PART II

NARRATIVE SUMMARY

1. Enemy activity increased during the reporting period as the enemy continued to gather rice to strengthen his men for the upcoming Tet offensive. In the later part of the period increased enemy movement was detected that indicated the enemy was moving to positions from which to launch attacks. Throughout the period the Battalion continued saturation patrols during the day and ambushes at night to deny the enemy access to previously recorded rocket/mortar launch sites.

2. Throughout the reporting period the Battalion also continued its assigned mission that includes: Providing defense of the DaNang Vital Area and adjacent Military Installations, providing security for assigned top/high priority bridges and roads, and preventing movement of enemy supplies and munitions into the AO. In addition a platoon-size OP was established on Hill 270 (AT 866682) with three (3) 4.2" mortar tubes in direct support on the hill.

3. There were two (2) Company-size operations conducted. One was a Reconnaissance in Force operation in the Sherwood Forest area (AT 9070). The second was a helicopter-borne Reconnaissance and Strike operation code-named KINGFISHER. Contact during both operations was light. Several enemy bunker complexes were discovered and destroyed. Two caches of ordnance and miscellaneous clothing and equipment were also uncovered. In addition, two (2) platoon-size Cordon and Search operations were conducted in hamlets in close proximity to friendly positions. Results were negative.

4. From 3 January through 10 January 1970 three (3) companies were rotated through the 1st Marine Division STACK ARMS center at China Beach. The fourth company was cancelled due to increased enemy activity in the Battalion AO.

5. On 20 January 1970, the Battalion assumed responsibility for the following OPs and the adjacent operating areas in accordance with 1st Mar Div msg 090935Z Jan 70: BARRICUDA (943718), MANTA (945721) and PIRANHA (950727).

6. On 13 January 1970 Lt. Col. J.C. GOODIN was relieved as Battalion Commander by Lt. Col. A.J. ORR.

2. INTELLIGENCE

a. Enemy Situation

(1) General Situation at the beginning of the period: With the rice harvest over, the enemy continued to move down out of mountain base camp areas on rice resupply runs. Enemy initiated ground activity was light due to both the offensive action and defensive capabilities of the 1st Battalion, 26th Marines against the enemy.

(2) General situation at the end of the period: During the reporting period, enemy activity continued at a low level, but increased slightly during the last week. The increase in enemy activity has primarily been reconnaissance, counter-reconnaissance, and logistical procurring movement in preparation for the Winter-Spring/Tet Offensive. Enemy counter-reconnaissance efforts were indicated by the seven (7) anti-air incidents within our A.O.

b. Enemy Initiated Incidents/Actions

(1) The OP on Hill 270 was probed on three (3) separate occasions.

(2) At 2000 on 25 January 1970 SHADOW recieved small arms fire from two (2) locations while operating in the vicinity of Hill 270.

(3) On 17 January Hill 41 was probed. Inspection revealed that a claymore in front of bunker #32 (north side of Hill 41) had been turned around.

c. Enemy Losses

(1) Number of casualties: ten (10)

(2) Number of captured VC/NVA: two (2) (Both died after capture)

(3) Equipment captured: 70 lbs. of rice, approximately 15 lbs. of documents, assorted clothing, 782 gear, and munitions.

(4) Individual weapons captured: four (4) AK-47's, two (2) .45 pistols, and two (2) 9mm pistols.

(5) Crew served weapons captured: 0

(6) Detainees: 0

d. Enemy Trends. There have been no significant trends or changes in tactical methods used by the enemy during this reporting period. The enemy seems to be concentrating primarily on reconnaissance/counter-reconnaissance missions in preparation for the Winter Spring/Tet Offensive.

f. Significant Events

DECLASSIFIED

DECLASSIFIED

(1) On 30 January 1970, a Company A activity sprung an ambush and received a heavy volume of return fire. 105mm Firecracker (FQ) was employed as a blocking force on suspected enemy escape routes. No surveillance was available due to the heavy vegetation and terrain. A total of 44 rounds were fired covering the area. The 81mm Mortar Platoon also provided blocking fires. A total of 100 rounds of 81mm HE was fired resulting in one NVA KIA.

(2) During the month of January, Battery A, 1st Battalion, 13th Marines, 4.2 Mortar Battery, 1st Battalion, 11th Marines and 81mm Mortar Platoon fired a total of 118 rounds in reaction to DANang Anti-infiltration System activations.

(3) In support of CACO 2-1 and CAP 2-5-2 the following number of missions and round expenditure was recorded. 81mm mortars fired a total 13 missions and 139 rounds of illumination, 105mm Howitzers fired 76 illumination rounds on four (4) missions. 4.2" mortars fired 88 illumination rounds on five (5) missions.

(4) During this reporting period several changes were made in the supporting ability of the various direct support batteries. The 4.2" Mortar Battery, 1st Battalion, 11th Marines moved its firing battery to OP 270, where it has become an effective deterrent to the enemy's efforts to make any sizeable build up in this area. Battery A, 1st Battalion, 13th Marines has assumed a position at Hill 10 to better cover the AO of 1st Battalion, 26th Marines. The installation of an Integrated Observation Device on Hill 270 will also improve the observer's ability to get accurate data for fire missions.

(5) Numerous grid saturations were employed as H&I fires on high priority intelligence targets. This effectively covered the area and further discouraged the enemy.

5. AIR SUPPORT

a. Units. All direct air support was provided by the 1st MAW.

b. Missions

(1) Resupply - 20 Helo resupplies

(2) Close air support

(a) Number of missions-three (3) flights

8. LOGISTICS

a. Supply/Resupply. During the month of January the policy of force feeding was continued. This enabled the letter companies to maintain a three (3) day reserve of class III and V items, while Hill 10 maintained a twelve (12) day reserve of the same. The letter companies have been drawing a sufficient amount of class I items to enable them to feed three (3) meals per day. Company A and Company C carried with them on their operations a sufficient amount of long range rations for three (3) days and a three (3) day supply of ammunition. This command's outpost at Hill 270 is resupplied by air twice a week. Outpost 270 has been supplied with wire, culvert material, and engineer equipment by air.

b. Food/Water. The battalion messhalls; Hill 41, Fire Support Base SIXSHOOTER, and Hill 10 were utilized by letter companies when applicable. Company A and Company C were issued long range rations, SP packs, MCI's, and juice. Noon meals at the Hill 10 messhall has been temporarily cancelled due to a faulty drainage system. At the Hill 41 cantonment the company is presently existing with the water provided by the Regimental water tanker. However this means of resupply has proved unreliable due to many breakdowns. Water trailers are used as a emergency back up. An engineer request was approved by Division in December for a water point to be constructed at Hill 41. Outpost 270 is resupplied by air utilizing water trailers.

c. Maintenance. Due to the inability to obtain sufficient motor transport spare parts at all echelons, a number of vehicles were deadlined on a NORS basis. Transmission seals for platform trucks were obtained on a walk through basis alleviating part of the problem. One (1) M-151 vehicle is deadlined pending investigation. This command remains in a C-1 state of readiness, with 85% of its equipment operationally ready.

d. Embarkation. Unit Cargo Manifests for all sections have been submitted and have been coded. The MDS portion of embarkation is up to date and the data is correct. Boxes are marked properly to coincide with the Unit Cargo Manifest. This command is prepared for embarkation both materially and administratively.

e. Camp Facilities Development. The battalion messhall has been screened and a new chapel has been constructed at Hill 10. The entire cantonment is in the process of being renovated by 1st Engineer Battalion. SEA huts have been constructed and rebuilt. Urinals have been constructed along with burn-out type heads for the indigenous personnel working on the hill. Bunkers have been torn down and replaced by twenty-three (23) two (2) man fighting positions. Wire has been erected around this command's positions on Hill 10, Hill 41, Cobb Bridge, and Outpost 270. A gatehouse at Hill 10 has been built to facilitate two-way traffic control at the main gate. One (1) Bulldozer was temporalily procured to improve the tactical security of Hill 10, and Hill 41. Outpost 270 has been supplied with engineer equipment and materials to secure its position and is equipped with a night observation spotting device. Fire Support Base SIXSHOOTER is being dismantled; Alpha Battery, 1/13 is relocated to Hill 10. Engineer requests have been submitted to repair the drainage and plumbing system in Hill 10's messhall. It has been requested that personnel from 7th Engineer Battalion construct a lighting system to consist of fifteen (15) "See-Mor" lights with five (5) back up lights on Hill 10. It has been requested that bridge gates be constructed at Cobb Bridge in order to improve the tactical security of that position. It has also been requested that ten (10) burn-out type wooden heads be constructed to meet the current sanitation requirements of this cantonment.

9. NEW TECHNIQUES. There was nothing significant during this reporting period.

10. TRAINING

a. A total of 22 newly joined personnel attended indoctrantion classes.

12. COMMUNICATIONS

a. Radio. 220001H all radio circuits were activated on a full time crypto system. This is an increase of monthly BA-386 battery usage from 1000 to 3000.

(1) An increased effort for proper radio procedure was made throughout the entire month, resulting in satisfactory performance.

(2) Frequency problems for the 81mm COF was experienced on 29 January but solved by obtaining a new frequency from Regiment.

b. Radio Relay. Regimental Headquarters continued to support 1/26 with a Radio Relay Team. Two (2) common user lines, as well as a COC&FSCC to COC& FSCC were operated from the Battalion to Regiment. Occasional aligment difficuties were encountered but swiftly corrected. On 22 January helicopter rotor wash knocked down the antenna on Hill-10. This was repaired after a delay in obtaining repair parts from Regiment.

c. Wire. All bunker lines were installed and cabled back to H&S COC. The line to Hill-41 was cut on two (2) seperate occasions but quickly repaired by an efficient trouble shooting crew. Barbed wire was wrapped around each individual pole to disinterest any would be line cutters.

d. Maintenance/Supply. All dry cell battery supply continues to be handled by Communication Section Supply. Due to our increased requirement for BA-386 batteries, a closer supervision for timely resupply to sections has been initiated with significant success. Requisitions are being filled faster, and resupply has largely improved.
