

PART IV: BLT 1/51. Organizational Dataa. Designation/Location

(1) The designation of this organization changed twice as a result of the completion of the overseas transplacement cycle and the movement to Hawaii. On 22 May 1965, 2d Battalion, 9th Marines was redesignated as 1st Battalion, 5th Marines by authority of CG, 1stMarDiv msg 240120Z May 65. This organization was redesignated as Battalion Landing Team 1/5 on 15 June 1965 by authority of the Commanding General, First Marine Division.

(2) Location

(a) 15-30 June 1965 - Camp Pendleton, California

(b) 1-26 July 1965 - Enroute to Oahu, Hawaii

(c) 27 July - 31 December 1965 - Marine Corps Air Station, Kaneohe Bay, Hawaii

b. Period Covered. In order to impart a complete synopsis of the activities of this organization, the period covered is from 15 June to 31 December 1965.

c. Personnel Assignments

(1) Commanding Officer	LtCol H. L. COFFMAN
(2) Executive Officer	Major E. H. HOLTHUS
(3) S-1	1stLt L. D. KNUTH
(4) S-2	1stLt M. B. DARLING
(5) S-3	Maj B. S. PICKETT
(6) S-4	
(a) 15 Jun - 21 Nov 1965	Capt R. A. FREEMAN
(b) 22 Nov - 31 Dec 1965	Maj F. RINEY
(7) Commanding Officer H&S Company	Capt J. F. KREBS

2. The following is a sequential listing of significant events in the formation of BLT 1/5 and its subsequent movement from Camp Pendleton to Hawaii:

a. BLT 1/5 was formally organized and directed to deploy by CG, 1stMarDiv msg 162045Z Jun 65 (S).

b. During the period 16-29 June 1965, personnel were joined, equipment was received, issued and/or packaged, the equipment of all attached units was inspected and assembled, preparations were made to embark the main body of the BLT on 30 June 1965, and 129 Marines were trained for participation in PACMIDTRARON 1-65 aboard the USS PRINCETON (LPH-5) during the movement to Hawaii.

c. The main body of the BLT boarded its assigned shipping at Long Beach, California on 30 June 1965. LtCol H. L. COFFMAN was the Commanding Officer of troops aboard the USS MONTROSE (APA 212) which embarked 571 Marine and Navy personnel from the BLT. Capt F. M. KAUFFMAN was the Commanding Officer of troops embarked on the USS PRINCETON (LPH 5) which had 129 BLT Marines aboard.

d. On 1 July 1965 the USS MONTROSE and USS PRINCETON sailed from Long Beach for Hawaii via Alameda, California. On this same date, operational control of BLT 1/5 was passed to the Commanding General, Fleet Marine Force, Pacific.

e. On 6 July 1965 the BLT advance party, consisting of 39 officers and enlisted men with Maj B. S. PICKETT serving as Officer-in-Charge, embarked aboard government aircraft at El Toro, California and proceeded to Marine Corps Air Station, Kaneohe Bay, Hawaii.

f. On 7 July 1965, 111 officers and enlisted men, with available supplies and equipment, were embarked aboard the USS SUMNER COUNTY (LST 1148) at San Diego and sailed for Hawaii. Capt G. J. STREMLow was the Commanding Officer of troops.

g. On 16 July 1965, 65 key officers and enlisted embarked aboard government aircraft at El Toro, California and proceeded to MCAS, Kaneohe Bay, Hawaii.

h. On 16 July 1965, the main body of the BLT, aboard the USS MONTROSE and USS PRINCETON, arrived at Pearl Harbor. On this date, operational and administrative control of BLT 1/5

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

was passed to the Commanding Officer, First Marine Brigade.

i. On 16 July 1965, 135 officers and enlisted plus supplies and equipment, were embarked aboard the USS POLK COUNTY (LST 1048) at, and sailed from, San Diego. Capt F. RINEY was Commanding Officer of troops. On this same date, 402 officers and enlisted, with supplies and equipment, were embarked aboard the USS TIOGA COUNTY (LST 1158) and sailed from San Diego. Major E. H. HOLTHUS was Commanding Officer of troops.

j. On 17 July 1965 the USS SUMNER COUNTY arrived at Marine Corps Air Station, Kaneohe Bay, Hawaii.

k. On 26 July 1965 the USS POLK COUNTY and USS TIOGA COUNTY arrived at Marine Corps Air Station, Kaneohe Bay, Hawaii.

l. The period 27-31 July 1965 was devoted to detailed planning for the necessary, intensive reorganization and training programs that were to commence on 2 August 1965.

m. By 31 July the movement of personnel, equipment and supplies from Camp Pendleton to MCAS, Kaneohe Bay, was completed.

n. It should be noted at this point that the 5th Marine Regiment at Camp Pendleton during this period was in a state of instability. Each of its three battalions was to rotate to the Third Marine Division to relieve 2/9, 3/9 and 1/3. The transplacement system was to terminate when 1/3 was redesignated as 3/5. As each battalion departed CONUS, a Sub-Unit under operational and administrative control of the Commanding General, First Marine Division, assumed all responsibility until the new, semi-battalion could incorporate returning and new personnel into a functioning battalion. This period of instability had a direct impact on the new BLT 1/5. When 2/9 returned to CONUS, it discharged many of its personnel and sent the remainder, those to become part of BLT 1/5, on 30 days leave which is normally granted to a returning battalion. When movement orders were issued to BLT 1/5, the majority of experienced, trained personnel were in the Sub-Unit. However, the Sub-Unit had to move to 2/5 who were about to transplace to Okinawa. Both BLT 1/5 and 2/5 sailed during the same week. The administrative and logistical burden placed on the BLT during its reorganization and the late arrival of recruits and 2/9 personnel returning from leave, all combined to make a rather formidable task for the new BLT Commander and his Staff to resolve in their

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

new locale. The target date for the BLT to complete concentrated training and prepare for deployment was 1 January 1966.

3. The following is a sequential listing of the significant activities of BLT 1/5 since its arrival at MCAS, Kaneohe Bay, Hawaii:

a. Personnel

(1) BLT 1/5 received CMC letter AOIE-nt of 19 July 1965 which prescribed the Marine Manning Level for this organization. Initial personnel status reports reflected that on-board strengths were at the following level:

(a) USMC : Officers - 53
Enlisted - 1385

(b) USN : Officers - 4
Enlisted - 61

(2) Critical shortages based on the manning level were as follows:

<u>MOS</u>	<u>RANK</u>	<u>NUMBER</u>	<u>BILLETS</u>
9999	1stSgt	3	Company 1stSgt's
0141	Sgt	3	Company Admin Chiefs
0239	GySgt	1	BLT Intelligence Chief
0369	GySgt	2	Company GySgt's
0848	GySgt	1	81mm Mortar Plt Sgt
3371	Sgt	1	Cook

(3) CMC letter AOIE-pak of 19 October 1965 authorized an increase in the manning level for this organization.

(4) During August a transfer of Marine Corps personnel took place between the BLT and Marine Barracks, Pearl Harbor. Some 93 Marines were involved in this plan to increase the number of deployable personnel in this organization.

(5) At the end of this reporting period there existed a shortage of two Lieutenants, three First Sergeants, nine Gunnery Sergeants, nine Staff Sergeants, nineteen Sergeants and personnel in the OF 03 necessary to bring the four rifle companies to the manning level of 189 enlisted personnel.

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

(6) Personnel TAD from the BLT during the period included the MP detachment, the cook section, the detachment from Service Battalion, and personnel for the rifle and pistol ranges, for an average of approximately 150 personnel per month.

b. Administration. The administrative status of the BLT became stabilized during this reporting period. Inspection teams from the KMCAS Disbursing Office and the staff of the First Marine Brigade conducted detailed administrative inspections.

c. Intelligence

(1) During the period covered by this report, the S-2 section training consisted of Counter guerrilla Warfare, Scouting and Patrolling, Indoctrination and Employment of the AN/TPS-21, Indoctrination and Employment of the Weapon Sight, Infra-red including night firing. The S-2 section provided classes for the BLT in Night Surveillance with the Weapon Sight, Infra-red.

(2) The BLT S-2 processed and initiated action for 107 security clearances, of which, 29 were for Secret and Top Secret.

(3) Seven enlisted personnel graduated from Vietnamese Language School conducted by the First Interrogator-Translator Team, FMFPac.

d. Training

(1) This section, necessarily lengthy, must be preceded by an explanation of the training areas and limitations peculiar to Oahu in order to understand the full significance of the training accomplished.

(a) Most of the island's training areas and firing points are controlled by the U.S. Army. Requests for training areas are sent via CO, 1stMarBrig to the U.S. Army Headquarters at Schofield Barracks for the live firing of the 106mm Recoilless Rifle, 81mm Mortar, M-79 (HE), 3.5" Rocket Launcher (HE), Ontos, 105mm Howitzer, and large scale areas for battalion size exercises.

(b) When the 4th Marines departed Oahu in March 1965, area maintenance at KMCAS was reduced considerably. When BLT 1/5 arrived, it assumed much of the area maintenance

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

responsibilities. Working parties were also necessary to render the hand grenade range and moving target range operable before training in those areas could commence.

(c) Helicopter operations involving major units of the BLT were seriously limited due to the low number of aircraft available.

(2) Upon arrival of all BLT units at KMCAS, a four week "Lock On" training commenced which progressed from the level of fire team tactics to a BLT field exercise. During this phase, 21 days were spent in the field with 70% of the training conducted at night.

(3) Each rifle company completed a four week amphibious raid training program which consisted of two, two-week phases. Phase I featured operations ashore and still water swimming whereas Phase II included surf indoctrination, rubber boat training in open water and surf, ship to shore movement, and amphibious raids from submarines. Each company operated for three days with attack and troop type submarines. Total raid training hours per rifle company were 158 during the day and 101 hours at night.

(4) Jungle and guerrilla warfare training was conducted collectively and individually during the reporting period.

(a) Basic training in the areas of immediate action drills, searching and clearing villages, counter-motor transport ambush drills, day and night ambushes, civic action, and night firing at close range without illumination were subjects taught at a BLT organized school under the supervision of 1st Lt J. P. T. SULLIVAN, a recent graduate of the British Army Jungle Warfare School in Malaya.

(b) Approximately 700 BLT personnel attended a four day school at the U. S. Army Jungle and Guerrilla Warfare Training Center at Schofield Barracks. Subjects covered included guerrilla tactics, employment of booby traps, immediate action drills, jungle survival, first aid, jungle tactics, rappelling and crossing water obstacles. The Officer-in-Charge of the school, Capt D. WILLIAMS of Company B, 2d Battalion, 14th Infantry, was also a graduate of the British Army Jungle Warfare School in Malaya.

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

IV-7

(c) Rifle companies instructed these subjects in individual field training at the platoon and squad level. These exercises also included live firing during daylight hours in squad sized units. (Night firing in local ranges after 2200 is prohibited)

(5) A sniper training program was established at the Puuloa Rifle Range on Oahu. During the reporting period, some 38 personnel from the BLT completed the two week course. The goal of more than ten qualified snipers per rifle company was attained by the end of January 1966. The course includes day and night firing with various sights and scopes, usage of infra-red devices and firing at targets up to 1000 yards.

(6) The Engineer Platoon has conducted a Land Mine Warfare School and a Booby Trap School for the BLT, erected a memorial on Wake Island, constructed a road and further aided MACS-2 in their transplacement to a new site on KMCAS and constructed a village for use in demonstrations presented by the Brigade for visiting groups.

(7) BLT 1/5 has presented five firepower demonstrations for audiences including the Commanding General, Fleet Marine Force, Pacific, the SEATO Staff, Secretary of the Navy guests, Navy League representatives, and the National Junior Chamber of Commerce. These demonstrations realistically portrayed offensive and defensive counter guerrilla operations with close air support, helicopter operations and civil affairs. In addition to the organic weapons of the BLT, the Marine Rifle Squad was introduced during each demonstration.

(8) Live firing has been conducted on numerous occasions. In addition to the required annual requalifications, all BLT personnel have fired their T/O weapons. The goal of having each individual throw at least one hand grenade will be reached by the end of January 1966. The artillery battery has had four live fire exercises and has expended 1345 rounds. The Ontos Platoon and the 106mm Recoiless Rifle Platoon have fired a total of 614 rounds. The 81mm Mortar Platoon has fired over 2500 rounds in addition to 219 illumination rounds fired in a night close air support role with VMF(AW)-232 at Kahoolawe Island.

(9) The Tactical Air Control Party and the Naval Gunfire Shorefire Control Party have participated in several Fire Exercises on Kahoolawe during this reporting period.

(10) During the reporting period, the BLT has conducted a CPX, a BLT FEX and participated in Brigade Exercise "Helping Hand".

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

(11) NBC training was accomplished during the period. The BLT conducted a Monitor/Survey Decontamination School during the period 4-9 November 1965. Fifty-eight enlisted personnel attended this class. One Marine from the BLT attended CBR School at Schofield Barracks during the period 9-27 August 1965. Three personnel from the BLT attended a CBR Survey Course at Schofield Barracks during the period 12-17 December 1965. Forty-three Marines from the BLT attended a Radiological Operations course conducted by the University of Hawaii during the period 13-22 December 1965. A gas chamber exercise was conducted by the BLT during the period 9-14 August 1965.

(12) The following is a list of the formal schools attended by BLT 1/5 personnel during the period covered.

(a) Enlisted Schools

<u>NO PERSONNEL</u>	<u>SUBJECT</u>	<u>LOCATION</u>	<u>DATES</u>

1	Embarkation School	LFTU, Coronado	Jun-Jul65

(13) The BLT conducted three parades and one field meet during the period. In addition to the Marine Corps Birthday Parade and Pageant, a promotion parade at which 338 Marines received their warrants and a BLT NCO Parade honoring the departing BLT Sergeant Major were conducted. In addition, a BLT field meet was held that included nine contests and concluded with a boxing smoker.

(14) The BLT held a practice recall on 11 October and a practice mountout (Sea) on 12 October 1965.

(15) Other BLT supervised schools included a BLT Generator School conducted by the Shore Party Platoon, a Tractor School introducing the TD-15 which replaced the TD-18 Tractor, a Driver Qualification School on the M422 ½ ton vehicle, a Communications School and an Administrative School.

e. Logistics. The logistical support provided during the period covered, in other than the movement phase, was routine except for the following points:

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

(1) A complete inventory was performed upon arrival of all equipment at KMCAS. To accomplish this task, a BLT inventory board was convened to evaluate the accuracy of the accounting records as compared to the equipment on hand, and to correct any discrepancies.

(2) In the transition of an infantry battalion to a BLT, there is no provision for an increase in supply personnel. Since the detachment from 1st Service Battalion was sent TAD to Pearl City as part of the Service Company of the First Marine Brigade handling the Fleet Stock Account, the BLT Supply Section expanded from 1 officer and 18 enlisted to 1 officer and 23 enlisted.

(3) During the reporting period, the BLT Supply Section processed some 7000 requisitions, 60% of which pertained to the attached units.

(4) Other significant figures in supply records are the increase in the number of NAVMC 708 cards in the informal account (under \$25) from 1800 to 3950 and in the formal account (over \$25) from 375 to 552 cards.

(5) This organization implemented the Fleet Marine Force, Pacific factor-deck program which is concerned with mountout repair parts from 1st through 4th echelon. This process began in late November in BLT 1/5.

(6) In financial matters, another innovation utilized by the BLT was a Financial Management Board at the BLT level. This board provided maintenance officers with a voice in areas of initial budgeting and allocation of funds.

(7) The combined motor transport sections from H&S Company and the 1st Motor Transport Battalion attachment logged approximately 150,000 miles during the reporting period.

f. Community Relations

(1) In addition to the firepower demonstrations conducted for civilian and military guests during the reporting period, the BLT promoted community relations on other occasions. Two examples were:

(a) In November, during the period of heavy rain, the BLT positioned a number of M35 trucks in the town of Waimanalo and Kaneohe to aid in the evacuation of flood victims. Fortunately, flood conditions did not prevail. However, local officials were appreciative of the helping hand of the USMC from KMCAS.

ENCLOSURE (1) to 1stMarBrig
ltr Ser: 008-66

(b) In December, Company C, Reinforced, participated in a Christmas Parade sponsored by the Chamber of Commerce in Kaneohe, Oahu, Hawaii.

(2) Static displays were also presented for Boy Scout groups, the Mokapu School teachers, county fairs and other occasions.

Ref: (a) LFM-4

Time Zone: Local Time in Area of Operation

1. GENERAL

a. This landing plan provides for the surface landing of all elements of the BLT over a designated beach.

b. For detailed instructions, see applicable appendixes.

2. CONTROL MEASURES. The TACLOG group will be organized and function in accordance with reference (a).

3. PRE-H-HOUR TRANSFER SCHEDULE. The following transfers will be effected prior to H-Hour.

SERIAL	PERS	VEHICLE & EQUIPMENT	FROM	TO	UNIT	REMARKS
	2	Normal Combat	LPH	PCS	TACLOG	
130	205	Normal Combat	APA	LSD	Co D (Rein)	To be landed by LVT

Ref: (a) Maps: to be issued
 (b) NWIP 22-7A
 (c) FMFM 7-4
 (d) 1stMarDivO P3000.1C
 (e) BLTO 3000.2

Time Zone: Local Time in Area of Operation

Task Organization: See Annex A (Task Organization)

1. SITUATION

a. Enemy Forces

- (1) See Annex B (Intelligence). (To be issued).
- (2) See current ISUMS.

b. Friendly Forces

- (1) Appendix 1 (Artillery).
- (2) Appendix 2 (Naval Gunfire).
- (3) Appendix 3 (Air Support).

2. MISSION. BLT 1/5 embarks on assigned shipping as a contingency force, prepared to execute any one of a number of contingency plans.

3. EXECUTION

a. Concept

- (1) Fire Support Coordination afloat will be coordinated and controlled by the SACC. Landing beaches and landing zones will not be prepared unless required. If required, CAS and NGF missions will be controlled by TAC(A) or airborne spotter. All fire missions must be coordinated with SACC.
- (2) Fire Support Coordination ashore will be in accordance with references (b), (c), (d), and (e). As control facilities are established ashore, the FSCC will coordinate all fires on surface targets. All fire missions will be observed and will be under positive control of a spotter or observer.

DECLASSIFIED

UNCLASSIFIED

DECLASSIFIED

b. Fire Support Coordinator. As control facilities are established ashore, coordinate fires delivered in close support of operations conducted.

4. TARGET INFORMATION

a. Target List

- (1) Initial target lists will be maintained by the Task Group Commander. Target information will be published as required.
- (2) Current target list and information will be maintained by BLT FSCC in accordance with reference (e).
- (3) Changes to target information will be published and promulgated as required.

b. Concentration Designation System

- (1) The concentration designator for artillery and mortars will be made up of one letter followed by three numbers. The letter will signify the weapon.
 - (a) A - 107mm Howtar; B - 105mm Howitzer; C - 81mm Mortar.
 - (b) The three numbers will signify the concentration number.

Block numbers are assigned as follows:

<u>Firing Unit</u>	<u>Number Block</u>
107mm Howtar Btry	100-299
105mm Howitzer Btry	300-599
81mm Mortar Platoon	600-899

(In the event a section of mortars is attached, a sub-allocation of mortar numbers will be made to that section.

Examples: B302 - 105mm Howitzer, third concentration.

- (2) Naval Gunfire will use prefix "N" followed by two numbers.

c. Restricted Targets

(1) Class E Targets

Religious buildings	Public utilities	Bridges
National Shrines	Population Centers	Tunnels
Museums	Railroads	Medical Facilities
Hospitals	Highways	

UNCLASSIFIED

DECLASSIFIED

U

DECLASSIFIED

- (2) Destruction of Class E targets is prohibited except on approval of this Headquarters, or where failure to destroy would seriously jeopardize the mission of the BLT prior to the receipt of approval.
- (2) Class E targets destroyed will be reported immediately to this Headquarters.

5. AIRCRAFT SAFETY

a. Air Sentries and Lookouts

- (1) Sentries will be positioned at artillery/mortar firing positions and will cause the firing units to cease firing when friendly aircraft are observed approaching danger areas.
- (2) Artillery/mortar forward observers and naval gunfire spotters will cease fire when it appears that the trajectories of artillery and support ships will endanger friendly aircraft.

b. Restrictive Fire Plan

- (1) A restrictive fire plan will be employed when required. These plans will be numbered to provide a simple means of referencing a particular plan. Under these plans, all surface fires are prohibited between prescribed maximum and minimum altitudes within a specific rectangular area, or series of areas, during a stated time interval. The centerline of this area will be specified by two or more points along the axis of movement. The width of the area is specified by the distance either side of the centerline.
- (2) Echelons requesting an air support mission will recommend the restrictive plan, if it is required. Higher echelons will not impose a restrictive fire plan contrary to the recommendation of the requesting unit unless the need is clearly indicated. Recommendations and orders for a restrictive fire plan will state the coordinates of the points delineating the centerline, the distance either side of the centerline, the maximum and minimum altitudes, and the time period.

Example: "PLAN ONE X 657289 to 647486 X 200 meters X 1000 to 10,000 feet X 031035I to 031400I X"

c. Helicopter Safety

- (1) The Battalion ALO will keep the Fire Support Coordinator informed of the time and location of all scheduled and on-call helicopter flights into the combat areas.

E-3

UNCLASSIFIED

DECLASSIFIED

UNCLASSIFIED

- (2) Unless special coordination procedures are prescribed or required, fires on helicopter routes in use are restricted to observed fires where the observer is capable of ensuring the safety of the helicopter using the route.

6. SAFETY OF GROUND FORCES

- a. No Fire Line. Initial fire lines will be established by CA TF as required. Changes to the initial no fire line, after approval, will be promulgated by FSCC.
- b. Bomblines. Initial bomblines will be established by CA TF as required. Changes to the initial bomblines, after approval, will be promulgated by FSCC.
- c. Creeping Fires. Creeping fires will be utilized on all fire missions in close proximity to friendly personnel. Determination as to what constitutes "close proximity" is the responsibility of the infantry unit commander.
- d. Sight and Charge Check. Battery Commanders and 81mm Mortar Commander will ensure that section chiefs verify elevation, deflection, charges, and sight-picture on all fire missions.

7. COMMAND AND COMMUNICATION-ELECTRONICS

- a. See Annex D (Communication-Electronics).
- b. Command Posts
 - (1) Afloat
 - (a) CTG 76 LPH-5
 - (b) BLT 1/5 LPH-5
 - (2) Ashore
 - (a) To be announced.
 - (b) Subordinate units submit locations when established.

Appendix 2 (Naval Gunfire) to Annex E (Fire Support Coordination) to
 Operation Plan 201A-66, 201B-66 and 201C-66

Ref: (a) FMFM 7-2

Time Zone: Local Time in Area of Operation

1. SITUATION

a. Enemy Forces

- (1) Target list (to be issued).
- (2) See Annex B (Intelligence). (To be issued).
- (3) See current ISUMS.

b. Friendly Forces

- (1) Fire Support Unit to be designated.
- (2) See reference (b) to Operation Plan 201A-66.
- (3) See Appendix 1 (Artillery).
- (4) See Appendix 3 (Air Support).

2. MISSION. Fire Support Unit supports the landing and operations ashore
 of BLT 1/5 with naval gunfire.

3. EXECUTION

a. Ship assignment. To be announced.

b. Coordinating Instructions

- (1) Fire support areas, stations, boundaries, and zones of responsibility of fire support ships are as outlined in Tab A (NGF Support Operation Overlay).
- (2) Priority of Fires
 - (a) Defense of ship against counter-battery or air attack takes precedence over all other fires.

DECLASSIFIED

E-2-1

DECLASSIFIED

- (b) Call fires take precedence over scheduled fires unless otherwise directed by FSCC or SACC.
- (3) All fire missions will be observed and under positive control of the NGF spotter or TAC.
- (4) Coordination of NGF support with other supporting arms as contained in Annex E (Fire Support Coordination).
- (5) Safety Measures
 - (a) Rounds will not be fired closer to friendly elements than the limits prescribed in reference (a).
 - (b) VT fuzes will be employed only when line of fire does not pass over friendly troops of landing craft or in the vicinity of friendly aircraft. If the tactical situation requires the use of VT fuzed projectiles, approval of highest agency exercising fire support coordination must be obtained.
 - (c) Restrictive fire plans in accordance with Annex E (Fire Support Coordination).
- (6) All illumination missions will be approved and coordinated by FSC.
- (7) Smoke employed only on request of supported unit.
- (8) Standard salvos for call fires will be announced.
- (9) Target list to be published and promulgated as set forth in Annex E (Fire Support Coordination).

4. ADMINISTRATION AND LOGISTICS

- a. Initial ammunition allocation to be published.
- b. Details of ammunition replenishment to be published.

5. COMMAND AND COMMUNICATIONS-ELECTRONICS

- a. See Annex D (Communications-Electronics.)
- b. See Tab B (Call Signs and Frequency Plan).

Time Zone: Local Time in Area of Operation

1. SITUATION

a. Enemy Forces

- (1) Target List (to be issued).
- (2) See Annex B (Intelligence). (To be issued).
- (3) See current ISUMS.

b. Friendly Forces

- (1) See reference (b) to Operation Plan 201A-66.
- (2) Task Group Commander controls all air operations in amphibious objective areas.
- (3) Helicopter support will be provided by designated HMM.

2. PROCEDURES

a. Bomblines

- (1) Bomblines will be established as set forth in Annex E (Fire Support Coordination).
- (2) Air strikes within the bomblines must be requested or approved by the senior troop commander concerned and must be under positive control of FAC or TAC(A).

b. Coordination of Supporting Fires. See Annex E (Fire Support Coordination).

c. Aircraft Schedule. See Tab A (Aircraft Schedule).

d. Aerial Reconnaissance. See Tab A (Aircraft Schedule).

e. Armament. See Tab B (Aircraft Armament).

DECLASSIFIED

~~CONFIDENTIAL~~

DECLASSIFIED

f. On-Call and Emergency Air Support Requests

- (1) Submit on-call close air support requests in accordance with reference (a), using standard mission request forms. In the event use of the form is impractical, the following minimum information will be provided.

Description of Target.
Location of target by grid coordinates.
Marking instructions.

- (2) Submit on-call and emergency helicopter request via the TAR or Battalion TAC net. Requesting units will submit the following information.

Location of site by grid coordinates.
Number of personnel to be lifted/type lift.
Authentication signal, if requested.
Destination.
Requirements for special equipment.

g. Alert Status of On-Call Support Aircraft. To be announced.

- h. UTM Grid System. All reference to locations of air support targets will employ UTM grid system. At least two letters and six digits will be employed.

i. Troop Safety

- (1) Aircraft engaged in close support missions will make their runs parallel to friendly front lines unless otherwise specified.
- (2) Display panels marking front lines in accordance with Annex D (Communications-Electronics) prior to calling in Air strikes.

- j. Marking Targets. Mark targets for air strikes with white phosphorus (day or night) or smoke (day only) if possible.

k. Helicopter Employment. Helicopters available for evacuation only.

2. MISSION

- a. Provide communication and electronics support for the BLT in assault landing(s) and subsequent operations ashore.

3. EXECUTION

a. Communication Platoon, BLT 1/5

- (1) Be prepared to provide communications to BLT Civil Affairs Officer.
- (2) Be prepared to augment organic and attached units with FM radio equipment.
- (3) Provide one wireman and one field radio operator to each rifle company.
- (4) Be prepared, on order, to provide one radio set AN/PRC-47, three batteries BB-451 and three radio operators 2531/2533 to each rifle company.
- (5) Be prepared to provide the following equipment and personnel for operation of the BLT TACLOG.
 - (a) Two radio sets - AN/PRC-10
 - (b) Four radio operators - 2531
- (6) Provide message center service for BLT elements embarked on the LPH.

- b. Air Support Communications. See Appendix 1 (Radio Plan). (To be issued).

c. Shore Party Communications.

- (1) Be prepared to activate beach support and/or helicopter support nets as directed.
- (2) See Appendix 1 (Radio Plan).

DECLASSIFIED

DECLASSIFIED

d. Coordinating Instructions

(1) References (b) through (e).

(2) Messenger Service

(a) Runner messenger will be established ashore in accordance with reference (e).

(b) Helicopter messenger between BLT Command Post ashore and the LPH will be announced.

(3) Cryptographic. See Appendix 2. (Cryptographic).(4) Radio

(a) Call signs and frequencies. Appendix 1 (Radio Plan).

(b) Commence guarding assigned radio nets at H-4 on D-Day.

(c) Attached units will enter the BLT TAC net when other means of communication with this Headquarters fails or are not activated.

(e) Radio checks and test counts will be conducted only when absolutely necessary.

(f) All stations will tune to net control stations.

(g) Used dry cell batteries will be completely destroyed and buried.

(h) Batteries, BB-451, will be replaced as indicated necessary by weak transmission or after eight hours of operation.

(i) Immediately report to this Headquarters by other means, known or suspected enemy interference, imitative deception, or jamming.

(j) Authentication is mandatory in the following situations.

1 Imposing or lifting of radio silence.2 Activation or deactivation of any radio net.3 When entering or leaving radio net.4 When challenged.

(k) The proword "I SPELL", will be used only when doubt exist as to the clarity of pronunciation of the word.

(l) Local time zone to be used on all messages transmitted within the BLT.

DECLASSIFIED

DECLASSIFIED

(5) Wire

- (a) Telephone directory and switchboard names in accordance with Appendix 3 (Wire and Radio Relay).
- (b) All wire lines will be installed on the South and East of roadways and trails.
- (c) All possible wire lines will be retrieved when departing a position or when leaving the objective area.
- (d) All wire lines crossing roads and trails will be constructed as follows:
 - 1 Overhead primary roads 18 feet.
 - 2 Overhead secondary roads 14 feet.
 - 3 Buried - 18 inches.
- (e) Whenever it becomes necessary for wiremen to leave a rifle company or BLT command post to install or trouble shoot wire lines, they will be accompanied by at least one fire team.
- (f) There will be no trouble shooting of wire lines, external of the BLT CP, after dusk.
- (g) Radio relay channelization in accordance with Appendix 3 (Wire and Radio Relay).

(6) Visual and Sound

- (a) Pyrotechnics. See Appendix 4 (Visual and Sound).
- (b) Visual. See Appendix 4 (Visual and Sound).
- (c) Front line positions and vehicles will be marked with panel set V5-4 and/or V5-6 in accordance with Appendix 4 (Visual and Sound).

4. ADMINISTRATION AND LOGISTICS

- a. See Administrative Plan 201-66.
- b. All units will carry an initial 24 hours of dry cell batteries ashore. Replenishment to be on a daily requested basis, to be coordinated with ammunition and ration replenishment.
- c. Battery charging facilities will be maintained aboard the LPH. Request for resupply of battery BB-451 must be received by this Headquarters at least six hours prior to anticipated requirement. Replenishment will be on a one for one basis. All radios, utilizing battery BB-451, when assigned, will be provided with three BB-451 batteries.

DECLASSIFIED

DECLASSIFIED

- d. Second echelon maintenance capability is available at the BLT Command Post aboard the LPH and, when announced, ashore in the objective area.
- e. Any item of communication equipment that fails must be evacuated immediately to the BLT command post. The equipment must also be tagged, indicating the type of trouble.
- f. Limited replacement float of communication equipment is available at the BLT Command Post aboard the LPH and, when announced, ashore in the objective area.
- g. Communication equipment will have all preventive maintenance accomplished no less than once a week during period of non-operation and daily during operation maintenance procedures will be in accordance with current technical publications and NAVMC form 10559.

Operation Plan 201B-66

Ref: (a) Maps: To be issued
 (b) BLTO 3000.2

Time Zone: Local Time in Area of Operation

Task Organization: See Annex A (Task Organization)

1. SITUATION

a. Enemy Forces

(1) See Annex B (Intelligence).

(2) See current ISUMS.

b. Friendly Forces. To be announced.

c. Attachments and Detachments. See Annex A (Task Organization).

d. Assumption. That BLT 1/5 will land by combined surface/helicopter means.

2. MISSION. BLT 1/5 will land by combined surface/helicopter means in support of a designated contingency plan.

3. EXECUTION

a. Concept of Operation

(1) Two reinforced rifle companies, and selected BLT combat and combat service support elements, at H-Hour on D-Day, land over designated beach via LVT's and landing craft, and execute the scheme of maneuver set forth in Annex C (Operations Overlay).

(2) Two reinforced rifle companies, 107mm Howtar Battery, and selected BLT combat support elements, at L-Hour on D-Day land by helicopter in designated landing zones, and execute the scheme of maneuver set forth in Annex C (Operations Overlay).

CONFIDENTIAL

CONFIDENTIAL

- b. Company D (Rein)
 - (1) Commencing H-Hour on D-Day, land by LVT in accordance with Annex D (Landing Plan) and implement scheme of maneuver set forth in Annex C (Operation Overlay).
- c. Company A (Rein)
 - (1) Commencing L-Hour on D-Day, land by helicopter in accordance with Annex D (Landing Plan) and implement scheme of maneuver set forth in Annex C (Operations Overlay).
- d. 1st Plat, Co B, 1st Recon Bn
 - (1) Be prepared, commencing on D-1, to execute clandestine landing(s) utilizing submarine, surface or helicopter means, and accomplish assigned task.
 - (2) Be prepared, on order, to execute such reconnaissance and surveillance missions as may be directed.
- e. Plat (-)(Rein), 1st Force Recon Co
 - (1) Be prepared, commencing on D-1, to execute clandestine landing(s) utilizing air, submarine, surface, or helicopter means, and accomplish assigned task.
 - (2) Be prepared, on order, to execute such reconnaissance and surveillance missions as may be directed.
- f. 81mm Mortar Plat (-)
 - (1) Land by surface means in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operations Overlay).
 - (2) General support.
- h. 107mm Howtar Btry (-)(Rein), 2nd Bn, 11th Mar
 - (1) Land by helicopter in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operations Overlay).
 - (2) General support.
- i. 1st Plat (Rein), Co B, 1st AT Bn
 - (1) Land by surface means in accordance with Annex D (Landing Plan) and move to assembly area as prescribed in Annex C (Operations Overlay).

CONFIDENTIAL

CONFIDENTIAL

(2) Be prepared, on order, to accomplish assigned missions.

j. AmTrac Plat (-)(Rein), H&S Co, 3d AmTrac Bn

(1) Land Company D (Rein) in accordance with Annex D (Landing Plan).

(2) After landing Company D (Rein), move to assembly area as prescribed in Annex C (Operations Overlay), and be prepared on order, to accomplish other missions assigned.

k. BLT Reserve

(1) Co B (Rein)

(a) Initially BLT Reserve.

(b) On order, land over designated beach in accordance with Annex D (Landing Plan) and move to assembly area as prescribed in Annex C (Operations Overlay).

(c) Be prepared to assume mission(s) assigned Company D (Rein).

(d) Be prepared, on order, to board LPH-5 and land in designated landing zone by helicopter and execute such missions as may be assigned.

(2) Company C (Rein)

(a) Initially BLT Reserve.

(b) On order, land in designated landing zone in accordance with Annex D (Landing Plan) and move to assembly area as prescribed in Annex C (Operations Overlay).

(c) Be prepared to assume mission(s) assigned Company A (Rein).

(d) Be prepared, on order, to land over designated beach by landing craft, and execute such missions as may be assigned.

l. Coordinating Instructions

(1) H-Hour, D-Day and beach(s) to be announced.

(2) L-Hour and landing zone(s) to be announced.

(3) Acts of actual or suspected espionage, sabotage, or subversion will be reported to this Headquarters.

CONFIDENTIAL

CONFIDENTIAL

- (4) Maps required for operational purposes will be provided, as required, prior to arrival in area of operation.

Annex D (Landing Plan) to Operation Plan 201B-66

Ref: (a) NWIP 22-6A

Time Zone: Local Time in Area of Operation

1. GENERAL

a. This plan provides for the combined surface/helicopter landing(s), and selected BLT combat support and combat service support elements over a designated beach and designated landing zone.

b. For detailed instructions, see applicable appendixes.

2. CONTROL MEASURES. The TACLOG group will be organized and function in accordance with reference (a).

3. PRE-H-HOUR TRANSFER SCHEDULE. The following transfers will be effected prior to H-Hour:

SERIAL	PERS	VEHICLE & EQUIPMENT	FROM	TO	UNIT	REMARKS
003	41	Normal Cbt	APA	LPH LSD	Shore Pty	To be landed by LCU.
004	32	Normal Cbt	APA	LSD	Beach Masters	To be landed by LCU.
130	205	Normal Cbt	APA	LSD	CoD(Rein)	To be landed by LVT
	2	Normal Cbt	LPH	PCS	TACLOG	

BY COMMAND OF LIEUTENANT COLONEL COFFMAN

E. H. HOLTHUS
 Major, U. S. Marine Corps
 Executive Officer

Annex E (Fire Support Coordination) to Operation Plan 201A-66, 201B-66 and 201C-66

Ref: (a) Maps: to be issued
 (b) NWIP 22-7A
 (c) FMFM 7-4
 (d) 1stMarDivO P3000.1C
 (e) BLTO 3000.2

Time Zone: Local Time in Area of Operation

Task Organization: See Annex A (Task Organization)

1. SITUATION

a. Enemy Forces

- (1) See Annex B (Intelligence). (To be issued).
- (2) See current ISUMS.

b. Friendly Forces

- (1) Appendix 1 (Artillery).
- (2) Appendix 2 (Naval Gunfire).
- (3) Appendix 3 (Air Support).

2. MISSION. BLT 1/5 embarks on assigned shipping as a contingency force, prepared to execute any one of a number of contingency plans.

3. EXECUTION

a. Concept

- (1) Fire Support Coordination afloat will be coordinated and controlled by the SACC. Landing beaches and landing zones will not be prepared unless required. If required, CAS and NGF missions will be controlled by TAC(A) or airborne spotter. All fire missions must be coordinated with SACC.
- (2) Fire Support Coordination ashore will be in accordance with references (b), (c), (d), and (e). As control facilities are established ashore, the FSCC will coordinate all fires on surface targets. All fire missions will be observed and will be under positive control of a spotter or observer.

CONFIDENTIAL

CONFIDENTIAL

- b. Fire Support Coordinator. As control facilities are established ashore, coordinate fires delivered in close support of operations conducted.

4. TARGET INFORMATION

a. Target List

- (1) Initial target lists will be maintained by the Task Group Commander. Target information will be published as required.
- (2) Current target list and information will be maintained by BLT FSCC in accordance with reference (e).
- (3) Changes to target information will be published and promulgated as required.

b. Concentration Designation System

- (1) The concentration designator for artillery and mortars will be made up of one letter followed by three numbers. The letter will signify the weapon.
 - (a) A - 107mm Howtar; B - 105mm Howitzer; C - 81mm Mortar.
 - (b) The three numbers will signify the concentration number.

Block numbers are assigned as follows:

<u>Firing Unit</u>	<u>Number Block</u>
107mm Howtar Btry	100-299
105mm Howitzer Btry	300-599
81mm Mortar Platoon	600-899

(In the event a section of mortars is attached, a sub-allocation of mortar numbers will be made to that section.

Examples: B302 - 105mm Howitzer, third concentration.

- (2) Naval Gunfire will use prefix "N" followed by two numbers.

c. Restricted Targets

(1) Class E Targets

Religious buildings	Public utilities	Bridges
National Shrines	Population Centers	Tunnels
Museums	Railroads	Medical Facilities
Hospitals	Highways	

CONFIDENTIAL

CONFIDENTIAL

- (2) Destruction of Class E targets is prohibited except on approval of this Headquarters, or where failure to destroy would seriously jeopardize the mission of the BLT prior to the receipt of approval.
- (2) Class E targets destroyed will be reported immediately to this Headquarters.

5. AIRCRAFT SAFETY

a. Air Sentries and Lookouts

- (1) Sentries will be positioned at artillery/mortar firing positions and will cause the firing units to cease firing when friendly aircraft are observed approaching danger areas.
- (2) Artillery/mortar forward observers and naval gunfire spotters will cease fire when it appears that the trajectories of artillery and support ships will endanger friendly aircraft.

b. Restrictive Fire Plan

- (1) A restrictive fire plan will be employed when required. These plans will be numbered to provide a simple means of referencing a particular plan. Under these plans, all surface fires are prohibited between prescribed maximum and minimum altitudes within a specific rectangular area, or series of areas, during a stated time interval. The centerline of this area will be specified by two or more points along the axis of movement. The width of the area is specified by the distance either side of the centerline.
- (2) Echelons requesting an air support mission will recommend the restrictive plan, if it is required. Higher echelons will not impose a restrictive fire plan contrary to the recommendation of the requesting unit unless the need is clearly indicated. Recommendations and orders for a restrictive fire plan will state the coordinates of the points delineating the centerline, the distance either side of the centerline, the maximum and minimum altitudes, and the time period.

Example: "PLAN ONE X 657289 to 647486 X 200 meters X
1000 to 10,000 feet X 031035I to 031400I X"

c. Helicopter Safety

- (1) The Battalion ALO will keep the Fire Support Coordinator informed of the time and location of all scheduled and on-call helicopter flights into the combat areas.

CONFIDENTIAL

CONFIDENTIAL

- (2) Unless special coordination procedures are prescribed or required, fires on helicopter routes in use are restricted to observed fires where the observer is capable of ensuring the safety of the helicopter using the route.

6. SAFETY OF GROUND FORCES

- a. No Fire Line. Initial fire lines will be established by CA TF as required. Changes to the initial no fire line, after approval, will be promulgated by FSCC.
- b. Bomblines. Initial bomblines will be established by CA TF as required. Changes to the initial bomblines, after approval, will be promulgated by FSCC.
- c. Creeping Fires. Creeping fires will be utilized on all fire missions in close proximity to friendly personnel. Determination as to what constitutes "close proximity" is the responsibility of the infantry unit commander.
- d. Sight and Charge Check. Battery Commanders and 81mm Mortar Commander will ensure that section chiefs verify elevation, deflection, charges, and sight-picture on all fire missions.

7. COMMAND AND COMMUNICATION-ELECTRONICS

- a. See Annex D (Communication-Electronics).
- b. Command Posts
- (1) Afloat
- (a) CTG 76 LPH-5
- (b) BLT 1/5 LPH-5
- (2) Ashore
- (a) To be announced.
- (b) Subordinate units submit locations when established.

Appendix 1 (Artillery) to Annex E (Fire Support Coordination) to
 Operation Plan 201A-66, 201B-66 and 201C-66

Ref: None

Time Zone: Local Time in Area of Operation

1. SITUATION

a. Enemy Forces

- (1) Target List (to be issued).
- (2) See Annex B (Intelligence). (To be issued).
- (3) See current ISUMS.

b. Friendly Forces

- (1) See Annex A (Task Organization).
- (2) See Appendix 2 (Naval Gunfire).
- (3) See Appendix 3 (Air Support).

2. MISSION. Battery D (-) (Rein), 2nd Battalion, 11th Marines and 107mm Howtar Battery, 2nd Battalion, 11th Marines land by surface means, occupy firing positions to be designated, and provide fire support for BLT 1/5.

3. EXECUTION

a. Concept of Artillery Employment

- (1) Battery D (-) (Rein), 2nd Battalion, 11th Marines, will, after landing by landing craft over designated beach, support BLT 1/5 by providing direct support conventional fires.
- (2) 107mm Howtar Battery, 2nd Battalion, 11th Marines will, after landing by landing craft, provide direct support conventional fires to BLT 1/5.

b. Battery D (-) (Rein), 2nd Battalion, 11th Marines

- (1) Land in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operation Overlay).
- (2) General support.

CONFIDENTIAL

CONFIDENTIAL

c. 107mm Howtar Battery, 2nd Battalion, 11th Marines

- (1) Land in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operations Overlay).
- (2) General support.

d. Coordinating Instructions

- (1) Firing Chart. Grid sheet 1:25,000.
- (2) Survey. To be provided by Survey Party, Hq Btry, 2nd Bn, 11th Mar as required.
- (3) Counterbattery/Coutermortar. Policy semi-active.
- (4) Concentration Numbers. See Annex E (Fire Support Coordination).
- (5) Meteorological Data. To be promulgated as available.
- (6) No Fire Lines. See Annex E (Fire Support Coordination).
- (7) Restrictions on Fires. See Annex E (Fire Support Coordination).
- (8) Ammunition Restrictions. Units will not expend more than 80 percent of available supply rate without approval of BLT Commander.
- (9) Target Information. See Annex E (Fire Support Coordination).

4. ADMINISTRATION AND LOGISTICS

- a. See Administrative Plan 201-66
- b. Available Supply Rate (Rds/Wpn/Day)

105mm How	80
107mm Howtar.	81

5. COMMAND AND COMMUNICATIONS-ELECTRONICS

- a. See Annex D (Communications-Electronics).

Appendix 2 (Naval Gunfire) to Annex E (Fire Support Coordination) to
Operation Plan 201A-66, 201B-66 and 201C-66

Ref: (a) FMFM 7-2

Time Zone: Local Time in Area of Operation

1. SITUATION

a. Enemy Forces

- (1) Target list (to be issued).
- (2) See Annex B (Intelligence). (To be issued).
- (3) See current ISUMS.

b. Friendly Forces

- (1) Fire Support Unit to be designated.
- (2) See reference (b) to Operation Plan 201A-66.
- (3) See Appendix 1 (Artillery).
- (4) See Appendix 3 (Air Support).

2. MISSION. Fire Support Unit supports the landing and operations ashore
of BLT 1/5 with naval gunfire.

3. EXECUTION

a. Ship assignment. To be announced.

b. Coordinating Instructions

(1) Fire support areas, stations, boundaries, and zones of responsibility of fire support ships are as outlined in Tab A (NGF Support Operation Overlay).

(2) Priority of Fires

- (a) Defense of ship against counter-battery or air attack takes precedence over all other fires.

E-2-1

CONFIDENTIAL

CONFIDENTIAL

- (b) Call fires take precedence over scheduled fires unless otherwise directed by FSCC or SACC.
- (3) All fire missions will be observed and under positive control of the NGF spotter or TAC.
- (4) Coordination of NGF support with other supporting arms as contained in Annex E (Fire Support Coordination).
- (5) Safety Measures
 - (a) Rounds will not be fired closer to friendly elements than the limits prescribed in reference (a).
 - (b) VT fuzes will be employed only when line of fire does not pass over friendly troops of landing craft or in the vicinity of friendly aircraft. If the tactical situation requires the use of VT fuzed projectiles, approval of highest agency exercising fire support coordination must be obtained.
 - (c) Restrictive fire plans in accordance with Annex E (Fire Support Coordination).
- (6) All illumination missions will be approved and coordinated by FSC.
- (7) Smoke employed only on request of supported unit.
- (8) Standard salvos for call fires will be announced.
- (9) Target list to be published and promulgated as set forth in Annex E (Fire Support Coordination).

4. ADMINISTRATION AND LOGISTICS

- a. Initial ammunition allocation to be published.
- b. Details of ammunition replenishment to be published.

5. COMMAND AND COMMUNICATIONS-ELECTRONICS

- a. See Annex D (Communications-Electronics.)
- b. See Tab B (Call Signs and Frequency Plan).

Time Zone: Local Time in Area of Operation

1. SITUATION

a. Enemy Forces

- (1) Target List (to be issued).
- (2) See Annex B (Intelligence). (To be issued).
- (3) See current ISUMS.

b. Friendly Forces

- (1) See reference (b) to Operation Plan 201A-66.
- (2) Task Group Commander controls all air operations in amphibious objective areas.
- (3) Helicopter support will be provided by designated HMM.

2. PROCEDURES

a. Bomblines

- (1) Bomblines will be established as set forth in Annex E (Fire Support Coordination).
- (2) Air strikes within the bomblines must be requested or approved by the senior troop commander concerned and must be under positive control of FAC or TAC(A).

b. Coordination of Supporting Fires. See Annex E (Fire Support Coordination).

c. Aircraft Schedule. See Tab A (Aircraft Schedule).

d. Aerial Reconnaissance. See Tab A (Aircraft Schedule).

e. Aircraft Armament. See Tab B (Aircraft Armament).

CONFIDENTIAL

CONFIDENTIAL

f. On-Call and Emergency Air Support Requests

- (1) Submit on-call close air support requests in accordance with reference (a), using standard mission request forms. In the event use of the form is impractical, the following minimum information will be provided.

Description of Target.

Location of target by grid coordinates.

Marking instructions.

- (2) Submit on-call and emergency helicopter request via the TAR or Battalion TAC net. Requesting units will submit the following information.

Location of site by grid coordinates.

Number of personnel to be lifted/type lift.

Authentication signal, if requested.

Destination.

Requirements for special equipment.

g. Alert Status of On-Call Support Aircraft. To be announced.h. UTM Grid System. All reference to locations of air support targets will employ UTM grid system. At least two letters and six digits will be employed.i. Troop Safety

- (1) Aircraft engaged in close support missions will make their runs parallel to friendly front lines unless otherwise specified.
- (2) Display panels marking front lines in accordance with Annex D (Communications-Electronics) prior to calling in Air strikes.

j. Marking Targets. Mark targets for air strikes with white phosphorus (day or night) or smoke (day only) if possible.k. Helicopter Employment. Helicopters available for evacuation only.

2. MISSION

- a. Provide communication and electronics support for the BLT in assault landing(s) and subsequent operations ashore.

3. EXECUTIONa. Communication Platoon, BLT 1/5

- (1) Be prepared to provide communications to BLT Civil Affairs Officer.
- (2) Be prepared to augment organic and attached units with FM radio equipment.
- (3) Provide one wireman and one field radio operator to each rifle company.
- (4) Be prepared, on order, to provide one radio set AN/PRC-47, three batteries BB-451 and three radio operators 2531/2533 to each rifle company.
- (5) Be prepared to provide the following equipment and personnel for operation of the BLT TACLOG.
 - (a) Two radio sets - AN/PRC-10
 - (b) Four radio operators - 2531
- (6) Provide message center service for BLT elements embarked on the LPH.

- b. Air Support Communications. See Appendix 1 (Radio Plan). (To be issued).

c. Shore Party Communications.

- (1) Be prepared to activate beach support and/or helicopter support nets as directed.
- (2) See Appendix 1 (Radio Plan).

UNCLASSIFIED

CONFIDENTIAL

d. Coordinating Instructions

(1) References (b) through (e).

(2) Messenger Service

(a) Runner messenger will be established ashore in accordance with reference (e).

(b) Helicopter messenger between BLT Command Post ashore and the LPH will be announced.

(3) Cryptographic. See Appendix 2. (Cryptographic).(4) Radio

(a) Call signs and frequencies. Appendix 1 (Radio Plan).

(b) Commence guarding assigned radio nets at H-4 on D-Day.

(c) Attached units will enter the BLT TAC net when other means of communication with this Headquarters fails or are not activated.

(e) Radio checks and test counts will be conducted only when absolutely necessary.

(f) All stations will tune to net control stations.

(g) Used dry cell batteries will be completely destroyed and buried.

(h) Batteries, BB-451, will be replaced as indicated necessary by weak transmission or after eight hours of operation.

(i) Immediately report to this Headquarters by other means, known or suspected enemy interference, imitative deception, or jamming.

(j) Authentication is mandatory in the following situations.

1 Imposing or lifting of radio silence.

2 Activation or deactivation of any radio net.

3 When entering or leaving radio net.

4 When challenged.

(k) The proword "I SPELL", will be used only when doubt exist as to the clarity of pronunciation of the word.

(l) Local time zone to be used on all messages transmitted within the BLT.

CONFIDENTIAL

CONFIDENTIAL

(5) Wire

- (a) Telephone directory and switchboard names in accordance with Appendix 3 (Wire and Radio Relay).
- (b) All wire lines will be installed on the South and East of roadways and trails.
- (c) All possible wire lines will be retrieved when departing a position or when leaving the objective area.
- (d) All wire lines crossing roads and trails will be constructed as follows:
 - 1 Overhead primary roads 18 feet.
 - 2 Overhead secondary roads 14 feet.
 - 3 Buried - 18 inches.
- (e) Whenever it becomes necessary for wiremen to leave a rifle company or BLT command post to install or trouble shoot wire lines, they will be accompanied by at least one fire team.
- (f) There will be no trouble shooting of wire lines, external of the BLT CP, after dusk.
- (g) Radio relay channelization in accordance with Appendix 3 (Wire and Radio Relay).

(6) Visual and Sound

- (a) Pyrotechnics. See Appendix 4 (Visual and Sound).
- (b) Visual. See Appendix 4 (Visual and Sound).
- (c) Front line positions and vehicles will be marked with panel set V5-4 and/or V5-6 in accordance with Appendix 4 (Visual and Sound).

4. ADMINISTRATION AND LOGISTICS

- a. See Administrative Plan 201-66.
- b. All units will carry an initial 24 hours of dry cell batteries ashore. Replenishment to be on a daily requested basis, to be coordinated with ammunition and ration replenishment.
- c. Battery charging facilities will be maintained aboard the LPH. Request for resupply of battery BB-451 must be received by this Headquarters at least six hours prior to anticipated requirement. Replenishment will be on a one for one basis. All radios, utilizing battery BB-451, when assigned, will be provided with three BB-451 batteries.

CONFIDENTIAL

CONFIDENTIAL

- d. Second echelon maintenance capability is available at the BLT Command Post aboard the LPH and, when announced, ashore in the objective area.
- e. Any item of communication equipment that fails must be evacuated immediately to the BLT command post. The equipment must also be tagged, indicating the type of trouble.
- f. Limited replacement float of communication equipment is available at the BLT Command Post aboard the LPH and, when announced, ashore in the objective area.
- g. Communication equipment will have all preventive maintenance accomplished no less than once a week during period of non-operation and daily during operation maintenance procedures will be in accordance with current technical publications and NAVMC form 10559.

Operation Plan 201C-66

Ref: (a) Maps: to be issued
 (b) BLTO 3000.2

Time Zone: Local Time in Area of Operation

Task Organization. See Annex A (Task Organization).

1. SITUATION

a. Enemy Forces

- (1) See Annex B (Intelligence).
- (2) See current ISUMS.

b. Friendly Forces. To be announced.

c. Attachments and Detachments. See Annex A (Task Organization).

d. Assumption. That BLT 1/5 will land by helicopter means.

2. MISSION. BLT 1/5 will land by helicopter means in support of a designated contingency plan.

3. EXECUTION

a. Concept of Operation. Four reinforced rifle companies, 107mm Howtar Battery, and selected BLT combat support and combat service support elements, at L-Hour on D-Day, land by helicopter in designated landing zone, and execute the scheme of maneuver set forth in Annex C (Operations Overlay).

b. Company A (Rein). Commencing L-Hour on D-Day, land by helicopter in accordance with Annex D (Landing Plan) and implement scheme of maneuver set forth in Annex C (Operations Overlay).

c. Company C (Rein). Land by helicopter in accordance with Annex D (Landing Plan) and implement scheme of maneuver set forth in Annex C (Operations Overlay).

d. Company B (Rein). Land by helicopter in accordance with Annex D (Landing Plan) and implement scheme of maneuver set forth in Annex C (Operations Overlay).

CONFIDENTIAL

CONFIDENTIAL

e. 1st Plat, Co B, 1st Recon Bn

- (1) Be prepared, commencing D-1 to execute clandestine landing(s) utilizing submarine, surface of helicopter means, and accomplish assigned task.
- (2) Be prepared, on order, to execute such reconnaissance and surveillance missions as may be directed.

f. Plat (-)(Rein), 1st Force Recon Co

- (1) Be prepared, commencing D-1, to execute clandestine landing(s) utilizing air, submarine, surface, or helicopter means, and accomplish assigned task.
- (2) Be prepared, on order, to execute such reconnaissance and surveillance missions as may be directed.

g. 81mm Mortar Plat (-)

- (1) Land by helicopter in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operations Overlay).
- (2) General support.

h. 107mm Howtar Btry (-)(Rein), 2d Bn, 11th Mar

- (1) Land by helicopter in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operations Overlay).
- (2) General support.

i. BLT Reserve: Co D (Rein)

- (1) Initially BLT Reserve.
- (2) Land by helicopter in accordance with Annex D (Landing Plan) and move to assembly area as prescribed in Annex C (Operations Overlay).
- (3) Be prepared to assume mission(s) assigned Company A (Rein), Company B (Rein) or Company C (Rein), and execute such missions as may be directed.

j. Coordinating Instructions

- (1) L-Hour, D-Day, and landing zone to be announced.
- (2) Acts of actual or suspected espionage, sabotage, or subversion will be reported to this Headquarters

CONFIDENTIAL

CONFIDENTIAL

- (3) Maps required for operational purposes will be provided, as required, prior to arrival in area of operation.
 - (4) Annex E (Fire Support Coordination).
 - (5) Annex F (Withdrawal Plan).
 - (6) Annex G (Reports).
 - (7) See reference (b).
 - (8) Acknowledge receipt.
 - (9) This plan is effective for planning on receipt and for execution on order.
4. ADMINISTRATION AND LOGISTICS
- a. See Administrative Plan 201-66 and Embarkation Order 201-66.
5. COMMAND AND COMMUNICATIONS-ELECTRONICS
- a. See Annex G (Communication-Electronics).
 - b. Command Posts
 - (1) Afloat
 - (a) CTG 79.5 To be announced
 - (b) BLT 1/5 LPH-5
 - (2) Ashore
 - (a) BLT 1/5 To be announced
 - (b) Subordinate units report location when established.

Annex D (Landing Plan) to Operation Plan 201C-66

Ref: (a) NWIP 22-6A

Time Zone: Local Time in Area of Operation

1. GENERAL

a. This plan provides for the helicopter landing(s) of four reinforced rifle companies, 107mm Howtar Battery (-)(Rein), and selected BLT combat support, and combat service support elements in a designated landing zone.

b. For detailed instructions, see applicable appendixes.

2. CONTROL MEASURES. The TACLOG Group will be organized and function in accordance with reference (a).

3. PRE-H-HOUR TRANSFER SCHEDULE. The following transfers will be effected prior to H-Hour.

SERIAL	PERS	VEHICLE & EQUIPMENT	FROM	TO	UNIT	REMARKS
130	205	Normal Combat	APA	LPH	Co D (-)(Rein)	
131	2	Normal Combat	APA	LPH	Co D (-) 1 M-422 w/M-100 2 M-274

Annex E (Fire Support Coordination) to Operation Plan 201A-66, 201B-66 and 201C-66

Ref: (a) Maps: to be issued
 (b) NWIP 22-7A
 (c) FMFM 7-4
 (d) 1stMarDivO P3000.1C
 (e) BLTO 3000.2

Time Zone: Local Time in Area of Operation

Task Organization: See Annex A (Task Organization)

1. SITUATION

a. Enemy Forces

- (1) See Annex B (Intelligence). (To be issued).
- (2) See current ISUMS.

b. Friendly Forces

- (1) Appendix 1 (Artillery).
- (2) Appendix 2 (Naval Gunfire).
- (3) Appendix 3 (Air Support).

2. MISSION. BLT 1/5 embarks on assigned shipping as a contingency force, prepared to execute any one of a number of contingency plans.

3. EXECUTION

a. Concept

- (1) Fire Support Coordination afloat will be coordinated and controlled by the SACC. Landing beaches and landing zones will not be prepared unless required. If required, CAS and NGF missions will be controlled by TAC(A) or airborne spotter. All fire missions must be coordinated with SACC.
- (2) Fire Support Coordination ashore will be in accordance with references (b), (c), (d), and (e). As control facilities are established ashore, the FSCC will coordinate all fires on surface targets. All fire missions will be observed and will be under positive control of a spotter or observer.

CONFIDENTIAL

CONFIDENTIAL

- b. Fire Support Coordinator. As control facilities are established ashore, coordinate fires delivered in close support of operations conducted.

4. TARGET INFORMATION

a. Target List

- (1) Initial target lists will be maintained by the Task Group Commander. Target information will be published as required.
- (2) Current target list and information will be maintained by BLT FSCC in accordance with reference (e).
- (3) Changes to target information will be published and promulgated as required.

b. Concentration Designation System

- (1) The concentration designator for artillery and mortars will be made up of one letter followed by three numbers. The letter will signify the weapon.
 - (a) A - 107mm Howtar; B - 105mm Howitzer; C - 81mm Mortar.
 - (b) The three numbers will signify the concentration number.

Block numbers are assigned as follows:

<u>Firing Unit</u>	<u>Number Block</u>
107mm Howtar Btry	100-299
105mm Howitzer Btry	300-599
81mm Mortar Platoon	600-899

(In the event a section of mortars is attached, a sub-allocation of mortar numbers will be made to that section.

Examples: B302 - 105mm Howitzer, third concentration.

- (2) Naval Gunfire will use prefix "N" followed by two numbers.

c. Restricted Targets

(1) Class E Targets

Religious buildings	Public utilities	Bridges
National Shrines	Population Centers	Tunnels
Museums	Railroads	Medical Facilities
Hospitals	Highways	

CONFIDENTIAL

CONFIDENTIAL

- (2) Destruction of Class E targets is prohibited except on approval of this Headquarters, or where failure to destroy would seriously jeopardize the mission of the BLT prior to the receipt of approval.
- (2) Class E targets destroyed will be reported immediately to this Headquarters.

5. AIRCRAFT SAFETY

a. Air Sentries and Lookouts

- (1) Sentries will be positioned at artillery/mortar firing positions and will cause the firing units to cease firing when friendly aircraft are observed approaching danger areas.
- (2) Artillery/mortar forward observers and naval gunfire spotters will cease fire when it appears that the trajectories of artillery and support ships will endanger friendly aircraft.

b. Restrictive Fire Plan

- (1) A restrictive fire plan will be employed when required. These plans will be numbered to provide a simple means of referencing a particular plan. Under these plans, all surface fires are prohibited between prescribed maximum and minimum altitudes within a specific rectangular area, or series of areas, during a stated time interval. The centerline of this area will be specified by two or more points along the axis of movement. The width of the area is specified by the distance either side of the centerline.
- (2) Echelons requesting an air support mission will recommend the restrictive plan, if it is required. Higher echelons will not impose a restrictive fire plan contrary to the recommendation of the requesting unit unless the need is clearly indicated. Recommendations and orders for a restrictive fire plan will state the coordinates of the points delimiting the centerline, the distance either side of the centerline, the maximum and minimum altitudes, and the time period.

Example: "PLAN ONE X 657289 to 647486 X 200 meters X
1000 to 10,000 feet X 031035I to 031400I X"

c. Helicopter Safety

- (1) The Battalion ALO will keep the Fire Support Coordinator informed of the time and location of all scheduled and on-call helicopter flights into the combat areas.

CONFIDENTIAL

CONFIDENTIAL

- (2) Unless special coordination procedures are prescribed or required, fires on helicopter routes in use are restricted to observed fires where the observer is capable of ensuring the safety of the helicopter using the route.

6. SAFETY OF GROUND FORCES

- a. No Fire Line. Initial fire lines will be established by CA TF as required. Changes to the initial no fire line, after approval, will be promulgated by FSCC.
- b. Bomblines. Initial bomblines will be established by CA TF as required. Changes to the initial bomblines, after approval, will be promulgated by FSCC.
- c. Creeping Fires. Creeping fires will be utilized on all fire missions in close proximity to friendly personnel. Determination as to what constitutes "close proximity" is the responsibility of the infantry unit commander.
- d. Sight and Charge Check. Battery Commanders and 81mm Mortar Commander will ensure that section chiefs verify elevation, deflection, charges, and sight-picture on all fire missions.

7. COMMAND AND COMMUNICATION-ELECTRONICS

- a. See Annex D (Communication-Electronics).

b. Command Posts

(1) Afloat

(a) CTG 76 LPH-5

(b) BLT 1/5 LPH-5

(2) Ashore

(a) To be announced.

(b) Subordinate units submit locations when established.

 Operation Plan 201A-66, 201B-66 and 201C-66

Ref: None

Time Zone: Local Time in Area of Operation

1. SITUATION

a. Enemy Forces

- (1) Target List (to be issued).
- (2) See Annex B (Intelligence). (To be issued).
- (3) See current ISUMS.

b. Friendly Forces

- (1) See Annex A (Task Organization).
- (2) See Appendix 2 (Naval Gunfire).
- (3) See Appendix 3 (Air Support).

2. MISSION. Battery D (-) (Rein), 2nd Battalion, 11th Marines and 107mm Howtar Battery, 2nd Battalion, 11th Marines land by surface means, occupy firing positions to be designated, and provide fire support for BLT 1/5.

3. EXECUTION

a. Concept of Artillery Employment

- (1) Battery D (-) (Rein), 2nd Battalion, 11th Marines, will, after landing by landing craft over designated beach, support BLT 1/5 by providing direct support conventional fires.
- (2) 107mm Howtar Battery, 2nd Battalion, 11th Marines will, after landing by landing craft, provide direct support conventional fires to BLT 1/5.

b. Battery D (-) (Rein), 2nd Battalion, 11th Marines

- (1) Land in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operation Overlay).
- (2) General support.

CONFIDENTIAL

CONFIDENTIAL

c. 107mm Howtar Battery, 2nd Battalion, 11th Marines

- (1) Land in accordance with Annex D (Landing Plan) and occupy positions prescribed in Annex C (Operations Overlay).
- (2) General support.

d. Coordinating Instructions

- (1) Firing Chart. Grid sheet 1:25,000.
- (2) Survey. To be provided by Survey Party, Hq Btry, 2nd Bn, 11th Mar as required.
- (3) Counterbattery/Coutermortar. Policy semi-active.
- (4) Concentration Numbers. See Annex E (Fire Support Coordination).
- (5) Meteorological Data. To be promulgated as available.
- (6) No Fire Lines. See Annex E (Fire Support Coordination).
- (7) Restrictions on Fires. See Annex E (Fire Support Coordination).
- (8) Ammunition Restrictions. Units will not expend more than 80 percent of available supply rate without approval of BLT Commander.
- (9) Target Information. See Annex E (Fire Support Coordination).

4. ADMINISTRATION AND LOGISTICS

Ref: (a) FMFM 7-2

Time Zone: Local Time in Area of Operation

1. SITUATION

a. Enemy Forces

- (1) Target list (to be issued).
- (2) See Annex B (Intelligence). (To be issued).
- (3) See current ISUMS.

b. Friendly Forces

- (1) Fire Support Unit to be designated.
- (2) See reference (b) to Operation Plan 201A-66.
- (3) See Appendix 1 (Artillery).
- (4) See Appendix 3 (Air Support).

2. MISSION. Fire Support Unit supports the landing and operations ashore
of BLT 1/5 with naval gunfire.

3. EXECUTION

a. Ship assignment. To be announced.

b. Coordinating Instructions

- (1) Fire support areas, stations, boundaries, and zones of responsibility of fire support ships are as outlined in Tab A (NGF Support Operation Overlay).
- (2) Priority of Fires
 - (a) Defense of ship against counter-battery or air attack takes precedence over all other fires.

E-2-1

CONFIDENTIAL

CONFIDENTIAL

- (b) Call fires take precedence over scheduled fires unless otherwise directed by FSCC or SACC.
- (3) All fire missions will be observed and under positive control of the NGF spotter or TAC.
- (4) Coordination of NGF support with other supporting arms as contained in Annex E (Fire Support Coordination).
- (5) Safety Measures
 - (a) Rounds will not be fired closer to friendly elements than the limits prescribed in reference (a).
 - (b) VT fuzes will be employed only when line of fire does not pass over friendly troops of landing craft or in the vicinity of friendly aircraft. If the tactical situation requires the use of VT fuzed projectiles, approval of highest agency exercising fire support coordination must be obtained.
 - (c) Restrictive fire plans in accordance with Annex E (Fire Support Coordination).
- (6) All illumination missions will be approved and coordinated by FSC.
- (7) Smoke employed only on request of supported unit.
- (8) Standard salvos for call fires will be announced.
- (9) Target list to be published and promulgated as set forth in Annex E (Fire Support Coordination).

4. ADMINISTRATION AND LOGISTICS

- a. Initial ammunition allocation to be published.
- b. Details of ammunition replenishment to be published.

5. COMMAND AND COMMUNICATIONS-ELECTRONICS

- a. See Annex D (Communications-Electronics.)

CONFIDENTIAL

f. On-Call and Emergency Air Support Requests

- (1) Submit on-call close air support requests in accordance with reference (a), using standard mission request forms. In the event use of the form is impractical, the following minimum information will be provided.

Description of Target.

Location of target by grid coordinates.

Marking instructions.

- (2) Submit on-call and emergency helicopter request via the TAR or Battalion TAC net. Requesting units will submit the following information.

Location of site by grid coordinates.

Number of personnel to be lifted/type lift.

Authentication signal, if requested.

Destination.

Requirements for special equipment.

g. Alert Status of On-Call Support Aircraft. To be announced.h. UTM Grid System. All reference to locations of air support targets will employ UTM grid system. At least two letters and six digits will be employed.i. Troop Safety

- (1) Aircraft engaged in close support missions will make their runs parallel to friendly front lines unless otherwise specified.
- (2) Display panels marking front lines in accordance with Annex D (Communications-Electronics) prior to calling in Air strikes.

j. Marking Targets. Mark targets for air strikes with white phosphorus (day or night) or smoke (day only) if possible.k. Helicopter Employment. Helicopters available for evacuation only.

2. MISSION

- a. Provide communication and electronics support for the BLT in assault landing(s) and subsequent operations ashore.

3. EXECUTIONa. Communication Platoon, BLT 1/5

- (1) Be prepared to provide communications to BLT Civil Affairs Officer.
- (2) Be prepared to augment organic and attached units with FM radio equipment.
- (3) Provide one wireman and one field radio operator to each rifle company.
- (4) Be prepared, on order, to provide one radio set AN/PRC-47, three batteries BB-451 and three radio operators 2531/2533 to each rifle company.
- (5) Be prepared to provide the following equipment and personnel for operation of the BLT TACLOG.
 - (a) Two radio sets - AN/PRC-10
 - (b) Four radio operators - 2531
- (6) Provide message center service for BLT elements embarked on the LPH.

- b. Air Support Communications. See Appendix 1 (Radio Plan). (To be issued).

c. Shore Party Communications.

- (1) Be prepared to activate beach support and/or helicopter support nets as directed.
- (2) See Appendix 1 (Radio Plan).

CONFIDENTIAL

CONFIDENTIAL

d. Coordinating Instructions

(1) References (b) through (e).

(2) Messenger Service

(a) Runner messenger will be established ashore in accordance with reference (e).

(b) Helicopter messenger between BLT Command Post ashore and the LPH will be announced.

(3) Cryptographic. See Appendix 2. (Cryptographic).(4) Radio

(a) Call signs and frequencies. Appendix 1 (Radio Plan).

(b) Commence guarding assigned radio nets at H-4 on D-Day.

(c) Attached units will enter the BLT TAC net when other means of communication with this Headquarters fails or are not activated.

(e) Radio checks and test counts will be conducted only when absolutely necessary.

(f) All stations will tune to net control stations.

(g) Used dry cell batteries will be completely destroyed and buried.

(h) Batteries, BB-451, will be replaced as indicated necessary by weak transmission or after eight hours of operation.

(i) Immediately report to this Headquarters by other means, known or suspected enemy interference, imitative deception, or jamming.

(j) Authentication is mandatory in the following situations.

1 Imposing or lifting of radio silence.2 Activation or deactivation of any radio net.3 When entering or leaving radio net.4 When challenged.

(k) The proword "I SPELL", will be used only when doubt exist as to the clarity of pronunciation of the word.

(l) Local time zone to be used on all messages transmitted within the BLT.

CONFIDENTIAL

CONFIDENTIAL

(5) Wire

- (a) Telephone directory and switchboard names in accordance with Appendix 3 (Wire and Radio Relay).
- (b) All wire lines will be installed on the South and East of roadways and trails.
- (c) All possible wire lines will be retrieved when departing a position or when leaving the objective area.
- (d) All wire lines crossing roads and trails will be constructed as follows:
 - 1 Overhead primary roads 18 feet.
 - 2 Overhead secondary roads 14 feet.
 - 3 Buried - 18 inches.
- (e) Whenever it becomes necessary for wiremen to leave a rifle company or BLT command post to install or trouble shoot wire lines, they will be accompanied by at least one fire team.
- (f) There will be no trouble shooting of wire lines, external of the BLT CP, after dusk.
- (g) Radio relay channelization in accordance with Appendix 3 (Wire and Radio Relay).

(6) Visual and Sound

- (a) Pyrotechnics. See Appendix 4 (Visual and Sound).
- (b) Visual. See Appendix 4 (Visual and Sound).
- (c) Front line positions and vehicles will be marked with panel set V5-4 and/or V5-6 in accordance with Appendix 4 (Visual and Sound).

4. ADMINISTRATION AND LOGISTICS

- a. See Administrative Plan 201-66.
- b. All units will carry an initial 24 hours of dry cell batteries ashore. Replenishment to be on a daily requested basis, to be coordinated with ammunition and ration replenishment.
- c. Battery charging facilities will be maintained aboard the LPH. Request for resupply of battery BB-451 must be received by this Headquarters at least six hours prior to anticipated requirement. Replenishment will be on a one for one basis. All radios, utilizing battery BB-451, when assigned, will be provided with three BB-451 batteries.

CONFIDENTIAL

CONFIDENTIAL

- d. Second echelon maintenance capability is available at the BLT Command Post aboard the LPH and, when announced, ashore in the objective area.
- e. Any item of communication equipment that fails must be evacuated immediately to the BLT command post. The equipment must also be tagged, indicating the type of trouble.
- f. Limited replacement float of communication equipment is available at the BLT Command Post aboard the LPH and, when announced, ashore in the objective area.
- g. Communication equipment will have all preventive maintenance accomplished no less than once a week during period of non-operation and daily during operation maintenance procedures will be in accordance with current technical publications and NAVMC form 10559.

3. Administration

- a. On 5 March, the 6th Platoon (-)(Rein), 1st Force Recon Company, 1st Marine Division was attached.
- b. On 21 April 1966, the MP Detachment, Hq Bn, 1st Marine Division was detached.
- c. "Hilltop IV" was carried out with no unusual administrative problems. (See enclosure (2)).

4. Intelligence

a. During the period covered by this report the S-2 section training consisted of jungle survival, helicopter training, physical training and OJT in collecting, processing and disseminating intelligence information.

b. From 15 to 16 March 1966, the S-2 section participated in Hilltop IV, an amphibious exercise on the island of Mindoro. The S-2 section prepared the intelligence annex, distributed maps, document envelopes, POW cards and enemy equipment cards to all units. During Hilltop IV, the S-2 section collected, processed and disseminated intelligence information as it became available. The lack of aggressor personnel restricted and limited the exercise of this section severely. Scouts were utilized in patrolling missions and as escorts for the BLT Commanding Officer.

c. From 26 March to 6 April 1966, the S-2 section participated in Operation JACKSTAY in the Rung Sat Special Zone in South Viet Nam. The S-2 section prepared the intelligence annex, distributed maps, POW cards, document envelopes and enemy equipment cards to all units. During the operation, the intelligence section collected and processed data of intelligence value. Scouts of the S-2 section were utilized on the night defensive perimeters by employing the weapon sight, infra-red. Scouts were utilized as escorts for the BLT Commanding Officer and visiting VIP's. From 4 to 6 April 1966, scouts were attached to rifle companies and performed as scouts.

d. For a listing of enemy personnel and equipment destroyed during Operation JACKSTAY, see enclosure (3).

UNCLASSIFIED

UNCLASSIFIED

e. From 12 to 17 April 1966, the S-2 section prepared an area study of the Quang Tri and Thua Thien provinces. The area study was released to BLT units on 17 April 1966 for study and presentation to troops for information and training purposes on board ship.

f. From 27 April to 2 May 1966, the S-2 section participated in Operation OSAGE in the Phu Loc area of South Viet Nam. The S-2 section prepared the intelligence annex, distributed maps, POW cards, document envelopes and enemy equipment cards to all units. During the operation, the intelligence section collected and processed data of intelligence value.

5. Training. BLT 1/5 arrived at Subic Bay and assumed the status of SLF on 5 March 1966. A normal training program was commenced on 7 March and continued until 14 March and included the following:

a. Conditioning hikes, varying in length from two to eight miles.

b. Helicopter training, stressing rapid boarding and exiting of the aircraft, and the initial organization of the landing zone security.

c. Jungle survival school, with negrito instructors, for 70 members of the BLT.

d. Familiarization firing of T/O weapons for all new members of the BLT.

e. During the entire ship board period, emphasis was placed on physical conditioning and the care and cleaning of weapons.

f. On 8 March, the BLT Commander and S-3 Officer departed for Saigon for a briefing and reconnaissance of the Rung Sat Special Zone.

g. Plans were completed and the operation order was issued for Hilltop IV. This operation took place on 15 and 16 March in the San Jose area on the island of Mindoro. Hilltop IV included a vertical assault by three reinforced rifle companies and a 107mm Howtaz Battery, the repositioning of one rifle company, by helicopter, into a mangrove swamp area, and a tactical march and withdrawal from the objective areas. Naval gunfire and close air support were available and utilized to exercise control and communications for the entire problem.

h. The BLT returned to Subic Bay on 18 March and a normal training program was continued. During this in-port period, from 18 to 22 March, Company D received helicopter training and, an intensive training program was carried out by the newly organized Provisional Rifle Company.

i. The BLT sailed from Subic on 22 March. During the ship board period, 22 to 26 March, all units prepared for operations in the Rung Sat Special Zone.

j. From 26 March to 6 April, the BLT conducted Operation JACKSTAY. (See enclosure (3)).
