Team: 7

Participants (non-Commission): Dave Novak, Assistant U.S. Attorney;
Special Agent Federal Bureau of Investigation; Ray Guidetti, New Jersey State Police.

Participants (Commission): Bill Johnstone and John Raidt

Background

[U] Assistant U.S. Attorney Dave Novak and his team provided a briefing to Team 7 on the airphone and cell calls made from aboard UA Flight 93 on 9/11. This information was derived from an exhaustive study of the GTE airphone records from Flight 93 (with expert technical assistance from GTE engineers), and from an examination of the cell phone records of each of the passengers aboard 9/11 who owned cell phones. This work was conducted in support of the U.S. Justice Department's criminal case against Zacarias Moussaoui.

[U] The following is the information provided during the briefing:

[U] Because of the capacity limits of the GTE airphone service only eight outgoing calls can be made from the aircraft at any one time.
