NARRATIVE SUMMARY

During the month of August the Battalion's operations were concentrated in the Eastern portion of the 7th Marines A.O. Operations were characterized by small unit patrols and ambushes aimed at limiting enemy movement through the area and denying him access to the populated areas and denying his sources of supply. By extensive use of saturation patrols and combining forces with RFs, PFs, National Police field forces, Armed Propaganda Teams and local village officials, numerous small unit contacts were made. Results of these activities are considered excellent. During a high threat period which included the Government of Vietnam elections, no major incident occurred in the Battalion A.O. largely due to the effectiveness of the Battalion's screening operations. Company D went OPCON to 2/1 at 291200H Aug 70 and remained detached on the last day of this chronology report.
