"An Indian's Dream"

The Seniors proudly present this 1959 *Chiloccoan* as an example of seventy-five years of progress in fulfillment of "An Indian's Dream."

This record of our school year is dedicated to Mr. Quiring, Home Six Advisor.

Frank G. Quiring, Jr.

1959

Mr. W. Keith Kelley
Superintendent

Administration Building
1893

Superintendent W. Keith Kelley

Congratulations, Graduates:

With your graduation this year, you have achieved an important goal and have joined company with many others who completed their courses at Chilocco. It now becomes your responsibility to uphold the high standards of the school and to cherish the traditions of those who have gone before you.

As a class you have worked together and encouraged each other. Now, as individuals, you will need to become more independent and resourceful. Reflection on the associations you have had here should serve to strengthen you when you need encouragement.

Achievement of this goal has been a challenge to you. Now, you face a new challenge and we hope what you have learned here will help you meet it squarely. Use the skills you have gained to earn a good living for yourself and for your family.

Make a bright path which other Indian youth who come after you can be proud to follow. May the treasured friendships and memories of your school days enrich the years that are ahead. As a graduate of Chilocco, we wish success for you in every worthwhile endeavor.

W. Keith Kelley
Superintendent

Principal Leon Wall

Dear Graduates and Students:

Congratulations to Chilocco graduates of 1959. Such an accomplishment marks an important milestone in your life. We believe you have taken sufficient advantage of your educational opportunities at Chilocco to find some of the ways learning takes place. We hope that this diploma will mark only one of the first such goals in your progress toward personal achievement.

After graduation it is a known fact that in this world of today additional training is usually desirable. We hope that you seniors of 1959 will investigate the various possibilities available to you for continuing your education whether vocationally or academically and that you will take advantage of such opportunities.

To the undergraduates we are sure that you and your parents will make plans as soon as school closes this spring for your prompt return to Chilocco next fall so you can take advantage of every opportunity to better your education. Your prompt enrollment and regular attendance are favorable factors toward a good education.

Last, we would like to congratulate the annual staff, printers, photographers, and their sponsors for compiling and editing this excellent publication, the 1959 CHILOCCOAN.

Sincerely yours,

Leon Wall

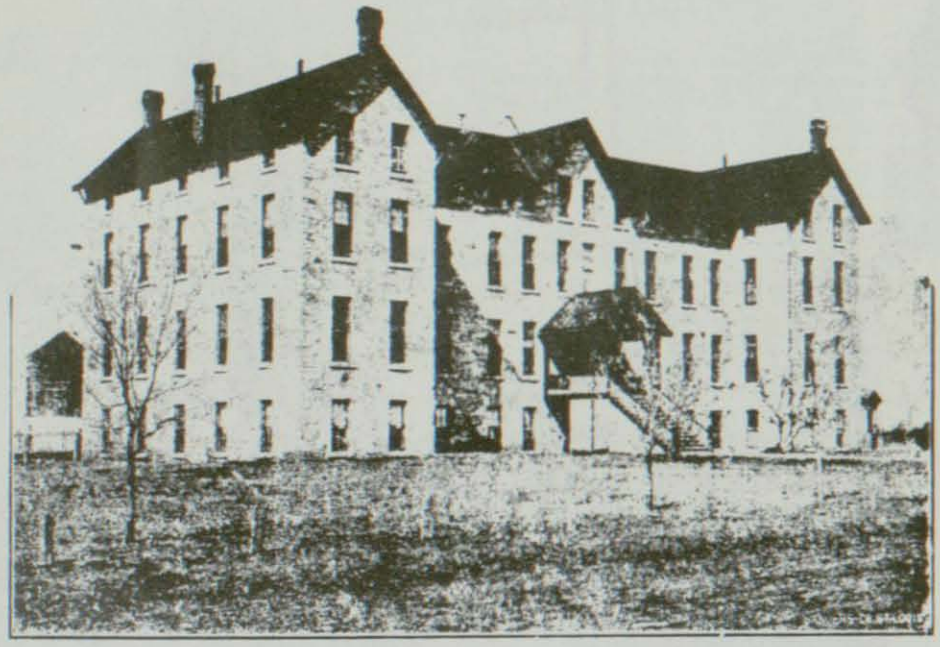
Chilocco Founded Seventy Five Years Ago



CHILOCCO IN 1884

The Chilocco school, with W. J. Hadley, superintendent, opened its doors on January 15, 1884 to 123 children from the Kiowa, Comanche and Wichita Agency and the Cheyenne and Arapaho Agency. These children arrived in the middle of a very cold winter. They spent about a month rumbling northeast across the plains in a wagon train supedvised by Mr. Frank Maltby, clerk and industrail teacher. They were forced to spend two days at a trail camp in early January because of a "norther" or blizzard. Children from other agencies nearer the school increased the enrollment to 168; thirteen were Pawnees.

The school was in one building (now Home Two) at that time. The students' rooms, the employees' rooms, classrooms, kitchen, dining room and hospital rooms were all in the large four story building made from the recently quarried magnesium limestone.

When spring came, everyone began working to break the prairie sod for fields and gardens. A herd of cattle was purchased by the government and was herded by the larger boys until fences could be constructed. Fencing the school lands created several incidents with the stockmen who lived in the southern part of Kansas. Their stock had grazed at will on what was now school land and at night the cowboys would cut the wire fences surrounding the school.

The Appropriation Act of Congress approved May 17, 1882, stated that. "Secretary of the Interior was authorized to cause to be constructed at a point in the Indian Territory adjacent to the southern boundary of Kansas and near Ponca and Pawnee reservations and upon a section of land suitable in quality and location for the industrial purposes of the school, a building suitable in size and convenience for the instruction and care of 150 Indian children. For this purpose there was appropriated $25,000."

Major J. M. Haworth, first superintendent of Indian Schools, personally selected the school site, a beautiful tract of land which borders Chilocco Creek for several miles, 6½ miles south of Arkansas City, Kansas and immediately south of the Kansas border. The land is 3 miles in extent north and south and 5½ miles east and west. This tract was selected because of the type of land, nearness of a city, good water from springs along Chilocco Creek and the fact that good building stone was available near the eastern border.

Superintendents

W. J. Hadey	1-84—11-84
