PART IINARRATIVE SUMMARY

HMM-165 opened the month of April aboard the USS TRIPOLI (LPH-10), enroute to the contiguous waters of Vietnam for possible reaction to the current communist offensive. No flight operations were conducted on the first. One section of CH-46's supporting the transfer of personnel for briefings and three test flights comprised the flight operations of the second.

There were no flights on the third. Body armor and personal weapons were issued to the aircrews and the squadron went to a combat ready alert status. On the fourth, four CH-46's were sent to the USS DULUTH (LPD-6) to facilitate maximum utilization of available deck space. Flight operations consisted of one test flight, one NATOPS evaluation, and one administrative flight to all ships in Amphibious Ready Group Alfa.

Limited training in carrier landings and instruments was conducted on the fifth and sixth in addition to test flights and personnel transfers between ships.

One section of CH-46's flew personnel to the USS KITTY HAWK (CVA-63) for liaison and briefings on the seventh. The four CH-46's aboard the DULUTH were recovered aboard the TRIPOLI and replaced by two different CH-46's.

The USS BLUE RIDGE (LCC-19) and BLT 1/9 aboard the ships of ARG Bravo arrived on station on the eighth. Flight operations were limited to tests and frags.

HMM-165 came under direct control of the 9th MAB on the ninth. Foul weather forced the cancellation of flight operations, with the exception of one CH-46 which was launched to assist TRIPOLI's aircraft, Greenbug, in conducting a vertrep.

Three CH-46's participated in vertrep operations on the tenth, with two aircraft recovering aboard the DULUTH upon completion. Another section of CH-46's recovered aboard the USS DENVER (LPD-9), after transporting personnel to the KITTY HAWK for a conference. HMM-165 also instituted a daily Marlog flight between all ships in ARG's Alfa and Bravo on the tenth.

The squadron recovered all four CH-46's from the DULUTH and the two CH-46's from the DENVER on the eleventh. Test flights and the daily Marlog comprised the remainder of the flight operations.

Test flights, limited training in instruments, and daily Marlog constituted flight operations on the twelfth. Two CH-53's recovered aboard the DULUTH.

UNCLASSIFIED

ENCLOSURE (1)

UNCLASSIFIED

UNCLASSIFIED

Test flights, instrument training, and the daily Marlog again comprised flight operations on the morning of the thirteenth, but the afternoon schedule was cancelled as two sections of CH-46's began a creeping radar-controlled search over water for the crew of a missing Marine A-6. The search was discontinued before sunset and resumed the morning of the fourteenth. The search was completed that afternoon with negative results, and limited training in carrier landings, and instruments, test flights and the daily Marlog were flown during the remainder of the day.

Flight operations were the same on the fifteenth. Two additional CH-53's were sent to recover aboard the DULUTH as the TRIPOLI separated and steamed north to act as a SAR platform in conjunction with Task Force 77 in Operation Freedom Porch.

Crews for four CH-46's were kept in constant standby to augment the SAR mission of the Navy helicopters stationed aboard the TRIPOLI for Operation Freedom Porch on the sixteenth. No squadron flight operations were conducted with the exception of one CH-53 aboard the DULUTH which performed the daily Marlog for the remainder of Phibron Five.

Test flights and administrative/logistics support comprised the flight operations for the seventeenth. A section of two CH-46's were sent to Danang AFB for a passenger and mail pick-up.

Two UH-1E's and five pilots were sent to the DENVER to participate in Operation Freedom Train as naval gunfire spotters on the eighteenth. Two CH-53's from the DULUTH were recovered aboard the TRIPOLI and replaced by two CH-46's. A section of CH-46's made a logistics flight to Danang, and limited training flights were conducted in addition to the daily Marlog.

HMM-165 instituted a daily Marlog to Danang on the nineteenth in addition to the daily Marlog between ships of the amphibious squadron. The remaining two CH-53's from the DULUTH were recovered on the TRIPOLI and replaced by two CH-46's.

Flight operations on the twentieth and twenty-first consisted of the inter-ship Marlog, the Danang Marlog and test flights.

All four CH-46's aboard the DULUTH were recovered aboard the TRIPOLI and replaced by two CH-53's on the twenty-second. Six combat casualties from several destroyers who were treated by the surgical team aboard the TRIPOLI were medevaced to Danang aboard the Danang Marlog for further treatment. New procedures for the Marlog between ships were instituted at the direction of 9th MAB.

Flight operations on the twenty-third and twenty-fourth consisted of tests and the daily Marlogs. The two UH-1E's aboard the DENVER logged

4 UNCLASSIFIED

ENCLOSURE (1)

UNCLASSIFIED

UNCLASSIFIED

UNCLASSIFIED

3.3 hours while participating in a naval gun fire mission on the twenty-third. Three more patients were medevaced to Danang on the twenty-fourth.

Foul weather on the twenty-fifth cancelled all flight operations, with the exception of the morning Marlog between ships and the rotation of one CH-53 from the TRIPOLI with one of the CH-53's aboard the DULUTH. Another CH-53 from the TRIPOLI rotated with the second CH-53 aboard the DULUTH on the twenty-sixth. The Marlogs and test flights comprised the remainder of flight operations. Tests and the Marlogs also comprised flight operations on the twenty-seventh, with one medevac to Danang aboard the Danang Marlog.

HMM-165 came under the control of ProvMAG 10 at 271600Z April 72 as the USS OKINAWA (LPH-3) and ARG Charlie arrived on station. The two CH-53's aboard the DULUTH were recovered aboard the TRIPOLI on the twenty-eighth. Mr. John KOWALSKI, the Boeing Vertol tech rep from MCAS Futema, joined the squadron aboard the TRIPOLI.

The remainder of flight operations for the twenty-eighth through the thirtieth consisted of tests, logistics frags, and the Marlogs. In addition, two CH-53's and one CH-46 were launched to recover aboard the DULUTH on the thirtieth. Another CH-46 experienced an engine failure when the engine became foddled while hovering over an external load and spent the night aboard the USS ST. LOUIS (LKA 116). The two UH-1E's detached on the DENVER spent the night on the OKINAWA while enroute to the TRIPOLI after thirteen days of deployment.

HMM-165 ended the month with 411.3 hours. Twenty-three different aircraft operated aboard the USS DULUTH during twenty-six days of the month in various mixes which included two CH-46's, two CH-53's, two CH-46's and two CH-53's, four CH-46's, and four CH-53's. A total of 62.5 hours was logged by aircraft which either originated or terminated their mission from the deck of the DULUTH.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

1. Commitments

- 1 Apr- HMM-165 conducted no flights while enroute to the coastal waters off the MR-1 region of Vietnam while onboard the USS TRIPOLI.
- 2 Apr- HMM-165 conducted test flights and transferred personnel for briefings between the ships of the ARG.
- 3 Apr- HMM-165 went to a 4 hour reaction time in a combat ready status. The squadron received confirmation that Operation Golden Dragon was cancelled (Ref b).

5

UNCLASSIFIED

UNCLASSIFIED

ENCLOSURE (1)

~~CONFIDENTIAL~~Commitments Continued

UNCLASSIFIED

- 4 Apr- HMM-165 returned to a 120 hour reaction time and sent four CH-46's to operate from the USS DULUTH. Flight operations also included a NATOPS evaluation and administrative support for all elements of the amphibious forces off the coast of Vietnam.
- 5 - 6 Apr- HMM-165 conducted limited training in instruments and carrier landings while supporting all elements of the ARG with personnel transfers.
- 7 Apr- HMM-165 provided one section of CH-46's to transport personnel to the USS KITTY HAWK for liaison and briefings.
- 8 Apr- HMM-165 conducted test flights and provided limited logistics support for elements of the 31st MAU. The USS BLUE RIDGE and ARG BRAVO arrived on station with BLT 1/9 embarked. VIP service was provided for Commodore ROGERSON, CO Phibron 5, and Col. W. C. KELLY, CO 31st MAU.
- 9 Apr- HMM-165 came under the operational control of 9th MAB aboard the BLUE RIDGE (Ref c). One CH-46 was launched to assist TRIPOLI's aircraft, "GREENBUG", conduct a vertrep.
- 10 Apr- HMM-165 provided three CH-46's to assist in vertrep operations. Two CH-46's transported personnel to the KITTY HAWK and recovered aboard the USS DENVER. The squadron instituted a daily Marlog for administrative logistics support of all elements of ARG's Alfa and Bravo.
- 11 - 15 Apr- HMM-165 conducted limited training missions in instruments and carrier landings, flew test hops, and provided the daily inter-ship Marlog.
- 11 Apr- HMM-165 provided VIP transportation for Col. W. C. KELLY, CO, RLT 4.
- 13 - 14 Apr- HMM-165 provided two sections of CH-46's during daylight hours to conduct a creeping radar controlled search over water for the crew of a missing Marine A-6.
- 14 Apr- HMM-165's aircraft YW-14 was hit by an armor piercing round when the pilot was vectored too close to Tiger Island while participating in the search for the missing A-6 crew (Ref d). VIP transportation was provided for Commodore ROGERSON.
- 15 Apr- HMM-165 left four CH-53's aboard the DULUTH as the TRIPOLI separated from the rest of the amphibious squadron to steam north to assist TF 77.

Commitments Continued

- 16 Apr- HMM-165 provided four combat ready CH-46's to augment the SAR mission of Navy Helicopters stationed aboard the TRIPOLI for Operation Freedom Porch. No flight operations were conducted. (Ref e).
- 17 Apr- HMM-165 continued limited operations, conducting only tests and administrative logistics support for the amphibious forces, this included a flight of two CH-46's which was sent to Danang for passengers and mail.
- 18 Apr- HMM-165 sent two UH-1E's and five pilots to operate from the DENVER in support of Operation Freedom Train. (Ref f). Two CH-46's were sent to Danang for logistics.
- 19 - 24 Apr- HMM-165 conducted operations involving tests, limited instrument training, and the daily inter-ship Marlog. The squadron also established a daily Marlog to Danang on the nineteenth. Two pilots flew their initial CH-53 HAC flight on the twenty-second and twenty-third, respectively, as the wingman of a section leader.
- 23 - 24 Apr- HMM-165 medevaced a total of nine patients from the TRIPOLI to Danang.
- 25 Apr- HMM-165 cancelled flight operations due to inclement weather at the completion of the morning Marlog.
- 26 - 30 Apr- HMM-165 continued its normal support of the amphibious forces off the coast of Vietnam. The squadron flew one medevac to Danang aboard the Marlog on the twenty-seventh.
- 30 Apr- HMM-165 launched a section of CH-46's to the KITTY HAWK and a section of CH-46's to the BLUE RIDGE to pick-up passengers for transfer to Danang. The two UH-1E's detached aboard the DENVER spent the night on the OKINAWA while en-route to the TRIPOLI. One CH-46 spent the night on the ST. LOUIS awaiting an engine change after an engine failed due to fodding while the aircraft was working externals on that ship.

SqdnBul 4790
 GWP:jmt
 1 April 1972

SQUADRON BULLETIN 4790

From: Commanding Officer
 To: Distribution List

Subj: Monthly Maintenance Plan for April 1972

Ref: (a) OPNAV INST 4790.2
 (b) ~~WING ORDER PZ700.4A~~

Encl: (1) Key Personnel Roster
 (2) Maintenance Calendar and Aircraft Inspection Schedule
 (3) Receipt/Transfer of Aircraft, High-Time Components and
 Pre-Calendar Inspection Meetings Schedule
 (4) Technical Directive Compliance Ground Support Equipment Inspection
 Schedule, Monthly Flight Schedule
 (5) Flight Equipment Inspection and Avionics Calibration Schedule
 (6) Special Tool Calibration
 (7) Technical Training Schedule
 (8) Maintenance Telephone Directory
 (9) Maintenance Schedule Calendar for April 1972

1. Purpose. To promulgate a schedule and information for planning and guidance of the squadron maintenance effort for the month of April 1972 in accordance with references (a) and (b).

2. General.

a. The Maintenance Plan is promulgated monthly and updated as required. It supports the flying proposed by the Aircraft Maintenance and Operations Officers to accomplish 649 flight hours per month.

b. The Maintenance Plan provides scheduled control of the predicted maintenance workload (i.e. inspections, transfer/receipt of aircraft, incorporation of changes, etc.). Through scheduling the predicted maintenance workload, the capability for accomplishing unscheduled work will be determined. In addition, requirements for support equipment, intermediate maintenance support, material man power and other factors affecting the maintenance operation can be estimated in advance of actual requirements.

TAB "A"

TAB-A

3. Action.

a. All work centers will utilize and comply with the information contained in enclosures (1) through (9).

b. Requests for deviations from the published schedule will be submitted to the Aircraft Maintenance Officer. All deletions and/or deviations will be scheduled through Maintenance Control.

c. Maintenance Control is responsible for updating this plan as necessary to coincide with increased operational commitments and any other work loads not allowed for in the basic plan.

d. Each Friday at 1430, there will be a meeting of all Work Center Supervisors and OIC's with the Maintenance Officer in the Squadron Ready Room. The purpose of this meeting will be to pass information, discuss problems and compile all predictable needs for OMA and IMA level maintenance for the next time we go out to sea and for the coming weeks requirements.

e. Each Work Center Supervisor will bring a complete listing of his technical training schedule and support requirements for the month of May 1972 to the Friday meeting of 21 April 1972.

f. A pre-inspection meeting will be conducted seven days prior to each scheduled calendar inspection. The meeting will be held at 1400 on the dates listed in enclosure (3) in Ready Room Two. Work Center Supervisors will attend these meetings prepared to discuss requirements, support needs and any anticipated problems which may arise. The Flight Line will inspect the subject aircraft prior to the meeting.

g. The April AIMD monthly meetings is scheduled to be held in the Ward Room at 0930 5 April 1972. The squadron maintenance department will hold a followup meeting 19 April 1972, in Ready Room Two at a time to be announced.

h. Technical Training will be accomplished by the Work Centers during regularly scheduled working hours. ~~The schedule for the technical training is set forth in enclosure (7).~~

i. Pilot's Weekly Inspection: Squadron pilots will be assigned to inspect Squadron aircraft by the Operations Officer on a rotating basis. Pilot assignments will be posted by 0800 each Saturday. Inspection will be accomplished by 1630 the following Thursday.

4. Self-Cancellation: 1 May 1972
