PART II

NARRATIVE SUMMARY

On 1 June 1968 HMM-164 flew 141 sorties for a total of 32.4 flight hours while carrying 548 troops while lifting 10.2 tons of cargo. Squadron operations were not hampered by weather. Captain G. A. ROSS flying YF23 received incoming mortar rounds coords KD957446, with no hits or injuries sustained. HMM-164 carried 53 medevacs, 1 emergency, 10 priority, and 42 routine medevacs.

On 2 June 1968 HMM-164 flew 111 sorties for a total of 35.4 flight hours while carrying 439 troops while lifting 11 tons of cargo. HMM-164 on 1st Marine Aircraft Wing support flew 65 sorties for a total of 19.3 flight hours while carrying 125 troops while lifting 12.4 tons of cargo. Squadron operations were not hampered by weather. Major R. H. NELSON flying YF14 received one small arms hit from coords AT992577, with minor damage. HMM-164 carried 65 medevacs, 1 emergency, 47 priority, and 17 routine medevacs.

On 3 June 1968 HMM-164 flew 191 sorties for a total of 71.0 flight hours while carrying 1128 troops while lifting 19 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 2 medevacs, both routine medevacs.

On 4 June 1968 HMM-164 flew 80 sorties for a total of 21.7 flight hours while lifting 2.8 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 57 medevacs, 29 emergency, 6 priority, and 22 routine medevacs.

On 5 June 1968 HMM-164 flew 86 sorties for a total of 16.5 flight hours carrying 478 troops while lifting 10.2 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 20 Medevacs, 1 priority, and 19 routine medevacs.

On 6 June 1968 HMM-164 flew 102 sorties for a total of 21.9 flight hours carrying 111 troops while lifting 2.2 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 8 medevacs, all priority medevacs.

15 Jun 1968

On 7 June 1968 HMM-164 flew 211 sorties for a total of 52.8 flight hours, carrying 879 troops while lifting 12.5 tons of cargo. HMM-363 flew 24 sorties for a total of 3.9 flight hours carrying 5 troops and 1 routine medevac in support of HMM-164 and Operation SWIFT SABER. HMM-367 flew 14 sorties for a total of 18.7 flight hours while expending 15,000 rounds of ammunition and 35 rockets in support of HMM-164 and Operation SWIFT SABER. LtCol A. F. BICK flying YT23 took small arms fire from coords AT857863, with no hits, as HMM-367 suppressed the sniper fire. Squadron operations were not hampered by weather. HMM-164 carried 9 medevacs, all medevacs were routine.

On 8 June 1968 HMM-164 flew 199 sorties for a total of 29.2 flight hours carrying 639 troops while lifting 24.3 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 12 medevacs, 1 emergency, 4 priority, and 7 routine medevacs in support of Operation SWIFT SABER.

On 9 June 1968 HMM-164 flew 224 sorties for a total of 58.1 flight hours carrying 533 troops while lifting 52.1 tons of cargo. Squadron operations were not hampered by weather. Captain A. A. FRISENDA took small arms fire from coords AT8783 with no hits. Captain J. J. WILSON III took sniper fire from coords ZC133846 with no hits. HMM-164 carried 7 medevacs, 1 priority and 6 routine medevacs.

On 10 June 1968 HMM-164 flew 128 sorties for a total of 27.6 flight hours carrying 339 troops while lifting 11.4 tons of cargo. Squadron operations were not hampered by weather. Captain J. W. BARNES took small arms fire from coords ZC172844 with no hits. HMM-164 carried 10 medevacs, 1 emergency, 1 priority, and 8 routine medevacs.

On 11 June 1968 HMM-164 flew 141 sorties for a total of 39.6 flight hours carrying 372 troops while lifting 10.5 tons of cargo. 1stLt. G. A. ZAMORSKI, pilot, Sgt. R. W. TRENLETON, crew chief, Cpl. C. LEMMAN, gunner, were killed when aircraft buno. 150960 crashed for unknown reasons at AT921810. 1stLt. D. T. JONES, co-pilot, suffered serious injuries in the accident. The aircraft suffered strike damage. Major D. C. BRODIE in YT24 recieved small arms fire from coords AT8382 with no hits. Captain A. A. FRISENDA in YT11 took small arms automatic weapons fire from coords AT837828 and sustained one minor aircraft hit, with no injuries. HMM-164 carried 23 medevacs, 2 emergency, 15 priority, and 6 routine medevacs.

15 Jun 1968

On 12 June 1968 HMM-164 flew 139 sorties for a total of 30.8 flight hours carrying 428 troops while lifting 8.8 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 12 medevacs, 3 emergency, 5 priority, and 4 routine medevacs.

On 13 June 1968 HMM-164 flew 239 sorties for a total of 51.5 flight hours carrying 750 troops while lifting 24.5 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 did not carry any medevacs.

On 14 June 1968 HMM-164 flew 63 sorties for a total of 9.9 flight hours carrying 96 troops while lifting .6 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire.

At 0700 15 June 1968, HMM-164 went OPCON to MAC-16, 1st Marine Aircraft Wing.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

1. COMMAND RELATIONS. OPCON CTG 79.5. Command less OPCON, MAG-15.
2. OPERATIONS. During this reporting period HMM-164 flew 2120 sorties for a total of 519.3 flight hours carrying 7126 troops/passengers while lifting 200.5 tons of cargo. HMM-164 carried 278 medevacs during this period.
 - a. Operations in support of the First Marine Aircraft Wing
HMM-164 flew a total of 178 sorties, carrying 560 troops/passengers, 71 battlefield casualties and 23.4 tons of cargo for a total of 52.9 flight hours.
 - b. Operation SWIFT SABER
HMM-164 flew 1280 sorties carrying 3806 troops/passengers, 73 battlefield casualties and 125.2 tons of cargo for a total of 290.4 flight hours.
 - c. Operation SCOTLAND II
HMM-164 flew 107 sorties carrying 424 troops/passengers, 60 battlefield casualties, while lifting 10 tons of cargo for a total of 20.4 flight hours.
 - d. Operation ALLENBROOK
HMM-164 flew 71 sorties carrying 136 troops/passengers, 11 battlefield casualties, while lifting 13.4 tons of cargo for a total of 22.5 flight hours.

3. CASUALTIES

<u>NAME</u>	<u>RANK</u>	<u>SERNO.</u>	<u>WIA/KIA</u>	<u>DATE</u>

8. MAINTENANCE

Average A/C availability per day	12
Number of A/C received	0
stricken	1
at PAR	10
inspected	3
IMA repair	1

9. LOGISTICS

a. GENERAL. S-4 of HMM-164 off-loaded 33% of the squadron's gear from AKA WASHBURN and LPH-8 by mike boat one week prior to the scheduled debarkation. HMM-164 and HMM-265 satisfactorily transferred items in Marine Corps property and other squadron equipment. HMM-164's arrival at MARBLE MOUNTAIN was hampered by the need to operate elements of both HMM-164 and HMM-265 from the same spaces.

b. NAVY PROPERTY. All requisition files were reconciled with the LPH Supply Officer, prior to debarkation to MARBLE MOUNTAIN. Liaison was made with MAG-16 Group Supply during this period.

c. MARINE CORPS PROPERTY. All Marine Corps Property was prepared for debarkation to MARBLE MOUNTAIN. All accounts were transferred to MAG-16 as soon as possible.

UNCLASSIFIED

Enclosure (1)

3:TF:ric
003A16768
15 Jun 1968

d. EMBARKATION. On the 5th of June 1968, HMM-164 off-loaded from the AKA WASHBURN using 40 Mike boat loads of cargo. Twenty-nine Mike boat loads were brought off the LPH-8 USS VALLEY FORGE.

10. AVIONICS

a. COM/NAV. During this reporting period HMM-164 avionics performed approximately 98% of the required maintenance on electronic gear reported defective. Five items were sent to H&MS-16 avionics due to a shortage of time prior to embarkation. The use of cannibalization as a source of spare parts was reduced when parts were salvaged from stricken aircraft. Late in the period requests for consumable and accountable parts were cancelled if said part was not in stock aboard LPH-8. Once ashore these parts will be re-ordered after a complete inventory determines the need. Any excess gear will be turned over to the MAG-16 supply screening section. One hundred and sixty man hours were needed for the debarkation to MARBLE MOUNTAIN.

b. ELECTRIC SHOP. The HMM-164 electric shop performed 95% of the maintenance on items requiring IMA. Several items were exchanged with H&MS-16. There was a variety of discrepancies during this period, not limited to any one area. Cannibalization dropped due to use of salvaged gear. Consumable or accountable items were difficult to obtain due to a small rotatable pool department aboard LPH-8; 170 man hours were needed to deploy to MARBLE MOUNTAIN.

PART V

SUPPORT DOCUMENTS

1. Maps: Series L7014. 1:25,000 coverage of I Corps area.
2. All information for briefs furnished by SLE Intelligence and Operations Sections. Briefs on operations in support of the First Marine Aircraft Wing was conducted by MAG-16 Intelligence and Operations Sections.

19 Jun 1968

OPERATION ACTION REPORT

1. TITLE

Operation Swift Saber

2. DATES

7 - 14 June 1968, Quang Nam Province, Republic of Vietnam

3. COMBAT LOCATION

USS Valley Forge (LAV-8)

4. TASK ORGANIZATION

HMM-164

Det. HMM-367

Det. HMM-363

5. MISSION

Provide helicopter support in accordance with landing plan. Be prepared to provide helicopter support to lift contingency force from LZ EAGLE. Provide helicopters for Command/Control, medevac, and emergency resupply. Be prepared to conduct operations in western portion of area of operation.

6. DISCUSSION

7 June 1968

Ten CH-46's were launched at 0600 and four UH-1B's at 0630H in support of Operation SWIFT SABER. At H-hour, 0700H, HINGE Company and WHISKEY Battery, 4.2 mortars, were inserted into LZ EAGLE (AT 861853). At 1200H, INDIA and KILO Companies were inserted into LZ WILCOX (AT 819865). One UH-1B "slick" and one UH-34 were employed as Command/Control Aircraft. At the end of D-Day, transportation had been provided for 879 troops and 12.5 tons of supplies. Ammunition expended was 35/2.75 rockets, 2,200 rounds of .50 Cal., and 15,000 rounds of 7.62, fired as suppressive fire during landings. Hours flown: 75.4. One fire incident: AT 8787, light small arms, no hits.

UNCLASSIFIED

Enclosure (1)

[REDACTED] REPORT

UNCLASSIFIED

HOFORN

3: DCB:ric
003A17168
19 Jun 19688 June 1968

Four aircraft lifted MIKE Company, WHISKEY Battery, 4.2's, and the CP Group from LZ EAGLE to AT 830859. LIMA Company was moved from LZ FALCON to Objective #3 (ZC 203844). The day's activity accounted for the movement of 639 troops, 12 medevacs, and 24.8 tons of cargo; 29.2 flight hours were logged.

9 June 1968

Six aircraft commenced Phase II with a 1025H, 11-hour in LZ CONDOR by lifting MILO Company and WHISKEY Battery 4.2's from LZ FALCON. 54.1 tons of cargo and resupply, 533 troops and 7 medevacs were transported. Hours flown were 66.3. Ammunition expended was 3/2.75 rockets, 50 rounds .50 Cal., and 5100 rounds 7.62. Four fire incidents were recorded. AT 8884, intense automatic weapons and small arms, no hits. ZC 1485 and ZC 1284, small arms, no hits. ZC 1585, automatic weapons and small arms, no hits.

10 June 1968

In addition to providing the regular resupply and medevac support, squadron aircraft moved MIKE and HES Companies and the CP Group from AT 830859 to LZ CONDOR. An aerial gunner, while on a medevac mission to Dong Don (AT 836827) at 1815H, spotted movement of enemy forces 50 meters below the radio relay outpost. Heavy protective fire was brought to bear on the enemy positions by the transport and gunship helicopters. "Sparrow Hawk" aircraft were launched, inserting a platoon of MIKE Company and 400 pounds of emergency ammo in the radio relay position atop Dong Don. The drops were accomplished as clouds and darkness settled over the area. Total support rendered amounted to 539 troops, 10 medevacs, and 11.4 tons of cargo lifted during 34.9 hours of flight.

11 June 1968

Six aircraft launched at 0600H to insert the remainder of MIKE Company on Dong Don. This was followed by the movement of LIMA Company from OBJ #3 to LZ RAVEN (AT 803848) to assume blocking positions along suspected withdrawal routes. Resupply and medevac missions brought the totals for the day to 372 troops, 23 medevacs, and 10.5 tons of cargo lifted for a total of 59.4 hours. The squadron lost one aircraft to unknown causes during a resupply mission from the LSA into the AO. Two crewmen and the pilot died. The co-pilot survived. One fire incident; intense automatic weapons and small arms, one aircraft received one hit.

UNCLASSIFIED

Enclosure (1)
HOFORN

NOFORN

3:DCB:ric
 CO3A17168
 19 Jun 1968

12 June 1968

Four aircraft provided support for platoon strength operations throughout the AO. Elements of KILO and LIMA Companies were utilized for search and destroy operations. At 1500H, MIKE Company was lifted from LZ RAVEN to LZ CONDOR. Return of KILO and LIMA platoon forces to Objective #3 was completed at 1815H. The Squadron and attachments accounted for the movement of 428 troops, 12 medevacs and 8.8 tons of cargo. 1000 rounds of .50 cal. and 26/2.75 rockets were expended. Flight hours were 41.4.

13 June 1968

Six CH-46's and two UH-1E gunships launched at 0600H to lift BLT 3/1 out of LZ CONDOR, Objective #3, and LZ RAVEN, to positions within the Danang complex, from which a relief of BLT 2/7 could be effected. By 1200H, LINDA, MIKE, E&S Companies, and WHISKEY Battery had been removed from LZ CONDOR. The CP Group had been displaced to Objective #3, and LIMA Company had been lifted out of LZ RAVEN. At 1710H, KILO Company commenced to move from Objective #3. The radio relay team at Dong Don was picked up at 1915H. With the relay team off of Dong Don, the last elements of BLT 3/1 had departed the AO. In 66.6 hours of flying, the Squadron had lifted 750 troops, and 24.5 tons of cargo.

14 June 1968

Operation SWIFT SABER terminated at 0800H. Negative operations on this date.

7. RESULTS

- a. Casualties: 3 MIA, 1 MIA (all non-hostile)
- b. Fire Incidents:

<u>A/C FIRED ON</u>	<u>INCIDENTS</u>	<u>A/C HIT</u>	<u>NO. HITS</u>
7	7	1	1

- c. Equipment Losses: 1 CH-46A destroyed in an aircraft accident. Cause of accident undetermined at this time.

 19 Jun 1968

8. COMBATTANT'S ANALYSIS

a. Ship to Shore Operations

(1) The helicopterborne assault was launched the morning of 7 June 1968. Assault elements were loaded from aboard three ships of the ARG (LPH-8, LPD-2, and LSD-28). Nine CH-46's, four UH-1E's and one C/C aircraft were used in the helicopterborne assault. An additional CH-46 remained airborne over the area in a SAR status.

(2) Fixed wing and artillery support, utilized in preparation of LZ BACHE and LZ FALCON was considered adequate.

(3) No real problems were encountered during this phase of the operation.

b. Operation Ashore

(1) Flight operations ashore consisted of resupply, medevac, troop transport, and administrative missions. On 9 June 1968 PULSED II was initiated west of LINE LINE TONG. I and K/3/1 along with W Battery/2/11 were lifted into LZ COMBAT (EG 131843)

(2) Fixed wing support remained on-call throughout this phase of the operation. Because of lack of contact with the enemy, fixed wing CAS missions were not required to support these helicopter lifts. UH-1E gunships provided all necessary escort fire support.

(3) The following problem areas hampered efficient helicopter utilization during this phase of the operation:

(a) PROBLEM: Failure of units on the ground to be up on the assigned frequency periodically throughout the operation.

CONCLUSION: That due to lack of personnel in the EMT, the radio operators have to leave the radio to relay information to the loadmasters or they just do not consider it necessary to monitor the radio at all times when they are checked into the net.

SOLUTION: Assign sufficient personnel to EMT to ensure that radio operators do not have to vacate their sets. Impress upon operators the importance of monitoring at all times the nets they are required to cover.

UNCLASSIFIED

Enclosure (1)

MCFORM

3 DCB:ric
 003A17168
 19 Jun 1968

(b) PROBLEM: Inaccurate coordinates.

CONCLUSION: Units fail to keep higher commands notified of their position and higher commands fail to check coordinates on maps with plotted positions of their units.

SOLUTION: Command attention at every level to ensure accuracy of coordinates passed and current plotting of units.

(c) PROBLEM: LSA not aware of resupply missions prior to helicopters landing for cargo pickup.

CONCLUSION: Accurate and timely information is not being communicated to all elements concerned, when helicopter support missions are requested or launched.

SOLUTION: Increased command attention and communication between elements involved to ensure the most efficient use of assigned aircraft.

(d) PROBLEM: Unacceptable landing zones. Inadequate size, clearing of growth and the establishment of unit positions in and near the selected landing spots.

CONCLUSION: Personnel concerned have not been educated as to requirements and considerations in establishing a landing zone for the type of support being utilized.

SOLUTION: Air Liaison Officers at each level, ensure that all units are basically familiar with the capabilities and limitations of helicopters assigned to their support. A brief review of the principles set forth in AFM 3-3 would be advantageous to all concerned.

(e) PROBLEM: Routine resupply missions not being called for early enough in the day to ensure their completion prior darkness. Night missions, especially in mountainous terrain, expose aircraft and crews unnecessarily to increased hazards in accomplishing the mission; consequently they should not be requested routinely.

CONCLUSION: Commanders are not anticipating their routine needs in requesting resupply of their units.

5
 Enclosure (1)

3:DCB:ric
003A17168
19 Jun 1968

SOLUTION: Greater command attention during the planning and execution phases relative to supply requirements. As the operation progressed, the number of incidents regarding these problems decreased. The withdrawal of the BLT on the morning of 13 June was very well organized by the ground elements. Personnel and cargo were readily loaded and no delay was encountered in clearing LZ's CONDOR and R VMM. The lack of heavy helicopter support delayed the final phase of the withdrawal from OBJ/B for four and one-half hours.

9. LESSONS LEARNED

a. The longer the preparation time allowed for planning by the controlling authority, the greater the flexibility of the ground units and the more effective the helicopter support. Helicopter units must have adequate time to receive complete and detailed information concerning the mission.

PART II

NARRATIVE SUMMARY

On 16 June 1968 HMM-164 flew 126 sorties for a total of 27.8 flight hours carrying 210 troops while lifting 33 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 28 medevacs, 1 priority and 27 routine medevacs.

On 17 June 1968 HMM-164 flew 73 sorties for a total of 22.3 flight hours carrying 205 troops while lifting 5.6 tons of cargo. Squadron operations were not hampered by weather. Capt. J. L. LITTLER, in YL-11, took small arms fire from coords AT 887487, with no hits. HMM-164 carried 28 medevacs, 1 emergency and 27 priority medevacs.

On 18 June 1968 HMM-164 flew 168 sorties for a total of 43.4 flight hours while carrying 251 troops/passengers, lifting 14.7 tons of cargo. Squadron operations were not hampered by weather. Capt. A. A. FRISENDA in YL-14 received small arms fire from coords BT 010541 with no hits; Major R. H. NELSON in YL-14 took small arms fire from coords AT 981535 with no hits. Capt. J. T. BUTLER took small arms fire from coords AT 9660, with no hits. Major F. E. WIRKUS in YL-22 took small arms fire from coords AT 880523, AT 870490, BT 032721, with no hits. HMM-164 carried 19 medevacs, 6 emergency, 4 priority, and 9 routine medevacs.

On 19 June 1968 HMM-164 flew 108 sorties for a total of 35.4 flight hours carrying 191 troops/passengers lifting 10.5 tons of cargo. Squadron operations were not hampered by weather. Capt. J. L. LITTLER in YL-22 crashed at Khe Sanh resulting in strike damage to the aircraft and one minor injury to L/Opl SPEIN. One aircraft received one small arms hit from unknown coords with no injury.

On 20 June 1968 HMM-164 flew 139 sorties for a total of 36.1 flight hours carrying 168 troops/passengers while lifting 24.2 tons of cargo. Squadron operations were not hampered by weather. Capt. J. W. BARNES in YL-16 received small arms fire from coords AT 9565 with no hits. LtCol R. F. RICK in YL-17 took small arms fire from coords BT 002542, with no hits. HMM-164 carried 14 medevacs, 2 emergency, 2 priority, and 10 routine medevacs.

On 21 June 1968 HMM-164 flew 127 sorties for a total of 34.4 flight hours, carrying 111 troops/passengers, while lifting 22 tons of cargo. Squadron operations were not hampered by weather or enemy ground fire. HMM-164 carried 63 medevacs, all routine medevacs.

8 Jul 1968

On 22 June 1968 HMM-164 flew 213 sorties for a total of 50.5 flight hours carrying 712 troops/passengers while lifting 17 tons of cargo. Squadron operations were not affected by weather. Major D. C. BRODIE received intense small arms fire from coords AT 996536 with no hits. Major R. H. NELSON flying YF-14 took small arms fire from coords BT 007616, BT 008543, and AT 981535 with no hits. Capt. F. J. WILSON III received small arms fire from coords BT 002531, AT 982535, and BT 008615 with no hits.

On 23 June 1968 HMM-164 flew 76 sorties for a total of 14.7 flight hours carrying 394 troops/passengers, while lifting 2.3 tons of cargo. Squadron operations were not hampered by enemy ground fire or weather. HMM-164 flew no medevac missions.

On 24 June 1968 HMM-164 flew 68 sorties for a total of 15.9 flight hours carrying 71 troops/passengers while lifting 14 tons of cargo. Squadron operations were not hampered by weather. Capt. J. L. LITTLER received small arms fire from coords AT 9652 with no hits. HMM-164 carried 4 medevacs, 1 emergency and 3 priority medevacs.

On 25 June 1968 HMM-164 flew 145 sorties for a total of 38.1 flight hours carrying 254 troops/passengers, while lifting 17.3 tons of cargo. Squadron operations were not hampered by enemy ground fire or weather. HMM-164 carried 52 medevacs, 2 priority and 50 routine medevacs.

On 26 June 1968 HMM-164 flew 147 sorties for a total of 45.3 flight hours carrying 207 troops/passengers while lifting 43 tons of cargo. Squadron operations were not hampered by enemy ground fire or weather. HMM-164 carried 8 medevacs, 2 priority, and 6 routine medevacs.

On 27 June 1968 HMM-164 flew 190 sorties for a total of 47 flight hours while carrying 541 troops/passengers while lifting 39.8 tons of cargo. Squadron operations were not hampered by enemy ground fire or weather. HMM-164 carried 17 medevacs, 3 emergency, 3 priority and 11 routine medevacs.

On 28 June 1968 HMM-164 flew 66 sorties for a total of 22.5 flight hours carrying 99 troops/passengers while lifting 4.3 tons of cargo. Squadron operations were not hampered by enemy ground fire or weather. HMM-164 carried 93 medevacs, 45 priority and 48 routine medevacs.

PART III

SIGNIFICANT EVENTS

1. PERSONNEL

a. Twenty two (22) personnel joined the squadron and thirty seven (37) departed the organization.

b. There were two (2) promotions to Corporal during this reporting period, both of which were "combat" promotions. They were:

<u>NAME</u>	<u>SERNO</u>	<u>DATE OF PROMOTION</u>
BROWN, Richard C.	2273989/6341	16 June 1968
CARROLL, Larry E.	2268127/6341	28 June 1968

2. ADMINISTRATION. LtCol W. E. SMILANICH JR. relieved LtCol R. F. RICK as Commanding Officer on 29 June 1968.

3. AWARDS. A total of 19 first award, 18 subsequent award Air Medals and 22 Combat Aircrewman Insignias were presented.

4. CASUALTIES

SPEITH, George G., LCpl 2317549 received minor injuries in aircraft accident at Khe Sanh on 19 June 1968.

5. INTELLIGENCE/COUNTER INTELLIGENCE

a. An intelligence brief was given on a daily basis between 18-30 June 1968 to all officers at morning APMs. No counter-intelligence activities were conducted during this reporting period.

<u>A/C FIRED ON</u>	<u>INCIDENTS</u>	<u>A/C HIT</u>	<u>HITS</u>	<u>SORTIES</u>	<u>HOURS</u>
23	23	1	1	1868	489.8

Ratio of aircraft hits to aircraft fired on:	1:23
Ratio of aircraft hit to aircraft fired on:	1:23
Ratio of aircraft hits to sorties flown:	1:1868
Ratio of aircraft hit to sorties flown:	1:1868
Ratio of aircraft hit to hours flown:	1:489.8

Breakdown of fire incidents with respect to altitude:

<u>Incidents</u>	<u>A/C Hit</u>	<u>Altitude</u>
7	1	0-499
8	0	500-999
2	0	1000-1499
6	0	1500+

~~SECRET~~

6. AIR OPERATIONS. During this reporting period, HMM-164 flew 1,868 sorties, carrying 1,738 troops/passengers, 395 medevacs and 298 tons of cargo for a total of 489.8 flight hours.

7. SPECIAL OPERATIONS

a. Operation MAMELUKE THRUST

HMM-164 flew 731 sorties for a total flight time of 170.7 flight hours carrying 1128 troops/passengers lifting 93.6 tons of cargo and evacuating 69 battlefield casualties in support of Operation MAMELUKE THRUST.

b. Operation ALLENBROOK

HMM-164 flew 472 sorties for a total of 92 flight hours carrying 1294 troops/passengers lifting 84.8 tons of cargo while evacuating 44 battlefield casualties in support of Operation ALLENBROOK.

c. Operation DRAGON PALACE

HMM-164 flew 162 sorties for a total of 36.1 flight hours carrying 129 troops/passengers while lifting 63.3 tons of cargo, and evacuating 2 battlefield casualties in support of Operation DRAGON PALACE.

8. TRAINING. During this reporting period sixteen (16) men attended the squadron gunners school. Three (3) of these men were given NATOPS evaluations and were qualified as Aerial Gunners.

9. LOGISTICS

a. General. The latter part of June was a difficult period for HMM-164's S-4 personnel primarily because HMM-265's detachment ALPHA remained aboard limiting our working spaces. Upon their deployment, HMM-164 will relocate to squadron spaces with more room.

b. Material. During the period 16-30 June 1968 HMM-164 Material submitted the pre-expended bin lists to MAG-16 Supply.

c. Embarkation. HMM-164 was relocated to Marble Mountain Air Facility in spaces shared with HMM-265 detachment ALPHA.

d. Marine Corps Property. All HMM-164 782 gear, individual equipment, sidearms (with the exception of those in use), and custody cards were turned over to MAG-16 Marine Corps Property.

~~SECRET~~3:TMF:ric
003A19068
8 Jul 196810. MAINTENANCE

a. HMM-164 maintenance noticed a slight increase in discrepancies upon coming ashore from the VALLEY FORGE. The MD-1 gyro (P/N 17398-2), a high priority item, was difficult to procure. Approximately 50% of the 500 work hours assigned were accounted for in maintenance and support action forms, with 5% of that being cannibalization job control numbers. The remainder was assigned various military - labor code numbers.

b. Average A/C availability per day	7
Number of A/C received	1
stricken	1
at PAR	9
inspected	0
IMA repair	0

11. AVIONICS

a. The availability of rotatable parts from MAG-16 facilities has made HMM-164 avionics work more "routine", and has lessened the need to cannibalize. Approximately 150 hours of the assigned 500 hour force was diverted to other military duties. Certain HMM-164 avionics personnel worked in the H&MS 16 shops, and the personnel that remained were cross-trained within the HMM-164 avionics department.
