5. This inquiry should be blank for the first quarter of the fiscal year. For the remaining quarters of the year it must show the number of pupils dropped from the rolls during the preceding quarter for the preceding quarter, and the number of pupils returned to the rolls during the preceding quarter. For the first quarter of the year this inquiry will be blank. For each of the remaining quarters the inquiry should show the number of pupils who have been dropped from the rolls during the quarter, and the number of pupils who have been returned to the rolls during the quarter. This inquiry should include all pupils in attendance during the quarter, and should be carried to one decimal place. For the first quarter of the year this inquiry will be blank. For each of the remaining quarters the inquiry should show the number of pupils who have been dropped from the rolls during the quarter, and the number of pupils who have been returned to the rolls during the quarter. This inquiry should include all pupils in attendance during the quarter, and should be carried to one decimal place. For the first quarter of the year this inquiry will be blank. For each of the remaining quarters the inquiry should show the number of pupils who have been dropped from the rolls during the quarter, and the number of pupils who have been returned to the rolls during the quarter. This inquiry should include all pupils in attendance during the quarter, and should be carried to one decimal place.

6. See last paragraph of instructions for Inquiry 5.

7. This is the total of 5 and 6, and should represent the actual number of pupils who have been dropped from the rolls during the current fiscal year.

8. The pupils dropped during the year and who have been returned must be here reported, then subtracted from Inquiry 7, and the difference carried to the last column.

9. Subtract the final entry on line 8 from the total on line 4; the result will be the number of pupils on the rolls at the close of the quarter.

10. This inquiry should show the actual number of different pupils in school during any portion of the quarter. The figures here shown should be equal to the sum of the entries on lines 6 and 9. The difference between Inquiries 5 and 6, plus that of Inquiry 8, should give the same result.

11. The average attendance is obtained by dividing the total number of days in attendance by the number of days school was in session. This must be calculated correctly and carried to one decimal place.

12. The percent of attendance is obtained by dividing the average attendance (11) by the number of pupils in school during the quarter (10).

12. Percentage of attendance			97.43

SPECIAL INSTRUCTIONS

1. The number of days school is in session corresponds in boarding schools to the number of days in the quarter, except in the quarters during which school is in vacation, when the average attendance for the actual number of days school is in session shall be regarded as the average attendance for that quarter. In day schools the number corresponds to the number of days in the quarter, less Saturdays, Sundays, and authorized holidays.
2. For the first quarter of the year this inquiry will be blank. For each of the last three quarters this entry will agree with item 4 of the preceding quarter.
3. For the first quarter of the fiscal year this should include all pupils in attendance during any portion of the quarter when school was actually in session. If pupils are carried on the rolls during the vacation period and are dropped before the session opens they should not be included. This also applies to all answers to inquiries in this statement. (See General Instructions for the method of reporting these pupils.) For the last three quarters of the year report on this line only the new enrollments during the quarter, not including pupils returned who have been withdrawn during some preceding quarter of the current fiscal year. These withdrawn pupils should be reported on line 8.
4. This is the total of 2 and 3, and in every case should represent the actual number of different pupils who have been in school during the year.
5. This inquiry should be blank for the first quarter of the fiscal year. For the remaining quarters of the year it must show the actual number of pupils dropped from the rolls for the preceding quarters, not counting pupils dropped or withdrawn during the vacation period.
Pupils should not be classed as dropped or withdrawn if they leave school and return again during the same quarter.
6. See last paragraph of instructions for Inquiry 5.
7. This is the total of 5 and 6, and should represent the actual number of pupils who have been dropped from the rolls during the current fiscal year.
8. The pupils dropped during the year and who have been returned must be here reported, then deducted from Inquiry 7, and the difference carried to the last column.
9. Deduct the final entry on line 8 from the total on line 4; the result will be the number of pupils on the rolls at the close of the quarter.
10. This inquiry should show the actual number of different pupils in school during any portion of the quarter. The figures here shown should be equal to the sum of the entries on lines 6 and 9. The difference between Inquiries 4 and 5, plus that of Inquiry 8, should give the same result.
11. The average attendance is obtained by dividing the total number of days in attendance by the number of days school was in session. This must be calculated correctly and carried to one decimal place.
12. The percent of attendance is obtained by dividing the average attendance (11) by the number of pupils in school during the quarter (10).

NOTE.—Prepare a separate quarterly report for any full-blood white pupils attending the school.

GENERAL INSTRUCTIONS

This report is for all schools—boarding, day, Government, or contract except public schools. It must be prepared for each school and forwarded to the Indian Office IMMEDIATELY after June 30, September 30, December 31, and March 31 of each year. A duplicate will be retained at the school or agency.

The principal of each school must prepare this report and sign the "Teacher's Certificate."

During vacation or temporary suspension of a school, reports must show this fact.

The physician's certificate must be executed.

The superintendent must carefully examine this report and see that it is a correct statement of pupils and attendance, and forward ONE copy to the Commissioner of Indian Affairs.
