenance Co. was Honorman for Class 1-69. Cpl Barry HOSFORD from Headquarters and Service Co. was Honorman for Class 2-69. To achieve such a high standing in your class of 120 men is a great accomplishment. The pride you must feel, to know that your hard work and your desire to excell placed you number one among your fellow Marine, is well deserved. Truly, men like yourselves are the back-bone of the Corps. WELL DONE!
