	Sgt	0331	22

7. Personnel administration during the month of May continued to improve. The Battalion for the fourth consecutive month maintained a unit diary error percentage of less than 1.0%. This is in keeping with the Commanding General's desire. Casualty reporting continued to improve by assigning a twice-wounded Marine to the casualty receiving station at "D" Medical Company, Dong Ha. His primary duties are reporting Battalion casualties to the S-1, taking charge of weapons and 782 gear of the Battalion and assisting in unloading of med-evacs. Communications continued to be poor between the rear and forward areas, however, by making daily courier runs, it has not caused a great delay in processing administrative material. Cross-training is being conducted within the S-1 and all administrative personnel are currently qualified to do at least three jobs and all administrative personnel are qualified in casualty reporting.

SECTION III

INTELLIGENCE

1. Terrain. The terrain in the vicinity of Hill 689 (XD 805407) consists of rolling hills and dense undergrowth. The hills are generally flat with sparse vegetation on the crests and tall elephant grass on the slopes. Valleys are generally flat with thick underbrush consisting of high elephant grass, short bushy trees and thick shrubbery. Streams offer no obstacle, being swift and narrow. They provide a good source of drinking water when hammock is used.

2. Weather. The weather for the area consists of hot days with highs in the upper 90's and moderate nights with lows in the mid 70's. Light rain can be expected at any time. The humidity averages 85 %.

3. The following is the order of battle for the Khe Sanh area for May 1968:

Headquarters, 304th Division at XD 7239
 57th Regiment, 304th Division at XD 8028
 68th Artillery Regiment, 304th Division at XD 7040
 Headquarters, 325C Division at XD 8744
 Unidentified Platoon, 325C Division at XD 8242
 Unidentified Company, 325C Division at XD 8037
 66th NVA Regiment at XD 7316
 304th NVA Regiment at XD 7237
 808th NVA Regiment at XD 6030
 68th Artillery Battalion at XD 7434
 Unidentified Battalion at XD 8545

4. The following are mortar, rocket, artillery and anti-aircraft positions affecting the 3/4 AO:

a. Mortar positions:

745401	787392	795391
767392	788398	795393
773403	789398	809388
781382	791391	812398
785382	791393	815396
785385	793399	816397
786386		

b. Rocket positions:

746404	756304
754404	769401

UNCLASSIFIED

ENCLOSURE (1)

UNCLASSIFIED

c. Artillery positions:

Co Roc area (XD 7331, 7431, 7531, 7432, 7430), XD 712323 and XD 753283.

d. Anti-aircraft positions:

693574	777412
777402	777416

5. The NVA bunkers in the Khe Sanh area are generally well constructed with thick overheads of logs, bamboo, and dirt, with occasional engineer stakes and sand bags. These bunkers will generally withstand artillery and air strikes except for direct hits. Bunkers were found by this Battalion at the following places:

785423	806401	813394	819399
789403	810407	814397	820395
801402	812404	815403	824406
805406	812408	818407	826394

6. This Battalion captured several new chicom grenades. These grenades have threads on the outside of the cylinder on the top, threads on the inside of the cylinder on the bottom and are flared at the bottom. It was discovered that the handle could be screwed out of the grenades, allowing removal of the fuze, and that the grenades could be screwed together to form a chain of grenades. It is believed that the grenades can be used in chains of two or three to provide a more damaging effect and that a chain of eight, ten or more could be used as a bengalore torpedo.

7. Prisoners. This Battalion captured six NVA during May 1968.

a. The first NVA was captured at 0620H on 19 May 1968, when he entered the Co "M" perimeter mistakenly believing it to be his own. He stated that he belonged to the 1st Battalion, 5th Regiment. The POW's unit came from Hanoi approximately the middle of March 1968. His company headquarters was located at XD 815403. His company has two lieutenants left. The POW had seven chicom grenades, one Soviet AK-47 rifle with two magazines and 130 rounds.

b. Four NVA, three of them badly wounded were captured by Co "I" at XD 819402 at 1100H on 19 May 1968. One additional NVA was captured at 1145H on 19 May 1968 at XD 821401.

(1) One of the NVA captured at 1100H was PFC Phan Xuan Trung of the 1st Company, 1st Battalion, 3d Battalion, 367th Division. He was an ammunition carrier for 60mm mortars with the 15th squad, 2d platoon of the 1st Company. He stated that the 1st Company's area of operation was Hill 552 and the company's mission was to take Hill 552. He also said that the 1st Company's base was at Lao Bao (XD 7037).

UNCLASSIFIED
ENCLOSURE (1)

UNCLASSIFIED

He said that morale in the 1st Company is high because they are "killing many ARVN's and Americans". The POW had trained for one month in Bac Thai Province, then came south by a road called Gia Lien through Laos, taking one and one half months. Upon arrival in early May in the Khe Sanh area, the unit was split up for replacements.

(2) The PWL captured at 1145H, was Pvt Dao Xuan Dau of the 1st Company, 7th Battalion, 3d Regiment, 304th Division. He was a mortar section leader with the 2d section, 10th squad of the 1st Company. The POW stated that the 1st Company's area of operations is Hill 552 and the company's mission is to take Hill 552. He said the morale is very bad in the 1st Company because the men are afraid of the artillery and bombing. The POW had trained for one month in Thai Nguyen Province, then came south by a road called Gio Linh (possibly Gia Lien, see above) through Laos taking three and one half months. Upon arrival in early May in the Khe Sanh area, the unit was split up for replacements.

8. The following is a list of gear captured by this Battalion during May 1968:

NVA Helmet	22
NVA Pith Helmet	8
60mm Mortar Rounds	97
60mm Mortar Fuzes	16
60mm Mortar Tube	1
82mm Mortar Rounds	108

5. Close Combat

a. While in the Khe Sanh area, 3/4 was provided artillery support by 1/11 (Terrepin) and 3/12 (John Brown Gulf).

b. While in the Khe Sanh area, the Battalion remained in a very flexible posture. The Battalion defended Khe Sanh Combat Base for the first few days of May. The Battalion's basic concept was to maintain two companies at Hill 689 and two companies at Hill 552.

c. Continuous improvement of defensive positions was emphasized during this period. All companies ran daily patrols and established night time LP's/ambushes as directed by the CO 3/4 daily fragmentary orders. Other significant events of a non-combat nature have been included in the chronological summary for historical and record purposes.

1 May: At 0700, Co "M" prepared to move overland to Khe Sanh Combat Base to join Co "L" who had moved overland the previous day. Co's "L" and "M" assumed the defense of Khe Sanh from 2/1 who were to jump off on an operation. While Co "M" was enroute to Khe Sanh, they found a booby trap made of an 82mm mortar round with a trip wire at XD 833406. As Co "M" had no engineer capability, it was marked for future destruction.

UNCLASSIFIED

~~SECRET~~

At 0730, five Marines at Hill 552 were burning trash, when an unknown explosive device exploded causing one dead non-battle casualty and four wounded non-battle casualties. Lt PLACE was appointed investigating officer.

2 May: Hill 552 received four rounds of 82mm mortars from XD 767392, resulting in no casualties. Artillery was called in on the enemy position with a total of 104 rounds being expended.

Day patrolling was conducted with no contacts. Co "I", while on patrol from Khe Sanh, found one RPG round at XD 857411. The surrounding area was checked with no significant results.

Co "Y", while conducting a wire security check, discovered two trip flares cut, one claymore mine disarmed, and one NVA helmet. Co "K" set in an ambush on the avenue of approach to counteract any enemy sapper movement.

At 2230, Co "I" received five grenades thrown at their lines. Capt SEXTON placed his lines on 100 % alert and fired HE mixed with illumination but nothing further developed out of this enemy action.

3 May: Co "K", while on a company size patrol, found a NVA bunker complex at XD 805406. Co "K" set up a 360° defense and conducted a complete search of the area. The bunkers were 6' x 7' x 4' with an overhead of 18" consisting of bamboo and dirt. The search team found one M-16 rifle which was later turned over to 1st Marines and various NVA 782 gear.

4 May: At 0800, 2/1 returned from their operation to assume defense of Khe Sanh Combat Base. Due to the heavy enemy contact around Cua Viet, Co's "I" and "M" were chopped from 3/4 OPCON to Task Force Robbie, while Command Group "A" returned to Hill 689.

Co "L", while conducting a platoon patrol, discovered an NVA bunker complex consisting of 35 bunkers 4' x 5' x 3 1/2' with an overhead of bamboo and dirt. The bunkers were destroyed and heavy H&I's planned on the area.

5 May: Co "K", while conducting a squad recon patrol, discovered three bunkers at XD 814397. These bunkers were 6' x 4' x 5' with an overhead of bamboo and dirt 12" thick. A search of the area produced anti-aircraft shells lying around the area. All bunkers were destroyed.

At 1745, Hill 689 received ten rounds of 60mm mortars from XD 781408. 81mm mortars were fired in a counter-mortar role.

6 May: Co "K", while conducting a platoon size patrol, discovered an NVA bunker complex at XD 787406. The bunkers were well constructed and about one to two months old. While conducting a search of the area,

UNCLASSIFIED
ENCLOSURE (1)

UNCLASSIFIED

the platoon found one M-16, one 3/5" rocket launcher, 782 gear and documents, all of which were turned over to S-2.

7 May: Patrols were conducted with no contacts or sightings. Hill 689 received 15 rounds of 60mm mortars from XD 785397. An artillery mission was fired and the incoming ceased.

8 May: Hill 689 received 15 rounds of 60mm mortars from XD 785397. An artillery mission was fired and the incoming ceased. Co "L", while conducting a platoon size patrol, discovered four NVA bunkers 8' x 4 $\frac{1}{2}$ ' x 4' which were about two months old at XD 802400. The patrol destroyed all the bunkers and continued on their mission.

At 2040, an M-33 grenade detonated in a fighting hole on the lines at Hill 689 for an unknown reason, killing two Marines. Lt GIARDINO was appointed investigating officer.

9 May: Hill 689 received two rounds of unknown caliber artillery from an unknown direction. Observation of the area was continued with no results.

A Co "L" platoon size patrol found two AP mines and 11 82mm mortar rounds at XD 810407. The gear was brought back to S-2 and a search of the area was completed with no further results. The patrol continued.

A Co "K" platoon size patrol located a small destroyed village and found two overhead bunkers with miscellaneous gear and documents at XD 847389. The bunkers were destroyed and the gear and documents turned over to S-2.

At 1650, a Co "K" Marine was burned on the hand, arm and eyes while trying to burn and RPG increment. The Marine was evacuated to D-Med and an investigating officer was appointed.

10 May: Co "L", while conducting a platoon size patrol, discovered various U.S. 782 gear and NVA ammunition at XD 805496. One article of each item found was turned over to S-2 and the rest of the gear was blown in place. The patrol continued on their mission.

11 May: Hill 689 received four 120mm mortar rounds from XD 791391. Artillery was called in and the incoming ceased.

A Co "L" platoon size patrol discovered seven overhead bunkers at XD 801402. The bunkers were two to three months old and not recently used. All were destroyed.

At 0001, the PPS-6 picked up movement of about three NVA digging in at XD 800401. Artillery was called in and the movement ceased.

12 May: Daytime patrols were conducted with no sightings or contacts.

SECRET

A Co "L" OP observed seven rounds of estimated 122mm rockets being fired from XD 769401, landing 2000 meters north of Hill 689. An Artillery mission was fired resulting in 18 secondary explosions.

13 May: Hill 689 received eight rounds of 82mm mortars from XD 785382. An artillery mission was called in and the incoming ceased.

The army unit had moved off LZ Peanuts so Co "L" conducted a company size patrol to check the area out. The company moved to LZ Peanuts and secured it and conducted a search of the area. There was a lot of 782 gear, weapons and equipment left behind. The important gear was carried back to S-2 and the rest was staged to be heli-lifted out in the future.

14 May: Hill 689 received two rounds of 82mm mortars from XD 781382. An artillery mission was called and the incoming ceased.

At 0150, Co "K" reported seeing one figure at XD 805409. An M-26 grenade was thrown and the movement ceased. Co "K" continued to observe the area with no sightings.

15 May: Hill 689 received five rounds of 82mm mortars from XD 777402. Artillery was called in and the incoming stopped.

At 0805, a Co "L" platoon patrol began receiving heavy small arms and automatic weapons fire from NVA dug in at XD 792416 and XD 788418. The patrol returned fire, called in supporting arms and established a defensive perimeter. The remainder of the company was committed and link-up was effected at 0850. At 1048, Co "L" moved out toward Hill 758 after four flights of fixed wing had been run. At 1154, Co "L" overran the NVA bunkers, consolidated and began their move back towards Hill 689. During Co "L"'s withdrawal back to Hill 689, they received 120mm mortars. Suppressive fire was called in with artillery and the incoming ceased. At 1420, Co "L" returned to the Battalion position. The results of the Co "L" contact were four Marines KIA, 34 Marines WIA evac, four Marines WIA non-evac, six NVA KIA, one RPD machine gun, three M16 rifles, one SKS carbine and miscellaneous equipment captured.

16 May: A platoon patrol from Co "K" was sent out to check the area where Co "L" had made contact the previous day. At 1020, the patrol made contact with NVA dug in at XD 788419 and XD 792416, the same area of the Co "L" contact of the previous day. The platoon returned fire, called in supporting arms and Huey gunships. At 1335, the patrol started receiving heavy barrages of 82mm mortar rounds. Counter mortar and artillery was fired and the incoming ceased at 1530. At 1515, the remaining units of Co "K" had linked up with the patrol. Capt THOMAS, Company Commander of Co "K", established a 360° perimeter, consolidated his position and evacuated his casualties to Hill 689. At 2020, Co "K" returned to Hill 689. The results of the contact were one MIA, 11 WIA's evac and two WIA's non-evac.

~~SECRET~~

At 1500, Co's "I" and "M" began a tactical march from Khe Sanh Combat Base to rejoin the Battalion. At 1900, the lead elements of Co "M" came under heavy small arms and automatic weapons fire at XD 817402. The lead platoon was separated from the two rear platoons. Co "I" consolidated and set in at Hill 552.

*17 May: At 0032, Co "M" had linked up with their separated platoon and pulled back with their casualties to effect a link up with Co "I" at Hill 552. The casualties for the 16 May contact were 5 KIA's, 17 WIA's evac and three WIA's non-evac. At 0415, Co "I" observed eight NVA digging at XD 818401 and called in 81mm mortars with illumination. At 1000, Co "I" received heavy small arms and automatic weapons fire from XD 818401 while Co "M" at Hill 552 received 12 81mm mortar rounds from XD 809389. Co "I" called in six flights of sixed wing on the enemy who were dug in at XD 818401 in preparation for an assault on that position. Co "M" called in artillery to silence the incoming. At 1525, Co "I" began their assault meeting heavy small arms and automatic weapons. Co "I" pulled back to use 60mm and 81mm mortars. At 1700, Co "I" began to fire and maneuver up the hill. At 1910, Co "I" closed with the enemy and secured the top of the hill. At 2000, the area was swept for weapons and equipment and Co "I" returned to Hill 552 at 2100. The results of the contact were 20 WIA's and 22 NVA KIA's confirmed.

18 May: At 0030, Co "M" observed 12 NVA moving down a slope in a southerly direction at XD 818400, called in artillery mission with unknown results. At 0335, Co "M" observed seven NVA sitting on a hill at XD 819402 observing the area called in artillery mission. At 0620, Co "M" discovered and captured an injured NVA inside the perimeter. The POW was interrogated and med-evaced to 1st Marines. The POW stated that he thought he was entering his own perimeter. During the afternoon, a two company sweep was made between Hill 689 and Hill 552. At 1315, Co "K" found eight overhauled bunkers and a 60mm mortar pit with various enemy gear at XD 812404. During the afternoon, Co "I" found 20 overhauled bunkers, two NVA bodies and assorted enemy gear at XD 815403.

19 May: Hill 689 received two 60mm mortar rounds, 14 82mm mortar rounds and two 120mm mortar rounds and Hill 552 received several 60mm mortar rounds and one 82mm mortar round. At 0230, Co "I" reported their lines were probed by 10 to 15 NVA who fired small arms, threw grenades and fired two RPG rounds. Co "I" returned fire with small arms and automatic weapons and supporting arms. At 0440, Co "I" received 60mm mortar fire and were assaulted on the east and west flanks by an estimated company sized unit. At 0455, the enemy began digging in south and west of Co "I" at Hill 552 and Co "I" was receiving heavy small arms fire. At 0845, Co "I" had repelled the attack and was preparing to move out and sweep the area in front of their position. As the company moved out, the lead elements made contact with six enemy approximately 15 meters in front of their lines. At 1103, Co "I" located one NVA in a spider hole and engaged several NVA with small arms at XD 821401. At 1510, a Co "L" recon patrol located one USMC body at XD 792416 that was identified as the MIA from Co "K"'s contact of 16 May. At 1905, a Co "K" patrol found three bunkers, 15 fighting

UNCLASSIFIED

~~SECRET~~

holes and assorted enemy gear at XD 819399. In one bunker five bodies, possibly Chinese, were found. The results of Co "I"'s contact were five WIA's evac, four WIA's non-evac, 39 NVA KIA's confirmed and four NVA POW's.

20 May: At 0025H, Co "M" at Hill 552 heard enemy digging outside the perimeter to the north. Also heard enemy movement between Hills 689 and 552. At 1000H, Co "I" found six fresh fighting holes at XD 824406. At 1210, a Co "K" patrol spotted a parachute being used as camouflage in a bomb crater at XD 799402 with black and red comm wire running from there toward Hill 689 and one bunker at XD 811398. At 1205, a Co "M" patrol located three old bunkers and three mines in an open fighting hole at XD 812408. At 1315, a Co "M" patrol located five NV^a bodies at XD 818403. Nearby, the patrol found a bunker complex with 12 L-shaped bunkers and various gear. At 1700, a Co "I" patrol located a bunker at XD 826394 and various NVA gear and mortar positions and fighting holes at XD 820395.

21 May: Hill 552 received two 82mm mortar rounds. At 1205H, a Co "K" squad recon patrol found blue comm wire at XD 797419 running on an azimuth of 210 degrees. At 1705, a Co "K" patrol at XD 792398 made contact with an unknown number of enemy at XD 792398 and were pinned down by automatic weapons. At 1840, a Co "K" platoon reaction force at XD 792398 made contact with the enemy at XD 793398, exchanging grenades and small arms and receiving four WIA's. At 2000, the Co "K" patrol was returning to the CP, while the reaction force consolidated and requested emergency med-evacs. At 2125, three to six NVA threw several chicoms and fired three AK-47's at the perimeter on Hill 552.

22 May: At 0055, a squad from Co "K" and corpsmen and stretcher bearers linked up with the Co "K" reaction platoon at XD 792398. At 0450, the Co "K" patrol returned to Hill 689. At 0707, the Co "K" reaction platoon returned to Hill 689. At 0920, a Co "M" patrol found one NVA body about four days old, killed by artillery at XD 819395. At 0930, a Co "M" patrol located an interlocking bunker complex of seven overhead bunkers at XD 818396. At 1055, a Co "M" patrol found 10 incomplete bunkers with no overheads at XD 814394. At 1138, a Co "I" patrol found three RPG rounds, one split bomb and miscellaneous NVA gear at XD 817411. At 1225, a Co "I" recon patrol observed three NVA moving north at XD 823415. At 2054, Co "I" at Hill 552 spotted possible enemy movement at XD 829397 and fired a 4.2" mortar mission.

23 May: Hill 689 received one 120mm mortar round. At 0730, a Co "K" patrol located one chicom claymore mine and one fresh footprint at XD 803407. At 1000, a Co "I" recon patrol spotted one NVA at XD 822405. At 1010, a Co "K" patrol reported receiving small arms fire from SD 794398. They returned fire and initiated an assault on the enemy position. At 1125, the Co "K" patrol reported receiving 25 60mm mortar rounds from XD 790400. At 1145, the Co "K" patrol received 20 additional 60mm mortar rounds from the same location. At 1330, Co "K"

UNCLASSIFIED
ENCLOSURE (1)

UNCLASSIFIED

continued to receive small arms fire and 60mm mortar fire. The enemy strength was estimated at one reinforced squad with one mortar section. At 1430, Co "K" continued receiving 60mm mortar rounds and received two 120 mm mortar rounds resulting in two KIA's and nine WIA's. They continued the attack and found several L-shaped bunkers and one AK-47, one RPD machine gun and assorted enemy gear. At 1550, Co "K" had secured the area and was receiving 82mm mortars. One platoon moved casualties to a secure LZ. At 1800, all of Co "K" had returned to Hill 689. The results of the Co "K" contact were two KIA's, 11 WIA's evac and eight NVA KIA's confirmed.

24 May: At 0900, a Co "M" (-) patrol located one bunker overhauled with miscellaneous gear at the base of the hill at XD 822413. In the same area the patrol found a downed Huey gunship approximately two months old. At 2130, Co "M" while patrolling the perimeter of Hill 552 found one dead body, about 5' 6" in height and possibly Chinese, at XD 823401. Also found were four spider holes and a hole with an excellent observation of the Hill 552 LZ at XD 821402. The hole had a Huey rocket launcher and 15 rockets in front of it.

25 May: At 0235, Co "K" reported seeing a silhouette of one man at the wire at XD 807409. They threw one M-26 grenade and the man disappeared. At 0800, a Co "L" patrol found four bunkers with two foot overhauled constructed of 106mm canisters at XD 792416. At 1240, a Co "M" recon patrol found two mortar pits, two overhauled ammo pits, and two overhauled bunkers connected by comm wire at XD 812396. At 1320, a Co "I" recon patrol observed five fresh footprints at XD 779399.

26 May: Hill 689 received 41 60mm rounds from XD 793417, fired an artillery mission and incoming ceased. At 0045, a Co "K" IP heard movement of approximately three enemy moving in a northerly direction at XD 817403. At 0930, Co "M" received sniper fire from XD 807399. Co "M" called in 81mm mortars and artillery. At 1100, Co "M" on LZ Peanuts received sniper fire from a bunker. They withdrew and called in an artillery mission. At 1130, Co "M" at XD 811395 observed enemy in bunkers at XD 801391 with barbed wire channeling the avenues of approach. Co "M" called 81mm mortars, artillery and 106mm recoilless rifle fire on the bunkers. At 1245, Co "M" received one short 105mm round resulting in one friendly WIA. At 1400, Co "M" withdrew to XD 812398, leaving one MIA vicinity LZ Peanuts.

27 May: Hill 689 received two rounds of 75 mm pack howitzer fire. At 1050, a 3/4 VR flight of two CH-46's received .50 caliber fire from XD 781399. At 1215, Co "L" found six L-shaped bunkers, five trenches, 100 to 200 feet of comm wire and one NVA bowl and eating utensils. At 1300, Co "M" at XD 805396 received light small arms fire from a squad sized enemy force at XD 807393. Co "M" returned fire with M-60 machine guns, 3.5" rocket launchers, M-79 grenade launchers and called supporting fires behind the enemy position to prevent reinforcement. At 1350, a Co "M" platoon at XD 808397 received mortars from XD

UNCLASSIFIED
ENCLOSURE (1)

UNCLASSIFIED

809391 and continued to receive small arms fire from XD 806394. At 1401, Co "M" remained in contact and fixed wing support was being run. At 1530, Co "M" began pulling back with their casualties. At 1730, Co "M" had consolidated and was preparing to evacuate casualties. At 1820, all med-evacs were completed and Co "M" began returning to Hill 552. The results of the Co "M" contact were five KIA's, 22 WIA's, two WIA's non-evac, two MIA's and 34 NVA KIA's confirmed. The one MIA from 26 May was recovered KIA.

28 May: At 1955, Co "K" while checking the wire at Hill 689 found bamboo poles under the wire to be used for raising the wire. Also, bamboo stakes were driven into the ground next to the steel stakes. One claymore was found disarmed. A noise like pounding stakes into the ground and metal clanging was heard about 600 meters out. Co "K" was put on 50% alert until 2400, then on 100% alert until 0630 on 29 May 1968.

29 May: Hill 689 received three 82mm mortar rounds and six 120mm mortar rounds. At 0725, a Co "M" recon patrol found one dead NVA with pack, helmet and two chicom grenades at XD 829404. At 0730, Co "L" found one bamboo pole approximately nine feet long outside the first strand of concertina. At 0945, Co "M" found one mortar pit, four bunkers and assorted gear at XD 819392. At 1045, a Co "M" recon patrol found mud on beaten down grass and other indications of enemy movement at XD 814396 forming a trail toward the Co "M" position.

30 May: At 0914, Hill 689 received four rounds of estimated 122mm rockets from vicinity of XD 795381. An artillery mission was fired with unknown results. At 0915, a Co "L" squad recon patrol made initial contact with an estimated six NVA armed with .50 caliber machine guns at XD 793415. The squad recon patrol set up a 360° defense. The remaining units of the first platoon of Co "L" were sent out to link up with the patrol. Casualties were evacuated and a search for the one MIA was conducted with negative results. The platoon used supporting arms to silence the enemy fire and withdrew back to Hill 689 at 1700.

31 May: A platoon combat patrol from Co "L" commanded by Lt JOYNER searched out the area of contact from 30 May for Co "L"'s MIA with no results. Co "K" displaced to Hill 881 South and Co "M" to Hill 471. Co "I" conducted a one day squad recon patrol, one OP and two LP's. The recon patrol discovered fresh tracks believed to be from a squad plus at XD 814402 moving to the northwest. Upon departure of Co "M" from Hill 552, Co "I" assumed complete responsibility for Hill 552. Co "K" displaced from LZ Wren at 0830 to Hill 881 South. Co "K" was reinforced by personnel from 106's and 81's to man weapons left on position by L/1 units. Two LP's were conducted. Co "L" commenced a platoon combat patrol to the vicinity of XD 793416. Artillery and mortar preps were fired during the move. As the patrol moved across the top of the ridge line one AK-47 and miscellaneous ammunition was found. As the last objective area was swept, the platoon received 82mm mortar incoming resulting in seven WIA's. Counter mortar was fired by artillery accounting for three secondary explosions. The incoming ceased. Co "L" assumed

UNCLASSIFIED

UNCLASSIFIED

defense of Hill 689 when Co "K" displaced to Hill 881 South. The lines were augmented by H&SGo personnel. One OP and two LP's were conducted. Co "M" displaced overland to Hill 471 at 0925 and assumed control of the hill from Co "H" 2/1. One OP and two LP's were conducted. A section on 106's and 81's were displaced to Hill 471 and attached to Co "M".

*On 19 May, Task Element Quail, commanded by Major MEAD (Battalion XO), was formed to conduct the defense of the Hill 552 Complex. The Command Group "A" became known as Task Element Ale under LtCol BOURNE and conducted the defense of Hill 689. With the threat of an attack on Hill 552 minimized, Task Elements Quail and Ale were disbanded on 27 May.

IV-11

UNCLASSIFIED
ENCLOSURE (1)

SECTION VLOGISTICS1. General

a. The Battalion remained on Hills 689 and 552 during May. Co's "I" and "M" were OPFOR to TFR for a short period of time. Co "K" was shifted to Hill 47L for a period of five days. At the present time we maintain Hills 881 south, 689, 552 and 47L.

b. Daily resupply of Class I, III, IV, and V items has been conducted from LZ Cameo by helicopter. Class II items have been motorized to LZ Cameo and from there by helicopter to the Battalion.

2. Supply

a. The overall supply support during this period was satisfactory.

b. Some critical shortages of supplies existed and were reported in the Logistics Summary Report:

Gas Mask, Small, Medium and Large
 Telephone, TA-1/PT
 Motor Transport, repair parts
 3.5" Rocket Launcher
 106 Recoilless Rifle
 Compressor, Reciprocating for Flamethrower

3. Transportation

a. Motor transport support from Division Motor Transport has been very poor. This lack of transportation has put a strain on the Battalion's vehicles. Somewhat of a problem does exist with the daily trash run. The trucks often do not pick up an entire load of trash.

b. The deadline rate for the M-422A1 is 23 %; of 18 vehicles, four are deadlined. All four are down for 3d echelon repairs. All four are in FLSG-B. Two M-422A1's have been dropped from the Battalion's account and two others have been placed on order.

c. There are five communications vehicles in the Battalion of which one is deadlined. One MRC-87 is in FLSG-B for work on the wiring system.

d. The Battalion has 30 M-274A2 vehicles of which 12 are deadlined. All are awaiting parts which have been put on requisition.

e. The Battalion has four M-37B1 vehicles of which one is deadlined for a new engine. Having one of these vehicles deadlined greatly increases the workload of all other vehicles in the Battalion.

f. The Battalion has one Luber and one Steam Jenny which are both deadlined for parts that are on order.

4. Maintenance

a. The deadline rate for the M-274A2 is still very high. The Battalion has been using them quite extensively and parts are still not in supply. The deadline rate for the M-422A1 has decreased a considerable amount over the last month.

b. The motor transport section has had a small portion of its vehicles at LZ Cameo. It still has maintained the greater portion of its shop at Dong Ha and has run on a highly proficient basis.

~~SECRET~~~~SECRET~~

HEADQUARTERS

3d Battalion, 4th Marines
3d Marine Division, Fleet Marine Force
FPO, San Francisco, 96602

4/JOS/jtt
13 May 1968

From: S-4
To: Sgt. O'Connor, S-4 LZ Cameo

1. Purpose. To promulgate explicitly the duties required of 3/4 personnel, et al., at LZ Cameo.

2. S-4 Duties and Responsibilities

- a. Receive resupply requisitions from Battalion position, and fill Class I, II, IV, and V requests from LSU at Cameo.
- b. Forward Class II requests to S-4 Rear.
- c. Request helicopters from 1st Marines S-4 LZ by 1800 the day prior.
- d. Stage all gear on LSA for shipment to the Battalion.
- e. Receive and fill water bladders as soon as possible and restage for shipment to the Battalion.
- f. Procure any and all supplemental gear (SP packs, fresh fruit, aircraft matting, etc.) that may be used by the Battalion.
- g. Keep Bn XO, S-4 with Bn, S-4 at KSCB, and S-4 Rear informed of all pertinent developments at least once each day and as necessary.
- h. Manifesting Equipment. All gear arriving at Cameo from Dong Ha will have a responsible NCO in charge with a manifest list. This will be checked against the gear to determine if any is missing. All gear sent from Cameo to the Battalion position will also be manifested on standard forms, whether by external load (attach sheet prominently for Battalion S-4 to find), or internally where a responsible NCO will be given the manifest and instructions to deliver it to S-4 at Battalion.

i. Manifesting Personnel

(1) Incoming personnel from Dong Ha arriving at LZ Cameo will have an NCO with a roster in charge. He will report to S-4 Cameo. S-4 Cameo will manifest on a definite roster all personnel going to the Battalion position, appoint an NCOIC, and have him deliver one copy of the roster to the S-1 representative at the Battalion. The other copy will be kept on file for two weeks.

SECRET

SECRET

(2) Incoming personnel from the Khe Sanh area will have an NCOIC appointed for the return to Dong Ha. Make a duplicated copy of the roster. One copy will be kept at Cameo for two weeks and the other given to the NCOIC, who will give it to the S-4 Rear upon arrival in Dong Ha.

j. S-4 Cameo will be given the responsibility for the control and actions of all 3/4 personnel at Cameo. Transient personnel remaining overnight will sleep in the 3/4 area.

k. The duties of the personnel at LZ Cameo are as follows:

(1) Food Services

(a) Prepare hot field chow for the Battalion position as required by S-4 directives.

(b) Maintain mess unit at LZ Cameo capable of preparing food for the field part of the Battalion for delivery in vat cans at any time.

(2) Mailman

(a) Sort mail for delivery to the Battalion position.

(b) Ensure delivery of such mail to Battalion position.

(c) Receive mail from Battalion position and ensure its return to Dong Ha.

(3) Motor Transport

(a) Carry out the instructions of S-4 Cameo.

(b) Maintain proper maintenance of 3/4 vehicles.

JAMES O. SINGER
1stLt USMC

SECRET

SECRET

S-4 SOP FOR KHE SANH AREA OPERATIONSCONCEPT OF OPERATION

Resupply requirements are laid on the S-4 representative with the Battalion. These, along with normal resupply items, are ordered from S-4 Stud. At Stud, the orders are broken into two groups: first, items that can be filled from the Stud LSU, are filled and sent by helicopter to the Battalion position; second, items that cannot be procured at Stud (normally Class II items), are ordered from Dong Ha S-4 Rear. These items are sent from Dong Ha to Stud by truck, then flown to the Battalion.

PROCUREMENT OF VEHICLES AND DELIVERY OF GEAR

From 3/4 Rear to Stud, transportation is by 9th Motors trucks which are fraged through Division Motor Transport from S-4 Rear by 1800 the previous evening. Gear going to S-4 Stud is escorted by 3/4 personnel who are responsible for the gear. One man is given the overall responsibility and is given a manifest list of gear and personnel which is turned over to the S-4 Stud representative.

Helicopters from Stud to the Battalion position are fraged by 3/4 Stud S-4 personnel by 1800 the night before through 1st Marines S-4. If at all possible gear is flown externally direct to the Battalion position. Passengers are manifested directly to the Battalion position and an NCO is placed in charge of the group with a manifest list which is turned over to the S-1 representative with the Battalion.

REPORTS

From S-4 Battalion position, a daily ammo count on select items is called directly to Task Force Hotel (as per 1st Marine directives). Weekly, a Cofram ammo report is called to Task Force Hotel, consisting of the number of rounds within the Battalion, number used (plus noteworthy results), and number received on resupply.

Normal Battalion and division reports are prepared and submitted from S-4 Rear.

LOCATIONS AND RESPONSIBILITIES OF S-4

3/4 S-4 Rear (Dong Ha Combat Base)
 1 S-4 Officer, 1 Logistics Chief, 1 S-4 Clerk

SECTION VICOMMUNICATIONS AND ELECTRONICS1. Radio

a. The Battalion maintained stations on the following radio nets while on field operations during May 1968:

Regt TAC #1 (FM)	Co "I" TAC Net
Regt TAC #2 (FM)	Co "K" TAC Net
Bn TAC #1 (HF)	Co "L" TAC Net
Bn TAC #2 (FM)	Co "M" TAC Net
Bn Admin (FM)	81mm Mortar conduct of fire net

b. The Battalion Rear at Dong Ha maintained a station on the Battalion administration circuit and one on the Battalion TAC #1 (HF) between 1 - 15 May, but it was found to be of no significant advantage.

c. Supporting arms circuits for air and artillery were employed utilizing FM equipment.

2. Wire

a. The Battalion Rear at Dong Ha maintains wire communications for administrative purposes and provides two trunks to the 9th Marines

b. The Battalion maintained an extensive CP wire system at Hill 689 and Hill 552 including links to each rifle company.

3. Radio Relay. An AN/TRC-27 circuit was employed between Hill 689 and the Khe Sanh Combat Base maintained by 1st Marines.

4. Power. Power for the Battalion Rear at Dong Ha is provided by the 11th Engineers.

SECRET

SECRET

SECTION VIIFIRE SUPPORT COORDINATION

1. During the month of May, while 3/4 was operating in the Khe Sanh area, artillery support was provided by 1/11.
2. While operating in the Khe Sanh area, forward observers in support of 3/4 called in 609 fire missions and expended 9,050 rounds. An additional 4,500 rounds were expended on 903 H&I's and 93 TOT targets.
3. The following is a summary of artillery support during the month of May:

<u>Battalion</u>	<u>Fire Missions</u>	<u>Rounds Expended</u>
1/11	609	9,050
<u>Battalion</u>	<u>H&I's</u>	<u>Rounds Expended</u>
1/11	905	4,128
<u>Battalion</u>	<u>TOT</u>	<u>Rounds Expended</u>
1/11	93	372

4. Prep fires for company operations and platoon patrols were used extensively. These prep fires were also supplemented with 81mm mortar prep fires.

Co "A" - during the month of May called in a total of 18 prep fires.
 Co "B" - during the month of May called in a total of 12 prep fires.
 Co "C" - during the month of May called in a total of 31 prep fires.
 Co "D" - during the month of May called in a total of 7 prep fires.

5. Commencing at 1800 H&I fires were begun to deny the enemy free movement. These H&I's were fired within 200 to 300 meters of combat outposts. There is no way to determine if H&I's destroyed any targets. H&I's are unobserved missions. Also their purpose is not to destroy targets but to harass the enemy and to interdict his freedom on the trails and infiltration routes.

UNCLASSIFIED

~~SECRET~~SECTION VIIIAIR SUPPORT

1. During the month of May, the weather was good for all 3/4 air support.
2. Fixed wing support was requested daily. While 3/4 was located in the Khe Sanh area, the terrain and observation offered excellent opportunity for 3/4 to employ fixed wing support. Fixed wing strikes were called in support of 3/4 units in contact and in direct support of pending sweeps by units of 3/4. While flying in support of units in contact, flights of F-4's, A-4's and F-8's were used. These aircraft proved very effective in aiding 3/4 in clearing out pockets of enemy resistance and in preventing enemy reinforcement of units in contact with 3/4. Fixed wing strikes in support of 3/4 tallied many NVA confirmed, NVA probable and bunkers destroyed.
3. During the month of May, 3/4 requested 208 med-evacs, using 208 helicopters. Many times during this period of time, med-evac aircraft were requested into somewhat dangerous LZ's to pick up seriously wounded personnel. Without the assistance and devotion to duty of our helicopter pilots, many Marines might have died.
4. During May, 72 requests were submitted for AO aircraft. Through the AO, 3/4 was able to direct artillery, mortars and fixed wing strikes against the NVA. The AO's were instrumental in spotting enemy troop movements and fortifications and were able to adjust artillery and mortar fire upon them. Without the valuable aid of the many AO flights, 3/4 would not have been able to accomplish their mission without suffering heavy casualties.
5. During the month of May, 3/4 received 159 TPQ's of which 20 were emergency. These strikes were instrumental in stopping enemy resupplies and in destroying enemy positions.
6. During the month of May, 3/4 conducted four troop lifts, three involved one company and the other two companies.
7. The following is a summary of air support for the month of May:

a. Fixed wing	75	Controlled by AO/FAC
b. AO aircraft	73	Controlled fixed wing, mortars and reconned routes in support of 3/4
c. Med-evac	208	
d. Troop lifts	4	Helicopters CH-46 were used to lift a total of 708 troops.
e. TPQ's	159	TPQ's were conducted, hitting artillery positions and harboring sites.
f. Flare ships	1	On 16 May, flare ships were used.

SECTION IXMEDICAL AFFAIRS

1. 3/4 maintained two medical positions in May: a forward BAS on Hill 689 and a rear BAS at Dong Ha.
2. There were approximately 500 patients to visit the forward BAS, in addition to casualties resulting from hostile action. A small epidemic of viral gastroenteritis occurred in the latter half of the month. No new cases of malaria were reported. There were only two new cases of venereal disease (both post R&E). Battalion morale was judged to be very high.
3. Med-caps were not conducted this month due to the adverse location of the forward BAS.

SECTION XI

PROBLEMS ENCOUNTERED AND LESSONS LEARNED

1. When sending out LP's for night security, many tactical considerations must be taken into account: limited knowledge of the terrain due to darkness and the use of supporting arms. Once the LP has set in the 81 mortars are laid on the LP's position with north being 12 o'clock. If the supporting arms are to be used, adjustments are made by the clock system and distance (i.e. 6 o'clock, 200 meters).
2. Under combat conditions it is imperative not only to tend to the needs of the casualties but also to ensure a constant, timely and accurate check on personnel. Constant attention to accountability while on patrol is mandatory starting with the fire team and squad leaders. When casualties are incurred, the small unit leader must know which of his men are walking wounded, which have been evacuated, and effectives remaining. Accurate lists of those evacuated by helicopter must be maintained requiring designation of one person solely responsible for this function in the LZ.
4. Within the Khe Sanh area, the enemy is well dug in and uses maximum camouflage. He will let a patrol get right on top of him before initiating contact. Companies in this Battalion utilize a broad point squad approximately 100 meters in front of the main body, thus enabling the point squad to detect the enemy and initiate contact before the main unit is exposed.
4. The enemy is well dug in and while an attacking unit calls in air support, he will stay down until the planes have dropped all their load. After the planes have finished their runs, this Battalion will have the planes continue to make passes in order to keep the enemy down and allow the attacking unit to move quickly in on the enemy utilizing the deceptive runs of the planes.
5. It was found that the OP on the northwest side of Hill 689 could hear the pop of the enemy mortars prior to the round impacting. In order to utilize this warning to the advantage of all personnel on Hill 689, as soon as a pop was heard, the OP would notify the FSCC who in turn would blow a whistle thereby giving all individuals within the Combat Base approximately ten seconds before the first enemy round would impact. Casualties from incoming showed a decline since the start of the whistle warning system.
6. Flash OP's were established by 1st Marines among the different positions within the Scotland II AO utilizing Naval Gunfire FO's. As soon as there was a flash seen, an azimuth would be shot to the point of the flash and immediately called into the Regimental FSCC. With azimuths from two or more positions, the FSCC would compute an intersection, thereby

UNCLASSIFIED

~~SECRET~~
UNCLASSIFIED

getting an accurate fix on the enemy's position. The flash OP on Hill 689 did not work as expected due to the terrain, but the system was feasible and workable.
