Counter-rocket drills continued during the month. Chart drills were conducted unannounced each night to exercise the ability of participating FDC's to compute accurate grids of rocket positions. In addition, counter-rocket firing drills were conducted nightly on possible rocket positions.

The enemy initiated nine rocket attacks during the month. The targets included the 1st Marine Division CP, Force Logistics Command, Deep Water Pier, RVN Ammunition Supply Point, Marble Mountain Air Facility and the 11th Marines CP. The average artillery reaction time for counter-fire during these attacks was approximately three minutes. 11. Results: A fresh grave was found containing 5 KIA NVA/VC caused by fragmentation rounds from artillery or other supporting rounds.  
 0 KIA NVA/VC 0 Structures Destroyed 0 Secondary explosions.

12. Administration Matters

a. Administrative details were covered in a conference prior to the operation.

- (1) Supplies: Supplies were furnished through normal channels.
- (2) Maintenance: Normal.
- (3) Transportation: Transportation was furnished by organic vehicles.
- (4) Communications: PRC-25 radios provided the primary means of communication.

13. Special Equipment and Techniques: None.

14. Commanders Analysis: As in all joint operations, it was found advisable to attach a liaison officer with communication personnel and equipment to the ARVN maneuver battalion. This facilitated clearances and enabled the ARVN requests for fire to be efficiently processed. Due to the brief duration of the operation and an absence of enemy contact there was nothing else of significance on which to comment.

(4) Highlights of Missions Fired and Summary of Artillery Support

(a) On 11 November 1968, Battery "A", 1st Battalion, 13th Marines fired on 3 enemy moving away from a village; 1 enemy KIA was credited to the artillery for these fires.

(b) The majority of the fires during this operation consisted of preparation, counter mortar, and unobserved fires directed against known and suspect enemy locations.

(c) The selective positioning of firing elements of 1st Battalion, 13th Marines proved invaluable during the conduct of the operation. Mortar Battery (-) occupied a position within a fire base in the vicinity of 3d Battalion, 26th Marines CP. and this position provided a significant degree of flexibility in available fire support. Two howitzers of Battery "A" were displaced to the Hill 190 complex in order to extend fire deeper into enemy territory and to decrease the response time necessary to react to the fluid tactical situation.

(d) Battery "M", 4th Battalion, 11th Marines reinforced the fires of 1st Battalion, 13th Marines during the operation and provided the longer range and more destructive fires that were required.
