PART IINarrative Summary

During January the Eleventh Marines continued to provide supporting fires for the defense of the Danang vital area and for search and destroy operations in the 1st Marine Division Tactical Area of Operations. Fire support was continued for Rough Rider convoys, reconnaissance teams, Combined Action Platoons, ARVN and ROK forces and elements of the U.S. Americal Division operating to the South of the 1st Marine Division. Three forward observers were provided for ARVN convoys from the Regimental Headquarters. Two forward observers were provided to the 1st Reconnaissance Battalion to assist recon teams in fire planning and forward observer procedures. They were utilized as members of teams "CHILI PEPPER" and "ICE-BOUND".

In conjunction with the Division's continued northward movement, Battery "E" and Headquarters, 2nd Battalion, 11th Marines displaced to the vicinity of PHU BAI (YD 8812). Provisional Battery QUEBEC was activated at AN HOA (AF 876472) to provide fire support for USMC, ARVN and Reconnaissance forces. The 3rd Platoon, 1st Armored Amphibian Company (5 LVTH-6) displaced to vicinity of HOI AN (BT 110581) in direct support of the ROK Marines. The Eleventh Marines assumed operational control of the 1st

Field Artillery Group, 1st Battalion, Eleventh Marines and the 1st 155mm Gun Battery (SP) from the Twelfth Marines.

A total of 34,088 missions were fired by the 11th Marines expending a total of 122,829 rounds. Elements of the Regiment supported Operation AUBURN.

Counter-rocket firing drills were continued six to twelve times nightly on pre-cleared suspected positions. Additionally, an average of eight chart drills were conducted unannounced each night by the OP's in our southern area to test the abilities of the three participating FDC's to quickly compute accurate coordinates of rocket firing positions.

Four 122mm rocket attacks against the Danang Vital Area were instigated by the communist insurgents during the month.

On 3 January, 620 rounds of accurate counter rocket artillery fire was delivered on the rocket firing site within two minutes. Inspection of the firing site revealed four NVA KIA.

On 7 January, rockets were fired at the 8" Howitzer Complex (AT 92-79) and the Force Logistic Command (AT 9579). A total of 235 rounds were fired on the firing site and 2,257 rounds were expended interdicting routes of egress. An inspection of the remote firing site revealed four large blood spots, bandages, bloody clothes and parts of one body.

A total of three rocket attacks from three different firing sites occurred on 30 January. Accurate artillery fire was delivered on two of the firing sites which later revealed nine rocket motors and twelve warheads abandoned. The third attack was launched from a firing site approximately 500 meters from an Infantry Company patrol base and fires from the infantry manned crew-served weapons immediately terminated the attack.

The final rocket attack occurred on 31 January. A five ray inter-section was obtained and accurate artillery fire was delivered on the site within five minutes.

On 16 January, amphibious evacuation of an M109 from the PHU GIA area was completed. Aerial resupply of ammunition to units in the PHU LOC/PHU GIA area was accomplished on several occasions. The major logistics problem continuing is the extreme shortage of M501A1 fuzes for separate loading illumination rounds.

6. Civic Action. Medcaps and emergency medical aid were offered in the hamlet of DA SON. Medcaps were conducted three times a week and medical aid was offered on an on-call basis. The guest house has progressed to the state that all materials are in the possession of the hamlet. Construction will start at the termination of the TET holidays. The project to build a fence around the school yard met with a serious setback when a vehicle crashed into the concrete posts of the gate. Materials are being procured for the reconstruction of the posts.
