Part Two

1. Narrative Summary

During this reporting period, the squadron suffered the loss of two (2) pilots and two (2) aircraft. First Lieutenant John R. FISCHER 087291/7333 USMCR, was killed in action on 9 September 1966. First Lieutenant Richard M. BLOOM 090684/7302 USMCR, was killed in action on 20 September 1966. All squadron pilots have been improving their effectiveness and the squadrons' overall efficiency, by flying various types of missions under all-weather conditions. Eight (8) aircraft received damage from an enemy mortar attack in the early hours of 21 September, but all were rapidly repaired by squadron maintenance personnel. During the month, two (2) pilots made exceptional records: First

2. Morale/Welfare. Squadron morale continues to be high with no exceptional problem areas.

3. Operations

a. Air Operations. VMA-224 pilots flew 695 sorties totaling 874.8 flight hours. Pilots assigned to fly with VMA-224 flew 173 sorties totaling 233.9 flight hours. Total combat sorties flown were 819 for 1047.0 hours. During this period 1,144,699 pounds of ordnance was delivered by squadron pilots on the Viet Cong.

b. Training. During September, three (3) enlisted men attended the MAG-12 NBC School for six (6) hours instruction each, one (1) officer attended Jungle Survival School at Cubi Point for 1½ days of instruction, one (1) officer attended Sea Survival School at Numazu, Japan for 3 days instruction and one (1) staff non-commissioned officer attended Corrosion Control School, Tachikawa AFB, Japan.

4. Logistics

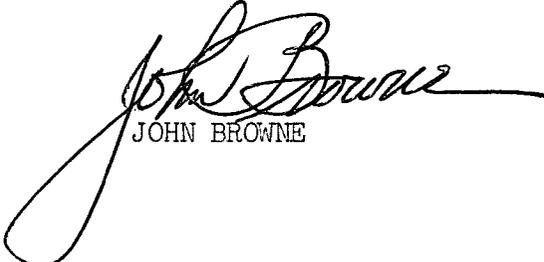

a. VMA-224 has had an average of 21 A4E aircraft assigned, of which an average of 17 were on hand. Squadron aircraft availability has averaged 75%.

b. A total of 17 Aircraft have had the initial Shoehorn out-fittings and 12 Aircraft have also been through the retrofit.

c. During the month, outstanding AOCIP's per day have averaged 24, which is approximately six (6) above normal. The squadron has averaged four (4) aircraft AOCIP per day.

d. An average of 70% of assigned vehicles were in a ready status.

e. No special problem areas have been noted and the accomplishment of the squadron's mission has not been hampered due to lack of any logistics.

JOHN BROWNE
