PART IINARRATIVE SUMMARY1. INTRODUCTION.

a. General. During April 1968, III Marine Amphibious Force Headquarters was located in East Danang, Republic of Vietnam. The average personnel strength was 151,781, an average of 4,584 over the previous month.

b. Activities. III MAF continues to be guided by COMUSMACV Letter of Instruction (LOI 3-66) dated 30 March 1966 in pursuit of III MAF objectives for April 1968.

2. OVERALL EVALUATION.

a. During the month of April, allied forces continued operations to deny enemy units entry into ICTZ; to destroy enemy forces in ICTZ and to deny the enemy the use of supply bases and staging areas for attacks. By the beginning of April, allied troops had definitely regained the initiative and were once again on the offensive throughout the I Corps area. Perhaps the most notable allied achievement of the period was the lifting of the three month siege of the Khe Sanh Combat Base by a multi-battalion Marine Corps/Army/ARVN task force under the operational name, PEGASUS-LAM SON 207. The enemy forces surrounding the KSCB, having suffered heavy casualties from the continuous allied air attacks of the previous weeks, offered only moderate resistance before withdrawing, leaving behind large quantities of weapons, ammunition and material.

b. Second in importance only to Operation PEGASUS-LAM SON 207, was Operation DELAWARE-LAM SON 216, the surprise invasion of the Ashau Valley by elements of the 1st Air Cav Div, 101st Abn Div and ARVN units. This operation, striking at the heart of the large supply complex which the enemy had painstakingly assembled in the valley, yielded an unprecedented quantity of captured weapons and ammunition as well as food, medical supplies and vehicles.

c. In addition to DELAWARE-LAM SON 216, III MAF units initiated a total of nine major unit operations in ICTZ. These new operations included: CARENTAN II (1Apr-); NORFOLK VICTORY (8-19Apr); BURLINGTON TRAIL (8Apr-); JASPER SQUARE (10-14Apr); CHARLTON (12-16Apr); SCOTLAND II (15Apr-); RICE (18Apr-); BAXTER GARDEN (19-26Apr);

(a) Library. On 30 April the library had a total of 12,825 books. Of this total 8,250 were hard bound books of which 8,196 are catalogued. There are presently 575 paperback books on the shelves and 4,000 in storage. The library is closed due to shortage of TAD personnel to support the facility.

(b) Hobby Shops. The Photo Hobby Shop will become operational upon completion of minor construction by public works. The initial shipment of machinery and hand tools for the Woodworking Hobby Shop has been received (1st week of April), however, an inventory of the aforementioned shipment disclosed that two "Step Pulleys" were missing, in addition to several minor hand tools. At present, this machinery is being assembled and when assembly is completed will become operational subsequent to an inspection by a representative of the Fire Marshall. The shortage of the two pulleys will render two of the machines inoperative until such time as the pulleys are received.

(c) Theater. The indoor 35mm theater was operational only nine days during April due to construction work involving the acoustical effects and lighting of the interior of the building. Total attendance for the month was 6,338. The theater is open and fully operational at this time.

On 27 April, technicians from the Pan Pacific Company, the contractor for installation of bowling alleys and associated equipment, arrived in Danang and commenced work on 28 April. A tentative date of 15 June 1968 has been set for completion of the bowling alley and installation of the lanes.

(e) Outdoor Facilities. Tennis, handball and basketball courts are available throughout the day until 1900 hours. All necessary equipment with the exception of handballs are available for temporary loan. Equipment includes: basketballs, tennis balls and rackets, gym shoes, handball gloves, gym shorts, sweat clothes and timing devices. Athletic wool socks are available as a give-away item and rationed to one pair per month for each individual signing the log and showing proper identification.

(f) Gymnasium. The gymnasium was dedicated and

became operational on 21 April. An official opening ceremony was held in the weight lifting room with Lieutenant General R. E. CUSHMAN dedicating the gym. A weight lifting and work-out area is available along with an indoor basketball court, Ultra-Sauna Bath and central supply room for the issuing of athletic equipment, etc. The toilet facility is closed pending the installation of a new sewer system. Temporarily, there are portable, outside heads which are maintained by the Freedom Hill Janitor.

5. INTELLIGENCE.

a. General Enemy Situation. Enemy activity during April increased slightly during the early portion of the month, although the enemy continued to avoid heavy engagements. During the latter part of April, the enemy changed his tactic of eluding friendly forces to one of situating his forces so as to present widely scattered threats to friendly installations, outposts, lines of communications and District Headquarters. He demonstrated heavy resistance to friendly operations, notably in the Tri-Thien Region. In the Khe Sanh area, Operation PEGASUS/LAM

SON 207A terminated with friendly units inflicting 1188 KIA upon the enemy, apprehending nine PW's and discovering numerous weapons caches totaling 539 individual and 184 crew served weapons. Attacks by fire on the Khe Sanh Combat Base decreased significantly, while increasing in northeastern Quang Tri Province. On 10 April, A/1/9 Cav sighted an unknown type tank nine kilometers southwest of Khe Sanh Village. The tank was engaged and destroyed. The presence of enemy armor is an indication that the enemy has not withdrawn all his forces from the area. Enemy activity along Route #9 diminished slightly. The route was opened by engineer elements from Ca Lu to the Khe Sanh Combat Base for two and one-half ton traffic. There was an increase in attacks by fire during the period, directed primarily against friendly combat support and combat service support installations including: Ca Lu, Cua Viet, Camp Carroll, Chu Lai Airfield and several barrier sites. Agent reports continued to indicate infiltration of troops into South Vietnam through the DMZ. The increase in attacks by fire may have been designed to divert attention from troop or supply movement. The enemy continued to place a major emphasis upon improving his LOC's, replenishing his supplies and recruiting replacements. On 22 April, SLAR returns along Route 101 (XD 6730) to the DMZ indicated heavy activity. Infra-red and SLAR readouts in the Ruong-Ruong and Elephant Valley areas between A Shau Valley and the Danang TACOR also indicated heavy movement in those vicinities. Enemy activity north of Hue has been moderate to heavy. The 101st Airborne Division has continually had contact with the 803rd and 90th Regiments. The most significant contact was initiated on 28 April when elements of the 101st Airborne encircled the Phuoc Yen Village (YD 6827), northwest of Hue. In four days of heavy fighting, friendly forces, including an ARVN company, killed 371 NVA, taking 105 PW's and capturing 103 weapons. Interrogations of PW's indicated that the unit in contact was the 8th Battalion, 90th Regiment, 324th Division and that the battalion commander, executive officer and three company commanders had been killed during the fighting. In A SHAU Valley, friendly units received light enemy ground resistance, but were subjected to heavy AA fire. They discovered large weapons and ammunition caches and numerous trucks and other types of equipment. The finding of a destroyed PT 76 tank and a large number of rounds for a 76mm tank gun, along with documents identifying the 3rd Battalion, 203rd Tank Regiment, indicates that the enemy may attempt to employ armor in a future offensive. Elsewhere in I Corps, enemy activity took the form of limited ground attacks, harassment by fire, and mine/booby trap incidents. In the Danang, Chu Lai and Duc Pho TACOR's, there were a number of terrorist incidents as the enemy continued to try to disrupt the people's confidence in the GVN. Ground contact

Major units are the 8th Battalion, 29th Regiment and the 95th Regiment of the 325C Division; the 48th Regiment, the 52nd Regiment and the 64th Regiment of the 320th NVA Division; 66th Regiment of the 304th NVA Division; and the 2nd Battalion of the 9th NVA Independent Regiment. In addition, the 5th Independent Regiment, the 812th Regiment, 324th Division, the 27th Independent Battalion and four independent companies are located within the province. The total confirmed enemy strength in Quang Tri Province is 12,800.

(5) Quang Ngai Province. Military Region 5 Headquarters; six independent battalions and ten independent companies are located in the province. The total confirmed enemy strength in Quang Ngai Province is 2,745.

d. Counterintelligence.

(1) Propaganda and Subversion. Propaganda activity continues to be in the form of leaflets and lectures directed against the local populace, ARVN, U.S., and FWMF personnel, however, for the month of April, incidents of this nature showed a sharp decrease below those of the preceding period. One item of significance is that the enemy is now in the process of organizing demonstrations to be held in the major cities of northern I Corps, particularly Quang Tri and Hue Cities to honor Ho Chi Minh's birthday on 19 May 1968.

(2) Terrorism. VC acts of terrorism decreased considerably during the reporting period. Terrorist activities were continued against village and hamlet officials and VN Nationals aiding ARVN, U.S. and FWMF. Terrorism again occurred in conjunction with the enemy's continuing effort to rebuild and supply their tactical units with the VC/NVA forces abducting over 350 civilians.

(3) Espionage and Sabotage. Incidents involving VC espionage activity indicated low level agent activity designed to collect information on FWMF, ARVN and U.S. military forces and installations. The level of sabotage activity was considerably below that of the preceding month with friendly controlled bridges and culverts continuing to be the primary targets.

6. LOGISTICS.

a. Logistical posture in ICTZ continued to improve during the month of April. Movement of materials by surface means (road and sea LOCs) showed a marked increase. 3400 short tons of construction material for the Strong Point/Obstacle System were moved from Danang to Dong Ha in April. Advantageous weather conditions allowed for maximum engineer effort to be expended upon LOCs and other major construction projects.

(2) Periodic visits were made throughout the month of April to III MAF Dental facilities and to the NSA Station Hospital, Danang.

c. Embarkation.

(1) Air LOC. Special priority air movement requests completed during the month of April were 49 Combat Essential and 3 Emergency Resupply. The Khe Sanh aerial resupply program was completed. Three major unit movements were accomplished in preparation for Operation DELAWARE. Aerial resupply for Operation DELAWARE is in progress.

(2) Sea LOC. New water shipping tonnage records were set during the month of April due to an increase in shipping assets and exceptionally good weather. All ports were open for the entire month with the exception of the Cua Viet River, which was closed on 30 April due to enemy action.

(3) Road LOC. A total of 53 resupply convoys, 43 retrograde missions and 22 unit movement convoys were scheduled over the highways during the month of April 1968. By highway, 4,289 S/T's of supplies were delivered by ARVN convoys from Danang to Hue and Quang Tri, 5,571 S/T's of supplies were delivered by U.S. Forces from Danang to Phu Bai and 7,106 S/T's of supplies were delivered from Dong Ha to Ca Lu.

d. Engineer.

(1) Road and Bridge Resume. Enemy interdiction and harassment was intensified somewhat during the month with 12 bridges and 10 culverts destroyed or damaged by enemy action. Most significant of this action was the damaging of the center pier of the 400 foot Troui River Bridge on Rt #1, south of Phu Bai on 31 March. This vital bridge was by-passed the following day with the installation of a 343 foot M4T6 Floating Bridge to permit the continuous flow of vehicular traffic through the area. Elsewhere within the ICTZ, 10 damaged culverts were repaired and 109 new ones installed, 1036 feet of bridging was repaired, 1148 feet of new bridging was constructed and 924 feet of tactical bridging was installed. The upgrading of sections

of Rt #1 continued, with particularly significant progress being accomplished from Danang to Phu Loc, through the difficult Hai Van Pass. In support of Operation PEGASUS early in the month, Rt #9 from Ca Lu into Khe Sanh was repaired and opened for the first time since mid-summer 1967. Upgrading and maintenance operations upon other primary LOCs continued steadily, with maximum engineer capabilities employed during this advantageous construction weather.

(2) Major Construction. Extensive expansion of several major facilities and the construction of new major facilities in support of increased forces in the northern ICTZ has continued throughout the month. The Wunder Beach Logistic Facility is at about the mid-point in its development. The Ca Lu Airfield and logistic complex was completed early in the month and served as the primary resupply base for support of Operation PEGASUS.

(3) Minor Construction. Engineer support for the Combined Action Program was increased significantly during the month with the improvement and expansion of the three Group Headquarters areas and the construction of several new CAPs being accomplished. A major civic action project commenced during the latter part of the month, encompasses military assistance in rebuilding the Hue City market places and in clearing battle rubble from the TET Offensive in extensive areas of Hue.

e. Food Services.

(1) Class I support to Dong Ha continued to improve during April with the allocation of C-130's furnished daily by the 1st Marine Aircraft Wing and 15th Aerial Port Squadron.

(3) 13 April - Multifuel Instruction Team began visits to III MAF units.

(4) 13 April - Major C. H. BRAUER assumed duties as Force Motor Transport Operations Officer.

g. Ordnance.

(1) The installation of Product Improvement Kits on the M109 155mm SP Howitzer continued. During the month of April, 6 kits were installed, bringing the total number of vehicles completed to 21. The six M109 Howitzers that are to be provided FLC on a loan basis from the U.S. Army, to establish a float capability, have not yet been received by FLC. The ETA of these six vehicles was originally sometime during the month of April. It is now estimated that these vehicles will arrive during the month of May.

(2) During the month of April, 3,328 M16A1 standard rifle barrels were shipped by FLC to CONUS for rework. In addition, 7,793 weapons were rebarreled with chromium chambered barrels. As set forth in CMC message 261949Z Apr68, the evacuation of barrel and sight assemblies to Rock Island Arsenal was terminated. New chrome chambered barrels will continue to be provided monthly to continue the present retrofit program.

(3) The direct exchange of chromium chambered rifles to III MAF maneuver units continues. During the reporting period, the following direct exchanges occurred:

(4) In addition to the above, 7,000 weapons have been positioned at FLSG-Bravo for exchange within maneuver units of the 3rd Marine Division during the month of May.

h. Supply.

(1) Planning for the introduction of the M151A1 vehicle to III MAF units accelerated late in the month when the CG FMFPac made the decision that the phase in would commence as soon as possible. The rapidly deteriorating 1/4 ton truck status in-country dictated that the decision be made in spite of the fact that only 53% of initial provisioning repair parts were available. The basic phase in plan calls for shipments from Third Force Service Regiment to Wunder Beach, Tan My and Danang. The vehicles will be turned over to receiving unit representatives as the ships are unloaded. FLC representatives will take temporary custody only as necessary to conduct limited technical inspections. Major commands will redistribute excess and replaced M422A1 and M38A1 vehicles to satisfy T/E deficiencies and to replace vehicles in worse condition. All initial provisioning repair parts will be positioned at the Fleet Stock Account at FLC to permit the closest possible control. As the month closed, the first shipment of vehicles was scheduled to leave Okinawa on 6 May 1968 for Danang.

(2) The 11th Periodic Logistic Conference was held on Okinawa during the period 10-12 April 1968. All major Marine Commands in the Western Pacific were represented by principal supply/logistics staff officers and by commanders of major service support organizations. Headquarters, III MAF was represented by the Assistant Chief of Staff, G-4; Force Supply Officer and a representative of the Assistant Chief of Staff, G-6. Discussions were held on 23 agenda items covering a wide range of significant logistics problems. Recommendations for follow on action were developed and published.

(3) The first quarterly reconciliation of controlled

All Marine requisitioning units in III MAF participated in the reconciliation which involved the inventory of on hand assets as well as validation of allowances. The output from the reconciliation will be used to load the new Marine Corps Unified Material Management System (MUMMS) Controlled Items Subsystem (SS-13). This Subsystem maintains allowance/asset control of items in use and in stock.

(1) During the month of April, the III MAF Civic Action Program provided continuous support in supplying commodities, educational efforts, medical treatments, and construction projects. Distribution of significant commodities include 9,446 pounds of clothing, 273,306 pounds of food, 5,814 pounds of soap, and 1,428 school kits. During April, 128,928 persons were treated at MEDCAPS and 3,271 persons were treated at DENTCAPS. Educational efforts continued to show significant progress with 500 classes held and

6,370 persons in attendance. Major civic action construction projects accomplished were as follows: two bridges, one temple, three dispensaries, seven dwellings for seven families, eight fences, one road, seven schools/fourteen classrooms, twenty public heads, sixteen wells, one gate, six breeding farms, one air station, one school office, one meeting hall, one administration building, one set of soccer field bleachers and one archway.

(2) Military civic action teams worked diligently during the month of April to restore their activities to pre-TET levels and report considerable success throughout ICTZ in regaining a presence lost temporarily during TET. Elements operating in Que Son District, Quang Nam Province, provided security and transportation for village chiefs to attend a meeting at District Headquarters where they had been prevented by the enemy from going for over four years. During the month, emphasis continued to be placed on the creation of the desire in the people to take an increasing role in their own improvement and to instill a sense of security. In several cases villagers have volunteered valuable information concerning the enemy, and villagers in the vicinity of Danang have, of their own volition, provided twenty-four hour security for Village Assistance Teams (VAT's) provided by Naval Support Activity, Danang. Daily meetings of military and civilian officials involved with pacification in Quang Tri and other provinces in I Corps have established an effective means of coordinating civic action projects in particular areas.

security for the 1968 Revolutionary Development Campaign and deny the enemy support and material aid in the ICTZ. The reporting period was sharply contrasted as January was a normal period with 65 large operations being conducted; February was devoted to countering the enemy TET Offensive and the last month of the quarter saw the gradual movement of ARVN Forces back into the RD areas in an effort to re-establish GVN control to at least pre-TET status.

(2) January operations by ARVN forces followed the normal pattern of unit operations and until 30 January had established contact in 41 of the 65 large operations conducted. The most significant of these was Lam Son 181 in which the 2nd Regiment fought a three day battle with the 270th Independent Regiment inflicting 277 enemy KIA and capturing 4 PW's and 29 weapons. On 30 January, the enemy initiated offensive action against major cities and military installations throughout the ICTZ. Danang and Hoi An were the first to be attacked with Quang Tri, Hue, Tam Ky and Quang Ngai receiving assaults on 31 January. Total enemy losses credited to ARVN/RF/PF during January were: 4,021 KIA, 407 PW's, 947 IWC and 216 CSWC. 3074 372

(a) During February, ARVN units were primarily engaged with Free World Forces against the VC initiated TET Offensive, but also conducted 43 operations with major battles being fought in Quang Tri City, Hue, Danang, Hoi An, Quang Tin and Quang Ngai cities. The enemy losses for this period were: 5,059 KIA, 286 PW's, 1,174 IWC and 280 CSWC.

(b) March saw a return to normal operations as major enemy forces were driven from former GVN controlled areas. The period was utilized effectively by ARVN to refit, train and integrate replacements into units. Although units suffered loss of men and equipment, especially in the Hue Citadel battle, by 1 April, it was determined that all but one ARVN battalion had regained its pre-TET combat capability. This one unit is presently undergoing retraining.

(3) I Corps conducted 177 large operations (battalion size or larger) during the 1st Quarter of 1968. These operations were executed as listed below:

<u>MONTH</u>	<u>LARGE OPNS CONDUCTED</u>	<u>ENEMY CONTACT</u>	<u>COMBINED OPNS</u>	<u>HELIBORNE OPNS</u>
