INTELLIGENCE

HUE-PHU BAI TAOR

1. Enemy Situation at Beginning of Period

a. The enemy continued close contact with friendly forces employing small arm harassing fire, mortar attacks, booby trap tactics and road interdictions by the use of mines.

2. Significant Activities

a. The enemy increased his mortar attacks (17), within the 2/26 area of responsibility with CAC H-6 being the prime target.

b. The enemy interdiction of Highway #1 did not increase during this reporting period from the last, however, it was more effective. Highway #1 was mined 7 times and there were 9 attempts at destroying bridges, (2 bridges were completely destroyed).

c. There was 28,900 pounds of rice reported during the reporting period, 22,400 pounds of which was recovered by the National Police. The four primary areas from which this rice was captured are; Thon Nam Phu Can (2) (YD 959041), Thon Luong Van (4), Thon Luong Van (3) and Ap Phu Bai (1) (YD 905116).

d. There were five sightings of 50 or more enemy troops within the 2/26 area of responsibility. The majority of the movement was on the western side of Highway #1 and the direction of movement was in either a northwesterly or northeasterly direction. The location of these sightings were: (YD 905101), (YD 924081), (YD 955057), (YD 942032) and (ZD 065011).

e. Recent PW and Chieu Hoi's indicate the presence of 3 new units now located outside the general vicinity of the Phu Bai Vital Area. The 802d Bn (AKA; K.2, AKA; 1st Bn/9th Regt) is reportedly located in Nam Hoa mountains; C-19 Engineer Company and the C-24 Sabotage Company, both subordinate to the 9th Regt (located in Base 101), however, now reported to have been detached and sent to the southern Thua Thien mountain area to join a 4th Regiment. Rallier. Trang of the C-19 Engr Co., stated that the latter two units were moving east from the Bach Ma Road in the vicinity of (ZD 0898) on 11 Oct 1967.

3. Summary of Enemy Activity

a. The first half of October was characterized by the extensive harassing attacks. Especially significant were the VC/NVA initiated activities of interdicting route 1 and mortaring of CAC compounds.

b. The bridges or culverts, at or near the following locations, were blown: (YD 926102), (ZD 137010), (ZD 167011), twice, (ZD 076010), (ZD 071011), (ZD 098006), (ZD 056025), and (AU 851001).

DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

c. The mining of Route 1 has decreased significantly in the month of October from the previous reporting period.

d. Incidents of harassing mortar attacks have been limited to the southern area of Phu Loc District; although the number of incidents was not significantly increased, the intensity of the attacks were. It is significant to note that the following mortar attacks took place primarily during the first ten days of the month: (ZC 139009), 30 rounds; (ZD 134000), 5 rounds; (ZC 108-994), 22 rounds; (ZC 100986), 2 rounds; (ZD 152001), 3 rounds; (ZD 139009), 7 rounds; and (ZC 159902), 7 rounds.

2. The above mentioned activities substantiated an agent report that the VC/NVA were going to launch a two phase attack during the month of October. The first phase, from 1-10 October, was to include the launching of harassing ground/mortar attacks against isolated US/ARVN outposts coupled with blowing bridges in an attempt to interdict Route #1. The second phase from 8-15 October, was to consist of the launching of an all out ground attack against a major US installation or against the City of Hue. Recent reports indicate that the second phase of the operation has been postponed as a result of the weather and the change in disposition of local Marine units, although reports indicate that attacking units are presently on a stand-by status.

e. Interrogation reports/or Chieu Hoi's and PWs continue to indicate that the morale of the local VC is extremely low due primarily to the severe shortage of food and the harsh conditions in which they have to operate. It is interesting to note, however, that reports indicate that the NVA units are adequately supplied in "hard" material, that their morale is imparatively high, and that they are anxious to engage in battle. A total of 2 PWs, 4 Chieu Hoi's were recorded during this reporting period; 14 weapons were also captured.

f. The NVA have not conducted any major or significant acts of terroism or sabotage in the period immediately preceeding the 22 Oct elections, however, the successful blowing of the bridges at CAC A-3, CAC H-1 and the Phu Loc Dist HQ's will undoubtedly be used in their propaganda war against the Allied Forces.

4. Enemy Personnel and Equipment Losses

KIA (C)	14
KIA (P)	24
PW	1
DET	37
WPNS	14

5. Weather and Terrain

a. In general, the weather had no adverse affects on operations. However, a considerable increase in precipitation was recorded, 15.03 inches, (an increase of 5.31 inches), in the form of short rain showers. The rain showers occurred on 19 days during the reporting period, 4 days less than September.

TRAINING

1. Training in the battalion during the month of October emphasized those particular subjects designated as priority and the zeroing of new personnel joining the battalion.

NCO school commenced and companies designated as Sparrow Hawk conducted classes.

2. Classes Conducted

a. Priority subjects taught during the month:

(1) M-16 Rifle

(2) Ambush and Counter-ambush.

(3) Patrolling.

(4) Principle of leadership.

(5) Vietnamese Religion and Customs.

b. Other training conducted included:

(1) CIT class on handling POWs

c. Lesson Plans were submitted prior to each class and reviewed by the S-3 section. Subsequently a member of the operations section monitored at least one class a day. A significant improvement in our training has been noted.

d. Zeroing of the M-16 Rifle for 205 new personnel was conducted at the Vietnamese Army Training Center at Dong Da (Phu Bai Area) during October. All zeroing was done on established ranges.

3. Formal Schools

a. Seven Marines attended Formal School training.

(1) One CPL and one L/CPL attented NCO School.

(2) One CPL attended Crypto School.

(3) One 2nd Lt. attended Military Justice Course.

(4) Two CPLs attended Embark School.

(5) One L/CPL attended Infantry Weapons Repair School.

SECRET

NUCLEAR, BIOLOGICAL, CHEMICAL and other SPECIAL TYPES of WARFARE

1. NBC and other Special Types of Warfare.

a. During October all the NBC teams as required by Battalion Order 3400.1A were formed.

b. A training schedule was drawn up by the Battalion NBC Officer and NCO containing Lesson Plans and schedules.

c. The training schedule has been distributed to the companies who have begun classes on Chemical Warfare.

d. Because of the tactical committments of the Battalion it is anticipated that it will take a good deal of time until a satisfactory degree of training is achieved.

DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

COMMAND AND CONTROL

1. Command and Control

a. Mission. During the period 1 Oct to 31 Oct 1967 the Battalion was assigned the following mission.

(1) Support the defense of the Phu Bai Vital Area, Combined Action Platoons, National Route #1, and conduct offensive operations in the Phu Bai TAOR and adjacent areas.

(2) Maintain close operations coordination with CAG Phu Bai with emphasis on security and support of RD activities.

(3) Conduct rice denial operations in coordination with appropriate government officials.

(4) On order provide security forces for scheduled Rough Rider operations.

(5) Maintain close operation coordination with Base Defense Coordinator, Phu Bai.

(6) During daylight hours maintain Sparrow Hawk reaction force on fifteen minute alert.

(7) On order conduct planned program of County Fair operations.

(8) Maintain rapid reaction capability to counter enemy attacks against low-level government structures.

(9) Conduct security operations along Route #1 (Phu Bai to 1st MarDiv Boundary) in support of MCR upgrading project.

(10) On order provide security for hydrographic and/or topographic being conducted in areas contiguous to Phu Bai TAOR.

(11) Support as required combat operations being conducted in areas contiguous to Phu Bai TAOR.

(12) Maintain OPCON one attached rifle company (Rein) as security for Nam Hoa Rock Crusher and Bridge.

b. Task Organization: During the reporting period the Battalion was Task Organized basically as follows:

2d Bn, 26th Marines (Rein)	Lt Col B. D. CHAPLIN
H&S Co	1st Lt R. A. KAROLY

c. COMMAND POSTS

(1) The companies were deployed in three general areas during October.

(a) The company working the southern sector of operation which extended to the 1st Marine Division boundary had its' CP at the Phu Loc District HQs.

(b) The company assigned the northern sector of the Phu Bai TAOR usually located its' CP at the Combined Action Platoon 2, Hotel Company because it is centrally located for control purposes.

(c) The company assigned road and bridge security throughout the Phu Bai TAOR located its' CP within the Phu Bai TAOR because of the necessity to coordinate with various supporting agencies.

d. Attachments and detachments: Lima Company, 3d Battalion, 26th Marines OPCON.

e. Control

(1) All companies are controlled by radio and/or land line from the Combat Operations Center located within the Phu Bai Vital area. Three companies which were deployed in the field and guarded the Battalion Tac net and could also communicate with Headquarters via the Combined Action Platoons located within their sector of operations. One company remained in the Phu Bai Vital Area during the day, providing Sparrowhawk (reaction/exploitation force) and communicating by land line. At nightfall the company deployed around the Phu Bai Vital Area providing

SECRET DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

SECRET DECLASSIFIED

ambush sites between 500 and 1500 meters from the protective wire. Once deployed, the company guarded the Battalion Tac net.

(2) The primary difficulty of control is inherent in the mission assigned. In order to provide saturation patrolling throughout the Phu Bai TAOR, units must be spread over relatively large distances. Therefore, radios on occasion have difficulty reaching the COC, causing us to relay from OPs located on high ground in the TAOR.

f. Problem Areas

(1) There are two problem areas.

(a) The weather has caused us to rotate our companies more often than desired. This problem is encountered only with the advent of the monsoon season.

(b) Mobility is another problem area. Due to the size of the TAOR, limited helicopter support, availability of trucks and distances involved, it is extremely difficult to mass sufficient troops to meet threats or targets of opportunity. Added flexibility and mobility would greatly improve our ability to accomplish our mission more effectively.

SECRET DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

CLOSE COMBAT

1. Close Combat

a. Operations conducted

(1) Patrols

(a) Saturation patrolling by platoon and squads was conducted throughout the Phu Bai TAOR pursuant to our mission. Platoon patrol bases are established during daylight with squad size patrols radiating from the base. At darkness each platoon breaks into units of 15 to 20 men for ambushing and moves clandestinely into pre-reconnoitered ambush sites. Squad ambushes are utilized in order to provide greater coverage within the TAOR. See enclosure (1).

(b) The employment of the claymore mine has improved as the Marines become more familiar with their use and capability. One ambush conducted by Co F on the night of 30 October achieved excellent results by initiating an ambush with claymores. The results were 3 KIA(c) and 3 KIA(p).

(2) Operations

(a) One platoon operation was conducted by Lima Co 3/26 which is under OPCON of 2/26. A blocking force and sweep force were inserted by rubber boats across the Song Huu Trach and Song Ta Trach River. The subsequent sweep of the peninsula brought negative results. See enclosure (2). Platoons often employed their three squads in ambushes which were in close proximity and mutually supporting. The Platoon Commander was centrally located inorder to control all three squads. An example of such employment and resulting success was the night of 6 Oct. 12 VC hit the 2nd Squad, 1st Platoon, "F" Co and were taken under fire. As the VC broke from FAS they hit the 3d Squad which also fired forcing the VC into the 1st squads position. After the fire fight a sweep of the killing zone revealed 4 KIA(c) and 2 KIA(p). Also many weapons were captured. Only one Marine was wounded. See enclosure (1).

(b) A company size rescue operations was conducted from 10 to 14 Oct. An Airforce C-130 crashed on a mountain about 15 miles south of Phu Bai. E Company was committed by helicopter and landed below the mountain. The company moved all afternoon and when darkness set in the company commander requested aerial illumination and moved to crash site under the illumination. A company minus was also provided for Rough Rider (convoy) security to either Camp Evans or Dong Ha as the primary infantry security element. On 13 October, "F" Company was employed for road and Bridge Security along National Route #1 throughout the Phu Bai TAOR because four bridges were

DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

S E C DECLASSIFIED

destroyed by the VC in a one week period. See enclosure (3) and (4). A brainstorming session was conducted by the S-3 with company commanders and other experinced officers inorder to determine means to protect a bridge. The results provided quidelines for requesting additional support for F Company to be employed on the Bridges. See enclosure (4) to (5). The security provided by "F" Company with such additional support as sentry dogs, SID's, generators and lights, barbed wire and VN National Police proved very successful.

(c) The sole Battalion operation was our participation in Operation Liberty II which lasted from 18 to 23 October. This operation was designed to prevent enemy interference with the National Vietnamese elections by interdiction and denying enemy access to populated areas on Route #1. G Co secured the LZ for the SLF the night before the actual landing. The SLF 2/3 landed on 17 Oct and conducted similar operations in adjacent TAOR. See enclosure (6).

(d) One joint operation was conducted between 23 to 29 Oct in conjunction with the Vietnamese National Police. On 19 October the S-3 and S-3A made liaison with Mr Jack SANDERS and Mr Ray HARKINS, the American Advisior to the VN National Police in Hue. The following VN forces were promised for joint Cordon and sweep operation:

2 squads, National Police - 24
2 Platoon, NP Field Forces - 80
2 squads, Special Branch - 24
(Assgd at Infra structure)
2 squads, Resources Control - 24

An area within the Phu Bai Vital Area was obtained and ten CP tents were erected inorder to house the VN forces which arrived by VN vehicles at 231500H Oct. Other logistics support was provided as necessary. A briefing tent was also erected containing full map and aerial photo coverage of the areas of operations. A briefing was conducted for NCO's, SNCO's and officers of the Marine units participating. The VN National Police officers were briefed by their American Advisors. See enclosure (7). Two Marine companies were to provide the cordon on alternating days during a six day period. All cordons were established prior to the VN National Police moving in for the search. Six areas adjacent to the Phu Bai Vital Area were targeted for the cordon and search operations. See enclosure (8). The first operation commenced at 0500 24 October in the villages of Xom Con Tan and Thon An Mongi. The first Operation produced many problem area but these problems were solved one by one as we progressed through the six objectives. Upon conclussion of the joint operation both sides were very proficient at their individual functions. Numerous rice caches were uncovered totalling many tons of rice. The

S E C DECLASSIFIED

DECLASSIFIED

DECLASSIFIED

UNCLASSIFIED

village chiefs of the respective village where the caches were found were contacted by the S-5 and he requested that the rice be centrally stored for security reasons. We achieved success in this area also. Several draft dodgers and Vietnamese indicated on the Black list were also uncovered and sent to jail in Hue. With the success of this pilot program we hope to run additional operations with the VN National Police in the near future. A letter of appreciation was forwarded to the Chief of the National Police in Hue.

B. Signficant Events:

01 Oct 67 At 0430H, received info from Division COC that VC mines destroyed culverts at ZD 059021, 100% destroyed. (ARVN's repairing) At ZD 070012 80% destroyed (Marines repairing) At AU 846001 60% destroyed (ARVN's repairing). All are impassable.

At 0645H, Company G vic ZD 095007 received total of 30 82mm Mortar Rounds, 6-57mm RR Rds, 300 .50 Caliber, and 400 Rds SAF from vic ZC 095982-ZC 100983. CB's had two vehicles damaged and 1 CB WIA. 3 USMC WIA (minor) ARVN's reported 1 KIA and 12 WIA, 4 ARVN vehicles were damaged. Company G fired 56 Rds counter-mortar plan and ARVN's fired 30 RDS 105's. Company G patrol sent to area following air strikes and found 1 57mm RR position with 6 expended Rds and six fighting holes.

At 0807H, 2/26 Minesweep vic ZD 052026 made contact with 15 VC with 2 automatic weapons vic ZD 053024. Minesweep security returned fire, enemy fire ceased. Continued with minesweep, when point reached bridge at ZD 056025, VC blew bridge, at this time received 10-15 rds sniper fire from vic ZD 052012. Returned fire with .50 Cal. and M-60 MG's. VC broke contact. Results: 3 USMC WIA. At 1010H, CB's made road passable.

At 1100H, CAC-H7 checked bridge at ZD 198013 finding North side of bridge was blown. Middle and right pillars also were blown. Bridge Commander reported a large explosion and received 2 M-79 Rds. and much SAF and AWF from North. Fire was returned. VC broke contact. Searched area with negative results. Bridge impassable for large trucks.

At 1345H, CAC-H5 patrol made sweep checking homes and boats on river vic ZD 081034, finding 4 VN Males, which were checked by PF and village police and found to be a Draft-Dodger. Detainees taken to District HQ at Phu Loc.

At 2055H, CAC-H8 patrol ambushed 5 VC vic YD 966043. Results: 1 VC KIA(c) and 1 automatic weapon captured.

UNCLASSIFIED

DECLASSIFIED

DECLASSIFIED

UNCLASSIFIED

02 Oct 67 At 1145H, 2/26 Minesweep reported bridge at AU 851001 was blown. Bridge impassable.

At 2230H, CAC-H3 obtained 3 detainees at ZD 141009. Detainees turned over to ITT at CAC-H6 position.

03 Oct 67 At 0200H, CAC-H6 vic ZD 189009 received 6 60mm Mortar Rds at ZD 134000 and about 20 SAF, resulting in 1 PF WIA. MedEvaced.

At 2300H, Company H patrol spotted 175 VC moving NE at YD 905101. Rear security of ambush spotted VC, but were unable to move ambush position in time to engage VC. VC were carrying rifles and rice baskets. Area swept at first light with negative results.

04 Oct 67 At 0315H, CAC-H1 reported bridge at YD 926103 was blown. Bridge impassable to vehicles. Area swept with negative results. 2 USMC WIA (minor).

At 0430H, Company F detained 1 VN male who walked into their ambush. Detainee turned over to CIT.

05 Oct 67 At 1145H, CAC-H2 PF on watch spotted 2 people on road vic YD 934085 without ID cards who had large amount of money. Detainees turned over to CIT.

At 1700H, CB Security (G/2/26) detained 2 persons at ZD 114013. Detainees turned over to CIT.

At 2220H, Company G ambushed 3 VC at YD 909110. VC returned fire and broke contact. 2 USMC WIA. MedEvaced chopper returning to Phu Bai received 5 to 10 Rds SAF from YD 899126 at 052315H and crashed at YD 902120. 1 USMC WIA. These chopper evacuated all on board. 2/26 dispatched a Plt to provide security for downed chopper. Chopper pick-up completed by 061600H and security element returned. Company F swept area and found 1 NVA helmet, various items of 782 gear, and 1 bloody battle dressing. 1 VC KIA (p).

06 Oct 67 At 0200H, CAC-A3 patrol went to bridge on Highway #1 YD 913117, after hearing PF's firing. PF's had spotted bubbles in water. Area checked with negative results. As CAC-A3 patrol was returning to CP more firing was heard. Patrol returned to bridge and spotted bubbles. 7-M26 grenades were dropped and M-16 rounds were fired into water again with negative results. Patrol left the bridge at 0240H and at 0245H the bridge was blown. Bridge impassable.

At 0800H, 3d Recon Bn patrol came under SAF at YD 915058. Company F came to aid of Recon assisted in Recon MedEvac and reinserted Recon. Swept area with negative results. 1 USMC WIA.

LOGISTICS

1. Logistics

The attachment of "L" Company, 3/26 to the battalion and the need to support them with various classes of supply, placed an additional demand on Battalion Supply during the month of October. A continued effort to obtain critical items for deadlined equipment was also sustained during the month. The monsoon gear has started coming in. To date, we have received the rain-suits, space heaters, and shower shoes. Four-hundred and forty-seven new buffers for the M-16 were received and installed. One hundred more are needed and have been requested. Cleaning material, most notably, bore brushes, remain in demand. In the way of repair parts for the M-16, extractors are presenting a problem lately. Magazine assemblies for the .45 cal pistol were obtained in the quantity of 100, but outstanding requisitions for 100 more, as well as those for M-16 magazines continue to be unfilled. A total of 32 compasses were received, thus taking this item off a critical listing, but not lessening the importance of eliminating the existing deficiency. Requisitions for seven PRC-25's and one 60mm mortar base plate continue to be outstanding. Light weight jungle utilities were obtained this month in sufficient quantities to equip nearly every man with two pair. We are now attempting to make this three pair. Socks were also obtained but in limited quantity. Maintenance situation for the month of October remains in poor shape. There are 15 vehicles on 3rd echelon deadline and 9 on 2nd echelon deadline. The primary cause of continuing deadlines is still the lack of repair parts support. Many man hours have been put into the contonement area in an attempt to ready it for the monsoon season. The availability of trucks for household and resupply purposes has been a problem at times. There have been very few problems in procuring transportation for tactical movements. Requests for helicopter support for resupply missions have been met But for reconnaissance missions some difficulty has been encountered.

COMMENTS

The 2d Bn, 26th Marines FAC is assigned to District Headquarters located at Phu Loc, where he controls the FSCC and coordinates the activities between the 3d Marine Division and the 1st Marine Division TAOR. Also he coordinates and clears operations conducted between the ARVN and the Marines operating in the 2/26 TAOR.

The ALO assigned to 2/26 acts as the Air Coordinator, clearing any air activity within the TAOR. He coordinates resupply, recon/admin and medevac to the various positions throughout the TAOR both by helicopter and truck. In addition to this the ALO acts as one of the COC Watch Officer.

Civil Affairs/Military Government/Community Relations

1. Mission: To conduct a civic action program that will enhance the prestige of the GVN government and to conduct psychological operations to further the efforts of the Government of Viet Nam in re-establishing its effective control over the people.

2. Civic Action Projects and Operations.

a. 1 Oct-31 Oct 1967 the 2nd Bn, 26th Marines was responsible for Civil Affairs in the Village of Loc Tri. During that period the following Civil Action was conducted.

(1) The shower at Cau Hai Hamlet was completed.

(2) Two wells were completed.

(3) Work began on the Convent School.

(4) A Health and Sanitation Program was begun in Cau Hai. The Market Place was sprayed with insecticide.

(5) An English Class was begun with Cpl Hamilton, Civil Affairs NCO in residence at Loc Tri, aiding the teacher at Cau Hai High School.

(6) MEDCAP by the Battalion Surgeon and his staff of Corpsmen treated 218 patients.

b. 13 serious incidents were investigated involving damage to property and injuries sustained by the local population while Marines were conducting operations within this TAOR. Solatiums were paid in varying amounts to all justified claims. In cases where hospitalization was required, gifts were presented by the S-5 staff.

c. A special rice project was initiated involving the centralization of all rice in the various villages in order to maintain security over it from VC/NVA theft.

(1) The Civil Affairs Officer, NCOIC of the various CAP units and local Village/Hamlet officials met to discuss the collection and storage of rice.

(2) Steps were taken to insure that the rice was brought in and properly stored and that security would be maintained over it.

(3) Further liaison with the local population will determine further action to be taken on this project.

DECLASSIFIED

d. A project to protect temples and pagodas from damage was initiated.

(1) A survey was conducted to find the location of all temples and pagodas in this TACR.

(2) The coordinates of these temples and pagodas were plotted on a map. Lists of these coordinates are to be turned in to S-3, 81mm Mortars and other interested parties to avoid unnecessary damage as a result of H&I fire missions or other operations.

(3) A meeting involving individual village chiefs, CAP NCOICs and the S-5 was held to discuss what further measures could be taken to prevent damage and injury to temples and pagodas and the priests tending them.

3. Psychological Operations for the Month of October 1967

a. 8 leaflet drops: 3,050,000 mixed leaflets.

b. 5 aerial broadcasts: 8:20.

c. 13,115 leaflets, newspapers and magazines distributed by hand.

4. Remarks

a. The Civil Affairs NCO in residence at Loc Tri has made contact with all village officials, school teachers, and priests in Loc Tri and has their support. Response to the Civil Affairs Program has been very good. Greater response is expected.

DECLASSIFIED

DECLASSIFIED

SECRET

1. SITUATION

a. Enemy Forces. VC and NVA are structured within populated areas vic Camp Phu Bai to a degree which warrants professional search techniques. Maintenance of their intrastructure to date has been assured by weather and terrain favorable to their activities, searches by Marines armed with inadequate intelligence, an insufficient working knowledge of the Vietnamese language, and a lack of knowledge of the techniques of the professional search. This situation has given the enemy the necessary flexibility to disguise as villagers, to hide their arms, and to plan and execute tactics of lightning attacks, kidnapping, harrassing, and ambushing Armed with weapons including automatic rifles and the 82mm morter. It has been clearly indicated that the current situation also allows the enemy to gain the necessary logistic support and recruiting ability to sustain their ranks in a mass attack upon any portion of the perimeter surrounding the vital area. For additional intelligence information see Bn S-2.

b. Friendly Forces.

(1) National Police - Provide searching and clearing capability within assigned sector of zone of action.

(2) Popular Forces - Continue to provide bridge and strong point security as designated by District Chief.

(3) Combined Action Plateons - Continue to patrol and ambush within TAOR and provide tactical support when called upon.

(4) PRU unit will be operating in Ha Vinh and Thon Bang Min I & II.

(5) Artillery - B-Btry, 1st Bn, 13th Marines continues to support activities in TAOR.

(6) Air - 1st Marine Air Wing continues to provide close in air and helicopter capability to TAOR.

c. Attachments and Detachments -

(1) National Police attached effective 231500H.

(2) Combined Action Plateons attached effective H-hour in each objective.

(3) Counter Intelligence Team - attached effective 231600H.

(4) Interrogator and Translator Team attached effective 231500H.

2. MISSION Defend the Phu Bai Vital Area, Combined Action Plateons, National route #1 and conduct offensive operations in the Phu Bai TAOR and adjacent areas.

(7)

DECLASSIFIED

DECLASSIFIED

3. EXECUTION.

a. Concept of Operation. One company will provide security for National Police [illegible] with emphasis on bridge security. One company operate between [illegible] and the Trom river; on order be prepared to act as a cordon force for a cordon and search operation of Sparrow Hawk when not cordoning. One company operate from the Trom river to the 1st Mar Div boundary. One company will provide Sparrow Hawk on alternating days in the Phu Mai Vital Area. On order be prepared to act as a cordon force for a cordon and search operation. Extensive patrols and ambushes will be used to deny the enemy freedom of movement and access to LOC's. See Annex A (Operation overlay).

b. Co B (Main)

(1) At 1200H 23 Oct the company will be positioned in the Phu Mai Vital area.

(2) Provide the Sparrow Hawk section, on an alternating basis with Co H.

(3) Be prepared to establish a [illegible] around objectives 2, 4, and 5 on order.

(4) Provide ambushes around the Phu Mai Vital Area commencing at 1500H each evening.

(5) Be prepared to provide security for the National Police camp on order.

c. Co A (Main)

(1) Continue present mission of road/bridge security.

d. Co D (Main)

(1) At 0600H 24 Oct move by vehicle to sector of operation; conduct extensive ambushes and patrols within sector of responsibility.

(2) Provide protection for Phu Loc District Headquarters and CAP units in your sector.

(3) Provide sufficient forces to secure national route #1 in your sector.

(4) Be prepared to reinforce units of K Co in their sector of responsibility.

e. Co C (Main)

(1) At 1200H 23 Oct, move by vehicles to sector of responsibility, and conduct extensive patrol and ambushes in assigned sector.

(2) Be prepared to establish a [illegible] around objectives 1, 3, and 6, on order.

(3) Provide Sparrowhawk Company on an alternating basis with K Company.

(7)

DECLASSIFIED

DECLASSIFIED

(h) Provide protection and assistance to CDF's, as necessary, in your assigned sector.

f. Mortar Platoon

(1) At 0300H 24 Oct place one mortar squad at Pha Lee District HQ. The disposition of the other mortars will remain the same.

(2) Sub priority of fire by each squad will be to the company operating within range of each mortar.

g. Pintungnan National Police

(1) Conduct searches of the villages targeted as objectives.

(2) The search will commence once the cordon is in position and there is sufficient daylight.

(3) Return to bivouac area via tracks once search has been completed.

C. At 250100H B/1/13 sector at YD883126 heard voices in front of perimeter. Fired popups sent out patrol to check area and found a hole (tunnel) in front of Post #3 YD884127 going under wire. Tunnel was 4 ft long, 2 ft wide and 1½ ft deep. Checked tunnel with neg occupancy.

D. At 250400H CAC-A1 patrol was walking down trail at YD883163 in a southerly diection wearing flack jackets and soft covers, at about 10 meters E2/2/26 patrol opened fire on CAC-A1. E2/2/26 had two men fire a total of 11 rds, cease fire was called when E2 actual heard CAC-A1 calling medic and fired green popup. CAC-A1 deviated from previouly coordinated parol route which caused them to walk into E2/2/26 patrol. 2/26 was not notified of devation. Results 1 USMC KIA.

E. At 250650H a combined Cordon and Search operation between USMC and Vietnamese National Police commenced in the village of Thon Luong Van (4) coord YD889162 at 250650H Oct and was to terminated in Thon Luong Van (3). The Marines established the cordon at 0530H, moving from night time platoon ambush sites. The NP were trucked from this bivouac site, commencing at 0600H. After deploying on line below the village, the search began. During the course of the search four large caches of rice, totaling 12,000 lbs were discovered at the following coord: YD886169, YD889169 and YD885174. The village chief and asst. village chief were contacted personally by the S-3. The village chief stated that the rice belonged to villagers and the VC did not know where it was nor did they ever get any of it. The families living at each site explained they were either storing it for several persons to be consumed over along period of time, or they intended to feed ducks and chickens. The S-3 and S-5 suggested that all the rice be moved to a secure area near the CAP-A1 compound. However the chief did not agree, saying that he had PF security near most of the storage areas. A squad of Marines were subsequently placed around each
